

DARRELL TULLY STADIUM

PROPOSITION B

Proposition B, if approved, would provide for major renovations and additions to the 59-year-old Darrell (Tully) Stadium and the 51-year-old Don Coleman Coliseum.

Limitations:

- Opened in 1966, Tully Stadium is 59 years old.
- Press box constraints limit functionality
- Visitor side scout box is insufficient for current needs.
- Elevator safety issues – not large enough for gurney and not up to current code standards
- Original poured-in-place concrete grandstands are aged and failing in some areas.
- Original poured-in-place concrete grandstands limit seating capacity, seating type and style and accessibility.
- Steep access ramps to home and visitor side seating and support buildings
- Insufficient quantity of restrooms
- No air conditioning in concession stands, limiting use for service until late fall
- Limited field-level access at south end for athletes and no field-level access/plaza at north end for band, dancers and drill teams
- Stadium limitations prevent Tully from being used as UIL competition site for marching band and related performing arts, precluding SBISD students from competing on their home field.
- Technology infrastructure is insufficient to meet current safety and athletic program needs.

The 2025 Bond would enable:

- Comprehensive security package upgrade that may include new entry infrastructure (cameras and alarms), perimeter fencing, and new marquee sign
- New band and performing arts plaza and access ramps
- Renovate and reconfigure entrance ramp to south end of stadium for improved access and safety
- New cast-in-place concrete seating with seating capacity reduced to 10,000
- Rebuild and expand west side (home) stadium buildings to include new restrooms, concession and press box and new elevator tower
- Demolish east side scout box and rebuild and expand east side (visitor) side stadium building to include new restrooms, concession and storage and elevator tower
- Renovate north end concessions building to include restrooms, upgraded interior finishes
- New south side support building with concessions and restrooms with second floor meeting space for professional development, and district events
- Upgraded sports lighting, A/V and low voltage systems and new digital video board
- New facility graphics and branding
- Life cycle refresh for synthetic turf surface playing field

EARLY VOTING | April 22-29

Election Day is Saturday, May 3, 2025.
We encourage **everyone** to vote.

2025 BOND

Spring Branch ISD

A proposed bond program: The Spring Branch ISD Board of Trustees voted on Feb. 5, 2025, to call a **\$631.5 million bond election** to appear on the **May 3, 2025 ballot**. The Board's intent in calling this bond election is to provide upgrades to aging athletics facilities that will be used by current and future generations of SBISD students and our community at-large.

The Board is asking voters to consider four separate propositions on the ballot. Voters will cast their vote for each proposition separately.

 <p>PROP A High Schools</p> <p>Proposition A, if approved, would provide funds to significantly upgrade aging athletics facilities at Memorial, Northbrook, Spring Woods and Stratford high schools. These facilities are utilized for whole-school events in addition to serving as competition and/or practice venues for athletics, performing arts, and cheer.</p>	 <p>PROP B Tully Stadium & Don Coleman Coliseum</p> <p>Proposition B, if approved, would provide for major renovations and additions to the 59-year-old Darrell Tully Stadium and the 51-year-old Don Coleman Coliseum.</p>	 <p>PROP C W.W. Emmons Natatorium</p> <p>Proposition C, if approved, would provide for the relocation and rebuilding of the 50-year-old W.W. Emmons Natatorium. The proposed location of the new facility is on the grounds of the district's athletics complex at 1050 Dairy Ashford, 77079.</p>	 <p>PROP D Reggie Grob Stadium</p> <p>Proposition D, if approved, would provide for major renovations and rebuilding of the 73-year-old Reggie Grob Stadium, the district's oldest athletics facility, built in 1952.</p>
PROPOSITION		IMPACT	COST

 <p>Proposition A</p>	High Schools	\$353,775,207
 <p>Proposition B</p>	Tully Stadium & Don Coleman Coliseum	\$127,935,050
 <p>Proposition C</p>	W.W. Emmons Natatorium	\$76,934,535
 <p>Proposition D</p>	Reggie Grob Stadium	\$72,851,468

Will the bond impact my taxes?

TOTAL=\$631.5M

Assuming all propositions pass, the maximum anticipated tax rate increase would be **.0475 cents per \$100 of valuation**, based on a conservative estimate of taxable property value growth. For a \$500,000 home, the estimated annual **additional tax burden would be \$142.50**. A property owner's tax burden (total tax paid) may change based on the appraised value of their property. **By law, the amount of school taxes paid (Tax Burden) is frozen for citizens who have 65+ and disabled homestead exemption.** Approval of this bond would not increase the amount paid above the frozen amount for these citizens.

*Based on state law as of Jan. 1, 2025.
