TRANSMITTAL LETTER

Town Manager Transmittal Letter

Budget Transmittal Letter

March 26, 2025

Honorable Members of the Scarborough Town Council,

Please accept the proposed Town and School General Fund and Capital Budgets of the Town of Scarborough for Fiscal Year 2026. Our past budget efforts made strategic investments but have resulted in modest tax rate increases, and we strive to maintain this consistency and predictability this year as well. This budget proposal is a reflection of this pivotal time in Scarborough's history: a growing population and its subsequent demand on resources, a critical need to invest in our schools, and a look to the future of responsible growth management, conservation, and climate resiliency. At the forefront, it takes into account the taxpayer, and ensuring that the investments over recent years are absorbed before overstepping. I offer this proposed budget in response to the current needs of a changing community with a specific focus on key investments. Inclusion of these investments and perhaps additional investments will necessitate an important discussion regarding priorities.

Looming over the conversation of community priorities is uncertainty from the federal level. I am pleased to report that the Town has minimal exposure to federal funding, however Schools are far more dependent and we are all potentially affected by higher tariffs. Through all of this, the Town will continue to do what we do in an effective and responsible manner to meet the needs of our residents.

The remainder of this Budget Transmittal intends to provide a broad overview of the components of the budget proposal. I encourage a complete review of the complete budget document as it provides additional details on each component and intends to provide the reader with a high-level, yet comprehensive overview of the Town's financial picture and priorities.

FY2026 Budget Summary

<u>Accounts for:</u>	FY2025 Gross	FY2025 Net	FY2026 Gross	FY2026 Net	\$ Net Change	% Net Change
Municipal	46,005,167	23,701,616	49,136,139	23,468,627	(232,989)	-0.98%
Education, all areas	68,446,399	56,130,942	73,552,978	59,976,975	3,846,033	6.85%
County	3,630,186	3,630,186	3,989,800	3,989,800	359,614	9.91%
Capital - School & Town	17,846,417	91,000	11,236,732	331,000	240,000	263.74%
TIFs	4,489,194	4,489,194	5,021,000	5,021,000	531,806	11.85%
Other *	2,157,832	(2,554,453)	2,365,000	(2,790,175)	(235,722)	-9.23%
Totals	142,575,195	85,488,485	145,301,649	89,997,227	4,508,742	5.27%
* Includes CEAs, Overlay, Senior Property Tax Relief, Homestead, BETE and MRS.						

Staff costs continue to be ***budget drivers*** as the Town recalibrates to absorb the cost increases associated with settling our collective bargaining agreements (CBAs) last year and the School Department is including financial resources to finalize three CBAs this year, most notably with the Teachers. Personnel costs represent 81.4% and 65% of the School and Town's operating budget respectively and to maintain level services an additional \$3.3M is included to cover anticipated contractual salary and wage adjustments. Similarly, health insurance costs are increasing, though this is an "Item in Motion" for the School Department.

The ***Town budget*** largely looks to maintain level services, with the exception of three strategic investments in staff. This approach is deliberate as we recognize the need to absorb the financial impact of recent investments in existing staff and acknowledge that we need to experience full employment before further expansion. Driven by increased staff costs, the Town gross Town budget is increasing by 6.81%. However, with the availability of TIF revenues to offset operational expenses and pay existing debt service, the net operating budget is reduced by -0.98%. When all things are considered the Total Net Budget is increasing by 0.90%.

The ***School budget*** is prioritizing new investments to specifically meet student needs and new state/federal requirements. In fact, all but one of the new staff requested are the result of identified needs for new incoming Kindergarten students. In addition, significant resources are included to meet the financial requirements of collective bargaining agreements that are expected to be finalized this year. When these new investments are combined with maintaining level services elsewhere, the gross budget increase of 7.53% results. Thankfully, Non-Property Tax revenues are up by 10.35%, driven largely by an increase in General Purpose Aid for Education by more than \$1M, resulting in a net operating budget increase of 6.82%. When all things are considered, the Total Net Budget for the School is increasing by 7.01%. A complete overview of the school budget request can be found in this budget document in Sections 7 and 8.

The cost for the ***County government*** is distributed to towns based on the full state valuation of each municipality as a percentage of the total value for all municipalities within Cumberland County. As a result of the revaluation, Scarborough's valuation increased at a faster rate than other municipalities. In addition, the County budget has grown, resulting in an increase of 10.7%.

Non-property tax revenues remain strong with increased Excise tax and consistency with state subsidies for Education and Municipal Revenue Sharing. User fees for EMS services and the majority of Community Services continue to offset taxpayer support.

The single largest change in the FY26 budget proposal is the use of ***TIF revenues***. The FY26 budget proposal allocates approximately \$5M in TIF revenues to offset operational expenses, pay existing debt service, and cover capital expenses that would either need to be bonded (financed) or appropriated (see Exhibit 3). The use of TIF revenues is a key lever to manage the impact on the tax rate and can also be used as a means to fund further investments.

This proposal includes a ***Capital Budget***, with funding requested for the first year of the five-year Capital Improvement Plan. Many of the requests are the product of recently completed plans that have informed the capital plan. FY26 investments fall into one of three categories. Nearly 70% of the investments relate to "maintaining" current levels of service or facilities. While 23% can be considered "improvements", with the remaining 9% related to future "planning and design". We have made a concerted effort to transition recurring items into the operating budget, such as the annual purchase of

police vehicles. Where appropriate we have programmed the use of TIF revenues or the use of appropriations to cover capital costs in an effort to reduce borrowing costs.

The solution for school facilities remains elusive, but is expected to be identified in the coming months. This question will require voter approval, which could occur as soon as November 2025. In the meantime, with an influx of expected students as soon as 2027, the School Department anticipates the need to make some short-term investments and have included a request of \$600,000 to provide interim accommodations.

The Financial and Fiscal Policy establishes a target for the “unassigned” portion of the ***fund balance***. In the past year and has self-imposed a higher target for the unassigned fund balance. The Town has demonstrated fiscal prudence and discipline and as a result has steadily increased the Unassigned Fund Balance and is approaching the higher target (see Exhibit 5). The value of this discipline and prudence is best demonstrated in the fact the Town is considered “Investment Grade” and that in January 2025 the Town received a ***bond rating upgrade*** in the Moody’s rating to Aa2. These are tremendous positive developments, particularly as we consider major capital investments in the near future.

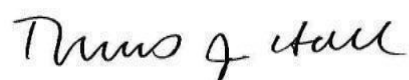

The ***Total Net Budget***, the amount to be raised through property taxes, is increasing by ***5.27%***, which when considered in historical context, is not an abnormal starting point. In fact, the average net budget increase for the last three years at the time the budget is proposed is 7.08%.

The Town Council did not provide a specific budget goal, but it is understood that respecting our taxpayers is paramount. This budget proposal serves to absorb the significant investments we have made in staff, makes modest investments in strategic areas and positions the community to embrace a school solution. A budget represents a series of choices. I have consciously made choices in this proposed budget and look forward to discussing my proposal and receiving input from the Town Council and the public regarding priorities. History indicates that through thoughtful dialog and consideration the budget will ultimately reach an acceptable level.

It is my hope that there will be an appetite for some discussion around additional investments, see Exhibit 2 for a complete overview of investment opportunities. It will take the collective wisdom of the Finance Committee, Town Council and School Board to determine the funding priorities and achieve the right balance between funding community needs and what we can afford. As we proceed through the budget review process, Town staff are ready to assist the Finance Committee and Town Council.

I would be remiss not to acknowledge the efforts of the senior staff in their thoughtful preparation of their budget requests. I particularly recognize the efforts of the budget team that consists of Tody Justice, Liam Gallagher, Norm Kildow, Nick Cloutier and Allison Carrier for their excellent contributions to this budget document.

Respectfully Submitted,

Thomas J. Hall

Growth in Scarborough: Selected Statistics

Population Changes by Decade: Fifty Years of Growth

Five Things to Know about Population

- 1) 50 Years of population growth shows that Scarborough remains attractive and desirable.
- 2) Scarborough ranks 6th in state for 2023 population.
- 3) The first three years of the current decade show continued population growth.
- 4) Population by age continues to show an increasing percentage of those 65 & over.
- 5) Scarborough has the 2nd lowest average commute time in Cumberland County.

Recent Population Changes 2020-2025

GUIDE TO THE BUDGET

Budget Introduction

Key Budget Metrics

Tax Rate Computation

Budget in Brief

Budget Process

Budget Calendar

Budget Introduction

The Fiscal Year 2026 (FY26) budget is presented with a number of considerations, and some recent context, in mind. The proposed budget has been crafted to be cognizant of the following considerations:

- The Town is in the **strongest overall financial position** in many years
- The recent impact of our property **revaluation** on residential tax payers
- The prioritized delivery of dependable and high value **essential services** and **education**
- Thoughtful **new investments** consistent with our comprehensive plan and other recently completed and commissioned plans and studies
- The expectation of a **significant capital investment** to address our School challenges in the near future
- The awareness and careful monitoring of potentially concerning **federal funding** impacts

Strong Starting Point: Credit Rating Upgrade and Increased Fund Balance

The Town finds itself in the strongest financial position in many years with a significant increase in available unassigned fund balance and an upgraded credit rating.

In late 2024, the Town Council amended the Financial and Fiscal Policy to raise the minimum fund balance to 10% of the prior year's budgeted operating expenses. Unassigned fund balance is the amount of the budget left unallocated toward specific expenditures in the year ahead. Per the last municipal audit, the Town's unassigned fund balance increased to \$15,902,211. This is up almost \$5 million from 2022, and 14.46% of the prior year's budgeted operating expenses.

This increase in unassigned fund balance was the single most significant reason for the Town's recent Moody's credit rating increase from Aa3 to Aa2. The Town also received high marks for governance (G-1). The credit opinion provided by Moody's stated "the town has a favorable institutional structure and provides strong transparency and disclosure. The town also consistently approves and releases its budgets and audited financial statements in a timely manner. The Town's strong budget management and policy credibility and effectiveness are reflected in its healthy financial position and trend of balanced operations.

Federal Funding Uncertainty

While the Town finds itself in a strong financial position locally, there is some potentially concerning uncertainty at the federal level. With the change in federal administration, Town of Scarborough leadership and elected officials are diligently monitoring any potential impacts to local funding.

Currently, the most notable effect has been on applications that were recently submitted for two USDOT grants as well as a Department of Energy grant, all of which are now paused. Other potential municipal exposure initially identified based on funding for the programs coming directly from the federal government include the Child Care Subsidy Program, administration of the High Intensity Drug Trafficking Areas (HIDTA) program, and the possibility of a reduction in Medicare payments for EMS services. The estimated impact of these federal funds (excluding USDOT grants) is approximately \$1.5 million, but have not been affected to date.

The School Department receives federal funding for special education and its School Nutrition Program with the USDA. The estimated impact of these federal funds is \$1.6 million.

We will continue to monitor potential impacts to municipal funding in coordination with our local partners including Scarborough Economic Development Corporation (SEDCO), Greater Portland Council of Governments (GPCOG), and Cumberland County Government, to monitor any changes that may have a local or regional impact.

Considers Past & Future: Revaluation Impacts and Capital Investments

The FY2026 Budget proposal was prepared within the context of recent and upcoming events that affect the community and taxpayers. A unique set of circumstances has converged: the average residential property tax bill increased by 7% last year through the revaluation; meanwhile, significant investments are required to meet the community's needs in education for Scarborough students.

A major outcome from the 2024 revaluation (a process conducted every 5 years to remain in State compliance) was that residential property values appreciated at a higher rate than our commercial properties. Many of our residential property tax payers saw significant increases in their property taxes. While two-thirds of this was due to the commercial-residential property tax shift outside of our control, we are sensitive to the increase many of our property tax payers experienced.

Looking ahead, a significant capital investment will be made in our school facilities in the near future. In fact, as early as this fall, a referendum question could go to voters to fund a comprehensive school solution intended to both consider an anticipated increase in enrollment and increasingly inadequate facilities. Town and School leaders are making great efforts to be in a financially strong position to make the investment responsibly.

By making deliberate and disciplined choices to determine what is essential, the budget attempts to balance the impact of the 2024 revaluation on residential taxpayers while also weighing the steps needed to adequately prepare for the significant capital investment in our schools.

Growth Policies and Investments Paying Dividends

The desirability of our natural resources, quality of our schools and essential services have resulted in a draw to our community. Through responsible growth management and the guidance of the Town's 2021 Comprehensive Plan, the majority of our growth has been seen in designated growth areas. In addition, deliberate efforts have been taken to manage the pace of growth through changes to the Rate of Growth Ordinance as well as new and modified impact fees to ensure that new development pays "its fair share".

During this period of growth, the Town has been thoughtful with the establishment and expansion of Tax Incrementing Financing (TIF) Districts, which apply to the designated growth areas as well as Oak Hill. TIFs allow the Town to "shelter" new assessed value created in the district, which is financially beneficial with respect to State subsidies such as General Purpose Aid to Education and Municipal Revenue Sharing, while also decreasing our proportional share of County tax.

While TIF revenues (property taxes paid on the sheltered value within our TIF districts) have been steadily increasing, the Town is expecting an additional \$1.6M in FY26 in available revenues since successfully paying off previous infrastructure investments in our Haigis Parkway TIF. The FY26 budget proposal allocates approximately \$5M in TIF revenues to offset operational expenses, pay existing debt

service, and cover capital expenses that would either need to be bonded (financed) or appropriated. As growth in the TIF districts continues (and it is predicted to do so over the next 15 years or so), the TIF revenues that are created will serve as an important way to manage the tax rate. FY26 marks a watershed moment where TIF revenues serve to reduce impact on all Scarborough taxpayers.

Prioritizing Delivery of Essential Services

The Town of Scarborough wouldn't be what it is without its employees. The results of the 2023 community survey confirm this—it found that 93% of residents with an opinion were satisfied with public safety services and 89% were satisfied with the level of customer service received from Town employees. Roughly 4 out of 5 respondents reported being satisfied with the cleanliness of streets and public areas and snow removal.

The FY26 budget prioritizes keeping staffing levels to capacity so that essential services continue to be seamlessly met. This also requires an investment in the infrastructure, facilities, and equipment needed to keep town operations running. Nearly two-thirds of the proposed capital plan is intended to maintain existing facilities and infrastructure or replace aging vehicles and equipment.

This priority on staffing to meet service demands carries over from the FY25 budget. One of the primary objectives of last year's budget was to retain and attract the municipal staff who provide essential services to our residents. With the expiration of four collective bargaining agreements (CBAs), we set aside significant financial resources necessary to retain our high quality existing staff and attract candidates to fill some long standing vacancies. The CBAs cover our police officers, firefighters and emergency medical services, emergency dispatchers and public works operations staff responsible for maintaining our public ways.

While we were successful in settling the agreements (and since ratification of the agreements) and bringing all four departments to the verge of full staffing for the first time in years, it came at a significant cost. The approved municipal contracts necessitated a significant increase in the starting pay between 7% and 19% for our firefighters, police officers, dispatchers and public works maintenance workers. Some of those financial increases were phased in during the first year of the contracts and will be fully realized in FY26, the second year of the agreements. On top of absorbing those costs, salaries will be adjusted further by an inflationary-based metric.

While further investments in staff are justified and have been requested by staff (see Exhibit 2), the FY26 budget proposal advances only a few strategic investments in staff (see Exhibit 1). This conscious decision is in deference to taxpayers and recognizes the need to absorb the financial impact of recent investments in existing staff and acknowledges that we need to experience full employment before further expansion. Despite the proposed budget not including most of the requested positions, there is strong justification and we encourage the Town Council to consider the rationale and perhaps choose to advance some of these new investments. The starting point (from a tax impact perspective) intentionally leaves room for these discussions, while still respecting taxpayers.

Personnel Expenses: A Closer Look

The outstanding services and education the budget funds are delivered by dedicated professionals we employ. As such, the majority of the school and municipal operating budgets are dedicated to personnel expenses. Over 81% of the School's operating budget is dedicated to personnel expenses while that figure is just over 65% on the municipal side.

In addition to salaries, benefits costs also include fringe benefits such as medical insurance, retirement and payroll taxes. The costs of offering medical insurance can vary from \$1,500 annually for a municipal employee who declines medical coverage to over \$28,000 for a school employee enrolling in family coverage.

Beyond insurance, employees are either mandated to or have the option to enroll in retirement plans. These expenses can range from 4.36% for a Teacher or other certified education technician, to 14.2% for a municipal employee enrolled in all available retirement and deferred compensation plans.

Beyond these major associated personnel expenses, additional costs may include payroll taxes such as social security (6.2%), Medicare (1.45%), and Maine Paid Family Leave (.5-1%). Lastly, employment will include providing workers compensation coverage and may also include job related equipment (e.g. Computers) and uniforms (e.g. Police Officers and Firefighters).

Listening to Our Community: Pedestrian & Traffic Improvement Investments

Over the last two years the Town has undertaken and completed a series of plans and studies that will not only help inform future investments, but also prepare the community for future challenges. Last year we completed a Transportation Plan, Vulnerability Assessment, and Open Space Plan and two years ago completed a Comprehensive Parks and Facilities Master Plan. The FY26 proposes to fund a Facilities Assessment and a Trails and Sidewalk Master Plan. The recommendations and direction from these plans inform many of the items in the proposed capital plan. It will be important for us to maintain focus on these plans to ensure thoughtful and strategic capital planning.

The capital improvement plan contains a number of projects intended to improve pedestrian and motor vehicle transportation. This includes planned redesigns to East Grand Avenue, lower Payne Road, and the completion of Spurwink Road improvements and advancing the fifth year of sidewalk rehabilitation and accessibility improvements.

Starting Point, Items in Motion, and Budget Process

The combined municipal and school budget as presented would be 5.21% net budget increase over the approved FY25 budget which would equate to a projected 3.39% tax rate increase.

The budget as presented is formulated with the best available information at the time of presentation and includes a number of estimates and projections. Some of these estimated or projected figures will be definitively known prior to the Town Council's second reading while others will remain best estimates. We broadly refer to these estimates as items in motion and include insurance figures not yet known, changes to expected special education obligations, and funds necessary to settle open school department collective bargaining agreements

Following the budget presentation by the Town Manager and Superintendent of Schools on March 27, 2025, the Town Council's Finance committee will review department budgets and the Capital Improvement Plan during meetings on April 14, 15 and 17.

Key Budget Metrics

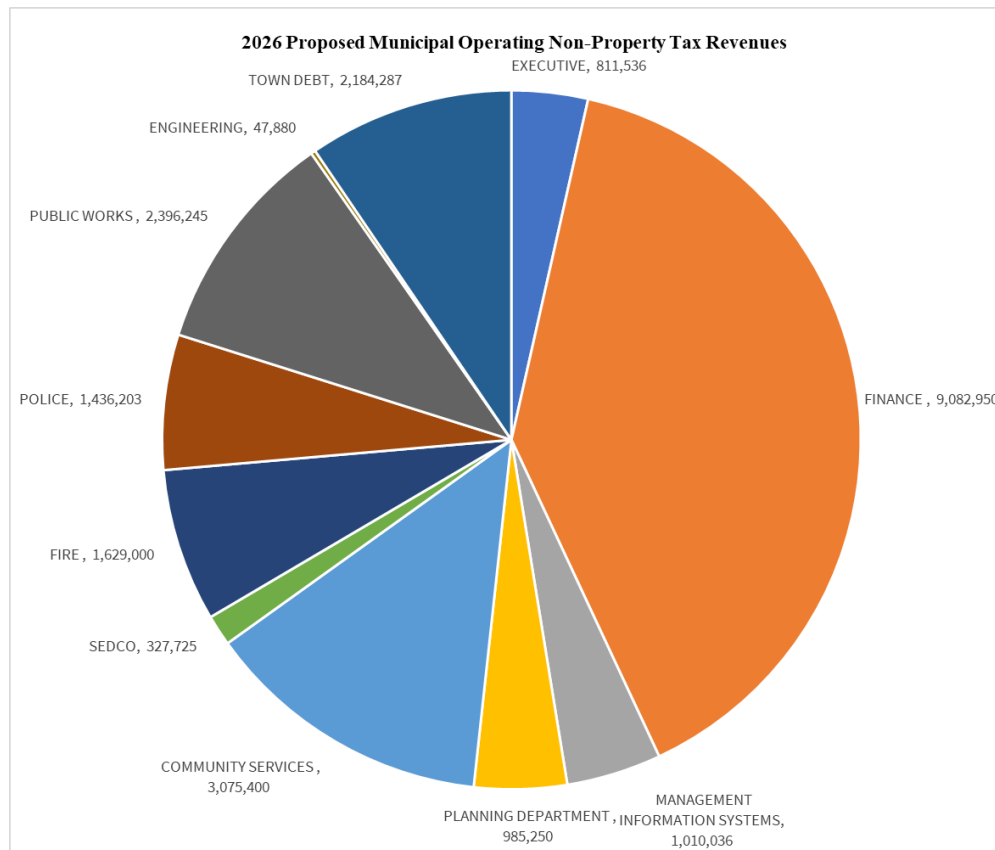

Revenues

Knowing where the money comes from that pays for the services the Town provides is important. Over time we can track changes in the percentage of revenues coming from the State of Maine, excise taxes, permit and program fees, and property taxes. When we think of individual revenue types in terms of a percent of total revenues we can see that with each decrease in one source of revenue there will need to be an increase in other forms of revenue. When the economy is strong we see increases in excise tax and permit fees, when the economy slows these revenues tend to decrease and we see a corresponding increase in the percent of revenue coming from property taxes.

Estimated revenues are just that, estimates. The Town uses historical data and information from the State to create as accurate an estimate of revenues as possible. Non-property tax revenue estimate totals are deducted from the proposed budget expenditures to identify the amount of money needed to be raised through property taxes. To determine the annual tax rate, or mill rate, this net expenditure figure is used.

The chart below shows sources of non-property tax revenues. Capital School and Town is funded by bonds, reserves and other revenue sources of non-tax revenues to pay for long-term investments in infrastructure or equipment. Education revenues include food service and adult learning revenues as well as the use of fund balance restricted for education. Homestead and BETE revenues are reimbursements from the State of Maine. Town revenues include all of the monies raised through program fees, permit fees, collected fines, and payments received for services to other towns. A complete listing of municipal revenues can be found as part of the line item detail included in this budget document.

Expenditures

The graph below shows how the Town budget is divided among the municipal departments. The General Government includes the Executive, Finance, Human Resources, and Planning Departments. Public Service includes Community Services, the Scarborough Public Library, and SEDCO. Public Safety includes fire, police, communications, and EMS services. Debt Service is the amount we pay in principal and interest on the municipal debt held.

In the charts below, we can see how these revenues work to lower the amount of money needed to be raised through taxation. The first chart shows the gross budget; in other words, the amount of money needed to cover the total costs of services provided. The second chart shows the net budget. The net budget is the amount of money needed to cover the cost of services minus the revenues associated with that part of the budget. As there are no revenues associated with the County section of the budget, this dollar value remains unchanged between the two charts while the percentage of the budget paid to the County increases in the net budget. Note that the percentage of the budget needed to run our schools is much smaller in the gross budget than in the net. This is because the School Department has limited access to revenue generation. All excise taxes, permit fees, etc. are credited to the municipal budget. When we think about how tax dollars are distributed between municipal and educational expenses it is best to consider the gross budget because of the difference in available revenues.

Debt

Some expenditures are better shared with future users of the investment. A school building or a fire truck are both very expensive items that serve current and future residents of Scarborough. Financing expenditures allows the Town to share the cost of an investment with all of the people that will benefit from it. When the Town borrows money to fund an investment it only does so for a period of time equal to or less than the expected life of the investment. Many investments are not included as part of an annual budget decided by the Town Council but are instead put before the voters to decide if they wish to support that investment; recent examples being when the voters decided to invest in a new fire ladder trucks and the large school project that is contemplated in the budget proposal. Each year's annual budget does include debt service. This is the amount of money that needs to be paid in interest and principal payments each year.

The graph below shows a history of our debt as a percentage of the State of Maine's equalized value, also called Full State Valuation. The Town of Scarborough continued to invest in infrastructure and

equipment through the Great Recession. By doing so, the Town's debt load may be higher than some of our neighbors, but we were able to take advantage of very low interest rates while also maintaining and improving the investments in roads, buildings, and programs we have made in the past. The bond rating agency Standard and Poor's notes that a low debt profile is not always a strong indicator of credit worthiness because it may show a municipality has failed to maintain infrastructure and will need to make significant investment in the future. Tracking our debt held as a percentage of our value is one way to better compare our debt with our neighbors because it considers how the costs associated with debt are spread across all taxpayers.

Tax Rate Computation

The budgeted expenditures and anticipated revenues are entered into a formula that also includes the estimated town assessed valuation to calculate a tax rate, or mill rate, for the year. The formula is:

$$\text{Mill Rate} = \text{Total amount to be raised by taxation} / \text{Total Town assessed value}$$

The final figure for the tax rate equation the Town calculates is the total town assessed valuation. If the tax rate is calculated using the lower estimate for town assessed value it will be higher than if the tax rate is calculated using a more optimistic town assessed value. As part of the tax commitment process in August the Town Assessor will decide on the total town valuation to use in the tax rate formula. Why would the Assessor choose to go with a lower estimate if it will result in a higher tax rate? The tax rate is applied equally to all of the taxable properties in town. If the Assessor chooses an assessed value that is too high the resulting tax rate may be too low to generate enough revenue to cover the costs proposed in this budget document if there is not the level of expected growth through new residential, commercial, and industrial development.

What happens if the Assessor chooses an estimated town assessed value that results in more money than was needed to cover the costs of providing services? All money left in the general fund at the end of the fiscal year is added to the unassigned fund balance to provide greater fiscal stability or may be used, in part, to offset the amount needed to be raised by taxation in a future year. The graph below shows the relationship between unrestricted fund balance and both total revenues and total expenditures. It is these relationships that bond agencies look at as part of the bond rating assessment for the town.

Tax Rate Computation Worksheet

On the following page is a simplified version of this year's tax rate computation worksheet. This version is a language-based translation of the detailed accounting version that can be found in Exhibit 7. Both show the same information:

- How much money is needed to cover services
- How much money we expect to receive from non-property tax sources
- What is the expected valuation of the town
- What is the estimated tax rate range

The estimated tax rate considers two variables in the calculation: 1) Total Net Budget (the amount needed to be raised through property taxes) and 2) total valuation of the Town. In a typical year the Tax Rate Computation Sheet would estimate the rate; however, with the revaluation, I have resisted including that estimate as it will change dramatically as a result of the revaluation. The new town-wide valuation will be complete before the budget is adopted and an estimated tax rate will be calculated at that time.

It is important to note that these goals relate to the final budget, rather than the initial proposed budget. The Town has a long history of successfully reaching its budget goals, and the clear expectations that it will again this year.

Taxable Valuation Tax Rate Computation F/Y 2026

FISCAL YEAR 2026

Budget in Brief

About the Budget in Brief

As a steward of taxpayer dollars, the Town of Scarborough, Maine prides itself on providing transparency and public engagement in its budget.

This Budget in Brief was created as a tool to provide an overview summary of the budget process and the high level direction of the proposed budget. It is an effort to distill the full, 400+ page document into an accessible format to learn more about the background before diving deeper into the details. The Town Manager also provides an overview summary and context in his presentation to the Town Council in March.

The Town of Scarborough has taken fiscally responsible actions in recent years that have earned it an upgraded Aa2 bond rating. It also continues to invest in resources and services that maintain its quality.

The Town of Scarborough has an Aa2 Moody's Bond Rating

This recent upgrade reflects the Town's improving financial position and economic base.

FY2026 Budget Takeaways

1. The Town of Scarborough has a budget of **\$89,997,227**, including Municipal, Education, County, Capital, and TIFs.
2. The proposed budget is 5.27% higher than last year, which would equate to approximately a **3.48% property tax rate increase**.
3. The Town and School is seeking to largely fund **existing services and programs** with minimal new investments and positions.
4. The Town's budget is funded by a **combination of sources** including property tax revenue (62%), Excise and Municipal revenues (21%), State-provided funds (10%), and Education revenues (7%).
5. The Town's proposed net budget goes to fund Education (67%), Municipal (26%), County Tax (4%), TIFs and Other (3%).

Budget Process Snapshot

February-March

Departments prepare next year's budgets

The Town Manager works with senior staff to identify staffing and service levels for each department, as well as any capital needs. The result is the Town Manager's budget, presented in late March.

March

Municipal and School budgets presented

April

Finance Committee reviews

The Town Council holds a first reading in April. The Finance Committee then spends the next few weeks reviewing the budget by department. A public hearing with the School occurs in May, followed by the final reading and vote in late May.

May

Council adopts Municipal budget

June

Referendum vote for School budget

Post-Budget Adoption

FY2026 budget effective July 1, 2025

Strategic Budget Priorities

The Town of Scarborough's FY2026 Budget fulfills the community's needs by focusing on these key priorities to ensure that we maintain a high quality of life for residents by offering standard services, retaining natural areas, and investing in the places that set us up for a fiscally responsible future.

Public Safety

Police, Fire & EMT provide 24/7 services with over 90% community satisfaction (2023 community survey). High recognition for professionalism and community involvement.

Service Delivery

Maintain the high quality service that our community expects for trash/recycling collection, winter road clearing, paving, street sweeping, permitting, Town Hall services, and more.

Infrastructure

Forward-thinking investments that improve the quality and multi-modal functionality of our roads. Additionally, standard upkeep to maintain the longevity of town roads, facilities, etc.

Employee Retention

Maintain reputation as a competitive workplace to attract and retain employees in essential roles.

Good Governance

Meet high standards of transparency, stability, and fiscal responsibility, including a Aa2 bond rating and awards for achievement in financial reporting.

Future Planning

Set Scarborough up for ongoing success in the areas of growth and development, conservation, and fiscal responsibility. See through key studies and next steps.

2026 Capital Improvement Projects

Maintaining Level Services (68%)

\$7.6 million

- Vehicle replacement
- Equipment replacement
- Facilities maintenance (School roof replacements)
- Road paving
- Sidewalk rehabilitation/paving

Total Planned Investment: \$11.15 million

The approach to developing the FY2026 budget was to prioritize the delivery of essential services, while making new investments consistent with our Comprehensive Plan and other recent future planning initiatives. This approach is reflected within our capital investments too, which is largely level services-focused (68%). New investments (32%) strive to continue toward service improvements and future planning.

Service Improvements (23%)

\$2.6 million

- Spurwink Road improvements
- Additional sidewalk machine
- Drainage improvements

Future Planning & Design (9%)

\$950,000

- East Grand Roadway design
- Trails & Sidewalk master plan
- Payne Rd. Resiliency design

Property Tax Revenue

Your Property Tax Dollar

Representation of FY2026 Gross Budget

Sources of Town Revenue

The largest source of General Fund revenue is property tax. While other revenue sources are subject to the condition of national and regional economies, property taxes are a stable revenue source for the Town.

