School Improvement Plan Purpose

The purpose of the School Improvement Plan is to evaluate the effectiveness of our initiatives, develop goals based on data analysis, establish priority for improvement, identify strategies and create an action plan for implementation.

Lebanon Community School Corporation Mission Statement

Lebanon Community School Corporation challenges everyone, every day to reach a new best.

Lebanon Community School Corporation – Who We Are

Lebanon Community School Corporation encompasses South-Central Boone County, proudly representing the communities of Lebanon and Whitestown. We serve approximately 3,500 students and employ more than 400 professional educators. Our four elementary schools, one middle school, and one high school are consistently recognized for performance and growth. From state-of-the-art science laboratories to student lounges, community spaces to greenhouses, our updated facilities are spacious, safe, and designed to support student success. We provide rigorous, high-quality curriculum aligned to the Indiana Academic Standards for college and career readiness. With our wide variety of specialized programs and services, we are committed to meeting the needs of every student.

Attendance Data Monitoring and Goal

Lebanon Middle School will monitor the attendance of our students. We will monitor the overall attendance rate of the entire school population as well as individual student attendance rates and patterns. We will utilize school personnel such as School Resource Officers and administration to work directly with parents and students when a child's lack of attendance is impacting his/her ability to learn or has met the criteria of a habitual absentee. Our goal is to maintain a school attendance rate consistent with the IDOE definition of "model" or "persistent" attendance.

Comprehensive Needs Assessment Summary

Area of Review	Summary of Strengths What were the identified strengths?	Summary of Needs What were the identified needs?	Priorities What are the priorities for your school?
Demographics	The demographics are changing due to an influx of industry. This would include a variety of people from other countries as well as socio-economic status. We do an excellent job of providing for the physical, social and emotional needs of this growing diverse population.	Families in lower socio-economic levels as well as those from other countries need more support in offering more parent education services as well as other services to help their children be successful.	The priority is to provide needed support services to families at a lower socio-economic level and those from other countries.
Attendance	The attendance rate of 94.5% is strong.	Target students with chronic tardiness and absences.	Utilize School Resource Officer /Truancy Officer to contact families of students with chronic tardiness and absences.
Student Achievement	Strategies such as student goals, ILEARN checkpoints, and i-Ready are being utilized to improve needed growth in ELA and Math.	Focus on establishing strong base in ELA by utilizing double block in 6 th grade while double blocking math in 7 th grade to maintain growth. I-Ready available throughout the entire student body at LMS.	Continue to make i-Ready as well as all growth tools available throughout the entire student body at LMS.
School Culture and Climate	LMS does a good job of reaching each student for social equity, ensuring the needs of each student are met and each has equal access to all opportunities	LMS needs to make more effort to recruit and secure a culturally/linguistically diverse staff	Continue to make efforts to meet the needs of all students to ensure social equity

Staff Quality/Professional Development	Teachers collaborate in making decisions about curriculum, assessments, and instructional methods.	Staff needs more time, & opportunities to participate in professional learning communities for continuous instructional improvement as well as instructional rounds.	Devoting time for collaboration with colleagues to improve standards-based practices.
Curriculum, Instruction, Assessment	Staff unity on common assessments and a variety of supports for all students (MTSS, differentiation)	More meaningful feedback needs to be utilized for each assessment, more utilization of STEM instruction; students need to learn how to assess their own & others' work	Implementation of STEM staff training & activities, implementation of student training in assessments
Family and Community Involvement	High parent & community involvement in various activities (e.g. athletics, arts, conferences, etc.)	Consistently reaching out to parents & stakeholders to actively invite them into the LMS culture, activities, and engagements	Continue to increase involvement of parents and community stakeholders
Technology	One-to-One initiative, high utilization of Canvas as a learning platform, consistent evaluation of technology effectiveness for students and use in the classroom	Teacher training /support in upcoming technology Incorporate STEM activities in all disciplines	Continue evaluation of technology to ensure appropriate use.

Goal Summary and Decision-Making Process

The following is a summary of the goals encompassed in this plan for the 2024-25 school year. The details of each goal are available in the next section.

Goal #	Goal Statement
1	LMS will increase ELA pass rate on ILEARN by 2% in each cohort.
2	LMS will increase Math pass rate on ILEARN by 2% in each cohort.

Cultural Competency

LCSC believes all students need to master work ethic skills in order to reach their full potential. The goal of PRIDE is to build students of strong character who will strengthen our school district and positively impact the community.

