## **Welcome to the Eau Claire Area School District 2025 Summer Program Guide!**

Dear ECASD Students and Families,

This summer, ECASD is offering a wide range of programs for our students to enjoy as they take a break from the regular school year. The Teaching and Learning Department and Principals have developed activities that are focused on helping students to be safe, healthy, challenged, engaged, and supported so that they can continue their learning during the summer months.

All ECASD students have access to summer programming, and we strive to provide the same supports they receive during the school year. We invite any student who is enrolled in the ECASD to attend summer school. Additionally, students who attend private or home schools and live within the District boundaries may also attend ECASD summer programs. To learn if you live within the District's boundaries, please visit the District's interactive boundary map at [www.ecasd.us/boundary](http://www.ecasd.us/boundary).

Please take a few minutes to look through this guide. There are so many options to choose from. You can select a school-based, half-day program or opt to add an additional session with one of our many community partners. Some are tailored for special interests, such as music or sports; others are targeted toward strengthening academic skills or exploring such topics as robotics, coding, art, and many, many more areas of interest. Additional information and announcements may be found at [www.ecasd.us/summer](http://www.ecasd.us/summer).

We have worked very hard to create programming that is family friendly. We have transportation from home to school and back to home for all schools. In addition, we provide breakfast and lunch at multiple locations when summer programs are in session. Please see page 10 for the summer meal schedule. Our programs are designed to allow students to attend as many courses as possible; all ECASD courses have no enrollment costs and our partners have committed to keeping material fees to a minimum.

We have something for everyone, entering grades PreK-12! If you don't see what you are looking for, please reach out to one of the summer school contacts on page 3. We are always looking for suggestions and may be able to assist you in making your arrangements.

Please note, regular summer programming registration begins online on March 1, 2025, at 8:00am and runs through March 28, 2025. If you need assistance during registration on March 1, 2025, from 8:00am – 12:00pm, please call (715) 852-3141. After March 1, families should reach out to the appropriate summer school contact on page 3 with questions. Students will register directly with ECASD partners for their programs. Registration for all other courses will be done in Skyward Family Access through Arena Scheduling.

We invite you and your family to take advantage of our summer program. We send you our best wishes for a relaxing, refreshing, and fun-filled summer.

Sincerely,

Michael Johnson, Superintendent

**Looking for a fun  
and enriching  
experience this  
summer?**

Give the Summer Library Program a try! Once a week for two hours, we will read books and do fun activities including crafts, puzzles, coding, and games. You may make a puppet, program a robot, or even build a volcano. The focus is on fun, but the activities will get minds moving. Students will also check out books!

# Elementary Summer Program Overview

All students living within the ECASD boundary (including private, virtual, homeschooled, and open-enrolled students) are eligible to participate in summer programming.

Students should attend their neighborhood school program. [www.ecasd.us/boundary](http://www.ecasd.us/boundary)