Each year, the Town Council aims to limit the tax rate increase as much as possible in order to keep it stable and in line with inflation.

Non-Property Tax Revenue

The Town of Scarborough collects revenue from a variety of sources to deliver a wide range of services and invest in infrastructure improvements.

Vehicle Excise Tax

Vehicle excise tax is collected by the Revenue division. The FY2024 revenues were nearly \$8 million.

State Revenue Sharing

State funding allocation of tax revenue redistributed to Scarborough (and other Maine municipalities) to minimize the municipal property tax burden.

General Purpose Aid

State funding provided to the School based on a formula to determine the share.

User Fees

The Town generates additional revenue through business licensing, permitting fees, beach passes, and Community Services programming.

Where Your Taxes Go (Expenditures)

The General Fund supports daily operations and maintenance that keep Scarborough a safe, clean, and vibrant place to live. The departments with the greatest expenditures are the School, followed by Police and Fire, and Public Works, who keep our sidewalks and roadways safe, clean, and usable.

General Fund Expenditure Takeaways

Education

Public Safety

Public Works

The Town's strong financial position has been built through Council and staff actions, demonstrating sound financial administration and planning, indicated by the following:

- **Upgrade to a Aa2 bond rating** as major capital investments are considered
- Policy change to **build the unassigned fund balance**
- Maintaining strong transparency and disclosure through **timely budgets and audited finance statements**

FY2024 SERVICE STATS

Responded to
37,817 Police
calls for service

1,481 tons of salt and
3,879 tons of sand
spread by Public Works

6,403 Fire
department calls
for service

Financial Outlook

The Town is in the **strongest financial position** in many years, with a significant increase in available unassigned fund balance and an upgraded credit rating. This strong financial position that the Town has set itself up with is important for the community. It builds trust and confidence in our local government as we plan the budget each year and bring capital projects to referendum.

Increasing TIF Revenues

The Town has been thoughtful with the establishment and expansion of Tax Incrementing Financing (TIF) Districts. TIFs allow the Town to shelter new assessed value created in the district, which is financially beneficial for State revenue sharing purposes. TIF revenues (property taxes paid on the sheltered value within our TIF districts) have been steadily increasing and help offset operational expenses, pay existing debt service, and cover capital expenses that would either need to be bonded (financed) or appropriated.

Declining Debt

Since 2019, the total general obligation debt has declined by nearly 24%. The current debt held is \$78.4 million, down from \$102.7 million in 2019.

Increasing Fund Balance

In late 2024, the Town Council amended the Financial and Fiscal Policy to raise the minimum fund balance to 10% of the prior year's budgeted operating expenses. Unassigned fund balance is the amount of the budget left unallocated toward specific expenditures in the year ahead. At the end of FY2024, the Town's unassigned fund balance increased to \$15,902,211. This is up almost \$5 million from 2022, and 14.46% of the prior year's budgeted operating expenses. The Town has a goal to get this to exceed 16.67%.

Upgraded Bond Rating

In February 2025 the Town of Scarborough received an upgraded bond rating from Moody's credit rating. The rating increased from

VISION & STRATEGIES

Community Vision

The Community Vision includes five vision statements, strategies, guiding principles and a land use strategy, all outlined in our 2021 Comprehensive Plan. Together these chart the way forward for Scarborough. These principles were generated during the update of the Comprehensive Plan public engagement process and are meant to set priorities and inform the policy and investment decisions of local leaders.

The vision of the Comprehensive Plan is for the Town of Scarborough to **preserve its identity, while targeting development in a way that provides economic opportunities, protects the natural environment and improves the high quality of life of all residents.**

The Plan focuses on sustainable development — measured by environmental stewardship, economic prosperity, and an equitable distribution of community resources— that reflects the community's unique characteristics and local values. To achieve this, **the Plan is guided by these vision statements:**

- 1. The Scarborough Marsh is central to the Town's identity,** creating a special awareness by our residents of the importance of all of the Town's natural resources. Future land use will follow a pattern of development that is sensitive to protecting our beaches, dunes, rivers, open spaces, farmlands, and other elements that comprise our unique ecosystem.
- 2. Future land use patterns will create opportunities** for the efficient delivery of municipal services and infrastructure, resulting in fiscal sustainability.
- 3. Our ordinances will support the diversity and characteristics** of existing and emerging neighborhoods, centers and open spaces.
- 4. Scarborough's economy will support a broad assortment of businesses** that provides stability for the tax base, respects natural resources, and supports opportunities for residents.
- 5. Scarborough's transportation network will support current and future land uses** that create efficiencies which reduce the impact of traffic on residents and businesses.

Guiding Principles

- Bold
- Welcoming
- Stewardship
- Authentic
- Healthy
- Vibrant
- Connected
- Fiscally Sustainable
- Engaged

Community Survey Results

The Town of Scarborough conducted a community survey in the Fall of 2023. A total of 608 residents completed the survey, resulting in a precision of +/-4.0% at the 95% level of confidence.

Budget Process

Development ➔ Presentation

First Reading ➔ Review / Workshops

After the presentation, the first reading of the budget by the Town Council takes place. The budget presented at first reading is a starting point for public discussion, reflection, and prioritization by both the School Board and Town Council. Upon accepting the proposed budget at first reading, it then becomes the purview of the Town Council Finance Committee who spends the next few weeks meeting with departments to review the proposals in detail. In April, the Town Council and School Board hold a joint Public Hearing on the budget. The Town and School Finance Committees also continue to meet to work through amendment proposals that will be put forward at the Town Council's final reading.

Second Reading ➔ Budget Adoption

The Town Council Finance Committee proposes final recommendations to the Town Council for second reading. The Town Council then votes to adopt a budget for the next fiscal year.

School Budget Validation Referendum

Unlike the municipal budget that is voted on by the Town Council, the School budget must be approved by Scarborough voters in a budget validation referendum. This referendum usually takes place on the second Tuesday in June. If the validation vote is successful, the budget process is complete for that year. If the validation vote is unsuccessful then the process repeats with a new proposal that goes through first reading, Public Hearing, final reading, and School budget validation referendum. This process continues until there is a successful School validation vote.

Tax Commitment

The final stage of the budget cycle is the tax commitment in late August. The Town Assessor sets the tax rate by determining the total town valuation and dividing that amount into the net budget to be raised through property taxation. This equation, net budget/total town valuation, gives us the mill rate used to determine each property owner's tax bill.

Department Highlights

The Department Highlights section provides summaries outlining department responsibilities, structure, and performance metrics. The insights and illustrative examples within each section intend to highlight the value residents get for their tax dollars for Town of Scarborough programs, services and capital projects. Our goal for spotlighting Town departments is to make residents aware of the wide range of services that Town employees perform, the value they provide, and the positive impact they make on the community.

Town Departments

Departments that have expertise in specific areas to ensure efficient governance and service delivery include Assessing, Community Services, Engineering & Technical Services, Executive, Finance, Fire, Human Resources, Library, Planning & Code Enforcement, Police, Public Works, Scarborough Economic Development Corporation (SEDCO), Technology & Information Services. Each brief two-page department section includes:

- **Department Highlights** – Department’s role and capabilities in providing a full range of services to Scarborough residents, describing their basic responsibilities and primary functions
- **Organizational Chart** – Visual depiction of department structure (i.e., who reports to whom, ensuring a clear path of communication and accountability), including number of staff members
- **“Year in Review”** – Productivity metrics for the most recently completed fiscal year or calendar year, depending on how specific metrics can be reported (e.g., number of exemptions processed by Assessing; number of building permits issued by Planning & Codes; number of dispatch calls answered by Police, etc.)
- **Successes & Accomplishments** – Brief explanation of the department’s most noteworthy completed projects and achievements in the prior year
- **Goals & Priorities** – Brief explanation of some major initiatives or priority projects that will guide the strategic direction of the department in the next year, along with anticipated outcomes
- **Department Budget Summary** – A high-level grouping of department spending into broad categories like wages and benefits, etc. aligned with the Town’s municipal financial software’s reporting capabilities

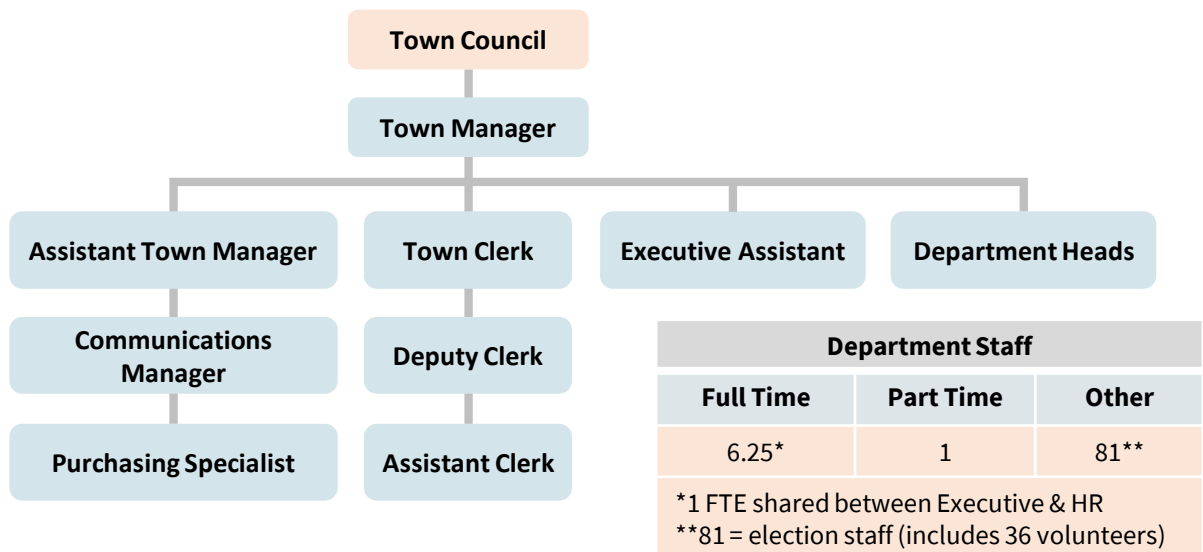

Following each Department Highlight is the specific FY26 Budget request, including line-item detail for revenues and appropriations.

Executive

Department Highlights

The Executive branch relates to the office of the Town Manager. Under a Council-Manager form of government, where the voters of the community elect the council, the Town Manager is appointed by and serves at the discretion of the Town Council. The Executive branch is comprised of:

- **Administration:** The Town Manager executes and carries out the governmental and fiscal policies adopted by the council, has direct responsibility for and supervises all general administrative functions, and prepares an annual budget for review and adoption by Town Council. Under the Town Manager's direction, the Assistant Town Manager assists in coordinating, directing, and implementing day-to-day departmental operations.
- **Communications:** The Marketing and Communications Manager is responsible for providing comprehensive outreach and information to the community and its residents through a variety of channels. The position also supports public engagement opportunities and initiatives of the Town Council. It strives for accessibility, transparency, and an unbiased approach to the coverage of Town news and events.
- **Town Council:** The seven-member council performs the legislative functions of government by adopting policy, controlling the raising and appropriation of funds, levying taxes, contracting of debts, and adopting the annual Operating and Capital budgets. The Council also enacts, amends and repeals ordinances, resolutions and orders, and establishes policies and measures necessary for the general welfare of the Town and its citizens.
- **Insurance & Legal:** The insurance division provides for the insurance and risk management needs of the Town. The town attorney, appointed by the Town Council, provides legal advice regarding town affairs and represents the Town's interests in legal matters.
- **Town Clerk/Elections:** The Clerk's office handles a wide range of services to the residents (e.g., administers elections and voter registration information, maintains vital records, issues licenses and permits, Freedom of Information requests and records, and maintains Town Council and Committee meeting records).

SUCCESSES & ACCOMPLISHMENTS 2024-2025

Increased communications reach with 535 new subscribers to the Town Newsletter.

Received a bond rating upgrade from Moody's Ratings, from Aa3 to Aa2. The upgrade reflects the Town's improving financial position and economic base.

Updated the Fiscal and Financial Policy, resulting in positive gains in the Unassigned Fund Balance and contributing to the upgraded bond rating.

Administered the November 5, 2024 Election with a total of 15,270 ballots cast and an 82% voter turnout.

GOALS & PRIORITIES 2025-2026

Support Town Council goals and priorities.

Increase access and information to the public with expanded remote participation opportunities and enhanced website content.

Leverage TIF revenues to reduce tax impact, and continue to provide education regarding TIFs and shelter benefits.

Enhance customer service with expanded online services for licensing and permits, and improved responsiveness to resident inquiries.

Community Services

Department Highlights

Scarborough Community Services is the Parks and Recreation department. It is comprised of five divisions:

- The **Operations and Events** team oversees tasks, projects, and events that encompass all divisions of the department, including recreation, intergenerational, grounds and facilities, and beach management, as well as general customer service. This division also manages passport applications on behalf of the U.S. Department of State and oversees cable operations for various municipal and school projects as directed by the Town Manager.
- Our **Recreation and Waterfront** team organizes and runs programming to keep youth, adults, and senior citizens engaged and moving all year. The division also manages Town beach maintenance and staffing.
- The **Intergenerational** coordinators organize school-aged programming for Scarborough students. Our school-year child care programs begin at Grade PreK through Grade 5. Summer day camp programs begin at Grade K through Grade 8.
- Our **Grounds** staff are responsible for the repair and maintenance of all outdoor municipal facilities, including all town parks, fields, trails, and playgrounds.
- Our **Facilities** staff are responsible for the maintenance and repair of all indoor municipal facilities, including the Scarborough Municipal Building, the Public Safety Building, and the Oak Hill School Building.

YEAR IN REVIEW

**13 Parks & Beaches**
Town-maintained beach & park areas, parking lots, and facilities

**938 Passport Applications**
Processed throughout the year

**26,660 Hours Rented**
Of fields, facilities, and rooms

**455 New households**
Created in registration system

**214 Acres**
Of trails and open space maintained

**1,489 Active Adult**
Program enrollments (189 programs offered)

**3,581 Youth Programs**
Enrollments (154 programs offered)

**351 Summer Camp**
Registrations administered (45 waitlisted)

17 Community / Special Events

Community Services

Strategic Initiatives

SUCCESSIONS & ACCOMPLISHMENTS 2024-2025	GOALS & PRIORITIES 2025-2026
Reformatted event and program sponsorship program and increased funds by 76%.	Evaluate avenues of communication to increase outreach throughout Scarborough.
Increased partnerships to provide programming for underserved sectors, such as teens, homeschool families, and active adults.	Continue to seek out local partnerships for future programs and events.
Completed a number of projects from the Facilities Master Plan, including court renovations, beach parking and safety infrastructure improvements, adding bike racks and stations, and ADA-access projects.	Continue to work through the Facilities Master Plan and plan for additional field space.
Instituted a successful Parks Ranger program for the beaches and trails, providing greater outreach and enforcement on site.	Finalize plans and secure funding for infrastructure repair at the beaches.

Engineering & Technical Services

Department Highlights

The Engineering & Technical Services Department (E&TS) is a multi-faceted group responsible for the coordination and implementation of a wide variety of technical projects and initiatives that span across all town departments to ensure their expertise is incorporated into planning, design, and construction of both town initiatives and private development projects.

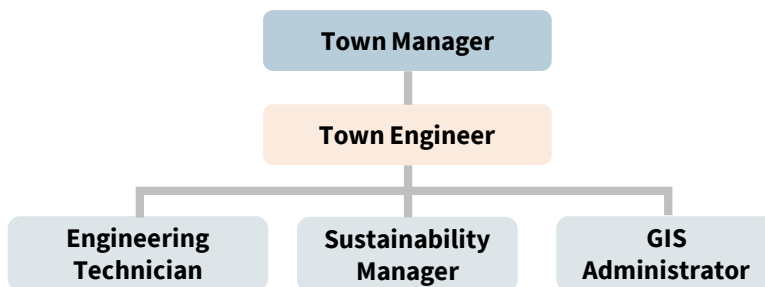

The E&TS Department is comprised of three main areas of expertise:

Engineering: Supports multiple town-wide projects including regional and local transportation and environmental planning, design, and construction improvements, federal stormwater permitting compliance, development technical review, as well as drainage and inspection and oversight of all construction sites in town.

Sustainability: Supports several Town's departments including Planning, Public Works, and Community Services for various sustainability initiatives, such as conserving 30% of Scarborough by 2030 (i.e., 30x30 Resolution); water quality protection and improvements; and endangered species protection.

Geographic Information System (GIS): Manages and provides data, which includes property outlines, public utilities, roadways and addresses, as well as many other assets via the GIS, a tool that provides digital visualization of many of the Town's assets.

Our technical staff serves the town in a wide range of ways (e.g., construction oversight, development review, transportation planning and implementation, environmental review, environmental standards implementation, Federal and State permitting compliance, and review of street design standards and private ways).

Finance

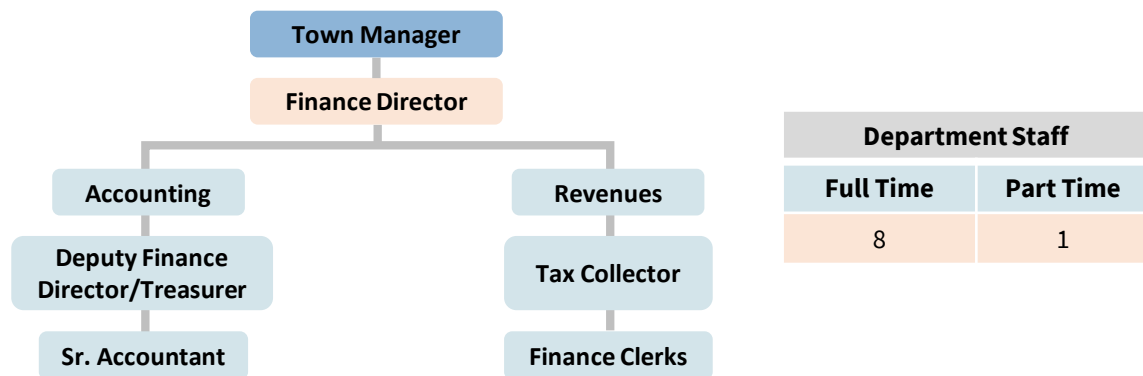

Department Highlights

The Finance Department's mission is to provide accurate and timely financial information and services so that the community, elected officials, and Town departments can make informed decisions. Staff oversee and manage the revenue collections and expenditure payments for all the departments of the town. They also oversee the managing and reporting of the accounting functions of general ledger, budget management, debt management, accounts receivable, accounts payable, credit enhancement agreements and tax.

There are two divisions within the department:

- **Accounting:** Oversees all financial transactions, invests town funds, issues bonds, maintains finance equipment, trains finance personnel, ensures compliance with federal, state, local and accounting regulations, issues quarterly financial reports to the Finance Committee, and provides overall management of the department. Works cohesively with all departments and assists administrators with their budget preparation and financial processes, prepares schedules for the Annual Comprehensive Financial Report (ACFR) and coordinates the annual financial audit; and
- **Revenue:** Oversees the processing and collection of all municipal and school revenues including revenues collected by the Town for the State of Maine; provides the required reporting to the various State agencies.

The Finance Department strives to manage the finances of the town in a prudent, efficient and transparent manner to assure all interested parties, that those public resources are conscientiously received, safeguarded, invested and accounted for.

Assessing

Department Highlights

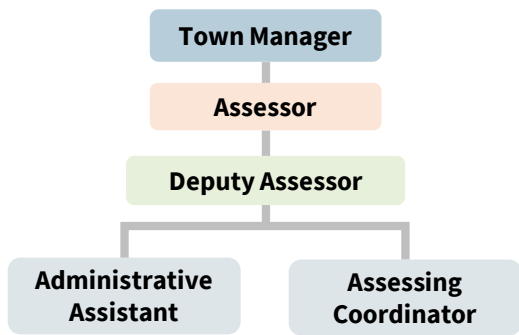

The Assessing Department is a central resource of information for property owners, title companies, real estate brokers, attorneys and appraisers, and other Town departments. Assessing staff maintain historical and current data on each property (i.e., ownership, parcel boundaries, land and structure inventories, property characteristics and exemptions for institutions and individuals such as homestead, veterans, blind, and renewable energy exemptions).

Assessing serves to provide the taxpayers of Scarborough with fair and equitable valuations of real estate and business assets for tax purposes through professionalism, innovative technology and application of reliable, consistent procedures in accordance with Maine State Law. The department is committed to maintaining positive public relations with courtesy and integrity and being a responsible steward of public resources.

The Assessing Department is responsible for the annual valuation of all real and personal property in the Town of Scarborough, and maintains property information for approximately 10,000 real estate accounts and 1,000 business personal property accounts. The annual valuation involves inspecting properties, updating tax maps, tracking ownership changes, and analyzing sales to estimate the current market value of all property.

Assessing is also responsible for administering all State and Local Tax Relief programs benefiting residents and businesses, including residential property tax exemptions, the Business Equipment Tax Exemption Program (BETE), and the local Senior Property Tax Assistance Program.

The work of the Town Assessor is controlled by State Law and reviewed and audited annually by the State Department of Maine Revenue Services.

472 Senior Tax Relief

Property Tax Assistance applications processed for qualifying seniors

Assessing

Strategic Initiatives

SUCSESSES & ACCOMPLISHMENTS 2024-2025	GOALS & PRIORITIES 2025-2026
Conducted an in-house town-wide revaluation vs. using an independent contractor, reducing the cost while providing a higher level of customer service (<\$20,000 in-house as compared to \$391,000 for the 2019 Revaluation performed by KRT Appraisal).	Distinguished Service. Deliver high-caliber services and accurate information to the public, other town departments, and public agencies in a timely and efficient manner.
Implemented a year-long communications plan to educate and inform the public of the 2024 town-wide Revaluation Project by consistently delivering timely key messages across various channels.	Proactive Communication. Continue to keep public informed through clear and accessible information regarding assessments, property tax obligations, tax relief, etc. via web, e-newsletter and articles.
Conducted informal appeals hearings to address taxpayer assessment concerns, prior to tax commitment, to ensure the estimated market value of the property was fair and equitable to minimize costly tax abatements (i.e., indirect spending).	Legislative Advocacy. Assessor to serve as Scarborough's district representative to MMA's legislative policy committee, advising/advocating for property tax relief efforts and tax reform.
Reviewed and inspected properties due to new construction or renovation work and completed all associated updates to assessment records based on permit information and reviews.	Data Integrity. Maintain accurate and up-to-date data by keeping comprehensive and accurate records of property ownership, characteristics, construction details, and assessments.
Processed senior Property Tax Assistance Program applications; exemptions (homestead, veterans and renewable energy); and business equipment tax exemption (aka "BETE") applications.	Fair Assessments. Continue to analyze market trends by comparing properties to sales data and keep assessments up-to-date and equitable so taxpayers pay their fair share of the tax burden.

Fire

Department Highlights

The Fire Department's mission is to provide a range of progressive programs and compassionate, prompt, professional services to protect the lives and property of all who live, work, and visit our community from the adverse effects of fires, medical emergencies and exposure to other dangerous conditions through education, prevention, and incident stabilization. We accomplish this mission by maintaining a highly trained and motivated staff of professionals, providing them with the resources required to accomplish the mission, and working collaboratively with our public safety partners and other municipal departments. The department, led by an appointed Fire Chief, operates through five divisions:

- **Administration Division:** Responsible for the costs and overall administration of the full Department.
- **Fire Prevention Division:** Responsible for proactively keeping Scarborough citizens and visitors safe from fire, accidental injuries, and other hazards. This division is also responsible for plan reviews and issuing permits for construction, fire alarms, suppression systems, fireworks, and certificates of occupancy.
- **Emergency Medical Services (EMS) Division:** Responsible for all costs associated with the management of EMS activities at the Advanced Life Support Level.
- **Fire Suppression Division:** Responsible for the personnel costs and management of all non-EMS activities including all other types of hazards.
- **Emergency Management Division:** Responsible for town-wide emergency planning and coordination during natural and man-made disasters. This division is also responsible for seeking Federal and State reimbursement for disaster costs incurred by the community through the Federal Stafford Act.

YEAR IN REVIEW

Issued, including Construction, Certificate of Occupancy, Suppression, Alarm Systems, and Fireworks 

773 Annual Inspections
Of buildings completed 

 **2,400+ Fire Prevention**
and Inspection activities conducted

1,370 Burning Permits
Open burn permits issued 

 **5,595 Fire & EMS**
Hours spent on training and professional development

Fire

Strategic Initiatives

SUCSESSES & ACCOMPLISHMENTS 2024-2025	GOALS & PRIORITIES 2025-2026
Successfully negotiated a successor Collective Bargaining agreement with the Scarborough Professional Firefighters Association. This agreement makes great strides in employee mental and physical wellness.	Continue to transition part-time (per-diem) FF positions to Full-Time.
Received grant money from Maine EMS to Beta test having a 3rd Ambulance on Duty. This greatly improved our ability to respond and reduced our reliance on Mutual Aid resources.	Add eight (8) new FF/EMS providers, (2)/shift to staff a third ambulance 24 hours/day.
Through a CIP Project, we replaced all our AED's (Automatic External Defibrillators) throughout all town building and beaches.	Complete two station bathroom upgrades; Dunstan and Black Point thru CIP.
This past year saw the completion of the replacement of all three of our primary ambulances. This was done through CIP with a mixture of Ambulance revenues and ARPA funds.	Review current GIS data as it pertains to "Fire Districts" and "Response Times". Identify gaps and solutions.

Human Resources

Department Highlights

The Human Resources (HR) Department is responsible for supporting a qualified workforce to provide Scarborough’s residents, business community, and others with service that is courteous, dependable, efficient, and economical. They deliver services to all full-time, part-time, and seasonal municipal employees and provides leadership and direction in the areas of recruitment, employee relations, labor relations, payroll, compensation, benefits, retirement, risk management, employee assistance, wellness, and safety.

Ongoing activities, functions, and responsibilities include:

- Developing and maintaining the Town’s **personnel policies and procedures**, ensuring compliance with applicable State and Federal regulations.
- Building and sustaining effective **employee relations**, providing guidance in the area of performance management, implementing relevant **training** and **professional development** opportunities, and coordinating the Town’s **Employee Recognition Program**.
- Administering **payroll** processes accurately and fairly in compliance with federal, state, and contractual obligations.
- Strategically managing **employee benefits programs**, and maintaining employee personnel records/files.
- Recruiting, selecting, hiring, and retaining **a diverse, quality workforce** in compliance with all laws, regulations, and contractual requirements.
- Coordinating with Maine Municipal Association and Town safety committees to manage the **workers’ compensation program**. Administering the Department of Transportation Drug and Alcohol Testing Program for employees who hold a Commercial Driver’s License (CDL) and perform safety-sensitive work.

Planning & Code Enforcement

Department Highlights

The Planning and Code Enforcement Department serves the town in a wide range of ways, from long range planning for growth, development, transportation, and natural resource conservation to development review, permitting, building and construction inspection and development oversight.

Zoning, Code Enforcement, and Administrative staff work to ensure compliance with our building, life-safety, land use codes, and natural resource regulations, through our plan review, permitting, and inspection programs while the Planning Division works on development review applications, planning studies, zoning efforts, and ordinance initiatives.

The Department also provides staffing, guidance and funding to a range of boards and committees related to these activities and responsibilities. We work closely with many town departments to ensure that their interests and expertise are incorporated into planning, design, and construction, for town initiatives as well as private development projects. All of these roles and responsibilities are important to us as we strive to perform our duties in a customer-friendly, professional, and proactive manner.

Police

Department Highlights

The Police Department is responsible for working in partnership with the community to enhance the quality of life in town by ensuring the protection of life and property, the preservation of peace, the protection of individual rights, and the reduction of crime. The department, led by an appointed Chief of Police, operates through five divisions:

- **Administration:** Establishes policies and procedures to guide personnel in completing job tasks in a safe and efficient manner that ensures adherence to Federal and State laws and limits liability, and prepares budget recommendations.
- **Patrol:** The first responders who interact with the public to enforce the criminal and traffic laws and provide a sense of comfort to those in need.
- **Communications:** Our dispatch center provides a high level of customer service to public safety teams by efficiently dispatching calls for service for our first responders.
- **Social Services:** Provides services to community residents such as crisis intervention, mediation, and referrals, as well as behavioral health services and peer support for our public safety team.
- **Support Services:** Investigate cases that are sensitive in nature, conduct proactive enforcement in identified problem areas within our community, provide resources to our schools, support patrol division in our beach communities, special events and critical incidents.

Support services are provided through a team comprised of Community Resource Officers, School Resource Officers, a Harbor Master, and Animal Control Officer. Also supporting our mission are Reserve Police Officers who provide additional coverage during our peak seasons. Volunteers in Police Services (VIPS), Fire/Police members and Police Explorers provide much needed support at incidents or events involving public safety.

SUCCESSSES & ACCOMPLISHMENTS 2024-2025

Successful implementation of a new computer aided dispatch/records management software.

Successful implementation of body worn and in-car camera systems.

Earning the Maine Law Enforcement Accreditation.

Solidifying our patrol staff to full complement.

GOALS & PRIORITIES 2025-2026

Hire three dispatchers to become fully staffed.

Increase staffing in patrol and dispatch through budget process.

Joint purchase of MRO boat with Fire Department.

Secure funding for radio infrastructure project in FY27.

Public Works

Department Highlights

The Public Works (PW) Department oversees development and maintenance of the Town's infrastructure, vehicular equipment, and specialized services, including waste and recycling, cemetery care, and tree care. PW is responsible for the operation, maintenance/preservation, and construction of a safe and effective network of town roads, walkways and parks as well as supporting the daily business and activities of the town. It is comprised of three main divisions:

- **Administration:** Manages infrastructure, directing expenditures or providing oversight of funding from various program resources. Responsibilities include policy development, training and career development, budgeting, fiscal administration, community relations, and information systems. Staff provide administrative and IT support to all PW personnel to improve their responsiveness to Scarborough's needs.
- **Operations:** Oversees maintenance of road and drainage infrastructure including snow and ice control; street sweeping; line striping and graphics; signage; spot repair of surface pavement; sidewalk, shoulder, curb and guardrail maintenance; roadside mowing; cleaning, repairing and installing drainage structures (e.g., catch basins, culverts, and ditches), beach cleaning, etc. Additionally, this division is responsible for overseeing landfill/waste/recycling, tree maintenance, and cemetery services.
- **Vehicle Maintenance:** Provides key services in support of town operations including comprehensive scheduled maintenance and repair to more than 400 light, medium, and heavy-duty vehicles as well as off-road equipment. This includes contracted work on vehicles from five outside communities. This divisions facilitates all of the town's vehicle equipment purchases. This includes putting together bids specifications to the final purchase of the vehicle or equipment. This division also oversees the town's fuel distribution program.

