RESULTS Keyword themes

SAFETY

Securing our schools

Our children are our most prized and valued treasures, it is our duty and obligation to ensure their safety when they are in our schools.

4.0 ★★★★★ (66 👤)

School Safety

Our campus is wide open. Anyone can enter from almost any direction. Doors leading outside are unlocked all day.

4.0 ★★★★★ (65 👤)

COMMUNITY FEEDBACK

Safety

3.9 ★★★★★ (20 👤)

Safety!!!! Better protection from intruders

Safety is my number one priority as a parent. Every day I pray and hold my breath that my daughter and everyone at her school stays safe.

3.5 ★★★★★ (51 👤)

SAFETY: No children in portables, which are isolated & more easily penetrable than school buildings. SWE (portables) SVEC & MBE are most concerning.

Open campuses & portables are sitting ducks and invitations for those interested in exacting school violence. Unfortunately, this is a reality today.

3.3 ★★★★★ (18 👤)

SKY VALLEY

Let's prioritize funds going back to the kids and not spend \$58,000 a month renting the district building.

Maybe move sky valley out of the contaminated building and district employees to the sky valley building.

3.8 ★★★★★ (61 👤)

COMMUNITY FEEDBACK

Sky valley needs facility upgrades desperately.

Kids at SVEC deserve to have basic working facilities like functioning gutters and drinking fountains.

3.8 ★★★★★ (56)

Either fully update SVEC or get it a new Building

Learning Environment affects students - a building that has 50 year old fixtures, peeling paint, and doors that cannot be secured convey lack of care

3.7 ★★★★★ (61)

Sky Valley must have a new building. The building is so old; kids deserve better, healthier educational place. Full Funding for existing programs.

Sky Valley education center is a model that works. Families partner with the MSD to educate their children and rise good citizens.

3.7 ★★★★★ (33)

Prioritize getting the Sky Valley Education center into a NEW building that is safe and free of toxins.

Because homeschooling and parent partnership programs are becoming more and more popular in this state. This would provide an increase in students.

3.7 ★★★★★ (31)

Sky Valley Education Center needs a new building.

We are so fortunate to have SVEC in our School district. The teachers and education they provide are top notch. The building is not.

3.6 ★★★★★ (61)

COMMUNITY FEEDBACK

Updated facilities (sky valley)

3.6 ★★★★★ (57 👤)

MOVE Sky Valley Education Center out of the toxic building & educate parents on PCB related illnesses & conditions.

It is unethical to allow kids to go to school where they may be poisoned. Hundreds left due to the poisoning & new families aren't informed.

3.6 ★★★★★ (51 👤)

Sky Valley Education Center needs SAFE building. Build it or move it and the families WILL come! So many families refuse to enroll due to the building

A SAFE non-toxic building would bring more families to the district. More students = more funding!

3.6 ★★★★★ (36 👤)

Sky Valley Education Center must have a new building.

Its wrong to have kids in the unhealthy building.

3.6 ★★★★★ (33 👤)

Invest in a safe building for Sky Valley!

Everyone deserves a safe building to learn in!

3.6 ★★★★★ (22 👤)

COMMUNITY FEEDBACK

Upgrade and update the building of Sky Valley Education Center

Campus built in the 1950s! We truly love the amazing programs that fit our family for the 10th year. Sorrowful to see other schools get update but us.

3.6 ★★★★★ (21 👤)

Sky Valley needs new facilities. The fact they had to send out an email to parents this week about lead in the water is unacceptable.

The ceilings are leaking, there is no fire suppression (sprinkler) system, OLD paint is peeling, & the ventilation is poor. Our kids deserve better.

3.6 ★★★★★ (13 👤)

School Ratings and facilities

Better education for kids

3.5 ★★★★★ (41 👤)

COMMUNITY FEEDBACK

COMMUNITY

Open district facilities for students, families and community members to use and connect with each other. (Open gym, use of fields and playgrounds)

This fosters community connections and positive pro social activities.

3.5 ★★★★★ (61 👤)

Maltby needs a serious upgrade and better security

The building's configuration doesn't foster community, not to mention its NOT SAFE to have a completely open campus. It's 2023 - we know better.

3.2 ★★★★★ (56 👤)

providing adequate and modern facilities

infrastructure is important to the students, faculty and community as a whole

2.8 ★★★★★ (3 👤)