PRIDE describes the fundamental expectations of students at all LCSC schools:

- **Persistence:** Student is able to persevere through challenges and problem-solve.
- **Respectfulness:** Students accept and demonstrate service to others, possess a positive attitude and communicate clearly.
- **Initiative:** Student is a self-starter and a critical thinker

- **Dependability:** Student is reliable and demonstrates responsibility and teamwork. Student also demonstrates academic readiness.
- **Efficiency:** Student is organized, punctual and demonstrates self- management.

Evidence-Based Interventions for Focus Area - E/LA

Describe the evidence-based intervention(s) that the school has identified to address the key findings and root causes for this focus area that are not sufficiently addressed by strategies from the core components:

NWEA

NWEA is a research-based, mission-driven organization that supports students and educators worldwide by creating assessment and learning solutions that precisely measure growth and proficiency—and provide trustworthy insights to help tailor instruction

Orton-Gillingham

The Orton-Gillingham Approach is a direct, explicit, multisensory, structured, sequential, diagnostic, and prescriptive way to teach literacy when reading, writing, and spelling does not come easily to individuals, such as those with dyslexia. It is most properly understood and practiced as an approach, not a method, program, or system. In the hands of a well-trained and experienced instructor, it is a powerful tool of exceptional breadth, depth, and flexibility.

The essential curricular content and instructional practices that characterize the Orton-Gillingham Approach are derived from two sources: first from a body of time-tested knowledge and practice that has been validated over the past 80 years, and second from scientific evidence about how individuals learn to read and write; why a significant number have difficulty in doing so; how having dyslexia makes achieving literacy skills more difficult; and which instructional practices are best suited for teaching such individuals to read and write.

The Approach is so named because of the foundational and seminal contributions of Samuel T. Orton and Anna Gillingham. Samuel Torrey Orton (1879-1948) was a neuropsychiatrist and pathologist. He was a pioneer in focusing attention on reading failure and related language processing difficulties. He brought together neuroscientific information and principles of remediation. As early as 1925 he had identified the syndrome of dyslexia as an educational problem. Anna Gillingham (1878-1963) was a gifted educator and psychologist with a superb mastery of the language. Encouraged by Dr. Orton, she compiled and published instructional materials as early as the 1930s which provided the foundation for student instruction and teacher training in what became known as the Orton-Gillingham Approach.

The Orton-Gillingham Approach is most often associated with a one-on-one teacher-student instructional model. Its use in small group instruction is not uncommon. A successful adaptation of the Approach has demonstrated its value for classroom instruction. Reading, spelling and writing difficulties have been the dominant focus of the Approach although it has been successfully adapted for use with students who exhibit difficulty with mathematics.

The Orton-Gillingham Approach always is focused upon the learning needs of the individual student. Orton-Gillingham (OG) practitioners design lessons and materials to work with students at the level they present by pacing instruction and the introduction of new materials to their individual strengths and weaknesses. Students with dyslexia need to master the same basic knowledge about language and its relationship to our writing system as any who seek to become competent

readers and writers. However, because of their dyslexia, they need more help than most people in sorting, recognizing, and organizing the raw materials of language for thinking and use. Language elements that non-dyslexic learners acquire easily must be taught directly and systematically.

Professional Learning Communities/Data Teams

An ongoing process in which educators work collaboratively in recurring cycles of collective inquiry and action research to achieve better results for the students they serve. [Professional learning Communities](#) operate under the assumption that the key to improved learning for students is continuous job-embedded learning for educators.

Evidence-Based Interventions for Focus Area - Math

Describe the evidence-based intervention(s) that the school has identified to address the key findings and root causes for this focus area that are not sufficiently addressed by strategies from the core components:

NWEA

NWEA is a research-based, mission-driven organization that supports students and educators worldwide by creating assessment and learning solutions that precisely measure growth and proficiency—and provide trustworthy insights to help tailor instruction

i-Ready (Gr. 6-8)

i-Ready is an evidenced-based intervention, backed by research that qualifies it for federal and state grant programs. i-Ready includes a combination of online instruction, instructional reports and a student dashboard that encourages student involvement, ownership of learning and a growth mindset. i-Ready provides online lessons that motivate students to improve their math proficiency levels and increase their growth. The lessons are assigned based on i-Ready Diagnostic results. The instruction is tailored to meet the student learning needs as a whole class, in small groups or through individualized instruction. i-Ready is complemented by a variety of teacher resources enabling teachers to target specific skills areas as needed by individual students. i-Ready includes interactive learning games that are a fun and engaging way for students to strengthen understanding of mathematical concepts, improve fluency, and foster a positive relationship to struggle in the context of challenging standards.