Public Works

YEAR IN REVIEW

6,600 Tons

Of Municipal Solid Waste (MSW) picked up and processed

350± Lane Miles

Of public roads maintained in both winter and summer

2,500' Drainage Pipe and Culverts
Replaced or repaired (in-house crews)

3,600 Tons of Recycling

Picked up and processed

100 Maintained Vehicles

From 5 outside municipalities

1,000± Service Requests

Responded to

1,000± Catch Basins

Cleaned

Strategic Initiatives

SUCCESSES & ACCOMPLISHMENTS 2024-2025

Completing the adaptive traffic signal project for the Route 1 corridor.

Set up new semi-automated Diesel Exhaust Fluid (DEF) dispensing unit.

Mitchell Hill Rd project completion.

Spurwink Rd Phase I project completion.

GOALS & PRIORITIES 2025-2026

Continue work on the adaptive signal project including Payne Rd corridor and North Scarborough.

Implement training program for new and current employees.

Complete outstanding CIP building and facilities projects.

Completion of Spurwink Rd Phase II road project.

Technology & Information Services

Department Highlights

The Scarborough Technology and Information Services Department functions as a shared service for both the Town of Scarborough and Scarborough Schools. The IT team consists of 11 full-time employees providing technology services to over 900 active employees, 3,000 students, a variety of per-diem staff and volunteers across 19 physical locations. Town-wide, they support over 16,000 devices including desktops, laptops, Chromebooks, tablets, phones, web cameras, projectors, printers, assistive audio equipment, and other interactive devices.

In addition to end-user technology, the IT Department also manages a complex infrastructure of fiber and wireless networks as well as the telecommunication system and cybersecurity oversight. Between the school and Town, staff maintains and provides support for more than 50 critical operational applications both internally hosted and cloud based, as well as the Town and School websites, intranets, and a variety of other social media and online services. Staff routinely review data privacy policies and terms of service for upwards of 50 new applications and online tools every year.

Routine department tasks include managing the help desk, imaging and deploying devices, cyclical replacement and upgrading of hardware and software, implementation and maintenance of A/V systems, and developing/coordinating technical training and documentation. The IT group is also responsible for a volume of special projects as defined by both Town and School departments, work which often includes requirements definition, vendor vetting, contract review and negotiation and developing project pipelines, deliverables, dependencies and milestones.

YEAR IN REVIEW

900 + 3,000
Employees & Students
Served, respectively

16,000+ Devices
Inventoried and maintained

50+ Applications
Supported and administered

16+ Miles
Of town fiber and connectivity managed

5,000+ Requests
Help desk tickets, calls, and email requests for service

345 End-users to one IT staff person

19 Physical Locations
Where technology is managed

SUCCESES & ACCOMPLISHMENTS 2024-2025	GOALS & PRIORITIES 2025-2026
Improved the Town and School district's cybersecurity posture by deploying multi-factor authentication for all staff, configuring and implementing new firewalls and conducting cyclical cybersecurity testing and training.	Deploy redundant interim power for Public Safety network operations.
Deployed replacement Chromebooks to Wentworth Intermediate students, replacement projectors to the Middle School and Wentworth, and replacements of student printers districtwide.	Replace network infrastructure and wireless access points in the K2 buildings and replace Chromebooks for K2 students.
Assisted with the authentication processes, connectivity, hardware installation, application configuration and integration points of the new Public Safety core system.	Coordinate technical component of Public Works core system migration off-premises.
Coordinated the deployment of the Town's online payment system and the implementation of a new point-of-sale solution.	Assist with remote connectivity and hardware installation for body-worn camera project for Public Safety.

Library

Department Highlights

The Public Library provides Scarborough citizens and Scarborough business employees with resources for self-directed education, research assistance and instruction, and a variety of opportunities to engage in enriching and enlightening experiences through special programs and community partnerships. The Library is a non-profit corporation governed by a 14-member Board of Trustees that includes a voting representative from the Town Council. An appropriation is authorized as part of the annual municipal budget process with additional funds raised through an annual appeal, and fees for room rental and overdue materials. Principal programs and services include:

- Circulating a collection of over 77,000 physical items including books, audiobooks, DVDs, magazines, Discovery Backpacks, museum passes, and Orion Starblast telescope
- A professional staff available to assist users with traditional materials, public computers, and a growing collection of digital resources including eBooks, downloadable audiobooks, research databases, and online learning platforms including Lynda.com and Transparent Language
- Public computers with Internet and Office software and property-wide Wi-Fi with printing capability
- Programs for all ages including children's story times, book groups for tweens, teens and adults, concerts, lectures and volunteer facilitated groups for knitting, sketching, French conversation, writing, genealogy and discourse on current events
- Support of economic and career advancement through online learning platforms, learning badges, public computer access, and distance education proctoring
- Gathering place for community groups, homeowners, and business associations
- Safe shelter for heating and cooling emergencies and charging stations for power outages

Department Highlights

The Scarborough Economic Development Corporation (SEDCO) develops, supports and promotes sustainable economic development practices leading to a healthy, diverse and resilient local economy for the Scarborough community. SEDCO seeks to grow the tax base and promote quality job opportunities for our residents by working collaboratively with local business groups including the Scarborough Community Chamber of Commerce and Scarborough Buy Local. SEDCO's Board and staff engage in activities which promote a positive image of the town, including:

- Developing and advocating for economic policies and programs which support the Town of Scarborough's **Comprehensive Plan**
- Assisting in the attraction, establishment, retention and expansion of **businesses** in Scarborough
- Providing confidential **assistance** to any business considering starting, relocating or expanding within the town limits
- Maintaining and growing a comprehensive **intelligence system** for use by both private and public sectors
- Assessing the economic competitiveness of the town; **cultivating a network** of local, regional, state, federal and international resources which can assist local businesses and municipal officials
- Assisting Town departments in planning and implementing **economic development policies**

SEDCO offers demographic and economic information, general counseling for new and existing businesses, locational services, an online business directory, and connections to regional and state business services. We work regionally to create a strong national image of Greater Portland and to define Scarborough's role within this region. Additionally, we serve as an information resource to the Town Council, businesses, town staff and residents.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Executive Department Equipment & Projects

259 US Route One - Town Hall

Facilities Maintenance Truck:

\$55,000 - Purchase a municipal vehicle to improve staff efficiency as well increase the level of service to the municipal facilities division. This vehicle would be used to transport staff, tools and equipment. It would provide transportation to supply houses, off site meetings and on-call assignments. Presently, staff are using their own vehicles to accomplish these tasks.

Facilities Assessment:

\$50,000 - Contract a firm to complete a Town Wide Facilities Condition Assessment (FCA). The goal is to understand how our facilities are maintained, serviced and equipped to meet the needs of the Town, now and in the future. This assessment would become a tool to assess the lifespan of facilities infrastructure and their operational equipment to plan for future expenditures and develop a strategic preventive maintenance program.

Parking Lot & Sidewalk Renovation v/Engineering:

\$10,000 - This funding request is to have this area evaluated for a rebuild of our 30 year old (plus) sidewalk system. There are numerous tripping hazards and ADA challenges to be addressed. In addition, this would help identify areas where we can gain parking spaces and create a design plan. It would also look at our rear sidewalk and create a repair plan for the uneven and damaged cement slabs and curbing.

Carpet & Ceiling Tile Replacement:

\$30,000 - This funding request will be allocated towards replacing the carpeting in the Council Chambers with carpet tiles, which will improve cleaning and long-term maintenance. Additionally, the funding will be used to replace the aging ceiling tiles in the main hallway and the Human Resources Department.

Renovations – Town Clerk’s Office:

\$50,000 - Due to lack of security and outgrowing the current space, the Town Clerk’s Office is seeking funding for office updates. A security assessment was completed by the Department of Homeland Security due to the office space being used for Elections. Recommendations for changes were provided and taken into consideration for the office plans. The new plans include safety measures and an additional station to assist customers and limit wait times.

Access & Intrusion Alarm:

\$75,000 - This funding request is specifically for the replacement of our current, aging access and intrusion system. The new system will provide enhanced security features, including a lockdown capability. The RFP is in process, which opened on 2/20/25.

Restroom Renovations:

\$150,000 - The restroom facilities within Town Hall are mostly in their original state from construction in 1993. Maintenance and repairs have been done, but updating has not. This funding request will be used to renovate each restroom within the building. This will include replacing damaged flooring and cove base, repair and painting of stall partitions, new ceiling tiles and updated lighting. 2 new vanities will be installed in the upper floor restrooms.

Air Handler Room Project (#9 Clerk’s Area & 10 Town Manager’s Area):

\$172,000 - The goal of this project would be to replace two additional air handling vents that currently serve the Town Clerk's office area and the Town Manager's office area. Town Hall has sixteen(16) units all totaled, this project would bring our replacement total to seven (7). All the units have been in operation for 32 years and outlived their projected lifespan.

29 Black Point Road – Gawron Building

Exterior Wood Painting:

\$15,000 - This funding request will address the much-needed maintenance of the building's exterior wood surfaces. The current paint is peeling, leaving the wood vulnerable to weather damage. Given that it has been ten years since the last painting, this work is essential to protect the building's structural integrity. The funding will cover the necessary preparation, repairs, and repainting of the wood surfaces. This will ensure that the building is properly protected and maintains its appearance.

275 US Route One – Public Safety

Boiler Room Ventilation System:

\$18,000 - This funding request is for the installation of a ventilation system in the boiler room. Currently, the boiler room lacks proper ventilation, and the resulting high temperatures (exceeding 100 degrees) are negatively impacting the electronic controllers and wiring systems. Continued exposure to these excessive temperatures will likely lead to premature failure of these critical components, necessitating costly replacements. The installation of a ventilation system will mitigate this risk and ensure the longevity and reliability of the boiler room's electronic infrastructure.

Entryway Surface Renovation – 3 Entrances:

\$18,000 - This funding request will be allocated towards a walk-off grate system for the 3 major entrances at the public Safety Building. The current carpeting is worn due to heavy foot traffic and retains moisture, which has led to a mold issue. The installation of walk-off grates would collect dirt and hold it under the grate, making cleaning more efficient. The walk -off gate system is similar to what we have at Town Hall.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

Infield Dragging/Grooming Machine:

\$32,000 - This unit is essential in providing highly consistent and quality playing surfaces for our various fields. This unit would be purchased with a field pro multi-tool which is required to operate the groomer. This unit allows for precise grading, efficient operation with its multi-tool attachment system, and versatile options to handle field conditions while offering ergonomic comfort for the operator.

Ventrac 4520 Pro with attachments

\$52,000 - This multipurpose unit is a versatile, all season tractor with a flex frame, all-wheel drive, and numerous attachments to complete year round tasks including mowing, snow removal, and landscaping. This powerful and adaptable machine provides maneuverability and durability to use in all grounds work efficiently. It will improve service throughout the town, and diversify our fleet of machines that all staff can effectively operate. This unit would be purchased with multiple attachments to allow maximum usage including a v-blade, snow blower, broom, and drop spreader.

Compact Utility Tractor with Cab & Front Loader (4066):

\$70,000 - This is a replacement for our current (4066) that has exhausted its lifespan. This tractor is versatile and is our most used tractor on a daily basis. Without this tractor, operations would be severely hindered as it is utilized in various capacities to haul materials, mowing with flail mowers on the Eastern Trail, runs our wood chipper, and assists in post digging etc. This unit, if paired with the (3046) model will maximize our team's efficiency as all operators are trained and able to use them.

Projects

Holiday Lighting:

\$15,000 - This investment would allow for contracting with a local vendor to purchase and install (and remove) professional holiday lighting at Town Hall and the Public Safety Building, as well as provide joy and pride during the holiday season.

Digital Sign:

\$35,000 - Purchase and install a digital sign on our existing manual sign at 418. Payne Road. This project would be designed so the sign could be removed and relocated to a different address at such a time. This unit would allow for better messaging and more effective marketing. It would reduce the staff time needed to alter.

Eastern Trail – Safety Fencing:

\$40,000 - The Eastern Trail has identified a location of the trail within Scarborough that is in need of improvements. This portion of the trail is the 1-mile section leading to the Nonesuch River crossing, which will be part of the Close the Gap project. In order to provide a safe trail network, ETA is suggesting that the section of existing trail will require fencing along the steep side slopes. ETA has estimated this work to be \$40,000.

Ice Rink Kits and Ground Work:

\$40,000 – With climate change it has been hard to operate and maintain our ice rink/pond operation in its existing format. This project would allow for the purchase of one portable ice rink kit (52 ft x104 ft) to be installed at the existing site or any other site that may complement this resource. A portion of funding in the project will be dedicated to filling and leveling the two existing bowls to create a better surface to host the new units, as well as provide much needed space on campus for potential practice space during the majority of the year.

Basketball Courts Renovation – Mitchell Sports Complex (P1):

\$150,000 – This facility was identified in the Master Plan for renovation as it has significant needs for upgrading. The refurbishment of the courts would include new structural framework, upgraded backboards and rims, sealed uniform asphalt overlay, and fresh painting of the courts and lines. This project would look at reconfiguring the entrance as well.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Projects

GIS Update & Stormwater Compliance:

\$50,000 – GIS is crucial for municipalities, particularly for asset and data management of property boundaries, roadways, utilities, and other public infrastructure. The Town's Federal Stormwater Permit (MS4), requires updated asset management associated with impervious cover, utilities, drainage infrastructure, and watershed mapping. These layers have not been updated in 10 years, so new layers need to be purchased to comply with Permit requirements. This update will also provide the Public Works Department with road infrastructure condition assessments, which will help determine paving priorities, infrastructure improvements, and assist in addressing flooding concerns.

In addition, the January 2024 storm events highlighted challenges with FEMA reimbursement process due to a lack of documented pre-storm conditions, especially along our coastline. The requested updates to the Town's GIS systems will help the Town access additional funding opportunities that may be available after significant storm events in the future.

Lower Payne Road Resiliency Engineering Design:

\$50,000 – Payne Road at Scarborough Marsh currently floods during coastal storm events and is identified as a high priority road in Scarborough's Vulnerability Assessment. In anticipation of MaineDOT's Route One resiliency project, which will raise Route 1 and install a 75-foot bridge span over a portion of the marsh, an engineering study of Payne Road is needed to determine how to upgrade the road to address current and future flooding. The study will include data review and collection; surveys of the road, adjacent properties, and stream channels; hydraulic and hydrologic analysis of existing and proposed crossings; concept designs; and community engagement. Grant funds will be sought to supplement the process.

Anticipated funding breakdown:

Maine Infrastructure Adaptation Grant: \$ 75,000

Local match (CIP): \$ 50,000

TOTAL \$125,000

Sawyer Street Grant Match:

\$75,000 – This is the second half of a 2-year CIP associated with the local match required for a \$1,590,000 grant to complete a marsh restoration project, which includes removing Sawyer Street from the Spurwink Marsh. Sawyer Street is a town road that crosses Spurwink Marsh and is shared with Cape Elizabeth. This road frequently floods during astronomical high tides and storm events. Scarborough and Cape Elizabeth undertook a study in 2018 to understand what upgrades are needed to maintain a usable road given various sea level rise scenarios. The outcome of the initial study indicated the road would need to be significantly raised and would cost several million dollars. Given the investments that are likely needed to upgrade other critical infrastructure in both municipalities, Scarborough and Cape Elizabeth applied for a grant to complete a marsh restoration project. This CIP will provide a total of \$150,000 (\$75,000 funded in FY25 CIP budget process) of local match for the grant to fund construction of hammerhead turnarounds at the end of Sawyer Street. Cape Elizabeth has also authorized funds to construct hammerheads on their side of the marsh.

East Grand Avenue Roadway Design:

\$175,000 – In 2018 the Town completed the East Grand Avenue Corridor Preliminary Plan that included public forums where residents provided input to in this planning stage of the project. Since that time the Town has pursued funding of the final design and construction through the State and Portland Area Comprehensive Transportation System (PACTS), however have been unsuccessful. The increase in users of this corridor in the summer months bring challenges in balancing the needs of motorists, pedestrians, and cyclists navigating to and from the beach. This corridor is also a critical emergency evacuation route during winter storm events. In addition, this roadway has a year-round transit provider navigating this corridor, as well as a number of seasonal trolleys that provide pick-up and drop-off at the beach. At this point with the influx of residents and visitors in the summer months a Complete Streets design is needed. In addition, the aging drainage infrastructure is in need of attention. Therefore, we are requesting to move forward with the final design of this project.

Total Fire Department	\$ 5,482,250	\$ 734,500		\$ 829,475	\$ 1,484,450	\$ 689,425	\$ 1,744,400

* Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

Vehicle Extrication E-Tool:

\$75,000 - This request will be to Upgrade our Vehicle Extrication Tools and equipment. These various items range from 10-15 years old.

Turnout Gear Replacement:

\$99,500 - This request is to move FF Turnout Gear initial and replacement from the operational line item budget into a formal, annual request.

Marine 4 (Replacement Schedule)(Share MRO 50%):

\$150,000 - This request is in collaboration with our Police partners to replace a 1996 Marine unit that has already had full engine replacement and continues to have mounting maintenance issues and costs.

Replace Staff Vehicles:

\$160,000 - This request will cover costs to replace (2) Staff vehicle used by our full-time Deputy Chief of Operations and Deputy Chief of Fire Prevention who is using the former Shift Commanders vehicle. The amount covers purchase of the vehicles and all items needed to upfit the unit.

Project

Major Station Maintenance FY2026:

\$250,000 - This initiative funds major station maintenance projects at our five neighborhood fire stations (excludes the PSB). FY26 - The bulk of this money will be used to renovate bathrooms at (2) of our neighborhood fire stations. Bathrooms were intended to be part of FY25; however, the HVAC Projects at Dunstan and Black point Station experience significant pricing increases. Funds will also be used to finish North Scarborough Fire Station overhead door replacement. This would complete all 5 satellite stations overhead doors that started in 2020. Lastly, we have (5) Satellite Fire Stations that have internal inspections of their Fire Sprinkler systems due.

Narrative for Capital Equipment & Projected 5-Year Plan

Planning & Code Enforcement Equipment & Projects

Total Planning Department	\$ 418,000	\$ 103,000	\$ 75,000	\$ 120,000	\$ 60,000	\$ 60,000	*

Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

Code Enforcement Vehicle:

\$28,000 – The Planning and Code Enforcement Department has three vehicles, two all-wheel drive small SUV's and a leaf electric vehicle. The Code Enforcement officers utilize the SUV's for daily inspections and site visits. The Planning Division utilizes the Leaf electrical vehicle for inspections and site visits.

This CIP request is to purchase a replacement for the oldest all-wheel drive vehicle driven by the Code Enforcement Officers. The vehicle is a 2011 model with over 100,000 miles. Fleet Services has informed the department the vehicle needs to be replaced this year.

Projects

Trails and Sidewalk Master Plan:

\$75,000 – The findings from the Parks and Facilities Master Plan show that additional trails and paths connecting throughout the Town received the highest need for improvement over the next 5-10 years. The completion of the Open Space Master Plan and the Townwide Transportation Assessment in FY 2025 are timely in regard to this goal. The residents have continued to voice support for pedestrian connectivity and sidewalks. This CIP project would build on the information gathered from the Town Wide Transportation Assessment for existing sidewalks, trails and trail networks in conjunction with the Open Space Focus Areas identified in the Open Space Master Plan to create a Master Trail and Sidewalk Plan with a clear path forward for future sidewalk and trail connections.

The Trails and Sidewalks Master Plan will identify new trails and trail networks, as well as incorporate new sidewalks and shared use paths throughout Town. The plan will also include strategies and recommendations for maintenance and managing usage to avoid user conflicts and ensuring critical habitat and wildlife area protected in and around trails. The Plan will provide targeted timeframes for completion and identify funding sources.

Comprehensive Plan Support: Vision 3: Our ordinances will support the diversity and characteristics of existing and emerging neighborhoods, centers and open spaces.

Support Active Living: Sustain and build our system of parks, trails, and open spaces to enhance our quality of life, protect our environment, and promote the economic well-being of our remarkable town by the sea.

Continue to develop trails where possible to better connect destinations and neighborhoods, while also creating opportunities for residents to stay active.

Vision 5: Scarborough's transportation network will support current and future land uses that create efficiencies which reduce the impact of traffic on residents and businesses.

Improve Connectivity: Improving connectivity and providing safe transportation alternatives throughout the Town is imperative to reducing the number of cars congesting Scarborough's roadways, and creating happier, healthier residents.

Create a Multi-Modal Network by prioritizing Complete Street Interventions that Connect Residents to Centers.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

MRO2 MRO Boat/Vessel (Marine 4):

\$150,000 – Marine 4, which is our coastal patrol and search & rescue vessel, is approaching its usable life. The vessel was purchased in 1997 and placed in service in March 1998. The hull of the boat has cracks and its engine has been replaced three times. The average replacement of public safety watercraft per the industry standard is 20-25 years. A reliable vessel is an integral part of the MRO/Harbormaster mission on our coastal waters and in a mutual assistance capacity to neighboring communities.

Note: There will be an equivalent CIP request for \$150,000 from the Fire Department to pay for their portion of the boat for search and rescue missions.

PDE6 Taser Replacement:

\$241,860 – The taser replacement would be an upgrade from our current tasers, which vary in age with the newest models being purchased in 2018. The upgraded taser platform is more accurate and can be deployed from a further distance. This increased distance reduces the risk of injury to officers and offenders, therefore lowering risk of liability.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

Compressor:

\$37,000 – The Public works air compressor, which was purchased new in 1996 when the department moved into the current facility, needs to be replaced. This compressor powers the air tools for the entire building and runs our waste oil furnace.

Pickup Truck #4033:

\$65,000 – In keeping with our program to replace light-duty trucks (one ton and below) on a ten-year schedule this purchase would replace a 2015 2WD - ¾ Ton - Utility Body - Pick Up Truck. The truck being replaced has a 2005 steel utility body that is in severe disrepair and is no longer able to be maintained safely. This truck is primarily utilized as our sign truck and to repair and deliver trash and recycling carts.

Sidewalk Machine with Attachments:

\$160,000 – The purchase of this machine will bring our fleet of sidewalk machines to three. This will be a “sister machine” to the two purchased previously. Having identical machines is beneficial since we can “swap” parts and attachments between the machines as needed. We utilize this equipment for spring clean-up as well. With brush/broom attachments, these machines can be used for sweeping & cleaning main roads, islands, sidewalks, and roadside lawns. Given that there is a wide array of available attachments for these machines, we continue to consider additional opportunities to utilize these machines year-round.

This request for an additional machine stems from the fact that, as part of Scarborough’s growth, there continues to be an increase in the number of sidewalks the public works department is required to clear and maintain.

Bucket Truck #4300:

\$225,000 – This Bucket Truck for the electrical department would replace a 25-year-old 4700 International Bucket Truck which currently requires a CDL licensed operator. We would like to downsize for this replacement truck for a number of reasons, including but not limited to:

- downsizing would remove the requirement of a CDL licensed operator which would expand the options for operation,
- smaller chassis,
- an easier to maintain gasoline engine,
- more easily fits in the building,
- has a smaller footprint out in the field,
- 4WD to better enable maneuverability on site,
- will only lose 1-foot in boom reach.

The new truck would also have a fiberglass rear body which would eliminate the rust issues we have experienced with the current vehicle. The benefits of downsizing are innumerable.

This Bucket Truck was approved for purchase in the FY25 budget, however, our 2015 - 624K John Deere Loader which was scheduled for replacement in FY26 experienced catastrophic engine failure. Repairs would have been cost prohibitive for a machine that was scheduled to be replaced in less than a year. We opted instead to purchase the new loader in FY25, swapping the purchase of the Bucket Truck to FY26. The amount requested for this purchase has increased since last year.

The reason being that, due to pricing increases, the requested amount for last year would have been inadequate. Since then, pricing increases have continued, hence the increase in the requested amount.

Plow Truck #4026:

\$235,000 – This truck will replace a 2011 International 7500, following the plow truck replacement schedule as outlined above. The sander unit will be reused for cost saving measures.

Projects

Sidewalk Rehabilitation Paving/Accessibility Improvements (Year four of 10-Year Plan):

\$180,000 – The Town of Scarborough has approximately 50 miles of sidewalk. A majority of these sidewalks were constructed in the 1990s and are in need of repairs or upgrades. The Town conducted a survey in 2021 that indicated the condition of the sidewalks throughout the town was a concern amongst the residents of Scarborough. This will be year four of a ten year plan to make improvements to the conditions of the sidewalks.

North Scarborough MPO Grant Match:

\$200,000 – The Town of Scarborough was successful in securing an MPI grant through Maine DOT. The grant requires a 50% match from the municipality. This money will be used to finish the paving in the North Scarborough area of County Road, Gorham Road, and Saco Street.

Sub-Surface Drainage Improvements:

\$300,000 – Vortex Company, formally Ted Berry Company, conducted a condition assessment of the Town's drainage infrastructure. The assessment identified segments of the drainage infrastructure that needed repairs or upgrades. Public Works is in the process of developing a plan that will extend out several years to address the issues that came to light. This request is for year three of the plan.

Spurwink Road Improvements - Phase II:

\$600,000 – The Town finished Phase I of this project in FY25. The cost to do Phase I of this project came well over the initial budget for the project. For that reason, I asked our consultant to take a closer look at the Phase II engineer's estimate. We currently have \$1.4 million available for the Phase II project. The new engineer's estimate for Phase II came in at just over \$3 million. We worked with our consultant to value engineer the project and came up with a number of \$1.9 million to move the project forward. The request in front of you is for \$600,000 to enable the project to move forward.

Mid-Level Paving:

\$976,372 – The Town conducted a condition assessment of all the paved roads in FY19. This assessment was done with in-house crews using a software called Micro Paver. The software uses the data entered to assign Pavement Condition Index (PCI) to each segment of road that has been surveyed. The PCI value ranges from 100 (a newly paved road) down to 0 (a completely failed road). The software is able to calculate funding scenarios based on the desired average PCI. Public works has chosen a scenario that should keep the average PCI at 75. Paving costs continue to rise significantly and I would expect the cost to keep our roads at an average of 75 will increase to keep up with inflation.

Narrative for Capital Equipment & Projected 5-Year Plan

Technology & Information Systems Equipment & Projects

Municipal Capital Budget							3/17/2025 10:08 AM
Description	5 - Year Plan Total Cost	FY2026 Budget Request		Fiscal Year 2027	Fiscal Year 2028	Fiscal Year 2029	Fiscal Year 2030
Management Information Systems Department							
Virtual Servers Replacing Vmware with Nutanix Hardware & Software	\$ 100,000	\$ 100,000	B				
Redundant Public Safety UPS	\$ 125,000	\$ 125,000	B				
Total MIS Department	\$ 225,000	\$ 225,000		\$ -	\$ -	\$ -	\$ -

* Descriptions are for items requested in the upcoming FY2026 Budget.

Virtual Servers Replacing Vmware with Nutanix Hardware & Software:

\$100,000 - Broadcom acquired our current virtual environment vendor in November of 2023 and have made significant changes to their product bundles and subscription costs - with some increases reported to be more than 1000%. Our contract is set to expire and our existing hardware will hit end of life in 2026. To avoid these unsustainable rate hikes and execute a necessary infrastructure refresh, we need to move off of VMWare, which will require new hardware, a migration, and new contracted services.

Total cost for this project is \$200,000 with the cost split equally between the Town and School.

Redundant Public Safety UPS:

\$125,000 - Our current configuration for backup power in the Public Safety Building is inadequate – during the Spring of 2024, we came close on two occasions to losing connectivity in dispatch. To ensure safety and security of our emergency communications, we need to add a parallel uninterruptible power supply and tie cabinet to the existing configuration, feeding temporary emergency power to dispatch, technology infrastructure, radios, and other critical functions. The budget for this project includes materials and labor.

Total cost for this project is \$125,00 and will be housed in the Town budget.

* Descriptions are for items requested in the upcoming FY2026 Budget.

Equipment

Van Replacement:

\$30,000 - Transportation Department has relied heavily on minivans to transport students in out of district placements and special programs. Vans are an effective tool for the department as they can be driven by non-CDL drivers, and are more fuel efficient when transporting one or two students. We currently own 10 minivans which are included in the vehicle replacement schedule recommended by Scarborough Public Works. Five vans are seen in the 5-year capital equipment plan proposed here, with replacement funding for one van budgeted for FY26.

Bus Replacement:

\$423,000 - School vehicles are maintained by the Scarborough Department of Public Works, leveraging our shared services model to combine exceptional quality of care with cost savings. Each school bus travels 15,000 miles per year of stop-and-go driving in all weather and road conditions, and is subject to considerable wear and tear. Because of the quality of our maintenance program, we are able to keep buses in excellent condition for the safety of our students; however, a regular vehicle replacement schedule is critical.

National studies have found that after 12 years of use, the annual operating costs of Type C and D school buses begin to increase significantly and continue an annual increase each year thereafter¹. In addition, it is very difficult to find replacement cost insurance coverage for vehicles that are more than 10 model years old. Public Works is currently recommending a 10-year replacement schedule; because we have 30 buses, we plan to replace 3 buses per year. The 5-year capital plan for School Transportation reflects this recommended replacement schedule.

Truck Replacement:

\$65,000 - The Facilities Department uses pickup trucks to transport staff, tools and equipment to and from the eight locations served by the department. Trucks are also used to plow and to haul larger equipment in tow. The department owns a box truck to move large loads, a dump truck for plowing, sanding and site work, and two commercial grade utility tractors. All of these vehicles are included in a vehicle replacement schedule recommended by Scarborough Public Works. Five vehicles are included in the 5-year capital equipment plan proposed here, with replacement funding for one pickup truck budgeted for FY26.

Projects

Town/School Project

Transitional Facilities:

\$600,000 - Funding for long-range planning is budgeted to support the district in developing facilities plans to address outdated learning environments, community growth and increased enrollment. Strategic planning for facilities improvement leading up to any major construction or renovation project requires the support of outside professionals for tasks such as enrollment studies, surveys, engineering analysis and design scenarios. Since the building project proposed in FY24 failed to receive public approval, additional funds have been budgeted to update, rework and analyze project plans to support the work of the School Building Advisory Committee. The FY26 budget includes \$600,000 for this purpose – this amount may be refined as SBAC work progresses in parallel with budget development.

Technology

Tech Equipment Replacement:

\$955,000 - The School Department has a cyclical technology plan which guides us in ensuring that technology equipment and software receive regular, scheduled updates across the district. In most years, equipment replacement or renewal is primarily focused on one phase: K-2, Wentworth, Middle School or High School. A portion of the funding for this annual upgrade is also found in the school operating budget. CIP funds requested for FY26 will be used to replace all K-2 Chromebooks, replace failing switches and wireless access points at the primary schools and projector screens at the High School, and convert existing virtual servers from VMware to Nutanix.

Facilities

Interior Construction & Renovation:

\$25,000 - Changes in the use of interior space are often needed to accommodate the developing needs of students and programs over time. At the Middle School, the science labs are outdated and not well suited for the delivery of our current curriculum. Funding in the FY26 budget will allow us to retrofit two labs to a more modern and flexible design.

Energy Improvements:

\$168,000 - This funding supports ongoing efforts to replace high-energy-use fixtures with energy-efficient fixtures throughout the district. Older fluorescent fixtures can now be retrofitted for LEDs with a 10-year useful life and a 40-50% savings in energy use; motion sensors can increase the efficient use of lighting and energy consumption in classrooms and office spaces. Funding for this work pays for itself quickly by the reduction in energy consumption due to modern, high-efficiency products. In FY26, funds are budgeted for ongoing replacement of outdated fixtures across the district, as well as upgrading the obsolete lighting system in the High School TV studio.

Building Envelope Maintenance:

\$220,000 - After years of exposure to the elements, the mortar and brick surfaces of masonry siding begin to be compromised, causing cracking and deterioration of both masonry and joinery of the surfaces. When the siding and trim of a building are compromised, water intrusion results, causing a variety of problems including mold, indoor air quality issues, and destruction of interior finishes and classroom/office equipment. FY26 funds will be used for continued masonry re-pointing and waterproofing district-wide, cedar shingle and trim repairs at Blue Point School, and continuing staged replacement of deteriorating windows at the Middle School and primary schools.

Grounds and Site Maintenance:

\$230,000 - This capital project account includes funding for multiple projects:

Pavement Maintenance: Pavement on school roadways and parking lots suffers from heavy traffic use as well as the seasonal impacts of weather and frost. As pavement ages and cracks form due to frost movement, crack filling and re-sealing is necessary to prolong the life of the pavement. Because of weather and traffic impacts, regular re-painting of parking lot lines, crosswalks and directional arrows is also required. Annual capital investment is based on a rotating maintenance cycle throughout the district, and continues in FY26 with a budget request of \$100,000. A further \$50,000 is budgeted to extend and repave the staff parking lot at the Transportation Department.

Stormwater Catch Basin Repair: In our region, stormwater catch basins, or storm drains, are crucial for managing stormwater runoff, preventing flooding, erosion, and water pollution, and ultimately protecting both school infrastructure and water bodies. FY26 funding will be used to begin cleaning and repair of stormwater catch basins on all school campuses to ensure compliance with DEP regulations.

Landscaping: Trees and shrubs are strategically planted around school properties for multiple reasons including erosion control, runoff management, delineating space and signaling traffic direction, and creating natural borders for safety and security. Landscaped outdoor spaces also enhance learning environments, with proven benefits for mood and cognitive function. FY26 funding will be used for replacement of a number of dead trees on the High School and Middle School campuses.

Exterior & Interior Finishes:

\$280,000 - Throughout the district, finish painting is required when a modification or change is made or when colors can no longer be matched due to base paint color formulas changing. Wear-and-tear occurs regularly as well, so it often makes more sense to plan a full painting project either by wing or hallway so as to achieve consistency in appearance and to maintain the appeal of the schools. Most of our buildings have masonry exteriors, but wood exterior surfaces at the primary schools also require paint or stain to maintain resistance to weather and the elements. Funds budgeted in FY26 will be used to continue painting hallways and high use stairwells and classrooms district-wide, and to stain restored siding at Blue Point.

HVAC Repair and Replacement:

\$280,000 – Heating and cooling systems at the primary schools and Middle School are 29 years old, while components of these systems typically have a useful life of 15-20 years. System components have begun to fail, and capital funding allows us to replace these high-cost components with new higher-efficiency equipment. Funding requested over multiple years in the capital budget has been used to complete a systematic overhaul of the HVAC system at the Middle School, whose components are well beyond their expected useful life, while also allowing for sufficient funding to replace other system components as needed. In FY26, funds are targeted to complete the upgrade of heating systems at the K-2 schools with replacement of one outdated boiler at Blue Point School, finish the replacement of failing heating pumps at the Middle School, and replace additional failing components district wide.

Security and Access Management:

\$607,000 – Budgeted funds in this multi-year project account are used for upgrades and additions to our building security and emergency management systems. Ongoing investments have been made for cameras and access control equipment system-wide, continued improvements to entryway security, and other needs identified through review of our district safety and emergency protocols. In FY25 and FY26, a major investment is being made to replace the Middle School generator, which failed in December 2023 and cannot be repaired. The new generator was ordered with FY25 funds and will be installed in the summer of 2025 with funding in the FY26 budget. Additional funds will be used to upgrade our security system data center, to replace the failed speaker system in the High School cafeteria, and for door and entry upgrades and security camera replacement district wide.

Roof Restoration and Replacement:

\$829,000 – Roof inspections are conducted annually for all schools, and restoration projects that will extend the useful life of a roof system are recommended. Roofing leaks not only cause damage to the structure but also to mechanical equipment and building contents. Roof restorations can prevent leaks and extend the useful life of a roof system by 10 to 15 years, while replacements typically have a 20-year warranty. FY26 budgeted funds will support multiple scheduled roof section replacements at the High School and Middle School.

Proposed Staffing Investments

Engineering and Technical Division

Investment Request: Technical Projects Manager

Net Budget Request: \$126,475

Gross Request: \$126,475

Additional Revenue: \$0

Additional Reductions: \$0

Background

As one of the fastest growing communities in Maine, the Town of Scarborough faces the challenge of providing timely and thorough technical assistance and reviews necessary to protect our natural resources, comply with State and Federal requirements, lower future infrastructure costs, and maintain the high standard our residents expect.

Over the past decade, the Town of Scarborough has successfully secured grants and funding for numerous studies, assessments, engineering designs, and construction projects. With the current economic climate, we anticipate the continued reliance on multiple funding sources to achieve the Town's goals. While the staff supporting these efforts is small in number, the Engineering & Technical Services Department is proven to be highly productive. However, the current technical team, consisting of the Town Engineer, Engineering Technician, Sustainability Manager, and GIS Administrator, is overextended. In last year's budget process, the Finance Committee members voiced the desire for more environmental, sustainability, transportation, and infrastructure projects and initiatives to move forward, however it was pointed out that additional staff would be needed to achieve the requests voiced in the Town Survey and identified in Council Goals.

Justification

With the ongoing demand on our technical services staff through permit compliance, pace of development, and environmental protection concerns, the level of service we provide will be diminished without additional support.

This new position would be responsible for: searching for and administering grants opportunities, overseeing Requests for Proposals (RFPs) and contracts, managing projects from the planning stage to construction completion, facilitating technical assessments and studies, reporting to grant agencies, navigating reimbursement protocol, assisting with FEMA recovery projects, and managing new smaller initiatives utilizing in-house staff.

Resident or Customer Impact

By establishing this position, we will be able to expedite responses to the public, contractors, consultants, and developers, thereby enhancing productivity and streamlining projects and initiatives. The direct benefit to the residents is that we will be able to move more projects and initiatives forward to meet the objectives from the Town Survey and Council Goals on a quicker timeline.

Information Systems and Technology

Investment Request: Application Specialist

Net Budget Request: \$60,166

Gross Request: \$120,333

Additional Revenue: \$60,166 (SSD)

Additional Reductions: \$0

Background

The Technology & Information Systems Department works across all Town and School departments and is comprised of eleven staff covering six primary areas of responsibility:

1. Administration & management
2. Networking & infrastructure
3. End-user hardware
4. Application management
5. Cybersecurity
6. Online services

More specifically, the staff is accountable for:

- Servicing approximately 3,800 employees and students across
- Managing technology in 19 physical locations
- Maintaining over 16,000 devices and
- Managing 16 miles of Town fiber and connectivity
- Responding to over 4,500+ help desk tickets, in addition to in-person, email and call requests for service
- Providing project management support for five to ten major town and school projects
- Supporting and/or administering approximately 50+ applications

Our staff to end-user ratio is a staggering 1:345. Normal industry standards are one IT staff person per 40 to 50 end-users in a complex environment.

We do not have dedicated personnel for the help desk, so all IT staff are expected to consistently monitor and respond to tickets and questions as they are received. The sheer volume of service requests and complexity of projects has increasingly strained our staff resources.

Over the last five years, we have added approximately 25 new major applications, doubling our managed environment. Since the pandemic, remote services have become an integral part of conducting all aspects of municipal and school business and has increased the number of mobile devices, as well as back-end resources to manage remote access platforms.

Additionally, we have seen a critical uptick in cybersecurity risk and threats, compounding the challenge of monitoring and securing our infrastructure.

Conversely, we lost one position – the K12 Technology Specialist – which among other activities, assisted with end-user training, documentation, application monitoring and maintenance.

Justification

The large increase in applications has resulted in a critical need for an Applications Specialist. The primary responsibilities of this position will be to provide support to select critical systems and software, including but not limited to:

- **Implementation** including identifying parameters, field mapping, formulas; integration points and necessary application programming interfaces (APIs); data conversion and validation; testing, training and documentation
- **User provisioning** including establishing administrative procedures, authentication requirements (multi-factor authentication, single-sign on, etc), access controls and audit reports
- **Documentation** including training materials, end-user manuals, processes and procedures
- **Vendor liaison** including reporting and resolving issues, coordinating assistance for troubleshooting, implementation, ongoing maintenance, and general user questions
- **Upgrades and releases** including testing and training, updating documentation, reporting bugs and fixes, end-user communications
- **Special projects** including vetting new solutions, researching emerging technologies, staying current on new features and functionality within existing applications, and other projects as assigned
- **Continuous Performance Review** including monitoring functionality and usage of applications, ensuring optimization of new and existing features and maximizing system capabilities and output

This is a full-time, year-round position primarily based in the Technology & Information Services offices. Compensation will be evenly divided between Town and School budgets.

Community Services

Investment Request: Recreation Coordinator

Net Budget Request: \$45,168

Gross Request: \$85,168

Additional Revenue: \$40,000

Additional Reductions: \$0

Background

This position was re-requested in FY25 as it was a recommendation in the Parks and Facilities Master Plan. This position existed in 2022 in addition to a Recreation Manager. At that time, the two positions were consolidated and retitled Recreation and Waterfront Manager, along with separating out job duties for a Grounds Manager. During the summer months, this position is not only responsible for the oversight of our three town-maintained beaches and their personnel, they are also overseeing all summer specialty programs and camps, all while trying to get prepared for the upcoming fall programs.

During the Fall/Winter, this position is responsible for all of our recreation programs, including our fall soccer program (650 participants), our popular twice-weekly night ski program (150 participants), Saturday basketball program (350 participants) and Saturday indoor soccer program (300 participants).

This has put the heavy lift and difficult schedule of full year-round programming and beach management on one staff person. This then requires us to hire out contractual vendors for many programs to fill the gaps where we might otherwise offer the program in-house.

Justification

With the increased desire for additional recreational programming and enrichment opportunities, a new Recreation Coordinator has been proposed in the FY26 operational budget to meet these growing requests. As highlighted in the Parks & Facilities Master Plan, there are a few highlighted areas where our department could increase programming opportunities, including toddler, teen, young adult programs, and outdoor education. Although we have added a few new programs in each of these areas, it would require additional staffing to consistently offer a full complement of programming.

Resident or Customer Impact

An increase in staffing levels would help ensure that staffing resources can maintain existing programs, create new programs, and better help our service standards for the Community.

Notes

The **Gross Request** represents the total cost for the position which will include salary, medical insurance, retirement, fringe costs and any required equipment at the highest potential cost. Actual cost of the position will depend on the candidate's enrollment in medical insurance election which may vary from \$1,500 to \$22,000 and retirement plan election which could vary from 0% to 14.2%.

The **Net Budget Request** represents the Gross request less any reductions in part-time or existing budget and additional associated revenue.

Opportunities for Additional Investment

Fire Department

Investment Request: EMS/Firefighter (8)

Net Budget Request: \$254,309

Gross Request: \$830,584

Additional Revenue: \$100,000

Additional Reductions: \$476,275

Background

For nearly 32 years, the Scarborough Fire Department has been operating as a “Combination” staffed Fire/EMS service. Looking as far back as 2014, our records began to indicate a notable decline in participation of part-time (Day Firefighter) employees. Year over year since, many other area departments adopted a similar “combination” model which negatively impacted our already small pool of potential part-time candidates. In 2020 at the height of the pandemic, the drop in part-time participation began to show signs of this program's failure. The part-time program has become increasingly more difficult to manage and more importantly, is not providing consistent public safety services from our Fire/EMS department. With so many departments attempting to utilize this part-time staff, the competition has led to very small pools of eligible part-time firefighters.

Our current authorized on-duty strength, 24 hours/day is, (9) full-time firefighters, minimum with 6 part-time firefighter positions. Frequently, these part-time positions are going unfilled because of the lack of participation. This results in the part-time shifts becoming eligible for Full-time firefighters to take at overtime which cost much more to fill. Furthermore, many times these shifts are going unfilled and causing a reduction in public safety service in some of our neighborhood stations.

It should be noted that this conversion is not a true one for one cost conversion. FTE employees have a higher cost associated, however this cost gap has been slowly closing due to ACA, EPL, and now Family Medical Leave Benefits. It should also be noted that FTE employees are more reliable and will allow us to provide the consistent emergency service protections our community deserves.

Justification

Of the total \$830,584 requested for new full-time staff, the net cost of approximately \$254,309 represents the request to convert two (24) hour/day of per-diem firefighter coverage to (8) eight full-time Firefighter/EMS providers. This conversion represents replacing part-time FF hours (\$476,275) with (2) full-time positions on each of our (4) shifts. The two (2) new full-time firefighter/EMS providers will be utilized to staff a third ambulance 24/365, with a preliminary plan to house this third ambulance at the Black Point Fire Station. If these positions are approved it would provide much needed consistent fire/EMS converge to a third fire station in town.

Resident or Customer Impact

By moving this investment forward, it will help us to further enjoy high community survey marks in the mid 90% range. Adding a third ambulance and full-time staff to a third town fire station will allow controllable response times and less reliance on other community ambulances coming in mutual aid. it will also allow us to control the EMS billing and write off certain situations for our residents. When a mutual aid ambulance provides the service, we are subject to their billing policies and our will not apply.

Police Department

Investment Request: Patrol Officer (4)

Net Budget Request: \$474,112

Gross Request: \$474,112

Additional Revenue: \$0

Additional Reductions: \$0

Background

The Patrol Division is currently staffed with five Patrol Sergeants and nineteen Patrol Officers. We are requesting four additional patrol officers to bring the overall sworn officer complement to forty-seven sworn officers.

Justification

Our current minimum staffing levels of one Sergeant and two Patrol Officers, has remained the same for over thirty years. This minimum staffing is required to patrol these areas and maintain a level of service for our citizens. This model has become insufficient to adequately handle the volume of calls for service while maintaining the level of service our citizens require and deserve. For example, the Police Department handled 31,741 calls for service in 2024, including approximately 7,444 self-initiated traffic stops, 1,118 motor vehicle crashes and 846 traffic complaints. The number of calls for service requiring an officer to respond in 2024 was 23,987. The three-year average for overall calls for service is 32,556 with 22,920 of those calls for service requiring an officer to respond.

The remainder of our sworn officers are assigned to the Detective Bureau, Evidence Technician, Special Enforcement, School Resource Officers, Community Resource Officer and Command Staff. Each of these officers provide vital support to our patrol officers to allow them to focus on answering calls for service and conducting traffic enforcement.

We have seen a trend in the last several years of an increase in underlying mental health issues and/or substance use disorder tendencies while responding to our calls for service. The potential for any type of call for service to have one or both of these issues present is possible, but the following call types are some of the incidents we have seen a correlation in mental health and substance use issues.

Call Type	2024 calls	3-year average	Avg. time on scene (minutes)
Disturbances	379	444	31
Mental Health	137	126	34
Suspicious incident	1676	1557	16
Theft	610	591	27
Trespassing	282	286	24
Welfare Check	484	453	20

It should be noted that each of the above calls for service categories increased from 2023 to 2024, except for disturbance calls. Trespassing incidents and welfare checks each increased by over fifty calls per service in each category, while suspicious incidents sharply increased by 406 additional incidents in one year.

The average time on scene does not include the time our officers spend driving to the incident, conducting follow-up investigations and writing reports for these calls for service. For example, the

average time on scene for a theft investigation is 27 minutes. The follow-up for a routine theft investigation could be one to two hours with travel time included. The report writing for a routine theft case could be one to two hours.

Our unhoused population numbers range from four to six during the winter months and twelve to fifteen in the summer months. Our Social Services Team and our partners assist us in finding alternative housing options for the unhoused population. The number of unhoused individuals in our community could increase or decrease depending on unhoused shelter availability, housing options, mental health and substance use services, and the individual's preference to remain unhoused.

The unhoused population, who oftentimes present with mental health and substance use disorders, require a two-officer response to maintain officer safety and the safety of our community. Our officers are tasked with quickly evaluating the situation at the scene, taking the appropriate enforcement action, coordinating for social services, or law enforcement diversion to assist. During the time our officers are on scene, the likelihood of one or both of the officers being called to another priority call for service is high depending on the time of day.

The 2023 community survey of our citizens showed an increased demand in traffic related enforcement, public safety and educational outreach, as well as the visibility of our patrol staff in our neighborhoods and retail areas. We are seeking additional personnel to meet the immediate needs of our community and to maintain a level of service our citizens deserve.

Specifically, our traffic enforcement output increased 5% in 2024. This proactive traffic work was in response to the community survey and was done collectively by our department members. This increase in traffic enforcement also occurred while responding to a 5% increase in calls for service in 2024. Our goal is to increase our patrol personnel to place a greater emphasis on traffic enforcement in problem areas during specific times of the day.

Our current personnel roster has eight officers who are eligible for retirement. Five of the eight officers have between 30-37 years of service. We are challenged as a department to fill our ranks due to normal attrition while balancing the importance of expanding our ranks with new positions to meet the needs of the community. We are confident that our ability to hire new personnel is trending upward. This is due in part to the very competitive pay and benefits the Town invested in through collective bargaining. In one year, we have hired five officers to fulfill our allotted personnel capacity.

Resident or Customer Impact

The additional officers will be added to our patrol staffing to enhance proactive traffic enforcement in identified problem areas. This request is in direct response to the community survey asking for increased traffic enforcement and visibility in our neighborhoods, and retail areas.

Police Department

Investment Request: Emergency Communications Dispatcher (2)

Net Budget Request: \$200,594

Gross Request: \$200,594

Additional Revenue: \$40,000

Additional Reductions: \$0

Background

The Public Safety Dispatch Center is currently staffed with one Communications Manager, one Data Support Specialist, four Lead Dispatchers and ten Dispatchers. We are requesting two additional dispatchers to bring our complement to 18 dispatchers assigned.

Justification

The employees of the Communications Division are responsible for full dispatching services to include administrative, non-emergency, and emergency calls for service for the municipalities of Scarborough and Old Orchard Beach. Additionally, they are responsible for answering all emergency calls for the municipality of Buxton. In addition to call taking and reporting, the emergency communications team is responsible for deploying emergency and non-emergency public safety responses to any need. They serve as the contact point for the municipality for any reason during non-business hours while maintaining responsibility for organizing and deploying non-public safety municipal services during these times.

Dispatch Task	2024	Average Duration
911	15,719	Approx. 3 min
Business Lines	65,826	Approx. 3-4 min
Calls for Service Radio Dispatched	57,729	—

The goal is to add personnel to the dispatch center to place more emphasis on the mandatory call processing protocol, which has been in place for several years. The minimum staffing to properly sustain this protocol would be three Dispatchers and one Dispatcher as a call taker.

The protocol requires each call for service to be monitored by at least two dispatchers. One dispatcher processes the call for service, while another dispatcher transmits the call for service via radio to our first responders. When call volume increases, it requires the call taker to also dispatch the call, which causes potential delays and a lower quality of service.

The 2023 Community Survey rated the response times of Police, Fire and EMS between 86-88% favorable. The dispatcher is the first step in the response sequence for our first responders. The call taker model, with the appropriate number of dispatchers assigned to a shift, could dispatch calls for service more efficiently to reduce the response times of our first responders.

Fire Chief Richard Kindelan and I both support this call taking model as we have seen it successfully implemented in other dispatch centers in the State of Maine with the appropriate number of personnel. Dedicating one dispatcher to exclusively call taking during a shift will increase efficiency by being able to focus solely on the details being shared by the reporting party.

We currently have one vacancy in dispatch and four dispatchers in training. Much like the Patrol Division, the Communications Division also had five vacancies during most of 2024. The collective bargaining agreement has helped us to make positive steps towards reaching full complement in dispatch.

Resident or Customer Impact

The additional dispatchers will better distribute the workload in the dispatch center by implementing the call processing protocol with the appropriate number of dispatchers to increase call taking efficiency. This enhancement is directly related to the community survey with the goal to improve upon the favorable rating of response times for our Police, Fire and EMS personnel.

Community Services

Investment Request: Childcare Coordinator

Net Budget Request: \$61,168

Gross Request: \$85,168

Additional Revenue: \$0

Additional Reductions: \$28,000

Background

Scarborough Community Services has operated with one full-time manager and two full-time child care coordinators, but with four separate child care sites (Wentworth, Blue Point, Eight Corners, and Pleasant Hill), that leaves one site out of the rotation of oversight on any given day. It leaves no room for full-time staff to step away from site supervision to ensure that the part-time staff remain up to date with training, development, and safety procedures, as well as little time to stay ahead of seasonal hiring and retention. For example, when our Intergenerational Programs Manager is directly managing and overseeing the Grades K-6 camp for the entire 8-week duration, 40 hours per week, it leaves very little time and turnaround to hire the appropriate amount of staff for the beginning of the school year, requiring even more full-time Community Services staff to step in to assist in AM and PM care, as well as the Plover program.

Justification

With Scarborough's continual growth, the demand for all child care related programs has increased beyond the capacity to service. The addition of this position is integral in our daily operations in our school-year child care program, as well as our 8-week summer camp program. Staffing within the child care industry is a national issue. The inability to hire qualified part-time staff with consistent schedules, as well as the lack of available applicants, has resulted in our Intergenerational Program Manager overseeing and operating site-based programs on a daily basis throughout the school year and summer camp programs. This has restricted our department in other necessary areas such as staff training and development, safety and policy evolution, and recruitment/retention of current and prospective employees.

By adding this position, it would allow us to have a qualified adult staff person at our largest site, which is Wentworth School. This site has 100 participants on any given day during the school year and oversees 7-8 additional site staff daily. At the Wentworth site, we do not have a dedicated adult coordinator and rely solely on high school-aged staff. This position would also be a dedicated summer camp leader for our Grades K-6 summer day camp, ensuring a fun and safe camp experience for over 350+ Scarborough students and overseeing 65+ summer camp counselors and group leaders. In addition, they would have the ability to directly support our Plover program during the school day between child care shifts or assist in Hub operations with passports and Active Adult programming. In order to continue to meet the demand of the growing community and need for space in our programs, this position would allow Community Services to create capacity from within and continue to provide an essential service to families.

Resident or Customer Impact

An increase in staffing levels would provide a qualified consistent staff site leader at our largest site with our most participants both during the school year and summer camp programs. It would provide stability similar to all other child care programs and allow for our Intergenerational Manager to stay ahead of seasonal hiring and retention and provide stronger standards for our child care programs.

Public Works

Investment Request: Maintenance Worker I

Net Budget Request: \$83,558

Gross Request: \$83,558

Additional Revenue: \$0

Additional Reductions: \$0

Background

Since 1996, Scarborough's Public Works Operations have maintained relatively stable staffing levels, consisting of 16 funded crew member positions, one lead foreman, and one supervisor. Workload allocation follows a seasonal structure, with summers dedicated to road maintenance, infrastructure upkeep, beach cleaning at Pine Point and Higgins Beach, and cemetery maintenance, while winters focus on snow plowing, tree trimming, and traffic signal maintenance.

Over the past three decades, Scarborough has undergone substantial growth, accepting nearly 50 miles of new public roads. This expansion, coupled with an increasing population, has led to heightened demands on Public Works services. Despite these increased demands, staffing levels have remained static, posing challenges in maintaining consistent service levels aligned with residents' expectations. Consequently, there has been a growing reliance on contracted work and seasonal employees to prevent service declines, especially during winter maintenance operations.

Adapting to a changing climate over the last decade has further strained resources. Warmer winter temperatures have resulted in fewer large snow events but more frequent icing events, requiring increased road treatments and responses from crews. Last winter, significant flooding stretched Public Works crews to capacity on several occasions. Similarly, intensified summer rainfall patterns and aging infrastructure have overwhelmed storm drain systems, impacting both public and private properties. Additionally, warmer ocean temperatures have led to more frequent and severe algae blooms, necessitating heightened beach cleaning efforts to maintain resident and tourist satisfaction.

Historical and current staffing assessments underscore the necessity for increasing staffing levels to adequately meet Scarborough's evolving public works demands. In response to these challenges, Public Works is requesting an additional Maintenance Worker position to ensure the department's ability to effectively serve the town.

This request aims to address Scarborough's growing infrastructure needs and maintain the high level of service residents expect from their Public Works department.

Justification

This position is needed not just for winter but all year long. Currently winter operations involve all full-time operations personnel as well as four (4) part time employees, two (2) on-call employees, and three (3) contracted loaders to cover all of the plow routes in the Town. The Town has accepted close to 50 miles of new roads without adding any employees. This causes plow routes to expand or the need to add additional contractors and significantly reduces the level of service provided during winter operations. There are times when an employee might be out sick, injured, or on limited vacation. When this occurs, there is an open route that other employees have to cover, again reducing the level of service during plowing operations. The new position will help bridge that gap and maintain our level of service. The position would be useful in our efforts to put more than one work crew on the road during spring, summer and fall operations. We limit vacation time in the winter in an effort to maintain our level of service. By doing this more vacation time and comp time is used during the non-winter seasons.

Resident or Customer Impact

The new position will be critical to maintain and improve our level of service for both internal and external customers.

Municipal Facilities

Investment Request: Building Maintenance Worker II

Net Budget Request: \$92,067

Gross Request: \$92,067

Additional Revenue: \$0

Additional Reductions: \$0

Background

The Facilities division of Scarborough Community Services oversees the maintenance of Town Hall and the Public Safety Building, as well as the coordination of cleaning, maintenance, and repair supplies, at these locations, plus for the Oak Hill Professional Building. Due to this division being understaffed for so long, plus with the addition of the new Public Safety building added to the list current staff are just able to get by completing the basics. This leaves us to contract out repairs, resulting in higher costs to the Town. If we have skilled staff within our own staffing structure who can do the repairs and projects necessary to keep heavily-used and aging buildings in proper working condition, we will save money and time in the long run.

Justification

This position is being proposed to meet the increased demands for general maintenance and repair throughout all of our municipal facilities. Having a skilled technician would allow for quicker response to items that need addressing, as well as create an opportunity to schedule maintenance before repair and full replacement may be required. The addition of this position would also create additional capacity within the present staff to better meet the existing pressure of higher foot traffic within Town Hall and the Public Safety building. This position would move us one step closer to creating a Facilities Maintenance division to support department heads throughout the municipality.

Resident or Customer Impact

An increase in a skilled maintenance staff would have a more direct impact on the aesthetics of our public buildings and complete maintenance work more efficiently and effectively.

Clerk's Office

Investment Request: Assistant Town Clerk (PT to FT)

Net Budget Request: \$42,351

Gross Request: \$81,795

Additional Revenue: \$0

Additional Reductions: \$39,444

Background

Since February 2023, there have been 3.5 positions in the Town Clerk's Office: Town Clerk, two Deputy Town Clerks, and an Assistant Town Clerk. After the Town Clerk transition in January 2025, staffing levels dropped down to 2.5 positions. If this request is approved, it would bring the Town Clerk's Office in line to where it had been in 2009, with 3 full-time positions.

Justification

This request is to increase the current part-time position to full-time. The responsibilities in the Clerk's Office are ever increasing with additional licenses being developed (approximately 350 short term rentals, 1,200 business licensing, and mobile food vendors) as well as the increase in our Election responsibilities. Having the part-time position move to full-time would allow the Office Staff to have delegated duties [e.g. Licensing Administrator and an Election Administrator, with cross training].

There may be times that we do not have a continuous line in the Town Clerk's office; however, there are responsibilities that are behind the scenes. This includes, but is not limited to, correspondence of numerous license renewals; review and issuance of license applications; license follow up, preparing committee agendas, packets and minutes; state reporting; election duties that require months of prep prior to absentee voting and election day; and FOAA Requests. The responsibilities for processing cannabis license applications has changed considerably and the office now plays a larger role (i.e. participates in inspections, manages most all communications with licensees, etc.).

In 2023, there was a substantial increase in beach pass requests which in turn required two staff on the counter at all times and additional passes to be ordered. When the part-time staff person was not in the office, the one other full-time person would have to stop what they are doing to assist at the counter.

Resident or Customer Impact

An increase in staffing levels would guarantee two staff members on the counter at all times of the day. During busy periods, there would be an opportunity for an additional staff member on the counter to assist with the line and reduce wait times for customers.

Human Resources

Investment Request: Human Resources Assistant (PT)

Net Budget Request: \$32,233

Gross Request: \$35,233

Additional Revenue: \$0

Additional Reductions: \$39,444

Background

We currently have a 0.75 Director, a Deputy Director and a Payroll Coordinator. Our payroll coordinator processes payroll while the Deputy Director handles everything recruitment related (80% of the workweek), onboarding and offboarding employees, workers compensation claims, FMLA requests, and other day to day operations. We have had a 15% increase in town staffing over the last 5 years, while the HR staffing level remains the same.

Justification

This position is being proposed to meet the demands of town departments. The responsibilities in the Human Resources department are increasing with the additional staffing increases in various departments. By providing this position it provides internal capacity for essential support to the Director and Deputy Director of Human Resources by assisting with day to day operations and contributing to a more efficient and effective department.

By adding this position, we feel we can utilize this position in various capacities including an alternate to processing payroll, to assist with implementing an electronic filing system, assisting with onboarding new staff, assisting with assigning and tracking required annual staff trainings, assisting employees with questions regarding pay and benefits, and assisting with recruitment efforts.

Resident or Customer Impact

An increase in staffing levels would improve our level of service for our internal and external customers by providing more expeditious replies via phone and email.

Notes

The **Gross Request** represents the total cost for the position which will include salary, medical insurance, retirement, fringe costs and any required equipment at the highest potential cost. Actual cost of the position will depend on the candidate's enrollment in medical insurance election which may vary from \$1,500 to \$22,000 and retirement plan election which could vary from 0% to 14.2%.

The **Net Budget Request** represents the Gross request less any reductions in part-time or existing budget and additional associated revenue.