Description of Ongoing District Data Review Process

Lebanon Community School Corporation (LCSC) is committed to a process for continuous improvement that is well-defined and clearly articulated with measurable outcomes. The district acknowledges that our current best approach to improve and sustain student learning and achievement is through a systems approach that is inclusive of all entities and levels of our system. The district level, the school level, and the classroom, teacher, and student level must all align their collaborative efforts along with the parents and community in order to achieve high success over time.

Description of Ongoing School Data Review Process

LMS will continue their quarterly review of data based upon i-Ready and ILEARN Checkpoints. Teams, Team Leaders, and Admin will discuss trends identifying areas of need and areas of strength. Organizational structures will be a key part of the discussion and decision-making process. Cohort data will be utilized to maximize program effectiveness.

School Improvement Plan Timeline (NOTE: The submission deadlines included in this timeline have been determined based on current Indiana Code. In the past IDOE has provided extensions for the final submission of School Improvement Plans primarily because of adjustments in the timeline for releasing state assessment data results.)

Description of Curriculum

LCSC evaluates curriculum on an ongoing basis in conjunction with the textbook adoption process. The goal of the program evaluation, curriculum/standards revision and textbook adoption cycle is to provide an educational program that enables all students to learn and achieve to the highest possible level. Additionally, LCSC has developed curriculum maps for the core academic areas of English/Language Arts, Math, Science, and Social Studies. Additionally, LCSC has been working to develop common assessments for use in all areas across the district. One component of the common assessments is an Assessment Year at a Glance designed to help teachers prioritize standards for instructional planning.

Career Awareness and Career Development Plan

- Grades 1-5: Career awareness models to introduce students to work values and basic employment concepts

- Grades 6-8: Initial career information models that focus on career choices as they related to student interest and skills
- Grades 9-10: Career exploration models that offer students insight into future employment options
- Grades 11-12: Career preparation models that provide job or further education counseling, including the following:
 - Initial job counseling, including the use of job service officers to provide school-based assessment, information, and guidance on employment options and the rights of students as employees.
 - Workplace orientation visits
 - On-the-job experience exercises.

Highly Qualified Teachers and Paraprofessionals

2024-25 Highly Qualified Teachers: All verification and supporting documents are filed at the LCSC Administration Center.

Highly Qualified Paraprofessionals

2024-25 Highly Qualified Paraprofessionals: All verification and supporting documents are filed at the Community and Education Center in the human resources files.

Strategies to Retain Highly Qualified Teachers

To recruit and retain highly qualified teachers and administrators, the district uses a comprehensive approach. We invest significant time in the interview process, attending university recruitment fairs to attract and interview potential candidates. We also provide professional development for new teachers that is specifically tailored to their needs. Additionally, we believe that outstanding teachers deserve fair compensation, so we work hard to offer a competitive salary and benefits package.

Definitions

School Assessment Measures – Definition

The School Assessment Measures represent the various assessments chosen by the district or the school to represent academic achievement and growth. Their correlation to state assessment proficiency or the district mission is the basis of the selection of the measures. The School Assessment Measures do not include routine teacher-designed classroom assessments.

Goal Action Plan – Definition

The Goal Action Plan section of the School Improvement plan asks principals to select research-based action steps and instructional strategies that will have a positive impact on student performance when implemented with fidelity. The principal should measure teacher capacity and level of fidelity in district selected action steps and strategies. The SIP team may select additional action steps.

Focus Area Goal: This section sets the level of deployment, fidelity, or level of classroom use for each goal.

Action Steps – Instructional strategies refer to the identified way of delivering instruction and facilitating student learning within a given framework. Action steps refer to the steps that are necessary to reach the goal. Schools may differ in their needed area of focus within a content area.

Resources/Professional Development Needed – This section outlines the professional development needs for the school. The information should include detail such as the grade level and the type of PD (i.e., online, face-to-face, group, individual, by coach or through a workshop).

Target Date – The SIP team should to set a goal for completion of the goal (i.e., by December of the school year, by the end of the first quarter, etc.)

Evidence – The SI team identifies the instrument that will measure the level of deployment, fidelity or level of classroom use (i.e. classroom checklists, walkthrough checklist data, observation data from teacher evaluation data, reports reflecting usage of technology resources and student data, PLC notes and reflections, meeting logs, feedback from PD).