Tax Increment Financing Revenue

Economic Development TIF Districts

Tax Increment Financing (TIF) is an economic development tool administered by the Town in partnership with the State of Maine. TIFs allow municipalities to maximize tax shelter benefits and leverage property taxes generated by specific projects within a defined geographic district. The Town of Scarborough has two active economic development TIF districts:

Downtown Omnibus TIF

Designated area encompasses nearly 1,000 acres, with the municipal campus in the center, Oak Hill to the north, and The Downs to the south. It also includes a small section of Route One in front of the municipal campus. The Downtown TIF is active for a 30-year term, expiring 6/30/2049.

Haigis Parkway TIF

Designated area encompasses Haigis Parkway and a section of Payne Road. The Haigis Parkway TIF is active for a 30-year term, expiring 6/30/2033.

The taxes paid on the increased assessed value (new growth) in these districts can be used for qualified municipal project costs, including certain improvements related to traffic, environmental infrastructure, and specified facilities. TIF revenues may also be utilized to fund economic development costs permitted by the Maine Department of Economic and Community Development (DECD), outlined in the respective TIF approval documentation.

TIF Revenue Uses

The statute, administered by DECD, dictates the allowable uses for TIF Revenues (30-A § 5225). Strategic use of TIF funds can help offset annual budget impacts with eligible project costs that fall within one of the following categories:

- **Operating Costs**
- **Capital Investments**
- **Debt Service Repayment**
- **Credit Enhancement Agreements** (with District Developers)

This exhibit outlines proposed FY26 TIF revenue uses for each district and a three-year lookback summary of TIF revenue use.

EXECUTIVE SUMMARY**

Superintendent's Introduction

Leadership Council's Proposed Budget for FY26

Dear Members of the Scarborough Community,

As we navigate the challenges and opportunities ahead with the upcoming FY26 budget, we are reminded of the strong ongoing support and commitment that our community has consistently demonstrated over the last several years towards our students' education. Together, we are strengthening our school community, fostering deeper connections, and shaping a shared vision for the future of Scarborough Schools.

At the heart of our work is a clear mission: *to create a safe, inclusive learning environment where every student is empowered to grow into a lifelong learner and engaged member of society*. To achieve this, we remain focused on key priorities that support student success and well-being from kindergarten through high school.

Our ongoing efforts include:

- **Fostering Inclusion & Belonging** – Creating a school culture where all students and families feel valued and supported, while integrating aligned curricula and professional development to enhance students' mental and emotional well-being.
- **Building Strong Academic Foundations** – Strengthening core learning at every grade level by closely examining student achievement data and continuously refining our curriculum.
- **Providing Personalized Learning Support** – Expanding a multi-tiered system of supports (MTSS) to meet the diverse needs of our students.
- **Planning for the Future** – Collaborating with town leadership, the Board of Education, the Town Council, and the School Building Advisory Committee to advance a strategic K-8 building project that meets the evolving needs of our growing community.

In preparation for the upcoming budget cycle, our Leadership Council has worked diligently to develop a fiscally responsible proposal that balances essential investments in education with the careful stewardship of our community's resources. For FY26, we anticipate a net General Fund expenditure increase of 6.82%, which includes:

- Maintaining essential staffing and services
- Meeting contractual staff compensation commitments
- Addressing projected increases in insurance costs
- Ensuring smooth and effective school operations aligned with student enrollment needs

We encourage you to visit our website to explore the proposed FY26 budget details and learn more about how we are prioritizing student success while remaining mindful of our community's financial realities. This budget represents a thoughtful and responsible investment in our students, educators, and schools.

Your support and engagement are invaluable as we work together to provide a high-quality education for all students in Scarborough.

With gratitude,

Diane Nadeau, Ph.D.
Superintendent of Schools

Executive Summary of the Proposed FY26 Budget

We are pleased to introduce to you the proposed FY26 budget for the Scarborough Public Schools. This summary is intended to provide readers with a basic understanding of the factors involved in this year's budget development process, and is followed by a more detailed view into our schools and departments.

How the Budget Proposal Was Developed

This budget proposal is the product of the collective work of school and district level leaders of the Scarborough Public Schools' Leadership Council. Following our annual budget development protocol, the Leadership Council assessed the impact of past investments and analyzed current use of resources in a months-long, multi-phase process to develop a FY26 budget that is both fiscally responsible and aligned to our district priorities and goals. This year's budget proposal reflects consideration of resources needed to meet the needs of an increasingly complex student population, as well as to navigate the pressures of a volatile economy and a challenging labor market.

Leadership Council process

The Leadership Council's budget development process begins with our "level services" budget – the resources required to maintain the same programs and services we now provide, at a projected cost for the coming year. Analysis of the level service budget is carried out through multiple leadership work sessions to review educational programs, staff resources, instructional supplies and services and district-wide operational costs. Input from school staff and team leaders and examination of student data are used to inform decision making.

Individual sessions of line item budget review are held with each school and department, identifying areas of continued need, potential reduction, and reallocation of resources to create the smallest possible increase in non-personnel accounts, and offset contractual increases in salaries, wages & benefits. Investments in new staff, programs and services are proposed by school leaders, and prioritized by the full Council to ensure that only the most critical items are brought forward in the most cost-effective way possible.

The Leadership Council's FY26 Budget Book is designed to provide the community with detailed information on the current state of our students, staff and programs. It outlines our goals and priorities for the coming year and the resources we will need to carry on the important work of the district, even as we work with Town leaders to create a bottom line that will not put undue pressure on Scarborough taxpayers.

Goals & Strategic Planning

School leaders engage annually in review and development of strategic goals both for the district as a whole and for each school individually. Our Mission, Vision and Values are the foundation for decision making throughout the district, and budget planning is focused on the resources needed to carry out these goals.

SPS Mission Statement:

The fundamental purpose of the Scarborough Public Schools is to provide a safe and inclusive learning environment where each and every student is empowered to be a resilient, lifelong learner who is prepared to engage as a contributing member of society.

SPS Long-Range Vision for Continuous Improvement:

Scarborough Public Schools will be a high quality, forward-looking public school district known for its whole child approach that, together with dynamic academic programs, enriching co-curricular experiences and a vibrant learning community that challenges students, excites their imagination and instills excellence in thought and action while preparing them for highly engaged and fulfilling lives.

- **Strategic Target Area 1: Effective Teaching and Learning**

Provide world-class, student-centered teaching and learning to prepare every student to thrive in learning, career, and life.

- **Strategic Target Area 2: Safe and Inclusive Schools**

Provide welcoming and inclusive learning environments that promote safety, foster meaningful relationship building, and enhance the well-being (physical, social, and emotional) of students and staff.

- **Strategic Target Area 3: Global Citizenship**

Develop, in each student, the skills for engaged citizenship (locally and globally), the appreciation of one's own culture and those of others, and the disposition to use individual talents to make positive changes in the world.

- **Strategic Target Area 4: Community Engagement**

Partner with the Scarborough community by responsibly managing school resources, making better use of community and business resources, and regularly communicating progress on school improvement efforts.

SPS Core Value Statement:

We believe that decisions in planning, instruction and continuous improvement of our schools must be made with students' individual needs and interests as our primary consideration.

2024 -2025 District Goals

With each of our strategic targets in mind, school leaders have developed these goals for the 2024-25 school year:

Goal #1

Develop and implement a plan to address facility constraints relative to community growth and student programming needs.

Goal #2

Refine and monitor multi-tiered systems of support ensuring equitable access to resources to enhance academic growth and personal well-being for each and every student.

Goal #3

Foster a welcoming and inclusive school environment by prioritizing a Social-Emotional Learning (SEL) approach with a Diversity, Equity, and Inclusion (DEI) lens.

FY26 District Budget Priorities

Budget Priority #1

To retain our existing staffing and programming levels so that we are able to meet the growing needs of our students, and maintain the high-quality services our community has come to expect from our school system.

Budget Priority #2

To ensure that our facilities needs are met in order to provide safe and engaging learning and working environments for our students and staff.

Per Pupil Expenditures

Each year the Maine Department of Education publishes a report of actual expenditures by each district in the prior fiscal year, with expenses broken out into the statutorily defined budget categories that are approved by local voters. This data shows that Scarborough compares well with our neighbors in average spending. More importantly, Scarborough consistently targets our budgeted funds to categories that have the most direct impact on students. **(See Appendix for 10-year chart of per pupil expenditure data.)**

Direct Instruction

5th of 13 districts, 23% above state average

Special Education

3rd of 13 districts, 19% above state average

Transportation & Facilities

13th of 13 districts, 42% below state average

School & System Administration

13th of 13 districts, 32% below state average

Budget development factors

One of the biggest challenges in presenting school budgets to our community is the vast difference between what many adult community members recall experiencing in school and what schools are now expected to provide for our students. The budget development process reflects...

THE TOP 10 WAYS THAT EDUCATION HAS CHANGED

School Safety including evacuation, lockdown, active shooter planning, and comprehensive emergency management planning

Instruction - teaching tools and methodology changes: no longer “teaching to the middle” or teacher in front of classroom and students as passive learners

Level of Need & Number of Students Identified Under Special Education and associated federally-mandated specialized instruction (IDEA)

English Language Support and cultural integration for multilingual learners (over 26 current languages at SPS)

Federal Mandate to Provide Free Breakfast & Lunch for all students; summer feeding program

Curriculum state-mandated curriculum

Federal Mandate to Provide Extra Supports for any struggling student (MTSS)

Preventative Education Mandates such as child abuse prevention and drug abuse prevention

Increased Graduation Requirements

Assessment & Accountability - both state and federal measures (currently Maine Through Year Assessment, MEA Science, and NAEP Testing)

Personnel Costs Make Up 81.4% of the School Budget

Human resources are our largest and most valuable investment. With over 600 FTEs (full-time equivalents), the School Department is the third largest employer in Scarborough. 81.4% of the FY26 school budget is allocated toward salaries/wages and benefits for our staff, and as most employers in our region are aware, the combination of a tight labor market with nationwide inflation has created upward pressure on personnel costs in recent years.

With a few exceptions, School Department employees are represented by six employee bargaining units. Most salary/wage and benefit structures are determined through collective bargaining. The Teachers & Professionals, Educational Support Staff, Bus Drivers, Custodians and Food Service Specialists are represented by the Scarborough Education Association (SEA), members of the Maine Education Association (MEA) and affiliated with the National Education Association (NEA). The School Administrators group and the Maintenance Workers are independent bargaining units.

Since the start of the last budget cycle, collective bargaining agreements (CBAs) defining wages and benefits for 2025-26 have been finalized with our Education Support Professionals, Bus Drivers, Custodians and Food Service Specialists, so the budget impact of these group can be accurately forecasted in our projections. Wage increases negotiated for these critical employee groups have already had a positive impact on the number of applications received for open positions as well as our capacity to compete with other employers in hiring, improving our ability to address the chronic staffing shortages of recent years.

The current CBA for our largest bargaining unit, covering teachers and other professional/certified staff, expires on June 30, 2025, as do the CBAs for School Administrators and Maintenance Workers. The Board has recently entered into negotiations for the Teachers & Professionals CBA, so we may have updated projections by the time of the budget second reading.

When a CBA is due to expire, the negotiations team undertakes an analysis of local labor markets to see how Scarborough compares, to ensure that we are able to attract and retain qualified employees. During the budget process, we must allow for sufficient funding to permit the School Board and the union to bargain in good faith, but we typically do not have firm wage and benefit levels established at the time of the first budget presentation. In this proposal, 66% of the \$4,838,933 total increase in the FY26 Level Services budget can be attributed to anticipated contractual salary and wage adjustments.

Other Personnel Cost drivers

- **Anthem health insurance** premium increases are one of the major factors in our annual budget estimates. We will learn the highest possible state-wide rate increase in late March, and specific district rates should be available in early April. Our current projections are estimated at +8% based on prior year averages, creating an overall budget increase of \$598,000. The total value of 1% change in Anthem premiums is about \$75,000 in this projection, so rate adjustments have a significant budget impact.
- A new state statute implemented last year created a **Paid Family Medical Leave program**, to be funded by contributions from all Maine employers and employees. Contributions to the fund began on January 1, 2025, and the impact will be fully felt in the FY26 budget when all current school employees will have this mandated withholding. The employer share of this new payroll tax is 0.5% of all wages paid, which equates to \$224,000 in our Level Services budget.

FY26 Budget Proposal - Executive Summary

- As we have seen in recent years, our funding request for **Special Services** reflects a significant increase in personnel costs. This budget proposal includes the addition of 9 new education technician positions and a half-time Speech/Language Therapist position to provide the services already identified as required by the continued high number of incoming Kindergarten students with significant needs for support.

Of 2,867 students currently enrolled, 1,088 (38%) receive instructional support through Special Services			
Program	# students	Program %	% of all students
Special Education	469	43.1%	16.4%
504	282	25.9%	9.8%
GATES	223	20.5%	7.8%
MLL	114	10.5%	4.0%

Enrollment and Class Size

In March of 2023, the district commissioned an updated enrollment study to help us project expected student numbers for use both in planning for the upcoming building project and for year-to-year budget decisions. Following the disruptions of the pandemic school years, our student numbers have rebounded and we are confident in the way the projections are tracking with our actual experience.

School leaders use enrollment projections to predict staff levels needed to meet student/staff ratio aims for effective teaching and classroom management. For FY26, shifts in projected enrollment have allowed us to plan to leave two classroom positions (vacant due to retirement) unfilled at the elementary level.

Kindergarten projections can be challenging – the 2023 enrollment study anticipates a kindergarten class in the range of 205 students. Pre-registration opened in late January, and to date we currently have 143 students pre-registered as follows:

Blue Point	42
Eight Corners	53
Pleasant Hill	48

We will continue to monitor this data closely to assist us in making decisions about the number of kindergarten classes that will be needed for the coming school year at each site.

FY26 Budget Proposal - Executive Summary

District Class Size – Student/Teacher Ratio Aims

Phase Level	Aim	2022-2023 Actual (avg)	2023-2024 Actual (avg)	2024-2025 Actual (avg)	2025-2026 Proposed (avg)
K-2	16-20	16.6	16.2	17.3	17.4
3-5	18-22	20.6	20.8	19.7	19.4
6-8	20-24	20.3	19.9	21.3	21.9
9-12*	20-24	15.3	14.8	15.4	15.0

*HS class sizes vary widely depending on subject and course level; they range from 1 to 41 in 2024-25.

Non-personnel Costs

Budget estimates for non-personnel costs have been developed using actual expenditures for FY24 (the most recent available full year), projected expenditures for FY25, and input from vendors and industry analysts. Despite some relief in expected price increases, we are still contending with supply chain challenges; delivery times for specialized materials and equipment are extremely long and require strategic planning to schedule necessary replacement and repairs. As with the concern over Federal grant funds noted below, cost increases caused by new tariffs are a potential area of impact.

Notwithstanding these challenges, our focus in projecting costs for supplies and services in FY26 has been to hold or reduce estimated spending as much as possible to offset the required increases in personnel costs. As you can see in the chart of General Fund Expenditure Types on page 19, many of the non-personnel expense areas have either been reduced from FY26 or show a minimal increase.

Along with the increase in salaries and wages described above, one additional budget driver of note in non-personnel costs is **Debt Service**. In the FY25 budget, we saw a significant decrease in debt service costs due to delay in the prior year's sale of bonds and to the retirement of a large bond issue. For FY26 we will see the reverse of that situation, with an increase of \$337,352 reflecting the new cost of bonds issued since FY25.

Pre-K Program Initiative

The FY25 operating budget included funding for the first time for Pre-K programming, an initiative that had been in development for several years. Funding included in the FY25 budget (\$158,901) represented the operating cost for a classroom of 16 pre-K students at the Shooting Stars program. This collaboration has been made possible through a Maine Department of Education grant, and represents a public-private partnership between Scarborough Public Schools and the Shooting Stars Program, who collectively recognize and value a community approach to comprehensive early care and education services for young children. Because this grant will be provided over a two-year period, no local funding is included in the FY26 budget for the continuation of this program.

Operating Efficiencies – Shared Services

The School Department works continually to find efficiencies in our use of resources, deployment of staff, organization of work/work systems, and integrating and leveraging technology. As a Municipal school district, we are fortunate to have access to a number of successful shared services arrangements, both with the Town of Scarborough and with other regional school districts.

School/Municipal Shared Services

- Our **Information Technology (IT) Department** is a Town/School department. The IT staff are Town of Scarborough employees but the School Department pays a portion of their salary and benefits. This cost is set by the Town and appears as an expense in the school budget and a revenue in the Town budget. As a shared service, the IT department benefits Scarborough by creating economies of scale through cross-trained staff, multi-tasked resource distribution, volume purchasing and a communal knowledge base. Software and hardware costs are allocated appropriately to Town and School accounts depending on functionality and users.
- The **School Facilities Department and Community Services** collaborate both on the rental of school facilities to outside groups and on the use of school space by the before- and after-care programs. Community Services also works with the School Athletics Department to schedule, maintain and share use of fields and facilities. As with the IT department, in FY24 the School Department began reimbursing the Town for wages and benefits for two Community Services staff members.
- The School Department's **Central Office** services are located in Town Hall, avoiding the cost of a separate building.
- Because the School Department falls under the Town's tax ID, we rely on the **Town Finance Office** for financial services including banking and payroll tax reporting, so our own Business Office staff is very small compared with that of many other school districts.
- School Department buses and trucks are cared for by the **Scarborough Public Works Department**. Public Works staff take ownership of our vehicles in a way that no outside contracted company could be expected to, and at a considerable savings over commercial vehicle maintenance costs.
- School Resource Officers are **Scarborough Police Department** employees assigned to district schools, to assist school administration in maintaining a safe and secure environment, and provide an opportunity for our students to learn from and develop positive relationships with law enforcement personnel.

Regional Shared Services

In June of 2019, Scarborough voters approved our school district's membership in the Greater Sebago Education Alliance Regional Service Center (GSEA RSC). The Greater Sebago Education Alliance (GSEA) is a group of 12 separate school districts, including Scarborough, who partner to obtain better deals on certain goods and services and in order to receive additional State subsidy (\$80,652 for FY26). This organization leverages Department of Education incentives to formalize ways in which we have been collaborating with our regional partners for years, and by sharing services with other GSEA member districts we are able to access expanded professional development opportunities and greater purchasing power.

Budget Revenues

In Scarborough, the majority of educational funding responsibility falls on the shoulders of our local taxpayers. Typically, Scarborough's property valuation compared with other towns and school districts across Maine ensures that we receive a relatively small amount of education subsidy. At the current preliminary level, FY26 state subsidy will **represent 12.6% of our operating budget revenue in this proposal**.

As shown in the Revenue Summary on page 18, most of the non-tax funding for schools in Scarborough comes from state General Purpose Aid, also called state subsidy. Based on the preliminary allocations provided to schools across Maine in January, Scarborough will see an increase of just over \$1 million from FY25's subsidy amount. While not as significant a jump as we saw in FY25, this is still a welcome increase which is primarily due to these factors:

- Many Special Education costs are directly reimbursed by the Maine Department of Education, so an increase in spending creates an increase in GPA in subsequent years. Our Special Education allocation went from \$10.6M in FY25 to \$11.3M in FY26 (equivalent to an actual subsidy increase of \$91,000).
- The introduction of a new Economic Status form by the DOE in 2024 has allowed us to capture a higher level of allocation for our economically disadvantaged students, after several years of inadequate data collection through the School Nutrition program due to the availability of free meals for all.

FY26 Budget Proposal - Executive Summary

Use of Fund Balance

Under Maine statute, school districts are permitted to carry over up to 5% of operating budgets each year, allowing them to maintain a cushion against economic uncertainty, and to use surplus funds strategically to reduce the burden of increased costs on local taxpayers. The unexpected influx of federal grant funds during the COVID pandemic increased our ability to save local tax dollars and invest them in future budget years. The FY26 budget proposal allocates \$1,500,000 of fund balance (prior year-end surplus) as revenue, representing 2.1% of the total operating budget.

General Fund Budget Surplus

	FY19	FY20	FY21	FY22	FY23	FY24
FY expenditure budget (K-12 operating)	48,526,504	51,426,993	53,311,243	55,683,014	58,801,486	62,052,141
FY starting fund balance	329,926	193,322	648,587	2,049,619	2,314,022	2,186,133
FY surplus/deficit created	213,396	1,155,265	2,401,032	2,364,403	2,172,111	2,269,865
Transferred to Capital Reserve Fund	0	0	0	(600,000)	(800,000)	(800,000)
Allocated to next FY revenue	(350,000)	(700,000)	(1,000,000)	(1,500,000)	(1,500,000)	(1,500,000)
FY ending fund balance	193,322	648,587	2,049,619	2,314,022	2,186,133	2,155,998
\$ change from prior year	(136,604)	455,265	1,401,032	264,403	(127,889)	(30,135)
Year-end balance as % of FY budget	0.40%	1.26%	3.84%	4.16%	3.72%	3.47%

(Figures for FY25 will be available after June 30. See Appendix for full discussion of School Fund Balance.)

Items Still in Motion

Presenting the School Department budget for First Reading in accordance with the timelines required under Town Charter and Board policy, by necessity, requires us to make a number of cost estimates that will be refined and adjusted as the budget moves through the approval process. It is important to understand that the School Department budget presented at First Reading is a **starting point for public discussion, reflection, and prioritization** by both the School Board and Town Council, and that the budget will be adjusted by School Leaders as better cost/pricing information for the coming year is received. Some examples of these items in motion for FY26 are open collective bargaining agreements, annual contract adjustments to health and dental insurance premiums, workers' compensation and property/casualty insurance premiums, and pending cost estimates from multiple service vendors. This year we will also be monitoring any potential changes in Federal funding for our district.

FY26 Budget Proposal - Executive Summary

Federal Grant Funding

Since the transition to a new administration in Washington, the reliability of federal grant funding for education has become an area of concern. While this FY26 budget proposal does not include expenses currently funded by federal grants, we are aware that some of these expenses, which we consider to be Level Services, may need to be addressed instead in our operating budget. We anticipate that this will be an important topic of conversation during the budget development process, and hope to have more clarity from State and Federal officials prior to final budget approval.

School portion of tax request	56,057,382	59,740,048	3,682,666	6.57%

FY26 Budget Proposal - Executive Summary

The FY26 school operating budget **reduces** FY25 funding:

- \$459,000 for personnel turnover & reallocation of positions
- \$335,000 in multiple line items per Leadership Council review
- \$159,000 for Pre-K Program costs now covered by DOE grant

The **Reduced Level Services budget** reflects over 20 hours of Leadership Council work reviewing individual level services line items by phase & department. In this work we seek to identify shifts in student needs to more accurately forecast the resources required. For non-personnel accounts we do our best to hold or reduce estimated spending to offset necessary increases in personnel costs.

Reduced Level Services				
<i>adjustments for projected staffing changes & grant-funded expenses</i>				
Expense Type	FY25 APPROVED BUDGET	FY26 REDUCED LEVEL SERVICES	\$ CHANGE (from FY25)	% CHANGE (from FY25)

FY26 Budget Proposal - Executive Summary

The FY26 school operating budget **proposes added** funding to:

- **Meet the required needs of incoming Special Education students**
 - 9.0 Special Services Ed Tech 3 positions (\$495,000 wages & benefits)
 - 0.5 Speech/Language Therapist position (\$50,000 salary & benefits)
- **Support critical IT systems and software**
 - 0.5 Application Specialist - reimbursement to Town/Shared services (\$54,000)

FY26 Budget Proposal - Executive Summary

In a typical budget year, the Leadership Council presents information on new proposals which were considered but ultimately not adopted for inclusion in the final budget (“Unmet Needs”). This year, although we engaged in our usual proposal process, we have decided as a team not to bring any of these items forward apart from those required for Special Education services and IT support. We recognize that with the budget increase we face by maintaining level services and adding required investments, it would be difficult for the community to support requests for additional new funding. Our focus instead is on making the best use of the resources we currently have to meet the needs of students in the coming year.

The outcome of this year’s Leadership Council budget development process is a proposal that we believe will address the critical needs of our district while acknowledging the capacity of our community to provide the necessary resources.

Leadership Council’s FY26 Budget Proposal	FY25 Approved Budget	FY26 Proposed Budget	\$ Change	% Change
General Fund Operating Budget	65,828,078	70,784,764	4,956,686	7.53%
Non-Property Tax Revenues	9,770,696	10,904,747	1,134,051	11.61%
Tax Request (Net Operating Budget)	56,057,382	59,880,017	3,822,635	6.82%

- **General Fund Operating Budget:** the portion of the school budget that is voted on by town referendum each year (K-12 operating).
- **Non-tax Revenues:** include state subsidy for education, miscellaneous fees and reimbursements, and fund balance (outlined in greater detail on page 18).
- **Tax Request/Net Operating Budget:** represents the balance of funds required to support the proposed school budget. This is NOT the projected increase in property tax rate. This figure becomes a factor that is incorporated into the Municipal calculations, which then guide the setting of the tax assessment and tax rate.

**Total new investment of \$599,000 represents 0.85% of the proposed
FY26 General Fund operating budget.**

**Net new investment of \$306,241 (after reallocations) represents 0.43%
of the proposed FY26 General Fund operating budget.**

SCHOOL OPERATING BUDGET DEPARTMENT REPORTS

Primary Schools - Grades K-2

Scarborough Primary Schools – It all starts here!

Learning *begins* for all at our three Primary schools: Blue Point, Eight Corners, and Pleasant Hill. We program for our youngest students across three buildings separated by geography, but united by dedicated staff and shared goals. Each building is faced with individual challenges posed by aging facilities and spatial limitations. Collectively, we are challenged to educate students who will hold the jobs of tomorrow in facilities designed for over sixty years ago. Our facilities are at capacity, in terms of space and instructional programming. In order to provide high quality education and early intervention for students, investments will need to be future-focused.

K-2 students and families continue to present with a wide variety of backgrounds, strengths, and challenges. The need for community resources continues to be focused on the school for social-emotional needs, mental health needs, basic needs, and many other basic needs beyond educational achievement. Supports like school social workers, school counselors, behavior consultants, instructional coaches, academic support staff, educational technicians, and other key support roles are necessary to address the diverse needs of today's K-2 classroom. Maintaining a reasonable class size for elementary school teachers continues to be critical as we strive to meet the needs of *each* student.

Many different home languages are spoken including but not limited to Spanish, Portuguese, French, Lingala, Creole, Khmer, Vietnamese, Mandarin, ASL, Kinyarwanda, Swahili, Marathi, Hindi, Tigrina, Greek, Albanian, and Telugu.

- 4 % of K-2 students have 504 plans (5% including current referrals)
- 20 % of K-2 students have IEP plans (22% including current referrals)
- Nearly 24% of students across K-2 are receiving social work services.

- 85% of K-2 students performed on or above grade level in reading, as of the spring 2024 iReady administration.
- 76% of K-2 students performed on or above grade level in math, as of the spring 2024 iReady administration.

18 of the 37 total primary homeroom classrooms (49%) are in portables (PH: 4, EC: 10, BP: 4)

SUCSESSES & ACCOMPLISHMENTS 2024-2025

This year, K-2 classroom teachers have fully implemented the MindUP Social Emotional Learning program, including student learning units related to evidence-based CASEL competencies including social awareness, responsible decision making, relationship skills, self-management and self-awareness. These are taught through direct instruction and reinforced on an ongoing basis in every classroom through application and use of common vocabulary.

Each of the K-2 schools has an Early Intervention Teacher. This position provides support to incoming students who have not had any prior experiences with being away from home, in a large group of peers, with expectations that may be very different from home. While enrollment at each school varies, the three Early Intervention Teachers have collectively served 45 students this year with a myriad of skills ranging from school readiness and self-regulation to discreet, foundational academic skills in the areas of literacy and math.

Establishing data teams at each K-2 school has allowed for formal implementation of a structured data review protocol to inform targeted and differentiated instruction for students. We have been able to identify with confidence the students who are below the 3rd quintile (1%-40%) in ELA and Math. Students may be receiving targeted interventions for Reading, Math, Writing, Attention, Self-regulation, and school readiness. To date, 56 students from Blue Point, 61 students from Eight Corners, and 32 students from Pleasant Hill have benefitted from these interventions.

PRE-K PILOT

Scarborough Public Schools entered into a grant-funded Pre-K Partnership with Shooting Stars Preschool for the 2024-2025 school year. Shooting Stars has been providing high quality programming for Scarborough families for many years. Through this collaboration, 16 students have been receiving public Pre-K programming as SPS students. Students were selected in a semi-random lottery to ensure representation from each primary school district (Blue Point, Eight Corners, Pleasant Hill) and district demographics were met.

Pre-K programs require one adult for every 8 students. Two wonderful teachers work with our Pre-K students for five hours each day, five days a week. The curriculum is aligned to the Maine Early Learning and Development Standards and supports Kindergarten readiness. Activities are hands-on, engaging, multi-sensory, and theme driven. Our school nutrition program delivers lunches to Shooting Stars, just like they do to our three primary schools. Transportation is not provided and parents are responsible for drop off and pick up each day.

We anticipate approval for a second year of funding for our Pre-K pilot classroom and look forward to working with the Shooting Stars staff to support Scarborough students!

GOALS & PRIORITIES 2025-2026

To address heightened student academic, behavioral, and social-emotional needs, the K-2 schools look toward infusing additional classroom guidance lessons to support student engagement and positive relationships. 4% of students at K-2 have 504 plans requiring small groups for testing, expected behavior, school adjustment, smaller lunch groups, etc. We'll work to meet these needs through a collaboration between Student Support, Guidance, and Social Work staff.

The K-2 schools have adopted a formal data review protocol to analyze data within newly established data teams. Teams are made up of grade level teachers, along with members of Student Support, Instructional Coaching staff, and School and Curriculum Department Administrators. Looking at up to date whole-school, grade level and individualized data allows us to identify trends and target unique instructional needs for students.

Safety and Security continues to be a high priority for all three K-2 schools. We each have different needs given the different school designs and layouts. Having portable classrooms that do not connect with the main part of the building continues to be a source of concern. All three schools will benefit from adding more cameras both inside and outside the building.

We have an increasing number of students who come to school without basic supplies and support. We work with students and families to help secure winter clothing, school supplies, food, etc. We want all children to feel welcome, included, safe, and secure at school. We want to give them a sense of belonging that allows them to learn to the best of their ability. The Scarborough Nutrition Department coordinates delivery of food. Maine Needs and Project Grace help support the need for clothing, housewares, transportation, financial support, etc.

Wentworth School - Grades 3-5

Wentworth School serves Scarborough's students in grades 3-5 in our state-of-the-art facility. Students work collaboratively in smaller Learning Communities toward academic, physical, and social emotional learning goals while also developing citizenship skills. We are guided by the belief that children display natural exploratory behavior and that self-confidence grows with learning and practicing decision-making. Our dedicated staff nurtures what is unique in each child. Students at Wentworth develop independence, grow as learners through a diverse set of experiences, and delight in the discovery of connections. We are proud that we not only support students' social and emotional learning, but also implement a guaranteed and viable, research-based academic curriculum, and offer diverse courses in the allied arts as well as a wide range of co-curricular opportunities.

- The Wentworth Learning Commons circulation as of 2/26/2025 has checked out 17,151 items and serves over 125 patrons each day! A recent snapshot of circulation found that 87% of 3rd graders, 83% of 4th graders, and 75% of fifth graders had at least one book checked out of the Wentworth Learning Commons, and heading into February break, there were over 900 items checked out to students.
- ALL students at Wentworth engage in coding and engineering in STEM courses, each week, all year, every year!

Panorama Survey data from Winter 2024 that assesses student perceptions regarding 5 key areas of Social Emotional Learning tells us that Supportive Relationships are at 92% favorable! This indicates how supported Wentworth students feel through their relationships with friends, family, and adults at school. 82% of students indicated favorable responses in the area of self-management.

- Spring 2024 Maine Through Year Assessment data indicates that 78% of 3rd grade students, 83% of 4th grade students, and 77% of 5th grade students at Wentworth are at or above expectations in math.
- Spring 2024 Maine Through Year Assessment data indicates that 81% of 3rd grade students, 82% of 4th grade students, and 83% of 5th grade students are at or above expectations in reading.
- According to SchoolDigger.com Wentworth ranks better than 90% of elementary schools in Maine based on analysis of student proficiency in Reading and Mathematics. There are 288 elementary schools included in this analysis.

Students have access to the garden through different avenues. Each year students work on hands-on projects such as laying walkways, building shelves or a mini bridge. Our garden teacher provides lessons on different topics each week during the growing season. Teachers can sign up for classes while other teachers use the garden for a snack break, read aloud or a lesson of their design – in the past year we hosted 168 classroom lessons in the garden!

There are 12 club offerings at Wentworth, allowing for over 700 participants enrolled in an after school co-curricular club or activity this school year!

*Note: Special Ed Specialists & Ed Techs are reallocated among buildings each year based on student needs.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

After examining our data, we used a comprehensive process to select SEL Resources to build emotional intelligence within our school community to support a strong foundation for learning and growth. We selected RULER, an evidence-based social-emotional learning (SEL) program developed by the Yale Center for Emotional Intelligence that focuses on helping individuals of all ages recognize, understand, label, express, and regulate their emotions.

We built an Implementation Team, leaned into the learning through professional development focusing first on Adult SEL in preparation for student implementation. This year, Community Day (each early release day) has been the anchor to our schoolwide implementation. Each Community Day includes a whole school assembly, time for a coordinated in class SEL Lesson, and Community Time through a popular grade level schedule. By integrating RULER into our school, we aim to create an even more supportive environment where individuals are equipped to manage their emotions, build stronger relationships, and improve academic and social outcomes.

We are better able to address complex student needs at the Tier 2 and Tier 3 level with the addition of a 1.0 “WIN (What I Need) Academy” Teacher by supporting:

- Newcomer and SLIFE (Students with Limited or Interrupted Formal Education) unique learning needs;
- Short term support for students new to the district as they transition to specific and rigorous curriculum materials without the benefit of scaffolding by attending a Scarborough primary school;
- Support for students to continue to access their education while navigating long term illness and hospitalizations;
- Support for students returning from extended absence(s) due to health, family needs, or extenuating circumstances;
- Support for students working through school avoidance and chronic absenteeism;
- Additional (Tier 2) support for Executive Functioning and/or SEL needs in a smaller group setting.
- Intensive (Tier 3) support for students who might require targeted personalized learning across content areas

As of March 2025, the WIN role has supported more than 70 students through direct service and consultation.

We have met class size instructional goals with the addition of 1.0 Classroom Teacher. Maintaining class sizes within our target range (18-22 students/class) allows teachers to provide individualized attention, fostering improved academic performance and addressing each student's unique needs. It also enhances student engagement and creates a more positive learning environment by reducing distractions and promoting stronger teacher-student relationships. With more focused instruction and a supportive classroom atmosphere, ensuring class sizes within range contribute to better social, emotional, and academic development for students.

We have expanded opportunities for students to access high quality after school co-curricular club programming. This year club topics included high interest activities from SpeedCubing to Floor Hockey to Legos, Chorus, Coding, Chess and more! In total, this year will include over 700 participants and 36 sessions. This year's budget also enabled us to add a Club Coordinator position to support the quality of programming, enrollment logistics, and day to day management of after school clubs to ensure a positive experience for our students and families. Wentworth Clubs have an enormous return on investment - widespread impact for less than \$35,000 total investment - plus an offset via revenue from participation fees.

GOALS & PRIORITIES 2025-2026

Adequately provide access to Learning Commons resources for 700 students by ensuring a **1.0 Librarian is dedicated to Wentworth School.**

- For many years 1.0 K-5 librarian has worked to support over 1,300 students and teachers in all disciplines, in 6 grade levels across four buildings - an unsustainable model that has resulted in staff turnover and inadequate access to a certified Librarian for our youngest learners. The EPS (Essential Programs and Services) State of Maine funding formula calls for a ratio of 1 to 800.
- This position was approved in the FY25 budget, however we have not yet found a viable candidate for the position. We are actively recruiting, and plan to hire in spring 2025 for the 25-26 school year. Having a skilled librarian dedicated to Wentworth will be a game changer in moving our Learning Commons model forward!

RULER SEL Implementation

Following the successful schoolwide implementation of RULER focused on adult SEL, then schoolwide implementation focused on vocabulary and signature tools, next year we will expand learning opportunities. 2025-26 will include lessons that will further develop emotional intelligence in the areas of self-awareness, self-management, responsible decision making and relationship skills. We will continue to implement signature tools and use Community Day as an anchor for our work.

Expanded Support for students through MTSS

We continue to refine our integrated student response systems at Wentworth School in efforts to provide meaningful and comprehensive student support. We leverage a diversified group of staff, with expertise across domains of learning (reading, writing, math, executive functioning, SEL, etc.) to work in partnership with classroom teachers and curate learning plans that help facilitate improved student outcomes. So far this year, **227 individualized intervention programs** are in place for students requiring additional tier 2 or tier 3 support through general education. Although we pride ourselves in the successful outcomes developed through this process, we acknowledge that there is continued work to be done related to building capacity within our MTSS framework. Looking ahead, we intend to build internal capacity by providing rich professional development opportunities, identifying evidence-based resources and practices across tiers of support, and creating more opportunities to analyze and respond to student data sources.

Curriculum Audit and Professional Development

- Building on our commitment to social-emotional learning, we have also maintained a strong emphasis on growth through a balanced and research-based approach to **academic instruction**. In literacy, we have continued to refine our approach to supporting students' literacy acquisition through the Readers' and Writers' workshop model, supplemented by the implementation of *From Phonics to Reading*. This addition is designed to enhance our literacy instruction, adding foundational support for phonics and phonological awareness. Our shifts in literacy instruction and current math curriculum will be evaluated and reviewed in the coming year to ensure that we are providing the most effective and research-based instructional offerings to all students across content areas.
- Although acquiring a high quality and research-based curriculum is a vital component to delivering successful instructional outcomes, we find that nothing quite matches the impact of meaningful professional development and collaboration. **Time for professional development**, particularly grade level curriculum review time, is always at a premium and remains a priority in order to ensure guaranteed and viable curriculum implementation. Our teachers engage in ongoing reflection of their practices, focusing on student progress, meaningful opportunities for differentiation, and goal-setting to ensure that all learners are supported in reaching their full potential.

Scarborough Middle School - Grades 6-8

Scarborough Middle School serves approximately 650 students in grades 6, 7, and 8. Our students are respectful, energetic, and eager to learn. Grade levels are organized as Learning Communities, where students receive instruction in rigorous core courses from smaller Inquiry teacher teams. English Language Arts (ELA), Mathematics, Science, and Social Studies are considered core courses (taught daily).

Middle School students are also offered additional learning opportunities which include World Languages (French and Spanish) and Allied Arts classes such as Art, Music, Band, Chorus, STEM, Health, and Physical Education. Additionally, Scarborough Middle School currently offers athletics to 7th and 8th graders and several co-curricular activities for all students.

Scarborough Middle School is committed to having multiple structures to support both academic and social-emotional needs for our students. This goes beyond general classroom teachers and school administration:

- Crew Advisory Groups: Crew advisors provide support and encouragement through a variety of activities that address the academic, social, and emotional needs of all students.
- RISE (Re-teach, Improve, Stretch, Enrich/Excel): Students use RISE time to complete current assignments, improve the quality of their work, get extra help, and/or explore content further.
- Math and Literacy Support
- Bridge and Academic Center
- Student Advocacy: Group and individual supports
- Student Support and Intervention Committees:
 - Academic MTSS (Multi-tiered System of Supports) Committee
 - Social Emotional MTSS Committee
 - Attendance Committee

- As of 2/26/25, the Learning Commons has had 7,177 checkouts and 1,357 digital checkouts so far this school year.
- The Learning Commons provides 24/7 access to digital content through our LibGuide pages, BrainPop, the Maine Schools Shared Digital Collection, and databases, including those provided by the Maine Digital Library.

- 72% of 8th grade students performed at or above state expectation in science compared to 44% at the state level.
- On the Maine Through Year Assessment, 82.5% of students scored at or above grade level in reading.
- On the Maine Through Year Assessment, 54.6% of students scored at or above grade level in math.

On the 2025 Winter Panorama Survey that assesses student perceptions regarding 5 key areas of Social Emotional Learning, 87% of our students answered favorably on Supportive Relationships, and 79% on Self Management.

33% of SMS students (222 students) participated in at least one club/activity. 37% of those students participated in more than one club/activity. 62% of 7th and 8th grade students (267 students) participated in at least one athletic sport.

School to home communications are successful. For example, the January 2025 SMS Family Newsletter had an average viewership of 1,886 reads per week.

*Note: Special Ed Specialists & Ed Techs are reallocated among buildings each year based on student needs.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Chorus

With the addition of a part-time chorus teacher we were able to expand the offering of chorus to 6th grade. This resulted in a 150% increase in the number of students taking chorus. Our chorus teacher is working with 100 students this year (6th grade: 50 students; 7th grade: 15 students; 8th: 35 students).

RULER SEL Curriculum

This is our first year implementing with our students this evidence-based approach to social and emotional learning (SEL) that was developed at the Yale Center for Emotional Intelligence. As a staff last year, we developed our own learning of the RULER curriculum and gained an understanding of how to utilize the skills, tools, and strategies. This year, our staff is teaching the RULER lessons to students during our CREW time every Monday. The focus this year is centered around the 4 RULER tools (Charter, Mood Meter, Best Self, and Blueprint).

RULER's mission is to use the power of emotions to create a healthier, more equitable, innovative, and compassionate society. RULER stands for five areas of emotional intelligence: Recognizing, Understanding, Labeling, Expressing and Regulating emotions.

Maine Outdoor Learning Grant (MOLI)

Last spring, we received a \$20,000 Maine Outdoor Learning Grant from the Maine DOE which provided professional development time and resources for teachers to build outdoor learning units.

- The 6th grade science teachers partnered with the Gulf of Maine Research Center to create a unit on crabs for all 6th graders to experience. They completed their fieldwork at Higgins Beach.
- The 7th Grade Integrated Learning Team (piloted program made up of 2 teachers and 45 students) partnered with organizations such as Scarborough Land Trust, Pineland Farms, The Wells National Research Reserve at Laudholm Farms, and the University of New England (UNE)'s Marine Science to create units on Forest Exploration, Maple Sugaring & Maple Syrup Production, The Science of Snow/Extreme Weather in History, and The Estuary.
- All 8th grade students had the opportunity to perform geology fieldwork at Fort Williams in Cape Elizabeth. The focus of the experience was building background knowledge on how the earth has changed. Students examined evidence of seafloor spreading, identified key igneous and metamorphic rocks, predicted the causes of geologic change, and learned about the nearly 500 million-year-old history of Fort Williams.

Movement Break/Recess

Based on student survey data, parent requests and support, and research on student movement, we implemented a movement break/recess for all students in the Fall of 2024. Students have up to 20 minutes of outdoor movement time for free play and socialization during the school day. There are opportunities for students to play basketball, four square, kickball, football, and other self-created activities.

GOALS & PRIORITIES 2025-2026

RULER SEL Curriculum

The focus during the second year of the RULER implementation with students will be for them to build upon the skills they learned in 2024-25 by completing the grade level lessons in the following units:

- Unit 1 Community, Safety, and Climate
- Unit 2 Emotions Matter
- Unit 3 Self-and Social Awareness
- Unit 4 Personal Values and Emotion Regulation
- Unit 5 Empathy, Perspective Taking, and Community Restoration

Each unit has approximately 4 lessons, which will be taught once a week during CREW. Teachers will support the students' transfer of skills learned in these lessons throughout the day.

ELA Curriculum

This year educators engaged in the first year of an ELA curriculum review where they audited their units against English standards and assessment data to determine areas in which to strengthen instruction. Moving into next year, the team will look to replace the current core instructional materials, which are no longer being published. We anticipate piloting and exploring new high-quality instructional core materials to support ELA.

Attendance

We will continue to work on improving our students' attendance and decreasing chronic absenteeism by utilizing skills from the Count ME In and Attendance Matters organizations. Chronic absenteeism occurs when a student has missed 10% or more school days.

- **23-24:** As of 2/28/2024, SMS had a **15% chronic absenteeism rate**
- **24-25:** As of 2/28/2025, SMS had a **11 % chronic absenteeism rate**

MTSS (Multi-Tiered System of Supports)

We will continue to focus on refining and monitoring a multi-tiered system of support ensuring equitable access to resources to enhance academic growth and personal well-being for each and every student. As of February 28th, **144 students** have benefitted from our Tier 2 and Tier 3 supports. In collaboration with the curriculum department, we will continue to support educators in utilizing data following assessment administration periods to lead student-centered discussions that consider student-specific and wide-scale conversations for support, the adjustment of instructional strategies to address areas of concern, and to celebrate the strengths in growth and achievement for Scarborough students. In grade level, content area, and school MTSS conversations, educators will be equipped with data and professional development that increases data literacy, to drive these student-centered discussions.

Scarborough High School - Grades 9-12

Scarborough High School serves over 900 students in grades 9 through 12. SHS provides students with rigorous learning opportunities in multiple pathways to prepare them for college and careers in the 21st century. SHS provides a range of learning experiences across content areas, and includes Advanced Placement (AP) courses, Early College courses, Career and Technical Education (CTE) Programs at Westbrook Regional Vocational Center (WRVC) and Portland Arts and Technology High School (PATHS), and Extended Learning Opportunities (ELOs) through our Career Pathways Program. Our faculty is comprised of over 100 professional staff who are certified in specific disciplines and content areas and are divided into departments: English Language Arts (ELA), Mathematics, Social Studies, Science and Technology, World Language, Physical Education/Health, Fine Arts, Business/Technology, Career Pathways, Alternative Education, Student Services and Special Services.

Beyond our academic programming, Scarborough High School students also have access to a variety of supports and services. In the Student Services department, School Counselors monitor student academic progress to ensure a successful path to graduation, while the Senior Placement office assists students with developing plans to pursue their postsecondary goals. School Social Workers support students with social-emotional wellness, while Study Center staff offer academic assistance to students through various levels of support. The Learning Commons takes the old-fashioned school library to a new level, providing a center for study, research, and collaboration. The Alternative Education staff work to provide support and pathways for students who are not finding success in a traditional classroom setting. Special Education at the high school offers Functional Life Skills, Academic Life Skills, Social Life Skills, and Resource Room programming to meet the needs of our students.

- SHS students request on average **6527 courses annually** during the course registration process
- On average, **38 SHS students** earn high school credits each year by taking courses at local colleges or universities

- SHS students perform on average **104 points better** on the SAT than the national average.
- Based on the learning experiences of the Class of 2024, SHS was **recognized by the College Board with an Advanced Placement (AP) Honor Roll Silver Distinction in October 2024** by the College Board for the overall strength of its AP programming.

On average, **89%** of SHS students go on to a 2yr or 4yr college or university and **10%** enter the military or pursuing a technical certificate or a career.

In the 2023-24 Panorama Survey, **88%** of SHS students report that they have supportive relationships with peers, adults, or school staff in their lives, a figure that puts SHS in the **90th percentile** nationally based on 2023-24 survey results. This figure is up 6% at SHS since 2020-21.

(All averages calculated based on 2020-21 to 2023-24 school years.)

*Note: Special Ed Specialists & Ed Techs are reallocated among buildings each year based on student needs.

SUCCESSES & ACCOMPLISHMENTS 2024-2025

Attendance: Decreasing Chronic Absenteeism and Truancy Rates

- **23-24:** As of 2/28/2024, SHS had **19% chronic absenteeism** and **3% truancy rates**
- **24-25:** As of 2/28/2025, SHS has **14% chronic absenteeism** and **<1% truancy rates**

Graduation Rate and Post-Secondary Planning

- The graduation rate for the Class of 2024 was **96%**, a four year high for SHS, and 9% higher than the state average.
- **90%** of the Class of 2024 went on to a 2yr or 4yr college/university and **10%** joined the military, pursued a technical certificate, or entered the workforce.

Curricular Accomplishments

- **FY25 Math Curriculum** investments allowed SHS to continue with its problem-based approach in Algebra and Geometry classrooms.
- **FY25 World Language (Spanish)** investments to support the goal of providing a strong Spanish curriculum that allows students to successfully pursue advanced Spanish courses and the Seal of Biliteracy.
 - Since 2020-21, on average, **93 SHS students** registered for advanced Spanish courses (Spanish III or higher) each year.
 - In 2023-24, **7 SHS students** received the Seal of Biliteracy for Spanish.
- **FY25 Music (Chorus) Investments:**
 - **46 SHS band/chorus students** (a record number) participated in District 1 Honors Festival.
 - **12 SHS choral students** were accepted to All-State and **1 SHS choral student** was accepted to ACDA Nationals.
 - These achievements also led to invitations for SHS choral students to participate in community performances with the Maine State Ballet and ChoralArt in addition to holiday community performances at the following Scarborough locations:
 - Pine Point Center
 - Scarborough Terrace
 - Maine Veterans Home
 - Kaler-Vaill
 - Piper Shores
 - Enclave of Scarborough

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Curricular Accomplishments (continued)

- **Advanced Placement (AP) Programming**

- In 2023-24, SHS administered **677 AP exams to SHS students**, who achieved an **average score of 3.4** (out of 5; students who receive a 3 or better on AP Exams can become eligible to receive college credit).
- Based on the course experiences of the Class of 2024, SHS was **recognized by the College Board with an Advanced Placement (AP) Honor Roll Silver Distinction in October 2024** by the College Board for the overall strength of its AP programming. Within the Class of 2024:
 - **64 students** were recognized as AP Scholars
 - **30 students** were recognized as AP Scholars Honors
 - **31 students** earned AP Scholars Distinction

- **Dual Enrollment**

- In 2023-24, **29 SHS students** earned dual enrollment credits (courses taken at local colleges or universities that count as college credit and towards HS gradation).

- **Career and Technical Education**

- Through partnerships with Westbrook Regional Vocational Center (WRVC) and Portland Arts and Technology High School (PATHS) and the ME Community College System, **19 members of the SHS Class of 2024** graduated from SHS with a collective total of **55 industry certifications** and **62 dual enrollment credits** that can be applied to various institutions within the ME Community College System.
- Effective in 2024-25, students enrolled in CTE programs can also apply some of those CTE credits towards core graduation requirements at SHS.

Facilities: FY25 Capital investment allowed SHS to convert storage and single office space in the SHS All-Purpose Room into one large and two small conference rooms to meet a variety of programmatic needs, such as growing needs and numbers in our Special Education classes, small group workspaces for our Career Pathways programs, additional meeting spaces, etc.

GOALS & PRIORITIES 2025-2026

MTSS: Refine and monitor a multi-tiered system of support ensuring equitable access to resources to enhance academic growth and personal well-being for each and every student.

- Continue to develop programming, educational opportunities, and learning pathways for all students that are consistent with 21st century college and career expectations
- Review existing practices around student learning and achievement and identify and implement those practices with students

SEL: Foster a welcoming and inclusive school environment by prioritizing a Social-Emotional Learning approach that meets the needs of all students.

- In 2021-22, SHS implemented a four-year Advisory program, aligned with goals for the Collaborative for Academic, Social, and Emotional Learning (CASEL). In 2025-26, a group of staff will collaborate to:
 - Reflect on the program using historical Panorama survey data
 - Identify areas of strengths
 - Identify growth opportunities for Advisory
 - Modify and adjust the program in accordance with identified strategic aims

Facilities: Ensure the facility adequately supports programmatic and educational needs.

- SHS continues to explore ways to adapt existing spaces to meet programmatic demands and interests. (All high school office spaces and classrooms have full-time staff occupants.)

Reaccreditation:

- In 2028, SHS will be evaluated for reaccreditation through the New England Association of Schools and Colleges (NEASC). Per NEASC Accreditation Guidelines, SHS will begin preparing for this process during the 2025-26 school year. Major action items over the next three years include:
 - Accreditation Seminar
 - Schoolwide Self-Reflection
 - Collaborative Conference
 - Decennial Accreditation Visit

Special Services

Special Services

The Special Services department provides services and supports to a diverse set of students with specialized strengths and needs so that all students can equitably access all school programs. We promote the work done at each school phase so that all students can participate fully as members of the school community. The following is a description of the programs overseen by the Special Services Department.

Special Education

Every student with a disability has a right to a free, appropriate program of instruction and supportive services designed to meet their individual needs. Special education services are provided to Scarborough students by certified and/or licensed professionals or supervised support staff at no cost to the parents. An Individual Education Plan (IEP) is developed for each student with a disability in need of special education services, which lists the services and accommodations that are appropriate for the student's educational needs. The IEP is reviewed at least annually by the IEP Team which includes parents, the student, general and special education teachers, related service providers and an administrator.

Gifted and Talented Education Services (GATES)

Gifted and Talented Education Services (GATES) offers a variety of program options for students who are identified as gifted and talented in one or more of the following categories: general intellectual ability, specific academic aptitude, or artistic ability (VPA). Students are screened annually for identification and notification for GATES eligibility and programming.

Multilingual Learner Programs (MLL)

The Scarborough Public Schools are committed to providing programming to Multilingual Learners (MLLs) allowing them to become proficient in English as well as to effectively participate in all school programs. As required by state and federal laws, all students enrolling in a school district must complete a Home Language Survey. Students who indicate a primary language other than English are then screened for their level of English language proficiency. Identified students receive an annual individualized learning plan which is developed with input from teachers, staff, parents and students. Small group instruction, classroom support or MLL content classes are examples of services provided.

Section 504

Section 504 is part of the federal Rehabilitation Act of 1973 which prohibits discrimination against individuals with disabilities in services, programs and activities administered by any entity that receives federal funds, including public schools. Section 504 plans provide specific services and accommodations that enable students with disabilities to access school programs. Section 504 plans are developed annually with input from teachers, staff, parents and students.

Homeless Youth Services

Scarborough Public Schools follow the provisions of the federal McKinney-Vento Homeless Assistance Act, which aims to minimize the educational disruptions experienced by homeless students. When students become homeless, they can remain enrolled in the schools they have been attending, although they might no longer meet residency requirements. McKinney-Vento also guarantees homeless students the right to enroll in a public school even if they lack the typically required documents and immunizations. In addition, homeless students are guaranteed the transportation they need to attend school.

- 479 students receive Special Education Services across the district. (16.7%)
- 299 students have Section 504 Accommodation Plans. (10.4%)
- We have 778 students who have been identified with a disability (through either an IEP or Section 504 plan) - this represents 27% of our total student population.
- We have 50 students projected to enter Kindergarten in the fall that currently have IEPs through CDS.

208 students receive services through our GATES program. (7.2%)

116 students are identified as Multi Lingual Learners (4%) - these students represent 23 languages.

11 students qualify as Homeless under the McKinney Vento Act. (0.4%)

Special Services Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Special Education Teachers	37	36	42	42	0
Multi-Lingual Learners (MLL) Teachers	4	5	6	6	0
Gifted & Talented (GATES) Teachers	3.6	3.6	3.6	3.6	0
Specialists	23.1	24.7	27.2	27.7	+0.5
Social Workers	14	12	12	12	0
Special Services Ed Techs	84.5	90.9	90	99	+9.0
Medical Assistants	1	2	1	1	0
Grant-funded Staff (IDEA)	11.75	12	12	12	0
Director/Asst. Director	1.25	1.25	1.25	1.25	0
Admin Assistants	3	3	3	3	0

- These positions are also listed in each individual school section.
- **Specialists** include: Speech/Language Therapists, Occupational Therapists, Physical Therapists, Behavior Specialists & Psychological Examiners.
- 2 High School **Social Workers** are now 100% funded in general ed. A portion of other Social Workers' compensation is also paid from building budgets (under Guidance).
- Grant-funded staff includes 6 **bus aides/van drivers** listed in the Transportation budget section.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Dr. Rebekah Bickford has provided a series of **Trauma-Informed Special Education training** to 29 of our K-2 special education staff. This training employs a systematic approach to supporting teachers in their development of trauma-informed support systems. It includes hands-on workshops each month, visits to our Social Life Skills programs, and 1:1 meetings with our special education teachers. This training has helped to support our development of a cohesive Social Life Skills (SLS) program at our K-2 level. Dr. Bickford is also supporting our behavior team once a month.

Last year we added a new **special education teacher position** at Wentworth to focus on literacy. This position has allowed teachers to provide a more targeted approach by using a variety of programs including SPIRE, Wilson Reading, Read Naturally, Orton-Gillingham, and the Rewards Reading Program. The team meets monthly with the Director of Special Services to review student data and discuss questions/ideas for efficient and effective grouping of students as well as identifying which programs best meet individual student needs. This position is currently providing instruction for 21 students.

Augmentative and Alternative Communication/Assistive Technology

- To date this year our AAC/AT specialist has completed 17 Augmentative Alternative Communication (AAC) evaluations, with another 5 that are currently in process. We anticipate that there will be another 6-7 AAC evaluations completed by the end of the school year.
- The specialist is currently providing direct training on use of AAC/Assistive Technology (AT) for approximately 45-50 staff to date this year - this work includes weekly training for staff working with complex AAC needs.
- The specialist works directly with 33 students with AAC/AT devices. She also conducts the trialing of new AAC/AT devices for students with IEPs to see which device is most appropriate for the provision of FAPE - she has conducted approximately 10 trials so far this year.
- The specialist also meets with district Technology Instructional Coaches as we work to improve our use of general education technology solutions for accommodations on IEPs. She has provided training for staff and classrooms of students on tools already available to them such as Google Read & Write. She has also worked with staff on differentiating instructional materials with the use of assistive technology tools to increase opportunities for inclusion. She does the first phase of vetting privacy agreements and terms of service for potential AT options.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

A second **Functional Life Skills program** was established at the primary level at Eight Corners Elementary School to support eight kindergarten students with diverse needs. Some students spend most of their day within this program, while others spend a significant portion of their time in general education classrooms with adult support.

This program provides opportunities to develop self-care, social skills, early academics, and other pivotal skills essential for success across all areas of learning. All students receive speech services, with three relying on AAC devices as their primary mode of communication. Additionally, seven of the eight students receive occupational therapy (OT) services, and four benefit from behavioral consultation provided by our specialist.

The increasing demand for this type of program last year highlighted the need for expanded support. The successful implementation of this new program is a testament to the dedication and hard work of our team in creating and growing a learning environment that meets the needs of these exceptional students.

GOALS & PRIORITIES 2025-2026

Compliance with **adult support requirements** in current CDS IEPs for incoming kindergarteners as well as for currently unidentified students. We currently know of 15 students entering Kindergarten in the fall that currently receive Ed Tech support through their IEP. Four of these students have 1:1 support needs, and at this time appear to require a Functional Life Skills program. There are an additional 11 students that are in inclusive settings in the regular classroom, but require adult support to be successful there. We also anticipate that we will need to provide Ed Tech support to additional incoming Kindergarten students that either don't currently have Ed Tech support on their IEP or are not receiving any services through CDS and do not have an IEP. For example, there were 5 such Kindergarten students last year (23-24) and 4 Kindergarten students each the two preceding years (21-22 and 22-23).

Compliance with **Speech service time needs** on current CDS IEPs for incoming kindergarten students. We are currently projected to have 22 students entering Kindergarten that will be receiving special education services under the disability category of Speech/Language Impairment. The average speech/language service time for these students is one hour per week. We have another 13 students entering Kindergarten identified under other exceptionalities that will also require speech/language services.

The combined speech language service time on these IEPs currently stands at 39 hours per week. Our current 2nd grade class receives a total of 16 hours per week of service time, resulting in a projected increase of 23 hours per week at the primary level.

Continued development of and implementation of evidence-based programs for **reading instruction**. We currently have 62 MS students with IEPs who receive 100% of their ELA instruction in the special education setting. These students require these services in order to make progress towards state standards and their IEP goals. We are currently utilizing the general education curriculum with modifications and accommodations to support the learning of these students, supplemented with the use of evidenced based programs (mainly Wilson, SPIRE, Rewards, Read Naturally and Orton Gillingham) that specifically target decoding and fluency. A continued area of need is for programming that more directly addresses reading comprehension. With an evidenced based curriculum that focuses on all areas of ELA we will be able to better support these students and make progress towards grade level standards which will allow for students to eventually rejoin their general education classroom and hopefully, no longer require this high level of service.

Continued development of evidenced based programs for students participating in our **social life skills programs** by extending Dr. Bickford's work to the Middle School special education staff. This training will help to build a cohesive SLS program throughout all grade levels. This will also provide staff the opportunity to build their expertise in the area of trauma-informed support systems, while providing evidence-based approaches to the social/emotional needs of students who require a more intensive program than that of the general education social/emotional curriculum (RULER).

Health Services

The Health Services Department is dedicated to ensuring the health and safety of students throughout the school day. The team consists of 8 RN's and 1 LPN who ensure that all students' health needs are being addressed. A child's health is closely tied to their ability to learn, and the department plays a vital role in supporting students' success by addressing their physical, mental, emotional, and social health needs.

Many students have medical conditions that require management during the school day. Our licensed and trained school nurses are equipped to support students with chronic conditions such as asthma, type 1 and type 2 diabetes, and epilepsy. Additionally, nurses assess, treat, and evaluate students and staff who experience acute illnesses or injuries. They also provide emergency interventions and educate students, families, and staff on various health topics.

The Health Services Department works closely with our Student Advocacy Staff, teachers, administrators, families, and the healthcare community to promote the overall health and safety of our students.

Health Services Staff by FTE	HS (917 students)	MS (682 students)	WS (667 students)	K-2 (608 students)
School Nurses	2.0	2.0	1.0	3.0
LPN			1.0	

- Student counts projected for FY26 – no change in staffing levels since 2024.

- Each **K-2 school** averages **20-40 clinic visits daily**, covering a range of issues such as recess injuries, spontaneous nosebleeds, vomiting/diarrhea/incontinence, toilet training, routine visits, and daily medications.
- The **Wentworth clinic** sees **50-80 students daily**, addressing everything from recess injuries to medication administration, respiratory assessments, diabetes care, concussion management, and other treatments for chronic illnesses.
- The **Middle School clinic** manages **30-60 students per day**, covering daily medications, diabetes care, headaches, bumps/bruises, and more.
- The **High School clinic** sees **50-70 students daily** for a range of needs, including illness, case management, chronic conditions, medication administration, and emotional support.

- High School and Middle School nurses monitor and manage the required physicals for all school athletes.

- Scarborough Schools are setting the standard for access to emergency medications. Each school now has Narcan, EpiPens, and AED boxes clearly visible and accessible to the public.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Do you know all of the many things that school nurses are responsible for on a daily basis?

Basic Nursing Services, 504/Individual Health Plan Management, Medical Management and skilled Interventions, Student Health Records, Student Education in classrooms and clinics, Concussion Management, Crisis and Emergency Response Team, Resource for Athletics, Hearing/Vision Screenings, Immunization Records and Compliance, Coordination of Annual Flu clinics, Field Trip Preparation, Puberty education classes, and more.

The Health Services team provides colleagues with **expert guidance, critical training and resources**, such as: Annual First Aid and CPR training for all transportation employees and staff working with medically fragile students, opening day training on new health related policies, EpiPen training, and educating staff about their students with specific health conditions, such as diabetes, epilepsy, and asthma. Members of Health Services worked with our counselors and social workers to educate all district staff about Suicide Prevention Awareness this past fall.

The Health Services team connects with **services in the greater community**. A few great examples include hosting flu clinics across all schools and coordinating a district-wide dental clinic for students.

GOALS & PRIORITIES 2025-2026

Improve Mental Health Support and Awareness

- Increase awareness of mental health issues, offering resources and support to students who may need counseling or crisis intervention.
- Promote social-emotional learning initiatives and collaborate with counselors and psychologists to support student well-being.

Increase Student Access to Health Services

- Help students and families access to necessary healthcare services, including regular visits to a doctor, specialist, or therapist if needed.
- Collaborate with community health providers to support students who may need additional care.

Professional Development and Collaboration

- Stay current on best practices, medical advancements, and legal requirements in school health care.
- Collaborate with teachers, administrators, and other school staff to address student needs and improve overall health services.

Curriculum & Assessment/Improvement of Instruction

The coordination and management of the curriculum across all grades and content areas is an ongoing collaborative endeavor. With building leadership, instructional coaches, teachers, and support staff, we work to continually improve our curriculum and instruction to ensure all students have high quality learning experiences that engage and challenge them to grow and perform at their highest levels. While our students generally, on average, perform well compared to others in the state, our goal is to ensure that **all** students are college, career and civic ready when they move on from our schools. We strive to provide the highest quality curriculum materials, but more importantly, we work even harder to provide ongoing staff training and support, to ensure that all instructional staff provide the highest quality, most effective instruction to all of our students.

The allocation and reallocation of funding to the areas that will best support our students’ learning and support our staff with necessary resources and training in order to provide quality instruction is always at the forefront of our decision-making process. We continue to monitor and support staff and students in academics, as well as social emotional learning by utilizing our assessment data to guide our goals, professional development, and planning.

The primary focus for curriculum review this year was English Language Arts and World Language.

Curriculum Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Director of Curriculum & Assessment	1.0	1.0	1.0	1.0	0
K-12 Curriculum Specialists	2.0	2.0	2.0	2.0	0
Student Data & Technology Specialists	2.0	2.0	2.0	2.0	0
Clerical staff	0.6	0.6	0.6	0.6	0

- On the Spring 2024 Maine Through Year Assessment, an **average of 82% of our students (grades 3-8 and 10) scored at or above grade level expectation** in the area of reading as compared to 65% of students across the state.
- On the Spring 2024 Maine Through Year Assessment, an **average of 77% of our students (grades 3-8 and 10) scored at or above grade level expectation** in the area of math as compared to 47% of students across the state.
- On the Spring 2024 MEA Science Assessment, **72% of Scarborough eighth graders** (as compared to 44% on average in the state) and **66% of eleventh graders** (as compared to 36% on average in the state) scored at or above grade level expectation.

During the 2024-2025 school year, **three** curriculum review teams (K-5 Social Studies, K-12 English Language Arts, and K-12 World Language) have met to discuss curriculum and instruction needs in these departments.

Our department supports the work of our staff and students across all schools. We encourage you to review the information in the school sections of this budget book, but share some district-wide highlights here:

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Year 2 Implementation of SEL Curriculum

Educators implemented the second year of our adopted SEL curriculums, MindUp (K-2) and RULER (3-8). In both implementations, students engaged in direct lessons to support their increased understanding of emotions and the strategies aligned to Collaborative for Academic, Social, and Emotional Learning (CASEL) competencies that support their social emotional well-being.

Curriculum Review

The curriculum department supported the work around several curriculum reviews during the 2024-2025 school year.

- In their second year of K-5 social studies review, **19 educators and 2 administrators** audited and revised units utilizing Maine Learning Results.
- Across the district **33 educators** examined our English Language Arts curriculum to ensure that high-quality instructional units and materials support robust literacy experiences for all students.
- The World Language and STEM departments across the district will meet to begin their review work in the spring of 2025.

Data Discussions

In collaboration with K-2 primary educators, the curriculum department supported data team discussions. A total of **54 educators** collaborated across **three school data teams** to examine data to inform instructional strengths and areas of focus.

Supporting Place-Based Science Experiences at the Middle School Level

As a result of the Maine Outdoor Learning Initiative grant secured by Scarborough Middle School in the spring of 2024 and with the support of the curriculum department, middle school educators participated in professional development over the summer that provided the opportunity to plan for and execute place-based educational experiences. Sixth grade explored the impact of invasive green crabs at Higgins Beach, eighth grade studied geological change at Fort Williams Park in Cape Elizabeth, and the seventh grade pilot of place-based integrated studies began with Team Rain and approximately 45 students in the fall of 2024.

GOALS & PRIORITIES 2025-2026

Curriculum Review

We will engage Mathematics and Visual and Performing Arts departments in curriculum reviews, with a focus on building a long-term vision for the educational experiences and improvement of instruction in these areas for Scarborough students.

Using Data to Lead Student-Centered Discussions

The curriculum department will continue to support administration and educators in utilizing data following assessment administration periods to lead student-centered discussions that consider student-specific and wide-scale conversations for support, the adjustment of instructional strategies to address areas of concern, and to celebrate the strengths in growth and achievement for Scarborough students. In grade level, content area, and school Multi-Tiered Systems of Support (MTSS) conversations, educators will be equipped with data and professional development that increases data literacy, to drive these student-centered discussions.

Professional Development

The curriculum department will continue to support increased instructional strategy impact to positively affect academic growth and achievement through professional development offerings aligned to district data.

Summer Programming

The curriculum department will continue to support school-focused summer programming. The programs allow us to meet student needs, including elementary reading experiences, the transition for fifth graders to middle school, and the opportunity to earn necessary credits for graduation at the high school level.

Instructional Technology

The Scarborough Technology and Information Services Department functions as a shared service for both the Town of Scarborough and Scarborough Schools. The IT team consists of 11 full-time employees providing technology services to over 900 active employees, 3,000 students, a variety of per-diem staff and volunteers across 19 physical locations. Town-wide, our team supports over 16,000 devices including desktops, laptops, Chromebooks, tablets, phones, web cameras, projectors, printers, assistive audio equipment, and other interactive devices.

In addition to end-user technology, the IT Department also manages a complex infrastructure of fiber and wireless networks as well as the telecommunication system and cybersecurity oversight. Between the School and Town, our staff maintains and provides support for more than 50 critical operational applications both internally hosted and cloud based, as well as the Town and School department public websites, intranets, and a variety of other social media and online services. As part of the technical request process, the staff routinely reviews data privacy policies and terms of service for upwards of 50 new applications and online tools every year.

Routine department tasks include managing the cross-functional help desk, imaging and deploying devices, cyclical replacement and upgrading of hardware and software, implementation and maintenance of town-wide A/V systems, and developing/coordinating the delivery of technical training and documentation. The IT group is also responsible for a volume of special projects as defined by both Town and School departments – this work often includes requirements definition, vendor vetting, contract review and negotiation and developing project pipelines, deliverables, dependencies and milestones.

SEE TOWN BUDGET SECTION FOR ADDITIONAL INFORMATION ON THIS SHARED DEPARTMENT MODEL

Instructional Technology Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Director of Instructional Technology	0.5	0.5	0.5	0.5	0
Information Systems Specialists	3.0	3.0	3.0	3.5	+0.5
Field Tech Support Specialists	5.0	5.0	5.0	5.0	0

- All IT staff are Town employees. FTEs represent portion of compensation paid from the School budget.

The IT Department supports both operational and instructional technology, School and Town:

- 900 employees served
- 3,000 students served
- 16+ miles of Town fiber & connectivity managed
- 16,000+ devices inventoried & maintained

- Technology in 19 physical locations managed
- 50+ applications supported and administered
- 5,000+ help desk tickets, calls, and emailed requests for service
- 345 end-users to one IT staff person

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Improved the Town and School district's **cybersecurity** posture by deploying multi-factor authentication for all staff, configuring and implementing new firewalls and conducting cyclical cybersecurity testing and training.

Deployed **replacement Chromebooks** to Wentworth Intermediate students, replacement projectors to the Middle School and Wentworth, and replacements of student printers district-wide.

Launched the build and development of an internal **artificial intelligence platform** for teacher and student use.

Created a **student help desk** at the Middle School and further developed the student help desk at the High School.

Facilitated cyclical replacement of **multi-functional printers** district-wide.

GOALS & PRIORITIES 2025-2026

Deploy **Windows 11** District-wide.

Replace **network infrastructure** in K2 buildings including hardware, cabling and replacement and expansion of wireless access points.

Complete network **core switch replacement**.

Continue development of **internal AI platform**.

Replace Chromebooks for K2 students.

Athletics & Activities

Scarborough Public Schools believes that a dynamic program of extra-curricular athletics and activities is vital to the educational development of our students. Athletic competition and club membership give all students an opportunity to learn in ways which are rarely available in the classroom. These experiences involve preparation, dedication, and hard work. The reward for student athletes and activity participants is measured in different ways by each individual, ranging from simply participating, to making the team, placing in a tournament or meet, winning the conference or being a state champion. Club members also find enrichment through participation in activities including service organizations, academic competition, music, theater, and student government.

Benefits of School Activities

At a cost of only 3 percent (or less in many cases) of an overall school's budget, middle school and high school after school activity programs are one of the best bargains around. Activities support the academic mission of schools. They are not a diversion, but rather an extension of a good educational program. Students who participate in activity programs tend to have higher grade-point averages, better attendance records, lower dropout rates and fewer discipline problems than students generally.

Activities are inherently educational, and provide valuable lessons for many practical situations. Through participation in activity programs, students learn teamwork, sportsmanship, winning and losing, and the rewards of hard work and self-discipline. They build self-confidence and develop skills to handle competitive situations. These are qualities the public should expect schools to produce in students so they become responsible adults and productive citizens. Participation in middle and high school activities is often a predictor of later success - in college, a career, and becoming a contributing member of society.

Athletics & Activities Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Director of Athletics & Activities	1.0	1.0	1.0	1.0	0
Athletic Trainer	1.0	1.0	1.0	1.0	0
Athletics & Activities Specialist	1.0	1.0	1.0	1.0	0
Athletics & Activities Admin Assistant	0.5	1.0	1.0	1.0	0

Athletic team roster spots represent 108% of the high school student body and 122% of the Middle School student body.

- The total number of athletic team roster spots (108%/122%) exceeds the student population because many students participate in multiple sports, each counting as a separate roster spot.
- Combined years of athletic coaching experience = 1,235+ years.
- We have 22 Booster Clubs, each with 5 to 50 volunteers.

Club roster spots represent 80% of the high school student body and 48% of the middle school student body.

- We currently have approx. 120 High School Athletic Coaches/Club Advisors
- We currently have approx. 45 Middle School Athletic Coaches/Club Advisors

Athletic Training student contacts: 2021-22 (5,400); 2022-23 (4,123); 2023-24 (6,620)

- AT student contacts include: Injury Evaluation & Treatment, Concussion Management, Rehabilitation Sessions, Pre-Game & Practice Preparation, Emergency Care, Strength & Conditioning Guidance, Hydration & Nutrition Support, Mental Health & Wellness Support, Clearance & Return-to-Play Evaluations, Education & Injury Prevention.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Despite a statewide decline in athletic participation, Scarborough High School has shown steady growth over the past eight years. While Maine's participation has dropped **13.1%** since 2016, SHS has increased both rostered spots and individual athlete participation. The percentage of roster spots relative to enrollment has grown from **93.3% to 107.7%**, and individual athlete participation has risen from **56.7% to 61.9%**. Despite a dip during COVID-19, participation has rebounded beyond pre-pandemic levels. These trends highlight SHS's strong athletic culture, sustained student interest, and continued growth despite broader declines.

Scarborough Middle School athletics have shown strong growth, especially in recent years. After steady participation from **2016-2019**, the COVID-19 pandemic caused a sharp decline, with rostered spots dropping to **319 in 2019-2020**. Since then, participation has rebounded significantly, reaching **521 rostered spots (121.5% of enrollment) in 2023-2024**, with **62.2% of students** competing in at least one sport. This upward trend highlights increasing student engagement and strong multi-sport participation, positioning SMS athletics for continued success.

Club participation at Scarborough High School has seen significant growth in recent years, particularly post-pandemic. In **2023-2024**, there were **479 rostered spots** and **320 individual participants**, representing **52.2% of school enrollment** and **34.9% participation**. By **2024-2025**, club involvement increased further, with **718 rostered spots** and **359 individual students**, making up **79.3% of enrollment** and **39.7% participation**. This upward trend highlights a strong recovery and growing student engagement in extracurricular activities, emphasizing the expanding role of clubs in the student experience.

Participation in clubs at Scarborough Middle School (SMS) has steadily increased in recent years. In **2018-2019**, there were **354 rostered spots** and **228 individual participants** (52.7% of enrollment). After a dip during the **COVID-19 pandemic**, participation began to recover, reaching **282 rostered spots** and **212 individual students** (43.3% of enrollment) by **2023-2024**. This upward trend continued into **2024-2025**, with **315 rostered spots** and **222 individual students** (47.73% of enrollment), reflecting growing student engagement in extracurricular activities and the expanding role of clubs at SMS.

The **Club Activities Liaison** has strengthened the Athletics and Student Activities Department by enhancing oversight, communication, and compliance for middle and high school clubs. This role has improved efficiency, expanded student engagement, and fostered a more cohesive activities program, ensuring meaningful extracurricular opportunities that support student growth.

The operating budget prioritizes essential items necessary for sustaining current programs and ensuring student safety, such as the football equipment rotation and the Perry Weather System.

GOALS & PRIORITIES 2025-2026

Goal 1: Enhance Student Participation and Engagement in Athletics & Activities.

- Expand opportunities for student involvement in extracurricular programs by enhancing access to existing clubs and athletic teams.
- Strengthen communication and outreach to ensure all students are aware of available activities and their benefits.

Goal 2: Improve Administrative Support and Operational Efficiency

- Strengthen oversight and coordination of event logistics, including indoor facility scheduling and game-day operations.
- Increase efficiency in managing human resources, certification requirements, and onboarding requirements.
- Continue leveraging the Club Activities Liaison role to streamline club operations, enhance compliance, and provide stronger support for advisors and students.
- Enhance public relations and administrative communication to strengthen community engagement and transparency.

Goal 3: Strengthen Financial Sustainability & Reduce Dependence on External Funding

- Develop strategies to reduce reliance on parent booster clubs for essential program funding, particularly for assistant coaching positions.
- Advocate for future allocations to sustain and enhance existing programs, support equipment maintenance, and ensure scheduled replacements.

HIGH SCHOOL ATHLETICS

Year	National Participation	Maine Participation	SHS - School Enrollment (Total)	Athletic Participation (Rostered Spots)	Athletic Participation (Individual Students)	Percent of School Enrollment compared to Rosters Spots	Percentage of Individual Athletes Relative to Total School Enrollment

- Figures in green increased from the prior year; figures in red decreased from the prior year.

Student Transportation

At the Scarborough Public Schools Transportation Department, our mission is to provide safe and professional transportation for students to and from school, as well as other activities. As one of the largest school districts geographically in southern Maine, Scarborough covers 56 square miles and serves nearly 2,900 students each year. Our transportation services reach all Scarborough schools, five out-of-district schools, and also support McKinney-Vento students traveling to two other school districts.

All of our transportation staff are trained in First Aid, CPR, and emergency protocols, including bus evacuation procedures. Our vehicles undergo daily safety checks by drivers to ensure compliance, and they are regularly maintained by Scarborough Public Works. In total, Scarborough school buses travel approximately 450,000 miles annually—enough to drive to Los Angeles, California and back over 70 times.

Transportation Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Transportation Supervisor	1.0	1.0	1.0	1.0	0
Dispatcher/Office Support	1.0	1.0	1.0	1.0	0
Bus Drivers	24.0	24.0	24.0	24.0	0
Bus Aides/Van Drivers	8.0	8.0	8.0	8.0	0

- Bus Aides/Van Drivers are Special Services staff. 6 of our 8 FTEs are grant-funded (IDEA).

The district owns: 30 buses, 10 minivans, and 1 lunch truck.

- Our buses travel over 450,000 miles a year.

Our full-time drivers have over 180 years of bus driving experience.

- We have trained three new drivers this year to get their CDL license to drive a bus.
- We have three more drivers currently in our training program.

The transportation department has a shared services arrangement with the Scarborough Public Works Department to maintain the entire fleet.

SUCSESSES & ACCOMPLISHMENTS 2024-2025

To date during the 2024-2025 school year, we have **6 new drivers in our CDL training program**, with 3 thus far who have earned their bus driver licenses.

The district has implemented Tyler Technologies' **student accountability system** via our swipe card system that is used with all students. Parents and staff can see in real time where their bus and child are.

As you may be aware, districts across the state, including ours, are facing challenges in filling all bus driver positions. We do our best to combine routes or run slightly behind schedules to get all kids to school. **Our drivers and staff consistently rise to the occasion**, ensuring that students get to school and home safely, with safety always being our top priority.

Professional development focused on supporting students is a priority, with building and district leadership working closely with transportation staff to enhance their skills and effectiveness.

GOALS & PRIORITIES 2025-2026

Continue to **recruit and train new bus drivers**

- The training to get a CDL is about six months
- Continue to offer a paid training program

Due to the national **shortage of school bus drivers**, we will continue to struggle to meet the district's transportation demands. At times, we will need to:

- Combine bus routes
- Contract with other providers when possible
- Be able to fill all driving needs for as many school sports and activities as possible with our own employees
- Continue the hard work, creative thinking and flexibility to minimize transportation disruptions due to lack of bus drivers

Maintain the safety and efficiency of our transportation fleet with **cyclical replacement** of our oldest vehicles. The FY26 CIP budget allows for purchase of 3 new buses and 1 minivan. In FY26 we plan to purchase vehicles from Bluebird's newest line of gasoline-fueled buses, saving the district an estimated \$30,000 per bus over projected diesel vehicle prices while improving efficiency and ease of service.

Facilities & Maintenance

The Facilities Department serves the Scarborough Public Schools in the preservation, maintenance, renovation, cleaning and furnishing of all facilities used by the schools. The largest crew on our team, the custodial department, works hard to keep our heavily used buildings clean every day, and during the summer takes on a more thorough process of floor-to-ceiling cleaning, while also serving numerous summer programs. Our maintenance department of four works primarily behind the scenes to accomplish many maintenance, restoration and moving tasks throughout the district. Teachers and staff serve as the eyes and ears of the buildings and access an electronic work order system through daily requests and inquiries. Many of the mechanical systems in our buildings are under a Preventative Maintenance Program, to try to avoid catastrophic failures of equipment during the school year. These systems serve the buildings and run year-round serving the needs of not only school operations but also a full assortment of community and regional events during the evenings, weekends and vacations. The Community Services Department partners with the School Department to run the various programs and offerings within each of the schools on a daily basis as well.

Facilities & Maintenance Staff By FTE	HS	MS	WS	K-2	DW
Director of Facilities, Grounds & Maintenance					1.0
Maintenance Foreman					1.0
Facilities Admin Specialist					1.0
Maintenance Workers					3.0
Custodians	9.8	5.8	6.275	5.75	
Facilities Scheduler					0.5
Admin Assistant					0.375

- Custodian assignments may be adjusted annually based on building needs; no change in staffing levels since 2024.

We have over 700,000 square feet of building space. That's over 16 acres of building space.

- Each custodian covers about half an acre (22,500 sq. ft) of area in their nightly cleaning duties.

The Facilities & Maintenance electronic work order system receives over 1,500 requests per year, with double that number for requests to the maintenance department that come by email, text message, voicemail and "drive-by or pop-up" encounters.

- Our schools consume over 4.5M kWh of electricity every year, costing over \$441,000. That is the equivalent of what approximately 428 average US homes use per year.
- We saved \$79,635 using alternative energy through our electricity consortium last year.

SUCCESES & ACCOMPLISHMENTS 2024-2025

K-2:

Siding and trim replacement and complete painting of exterior at Eight Corners School and Pleasant Hill School, New boilers at Eight Corners with high efficiency fuel management systems. All HVAC Building Automation Systems replaced with a modern platform that now exists district-wide.

Middle School:

Conversion of two science labs into a hybrid lab/classroom increased capacity by two classroom spaces at the Middle School. Major floor replacement in the upper lobby. All fluorescent light fixtures have been converted to high-efficiency LED lights. ADA door openers installed at main entrance.

High School:

Divided one room into two inside the AP room for additional small group work spaces. Replaced flooring in rear of the Auditorium.

Site work District Wide:

Removal of dead/dying trees at Pleasant Hill and High School main parking lot (Emerald Ash Borer), and installation of fences at Pleasant Hill and Blue Point and new trees at SHS. ADA sidewalk ramps replaced/improved at Wentworth, Middle and High Schools.

GOALS & PRIORITIES 2025-2026

Become fully-staffed in the custodial department for the first time in five years.

Blue Point exterior trim/siding repair and complete painting summer 2025.

Middle School electrical transformer and back-up generator and transfer switch replacement project to continue and will be completed this summer. Finish replacing the final 14 original heat pumps.

Upgrade flooring in three high-use locations at SHS and replace aged and failing furnishings in All-Purpose Room. Replace rear-Auditorium movable wall after 37 years of service. Bleacher seat replacements in Alumni Gymnasium. Continued electrical upgrades to lighting fixtures (LEDs) for increased efficiency.

Capital projects

While a portion of the cost of facilities maintenance is carried in the operating budget, another significant portion is found in the school Capital Budget. The Department of Education recommends that school districts invest 2% of the value of their physical plant each year to maintain the buildings and grounds to ensure that they are safe, efficient and provide a healthy environment for learning. Mechanical systems, interior finishes, furnishings and equipment all reach the end of their useful lives and must be replaced in order to continue to serve the needs of school programs. The Facilities capital budget request for FY26 is \$3,972,000 in this proposal, addressing both necessary one-time repairs and regular maintenance that has in some cases been deferred for multiple years.

The district's school buildings and contents are currently valued at approximately \$226,500,000, (this is not the replacement cost) which means that the annual 2% recommended would be over \$4.5 million. While our Capital budget requests vary from year to year, it is critical to recognize the importance of ongoing repairs and maintenance during the non-school time periods to avoid deterioration and system breakdowns during occupied times. The greatest challenge for Facilities is time and timing. Some of the money received for Capital Improvements is for large-scale projects that cannot be squeezed into the narrow windows of time when the schools are not in session, and therefore, it is a challenge to accomplish all that is required in the narrow windows of time that we have. An additional timing challenge is the staging of major capital items while navigating the work of long-range planning and the considerations of the building committee project, which could change some of our existing schools dramatically. Aligning what needs to be done now with the uncertainty of what may happen in the future at 4 or more of our schools is a difficult balancing act.

SEE PAGES 76-80 FOR THE SCHOOL CAPITAL BUDGET

Central Office

School Board

The Scarborough Board of Education is an elected body of 7 town citizens serving 3-year terms. The School Board works for both the families and students of Scarborough and the State and Federal Boards of Education. Their role is to advocate for resources for education, ensure quality and integrity of instruction and operations, create legally required policies, and partner with the Superintendent in the direction of the district.

Office of the Superintendent

The district Central Office houses the Superintendent, Assistant Superintendent, their administrative assistant, a part-time employment applications specialist and the office receptionist. This is the command central of the district: while all building leaders and department heads have discretion in managing the needs of their staff, students and daily operations, it is the Superintendent who ensures a clear and consistent voice and vision for the school department. The Superintendent and Assistant Superintendent work as a team to act as management executives, leading and consulting in all district operations including hiring, training, personnel concerns, labor negotiations, staff professional growth and evaluation, student and parent concerns and community outreach. The Superintendent works closely with the School Board to set and implement pathways for district-wide improvement in quality of instruction as well as business operations and efficiencies. The Assistant Superintendent also oversees the Student Transportation, School Nutrition and Adult Education programs, as well as the Data Application specialists.

Business Office

The Business Office houses many of the basic operational functions of the district. Under the Director of Business & Finance, three specialists and a bookkeeper ensure smooth functioning of human resources, payroll processing, employee benefits management, purchasing, accounts payable, accounts receivable, school bank accounts and student activity fees. The Director of Business & Finance is responsible for financial reporting and coordination of budget development, and reports regularly on school operations to the School Board Finance Committee as well as to the State and Federal Departments of Education. The Business Office works in partnership with the Town Finance Office to ensure efficiency and compliance with shared functions.

Debt Service

Debt Service is the amount budgeted in each fiscal year to make principal and interest payments on capital financing approved in prior years.

Central Office Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Superintendent of Schools	1.0	1.0	1.0	1.0	0
Assistant Superintendent	1.0	1.0	1.0	1.0	0
Director of Business & Finance	1.0	1.0	1.0	1.0	0
Accounts Payable/Receivable Specialist	1.0	1.0	1.0	1.0	0
Human Resources Specialist	1.0	1.0	1.0	1.0	0
Payroll/Benefits Specialist	1.0	1.0	1.0	1.0	0
Accountant (Student Activities)	0.4	0.4	0.4	0.4	0
Administrative Assistants	2.4	2.4	2.4	2.4	0

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Established monthly presentations by building leaders and directors at School Board meetings to further educate our Board and community about the excellent opportunities being provided across the district.

Continued work with the School Building Advisory Committee (SBAC) to advance the consideration of achievable solutions to our facilities needs.

Collaborated with Town Finance Office to improve the timing of completion of our annual financial audit.

GOALS & PRIORITIES 2025-2026

To direct, support and champion the important work of our schools with a K-12 strategic approach.

To retain our existing staffing and programming levels so we can continue to meet the growing needs of our students and maintain the high-quality services our community has come to expect from our school system.

To ensure that our facilities needs are met in order to provide safe and engaging learning and working environments for our students and staff.

The Leadership Council works together to prepare a budget proposal that will advance district goals and meet the needs of all of our students.

Our FY26 budget proposal allows us to:

Maintain necessary current programs and services for the coming year.

- Provide mandated services and ensure compliance, with resources required to meet the needs of both current and incoming students.
- Maintain targeted class sizes and student/teacher ratios for optimum learning.

Collaborate with town leadership, the Board of Education, and the Town Council to meet our facilities needs through an active investigation into a K-8 strategic building project.

Foster a welcoming and inclusive school environment by prioritizing a Social-Emotional Learning (SEL) approach with a Diversity, Equity, and Inclusion (DEI) lens.

Refine and monitor multi-tiered systems of support ensuring equitable access to resources to enhance academic growth and personal well-being for each and every student.

OTHER SCHOOL FUNDS

ADULT EDUCATION

SCHOOL NUTRITION

Adult Education

Scarborough Adult Education is staffed by one part-time Director, one part-time Program Assistant/Enrichment Coordinator, and one part-time MLL Coordinator/Instructor. Our core program offerings include year-round HiSET® completion classes and Multilingual Language instruction. Our Healthcare certificate programs are held September to July each year based upon demand and community needs. Enrichment classes are scheduled from September through May.

Enrichment courses have had 555 registrations to date with 34 additional classes scheduled for March through May which are still filling up. These **fun and informative classes** cover arts and crafts; health and fitness; home and family; music and dance; outdoors and nature; and history. We are really proud of our class offerings provided to the community. Some of our new classes this year have included Scottish Dance, new Chinese cooking classes and instructor, and new Scarborough Historical Society and Scarborough Land Trust presentations. We look forward to hosting a 3 session Fly Tying class in April.

Enrollment in HiSET® (high school equivalency) preparation and individualized tutoring for academic students remains steady from year to year. We currently have 30 enrollments in HiSET® programs. By December 2024, **5 students successfully earned their equivalency diplomas**. We currently have 6 additional students this semester who are at different points of advancing through the 5 competency-based exams. HiSET® classes are open enrollment as is our MLL program.

The growth of our MLL program is noteworthy - in the Fall of 2022, we offered three night classes and added a daytime class on Wednesdays at the library beginning in January 2023. We began the Fall of 2023 with four classes but saw such an increase in enrollments that we added a Basic Beginner class on Monday nights to meet demand only a month after the semester began, bringing us to 5 classes. The demand for daytime classes increased again, necessitating adding an additional daytime class on Mondays at St. Nicholas church in January 2024. To recap, enrollments increased from 40 a year to 52 after adding the library class in FY23. Last year, our student total was 126. This year, we have **107 students who are enrolled in 169 classes and come from 27 different countries**. We have engaged volunteers who assist in both of our daytime classes and our cadre of 3 volunteers has grown to 7.

We continue to partner with Cumberland County Hub Adult Education programs in the **sharing of grant initiatives**, primarily to support academic skills acquisition. The AEFLA federal literacy grant pays for instruction at Southgate/Avesta, one semester of Monday night Basic Beginner class, seats in Burlington English online instruction and in EnGen for higher level MLL students advancing to work. We receive a small allocation of funding to support Career Advising work we do with our academic students through an additional shared grant. Integral community partners continue to be Scarborough Public Library, St. Nicholas Church, Piper Shores, The Enclaves, The Cedars, and The Barron Center for our healthcare training programs.

Adult Education Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Adult Education Director	0.5	0.5	0.5	0.5	0
MLL Coordinator/Instructor			0.5	0.5	0
Program Assistant/Enrichment Coordinator	0.5	0.5	0.5	0.5	0
Course Instructors	20+	20+	20+	20+	0

SUCSESSES & ACCOMPLISHMENTS 2024-2025

This year, we greatly appreciate having local funding and support for a 20 hour a week MLL Coordinator. This has enabled us to have a staff member who teaches the two daytime classes and conducts student intakes and assessments of our students. This year, all of our assessment tests were new and it took several months to retest each of our students, often with the Director assisting with student assessment appointments. The MLL Coordinator supervises the volunteers and our night MLL instructors. She is currently putting together a mentorship plan for future certification as an Adult Education Director.

Program staff are working on increasing our own proficiency levels using digital learning tools to support students in the following: Burlington English, HiSET Academy, and EnGen. The Cumberland County Hub has recently purchased Northstar Digital Literacy seats and Scarborough plans to engage in training before the end of June. Our new Administrative Assistant will have completed state database training by June.

Academic priorities for this year that will continue to be implemented this year and next include developing an Integrated Education and Training program proposal (IET) to submit for approval to the Maine Department of Education – Adult Education State team. The concept to date is to develop a workforce bridge program in healthcare. Many of our New Mainers desire to become Certified Nursing Assistant students but do not meet the reading score requirement on a placement exam. This proposal would match students with resources to increase English language functioning levels through direct instruction in English, to pair each with employers who would hire them in entry level roles as direct care workers, and provide staff support from our program to assist students to meet their academic and workforce goals.

GOALS & PRIORITIES 2025-2026

The request for local funding for 2025-2026 holds the line at or is slightly above this year's budget. We have not had a pay increase for MLL instructors for 3 years and hope to be able to offer a slight increase over their current hourly rate. The cost of catalog production and mailing has slight increases to reflect two dynamics - postage increased and households we mail to increased (12,458 this year). The program is comfortable staying in our 16-page format for the catalog, staying at the current number of MLL classes we offer, and continuing to build and maintain our existing community partnerships with our part time program.

A priority for FY26 is to achieve important staff development goals to increase our comfort levels and expertise in using Burlington English, HiSET Academy, EnGen and Northstar Digital Literacy platforms to be able to better utilize these tools for student success.

Moving forward with implementation of the Integrated Training and Educational program for a bridge to healthcare program is an equally important goal for FY 26.

As noted in Successes & Accomplishments, the Adult Ed program has had a major focus in recent years on assisting new Mainers with acquiring both language and workforce skills. Many of these adults are parents of students in our K-12 schools, and our support for them benefits our entire school community.

Quote from a volunteer: “There is one thing on my calendar that I protect and that’s volunteering on Wednesdays at the Library with MLL class. I won’t miss it because it’s so rewarding. I love working with these students. They are so eager to learn. My husband says, ‘if you want her to do anything, don’t ask her to do it on Wednesday mornings!’”

Another volunteer states, “Just a quick, but heartfelt, thank you for working with the New Mainer family I brought to your office this afternoon. They are so excited to be starting their US educational process. Even though I have been a long-time Scarborough resident, I was unaware of the wonderful program you provide for our immigrant community. It makes me proud! I look forward to hearing the reports from them about their experience.”

Revenues

The Adult Education Program operates as a separate fund within the school budget. The program receives revenues from the Department of Education (State Subsidy) for Adult Ed courses in the areas of high school completion, adult literacy, college and career transitions, and workforce training. Other funding comes from tuition fees, grants and local tax dollars.

School Nutrition

The Scarborough School Nutrition Program is dedicated to providing safe, nutritious, and appealing meals for our students. Each meal is carefully planned using nutrient analysis to ensure that the appropriate amounts of protein, calories, fat, Vitamin A, Vitamin C, calcium, and sodium are provided for each age group. All food is prepared and served in a clean, safe environment, with every school nutrition worker trained and certified as sanitarians.

Our healthy school meals play a vital role in supporting students' academic and physical development. Research consistently shows that a hungry child cannot perform to their fullest potential. Additionally, our meals serve as a learning opportunity for children, teaching them healthy food choices that can benefit them throughout their lives.

School Nutrition Staff by FTE	FY23	FY24	FY25	FY26 proposed	Change for FY26
Director of School Nutrition	1.0	1.0	1.0	1.0	0
Program Administrative Assistant	1.0	1.0	1.0	1.0	0
Kitchen Managers	3.0	3.0	3.0	3.0	0
Cooks & Bakers	6.0	6.0	5.0	5.0	0
Cafeteria Workers	16.0	16.0	17.5	17.5	0

We serve over 1500 breakfasts and well over 2500 meals a day to both staff and students.

- All breakfasts and lunches continue to be free to all students.
- Our most popular breakfast item is our scratch-made muffins, over 2,000 of which are served weekly.
- We also make over 150 breakfast sandwiches per week, as well as over 500 cookies and desserts from scratch.

We have been successful in eliminating reliance on local tax dollars for program revenue.

The annual community Thanksgiving dinner was another success this year, serving over 450 in-person meals!

SUCSESSES & ACCOMPLISHMENTS 2024-2025

Thanks to funding from both the USDA and the State Department of Education, all students can continue to enjoy **breakfast and lunch at no cost**, regardless of their free/reduced lunch status. This program will be in place through FY26.

As part of the York & Cumberland County School Nutrition **Cooperative Purchasing Group**, we continue to ensure the best possible pricing for paper goods and dairy products.

We continue to participate in the **Farm and Sea School Program** that promotes the use of Maine-grown, raised and caught ingredients for students' meals, providing us free fish and \$1.00 back for every \$3.00 we spend on farm fresh Maine fruits and vegetables.

Vegetables such as garlic scapes, cucumbers, and tomatoes from the **school garden** were added to the salad bar and to the backpack program as they became available.

Four students from the High School participate in Chef Peter's **culinary arts class**. Three students are in their first year and one is a second-year student. Each week they prepare baked goods or breakfast items to sell in the coffee shop for staff at the HS. Students have also helped prepare meals for Wentworth and the primary schools.

Chef Peter worked with **every class in Wentworth School**, using ingredients picked directly from Wentworth School Garden. Students helped Chef Peter cut, peel, and prepare fresh garden vegetables, and the best part was they got to sample the items they prepared (YUM)! Students learned to prepare a variety of menu items including salsas, soups, pizza and salads.

The **Backpack Program** continues to provide healthy and nutritious weekend and school break meals to food insecure families in Scarborough. These meals are provided every Wednesday, and the program is currently serving 25 families with 35 school age children.

Catering services are in full swing, routinely supplying services to town and school staff meetings and the public safety building, as well as outside school events. Town election workers rely on the School Nutrition Department to supply them with breakfast, lunch and dinner on voting days. We have catered end of season banquet celebrations for boys' and girls' basketball, boys' and girls' soccer, track, baseball and the One Act Play Festival. We also catered the Scarborough Police Awards Banquet.

During the summer, the School Nutrition Department served 125 breakfasts and 150 lunches per day to all Scarborough Community Service summer daycare kids Monday-Thursday with bag lunches on Fridays. Anybody that is enrolled in Scarborough's summer school programs can also receive meals, and last summer we did 10 bagged breakfast and lunch meals a day to school enrolled summer school children. We also transported lunch options to be provided to food insecure Scarborough families at three different locations in Scarborough, serving 22 meals per day and worked with Cape Elizabeth's ESY summer class for four weeks providing 32 lunches each week.

GOALS & PRIORITIES 2025-2026

Overcome the staffing shortages of recent years and be fully staffed next year.

- As we work toward this goal, we will continue to be creative and flexible to fill the district's needs when we are not fully staffed.

Prioritize a solution for additional dry food storage space to improve our ability to buy in bulk.

Update school meal menus to add more choices, including gluten free and vegetarian options.

Revenues

The School Nutrition Program operates as a stand-alone fund within the school budget. The program receives revenues from the US Department of Agriculture (USDA) under the National School Lunch Program (NSLP), and from the State Department of Education Child Nutrition Program.

During the pandemic, the USDA expanded their reimbursement guidelines for school meals so that all children could receive school meals free of charge. While the USDA program has been pulled back since that time, the Maine State Legislature has stepped up to fill the gap in funding, and the Governor's budget has pledged to continue free meals for all students through the FY26 school year.

This important change has vastly increased the numbers of meals served daily in our schools, while the increase in reimbursement amounts has allowed the program to thrive financially. Food sales, which previously made up a significant percentage of program revenues, have understandably dropped to a minimum, with only a la carte offerings requiring payment.

As a result of this shift in funding model, the School Nutrition Program eliminated its request for local tax dollars in its budget proposal starting in FY23, and will continue to be self-funded in FY26.

SCHOOL CAPITAL BUDGET

School Capital Budget

Along with typical year-to-year investments in scheduled repairs and maintenance for our facilities, the FY26 School Capital Budget has been impacted by the delay to the building project proposed in FY24. Regular renovation and replacement of critical building elements such as roofing, building envelope and HVAC systems cannot be deferred indefinitely without risking structural damage to valuable properties and a negative impact on safe and healthy learning environments. Budget items related to the primary schools and Middle School may be refined prior to the Board's second reading, based on the findings and recommendations of the School Building Advisory Committee.

Bus Replacement: School vehicles are maintained by the Scarborough Department of Public Works, leveraging our shared services model to combine exceptional quality of care with cost savings. Each school bus travels 15,000 miles per year of stop-and-go driving in all weather and road conditions, and is subject to considerable wear and tear. Because of the quality of our maintenance program, we are able to keep buses in excellent condition for the safety of our students; however, a regular vehicle replacement schedule is critical.

National studies have found that after 12 years of use, the annual operating costs of Type C and D school buses begin to increase significantly and continue an annual increase each year thereafter¹. In addition, it is very difficult to find replacement cost insurance coverage for vehicles that are more than 10 model years old. Public Works is currently recommending a 10-year replacement schedule; because we have 30 buses, we plan to replace 3 buses per year. The 5-year capital plan for School Transportation reflects this recommended replacement schedule.

Van Replacement: In recent years the Transportation Department has relied heavily on minivans to transport students in out of district placements and special programs. Vans are an effective tool for the department as they can be driven by non-CDL drivers, and are more fuel efficient when transporting one or two students. We currently own 10 minivans which are included in the vehicle replacement schedule recommended by Scarborough Public Works. Five vans are seen in the 5-year capital equipment plan proposed here, with replacement funding for one van budgeted for FY26.

¹January 2002, National Association of State Directors of Pupil Transportation Services.

Truck Replacement: The Facilities Department uses pickup trucks to transport staff, tools and equipment to and from the eight locations served by the department. Trucks are also used to plow and to haul larger equipment in tow. The department owns a box truck to move large loads, a dump truck for plowing, sanding and site work, and two commercial grade utility tractors. All of these vehicles are included in a vehicle replacement schedule recommended by Scarborough Public Works. Five vehicles are included in the 5-year capital equipment plan proposed here, with replacement funding for one pickup truck budgeted for FY26.

Furnishings Replacement & Renewal: School furnishings such as desks, chairs, tables and shelving are subject to regular wear and tear through daily use by staff and students. Most quality school furnishings have a useful life of 15-20 years, depending on the intensity of use, and many classroom furnishings throughout the district are currently well beyond that threshold (20-25 years old). Funding requested for FY26 will be allocated to our ongoing district-wide replacement cycle, including ergonomic upgrades to staff workstations. Specific projects for FY26 include replacing outdated furnishings in the High School AP room and science lab tables at the Middle School.

Kitchen Equipment Replacement: The School Nutrition Program operates 3 full-size kitchens at the High School, Middle School and Wentworth, and 3 satellite kitchens at the primary schools, producing breakfast and lunch daily for thousands of students. Capital investments are used to keep major equipment, most with a useful life of 12-15 years, up to standard so that most scheduled maintenance can be funded at a sustainable level in the program operating budget. The FY26 capital budget includes funds to replace a double oven and a double baker at the High School, one currently failing and the other too small for current production volume. The smaller oven will be relocated to the Middle School to add capacity to their existing equipment.

High School Auditorium Equipment Replacement: The Winslow Homer Auditorium at Scarborough High School is home to a wide variety of concerts, performances, presentations and meetings, serving both the school district and the public. Funding in the FY26 capital budget will be used to finish the two-year project begun in FY25 to replace the retractable bleacher seats and moveable wall partition at the back of the auditorium, restoring their original designed function and ease of use.

Athletics Equipment Replacement: Although most equipment for athletics is purchased through the school operating budget or with booster funds, there are larger one-time expenses typically proposed as capital projects. Funding in the FY26 capital budget will be used to replace deteriorating plastic bleacher seats in Alumni Gym, as well as to purchase a single large storage container with overhead doors to replace multiple smaller sheds at the Middle School which will be removed due to the generator project (see **Security & Access Management**).

Facilities Support Equipment Replacement: The School Department owns dozens of commercial-grade automated floor cleaning machines, which allow custodians to keep floors sanitary and in excellent condition with maximum efficiency. The largest machines have a 7 to 8-year useful life. While these machines are under a preventive maintenance contract, we use a replacement cycle to ensure that these vital tools are in good repair. In the FY26 budget, funding is requested to replace the oldest/highest use floor machines in our current inventory. In addition, funding is requested for a pilot purchase of a programmable robotic floor scrubber which will help to address ongoing staff shortages by freeing up custodians for other work.

School Capital Projects & Projected 5 Year Plan

GRAND TOTAL SCHOOL EQUIPMENT & PROJECTS	20,126,375	5,380,000	3,963,840	3,266,637	3,538,468	3,559,430

Tech Equipment Replacement: The School Department has a cyclical technology plan which guides us in ensuring that technology equipment and software receive regular, scheduled updates across the district. In most years, equipment replacement or renewal is primarily focused on one phase: K-2, Wentworth, Middle School or High School. A portion of the funding for this annual upgrade is also found in the school operating budget. CIP funds requested for FY26 will be used to replace all K-2 Chromebooks, replace failing switches and wireless access points at the primary schools and projector screens at the High School, and convert existing virtual servers from VMware to Nutanix.

Long-Range Planning: Funding for long-range planning is budgeted to support the district in developing facilities plans to address outdated learning environments, community growth and increased enrollment. Strategic planning for facilities improvement leading up to any major construction or renovation project requires the support of outside professionals for tasks such as enrollment studies, surveys, engineering analysis and design scenarios. Since the building project proposed in FY24 failed to receive public approval, additional funds have been budgeted to update, rework and analyze project plans to support the work of the School Building Advisory Committee. The FY26 budget includes \$600,000 for this purpose – this amount may be refined as SBAC work progresses in parallel with budget development.

Energy Improvements: This funding supports ongoing efforts to replace high-energy-use fixtures with energy-efficient fixtures throughout the district. Older fluorescent fixtures can now be retrofitted for LEDs with a 10-year useful life and a 40-50% savings in energy use; motion sensors can increase the efficient use of lighting and energy consumption in classrooms and office spaces. Funding for this work pays for itself quickly by the reduction in energy consumption due to modern, high-efficiency products. In FY26, funds are budgeted for ongoing replacement of outdated fixtures across the district, as well as upgrading the obsolete lighting system in the High School TV studio.

Roof Restoration: Roof inspections are conducted annually for all schools, and restoration projects that will extend the useful life of a roof system are recommended. Roofing leaks not only cause damage to the structure but also to mechanical equipment and building contents. Roof restorations can prevent leaks and extend the useful life of a roof system by 10 to 15 years, while replacements typically have a 20-year warranty. FY26 budgeted funds will support multiple scheduled roof section replacements at the High School and Middle School.

Exterior & Interior Finishes: Throughout the district, finish painting is required when a modification or change is made or when colors can no longer be matched due to base paint color formulas changing. Wear-and-tear occurs regularly as well, so it often makes more sense to plan a full painting project either by wing or hallway so as to achieve consistency in appearance and to maintain the appeal of the schools. Most of our buildings have masonry exteriors, but wood exterior surfaces at the primary schools also require paint or stain to maintain resistance to weather and the elements. Funds budgeted in FY26 will be used to continue painting hallways and high use stairwells and classrooms district-wide, and to stain restored siding at Blue Point.

Security and Access Management: Budgeted funds in this multi-year project account are used for upgrades and additions to our building security and emergency management systems. Ongoing investments have been made for cameras and access control equipment system-wide, continued improvements to entryway security, and other needs identified through review of our district safety and emergency protocols. In FY25 and FY26, a major investment is being made to replace the Middle School generator, which failed in December 2023 and cannot be repaired. The new generator was ordered with FY25 funds and will be installed in the summer of 2025 with funding in the FY26 budget. Additional funds will be used to upgrade our security system data center, to replace the failed speaker system in the High School cafeteria, and for door and entry upgrades and security camera replacement district wide.

Flooring Repair & Replacement: Most commercial flooring has a useful life of 10-25 years depending on the quality of the product originally purchased. No new funding is budgeted for flooring repair and replacement in FY26, however the 5-year Capital Plan reflects cyclical restoration work district wide in FY27-FY30.

Building Envelope Maintenance: After years of exposure to the elements, the mortar and brick surfaces of masonry siding begin to be compromised, causing cracking and deterioration of both masonry and joinery of the surfaces. When the siding and trim of a building are compromised, water intrusion results, causing a variety of problems including mold, indoor air quality issues, and destruction of interior finishes and classroom/office equipment. FY26 funds will be used for continued masonry re-pointing and waterproofing district-wide, cedar shingle and trim repairs at Blue Point School, and continuing staged replacement of deteriorating windows at the Middle School and primary schools.

Grounds & Site Maintenance: This capital project account includes funding for multiple projects:

Pavement Maintenance: Pavement on school roadways and parking lots suffers from heavy traffic use as well as the seasonal impacts of weather and frost. As pavement ages and cracks form due to frost movement, crack filling and re-sealing is necessary to prolong the life of the pavement. Because of weather and traffic impacts, regular re-painting of parking lot lines, crosswalks and directional arrows is also required. Annual capital investment is based on a rotating maintenance cycle throughout the district, and continues in FY26 with a budget request of \$100,000. A further \$50,000 is budgeted to extend and repave the staff parking lot at the Transportation Department.

Stormwater Catch Basin Repair: In our region, stormwater catch basins, or storm drains, are crucial for managing stormwater runoff, preventing flooding, erosion, and water pollution, and ultimately protecting both school infrastructure and water bodies. FY26 funding will be used to begin cleaning and repair of stormwater catch basins on all school campuses to ensure compliance with DEP regulations.

Landscaping: Trees and shrubs are strategically planted around school properties for multiple reasons including erosion control, runoff management, delineating space and signaling traffic direction, and creating natural borders for safety and security. Landscaped outdoor spaces also enhance learning environments, with proven benefits for mood and cognitive function. FY26 funding will be used for replacement of a number of dead trees on the High School and Middle School campuses.

Interior Construction & Renovation: Changes in the use of interior space are often needed to accommodate the developing needs of students and programs over time. At the Middle School, the science labs are outdated and not well suited for the delivery of our current curriculum. Funding in the FY26 budget will allow us to retrofit two labs to a more modern and flexible design.

HVAC Repairs & Upgrades: Heating and cooling systems at the primary schools and Middle School are 29 years old, while components of these systems typically have a useful life of 15-20 years. System components have begun to fail, and capital funding allows us to replace these high-cost components with new higher-efficiency equipment. Funding requested over multiple years in the capital budget has been used to complete a systematic overhaul of the HVAC system at the Middle School, whose components are well beyond their expected useful life, while also allowing for sufficient funding to replace other system components as needed. In FY26, funds are targeted to complete the upgrade of heating systems at the K-2 schools with replacement of one outdated boiler at Blue Point School, finish the replacement of failing heating pumps at the Middle School, and replace additional failing components district wide.

Note: The School Capital Budget is also included in the Municipal Capital Budget section.

School Budget Categories

In 2007, a state statute (MRSA 20-A, §1486) was passed requiring school budgets to be validated each year by local referendum. An accompanying statute stated that school budgets were to be presented in 11 defined categories, and Department of Education reporting requirements were developed to ensure that all school districts in the state would identify expense types in the same way. This is why our detailed budget account document is presented in its current format, by category and then by school or location. We believe it is more intuitive to think of our schools as unified organizations, rather than separating out types of services. Since the School Budget Referendum figures are posted in these categories, however, we want to be sure that citizens know what they include.

REGULAR INSTRUCTION

Regular Instruction Programs

Includes salaries and benefits for all general education classroom and academic support teachers, instructional support staff and substitutes; instructional supplies, books, equipment and online resources; staff professional learning and course reimbursement; and operational expenses like equipment repairs, copiers and printing, mileage reimbursement, and dues and fees for professional memberships. Each of these expense types is further broken out by school.

ESL – Programs for English Language Learners

Includes salaries and benefits for teachers of English language learners, contracted interpreters, staff development and instructional supplies.

GATES – Gifted & Talented Education Services

Includes salaries and benefits for teachers of Gifted and Talented Education Services, staff development and instructional supplies.

SPECIAL EDUCATION PROGRAMS

Includes salaries and benefits for all special education classroom teachers and specialists (speech therapists, occupational therapists, physical therapist and psychologists), social workers, ed techs and substitutes; instructional supplies, books and equipment. Also included in this category are salaries and benefits for directors and administrative support staff, summer program costs, legal fees for Special Education related services, and tuition for students who have been placed in special purpose private schools to access appropriate educational programming. (Local spending for Special Education is supplemented by Federal IDEA grant supplements.)

CTE INSTRUCTION – Career & Technical Education

This category holds the funds we pay to Portland Arts & Technology High School (PATHS) and Westbrook Regional Vocational Center (WRVC) for Scarborough's attending students. Starting in FY19, the state Department of Education began directly funding the CTE schools with General Purpose Aid (GPA), and sending schools will now only be responsible for minimal costs not funded by the state. There is no current expenditure budgeted in this category.

OTHER INSTRUCTION

Co-Curricular

Includes stipends for High School, Middle School and Wentworth club advisors, as well as club supplies, purchased services, transportation and participation fees.

Extra-Curricular

Includes stipends for Middle School and High School athletic coaches, game officials, ice and pool time, software, supplies, equipment and transportation. Also includes salaries and benefits for the Director of Athletics and Activities, his administrative assistants, and the Athletic Trainer; phones and staff mileage reimbursement.

STUDENT AND STAFF SUPPORT

Student Support Services

Guidance Services

Includes salaries and benefits for guidance counselors and 50% of school social workers, as well as support staff at the High School, Middle School and Wentworth; software licenses (college placement/testing), supplies, books, postage (parent/student communications) and professional dues. Each of these expense types is further broken out by school.

Health Services

Includes salaries and benefits for school nurses, LPNs and substitutes; consulting physician fee, staff immunizations (HepB), case management software, medical supplies, books and equipment, postage (parent communications), staff development, mileage reimbursement for itinerant staff, and professional dues.

Instructional Technology

Includes salaries and benefits for IT staff (paid to the Town), software licenses and service agreements, tech equipment purchases and repairs.

Staff Support Services

Improvement of Instruction

Includes salaries and benefits for the Director of Curriculum and Assessment, admin assistant, district librarian/tech specialist, student data specialists, and district SEL Specialist; testing and student assessment materials and processing; books, equipment, online resources and instructional materials for new curricula, professional learning in support of new curricula and quality assurance (teacher stipends, workshops/speakers/resources); phones and staff mileage reimbursement.

Library Services

Includes salaries and benefits for librarians and library ed techs; online services (circulation management) and resources (instructional), books and equipment, staff mileage reimbursement and professional dues. Each of these expense types is further broken out by school.

SYSTEM ADMINISTRATION

Includes salaries and benefits for the Superintendent, Assistant Superintendent, Director of Business and Finance and Central Office support staff, as well as School Board stipends; district-wide expenses for administrators' course reimbursement and professional learning, liability insurance, unemployment assessments, legal and audit services, district membership fees to professional organizations; operational expenses for phones, postage, copiers, advertising, business equipment purchase and repairs, mileage reimbursement, office supplies and subscriptions.

SCHOOL ADMINISTRATION

Includes salaries and benefits for school principals, assistant principals and their administrative assistants, operational expenses for phones, postage, office supplies, and professional dues. The High School budget also includes expenses for graduation. Each of these expense types is further broken out by school.

TRANSPORTATION AND BUSES

Includes wages and benefits for bus drivers (school regular, summer programs, community services and spares), as well as salaries and benefits for Transportation Director and dispatcher; bus fuel, repairs and maintenance, vehicle insurance, DOT driver physicals and drug testing, tolls, meal and mileage reimbursement, phones, and copiers.

FACILITIES MAINTENANCE

Includes wages and benefits for custodians (regular shifts, event coverage & substitutes), maintenance workers, the Director of Facilities & Maintenance, the Maintenance foreman, Facilities Operations Supervisor and administrative assistant; property casualty insurance, energy and utilities (electricity, natural gas, fuel oil, propane, water/sewer), custodial supplies, maintenance supplies and materials, building equipment and furnishings replacement, contracted maintenance services (snow removal, HVAC, electrical work, plumbing, painting, roofing, pest control, etc.), waste removal, composting and recycling, vehicle fuel and maintenance, uniforms and shoes, licenses and fees.

DEBT SERVICE

This category holds the funds for annual payments scheduled on bonds issued for prior years' school capital projects.

ALL OTHER EXPENDITURES

There is no current expenditure budgeted in this category.

TECHNOLOGY CAPITAL IMPROVEMENTS FY26

Location	Project Category/Description	Estimated cost	Project Details
Tech Equipment Replacement		74001784-573100	
	District-wide Instructional Technology - cyclical device refresh:		
K-2		500,000	Replace all K-2 chromebooks.
K-2		100,000	Replace failing K-2 switches.
K-2		170,000	Replace current failing wireless access points and add units to accommodate increased use. Estimate includes labor, cabling, racking, mapping cross connections, new keystone patch panels.
HS		85,000	Projector/screen replacement at the High School (collaboration w/Facilities).
DW		100,000	Convert virtual servers from VMware to Nutanix (hardware & software).
Total		955,000	
TOTAL TECHNOLOGY FY26		955,000	

FACILITIES & MAINTENANCE PROJECTS & EQUIPMENT FY26

Location	Project Category/Description	Estimated cost	Project Details
----------	------------------------------	----------------	-----------------

CAPITAL PROJECTS

Long-Range Planning		73001798-570000	
K-8	Building project	600,000	Continue planning & project development - placeholder per post-referendum estimate. Note: if referendum passes, this can be rolled into project bond.
Total		600,000	
Energy Improvements		73001803-570000	
DW	Upgrade electric fixtures	150,000	Continue to replace dw lighting with low energy LEDs and add motion sensors for efficiency. Priority for FY26 is Middle School, with some work at HS and WS.
HS	TV studio lighting	18,000	Upgrade obsolete lighting system for high school studio with LED lights and controls.
Total		168,000	

Roof Restoration & Replacement		74001771-570000	
HS MS	Roof maintenance per recommended schedule:	420,000	Section 1 multiple areas.
		409,000	Multiple roof sections 1, 3, 5, 6, 8; individual quotes to come.
Total		829,000	
Exterior & Interior Finishes		74001772-570000	
DW	Painting	200,000	Continue hallway & classroom painting district-wide as needed; renovate HS AP room.
BP	K-2 Schools exterior renovation	80,000	Finish painting of all K-2 exteriors (EC & PH completed in FY25). See also Building Envelope.
Total		280,000	
Security & Access Management		74001787-570000	
MS	Middle School generator	375,000	Install generator purchased in FY25. Estimate includes trench conduit, wiring, and electrical connections.
DW	Security system data center	12,000	Controller upgrades to latest version of Platinum Data Center for video and access control.
HS	Cafeteria speaker system	20,000	Replace failed speaker system for both daily intercom and special events.
DW	Secure entry	50,000	Doors & entry upgrades.
DW	Security Cameras	150,000	Add and replace security cameras. Priority for FY26 is oldest/obsolete cameras at High School (29 of 58 per inventory audit).
Total		607,000	
Building Envelope Maintenance		74001794-570000	
DW	Masonry, windows and siding restoration	50,000	Ongoing maintenance cycle - brick/mortar & siding restoration.
K-2		120,000	Finish repair & restoration of shingles & trim at K-2 schools (EC & PH completed in FY25). See also Exterior & Interior Finishes.
MS/K-2		50,000	Replace damaged/deteriorating windows at MS and K-2 schools (2-year project).
Total		220,000	

Grounds & Site Maintenance		74001805-570000	
DW	Pavement maintenance	100,000	Ongoing maintenance cycle - repave/fill cracks/stripping.
TR	Transportation Dept. parking lot	50,000	Repave & extend staff parking lot at Transportation Dept.
DW	Stormwater catch basin repair	50,000	Clean and repair existing storm drain structures (required by DEP audit).
HS/MS	Landscaping	30,000	Replace dead trees @ HS and MS (BP & PH completed in FY25).
Total		230,000	

Interior Construction and Renovation		74001773-570000	
MS	Retrofit science labs	25,000	Retrofit outdated science labs for modern instruction.
Total		25,000	

HVAC Repair & Replacement		74176800-573100	
DW	HVAC system maintenance	100,000	Replace failing components district-wide.
MS	Heat pump replacement	100,000	Finish replacement of failing heat pumps at Middle School.
BP	Boiler replacement	80,000	Replace 1 failing boiler at Blue Point.
Total		280,000	

CAPITAL EQUIPMENT

Facilities Vehicle Replacement		74176900-573200	
DW	Truck replacement (per Public Works recommended schedule) Ford F250 Truck ext cab 2014 (#71427)	65,000	Maintain vehicle replacement cycle for safe and efficient operations. This replacement was deferred in FY25.
Total		65,000	

Furnishings, Fixtures & Equipment		74001792-573100	
DW	Furnishings replace & renew	260,000	Regular scheduled replacement of aging furnishings as needed; ergonomic workstation upgrades.
		260,000	

Facilities Support Equipment		74176900-573100	
DW	Floor cleaning machine	70,000	Pilot purchase of robotic floor scrubber. Programmed, self-driving machine can replace 10 man-hours per day to help alleviate staffing shortage.
HS/WS	Floor cleaning machines	50,000	Scheduled replacement of outdated equipment at WS and HS.
Total		120,000	

Kitchen Equipment		74001736-570000
HS	School Nutrition replace & renew	16,000
HS		15,000
		31,000

Replace failing equipment for production efficiency:
Double oven (+ wiring & installation). Includes cost to move old single oven to MS.
Double baker (+ wiring & installation).

HS Auditorium Equipment		74001793-570000
HS	Repairs & upgrades for safety and usability	150,000
		40,000
		190,000

Installation of rear bleachers budgeted in FY25 (2-year project).
Installation + power connection of movable wall partition ordered in FY25 (2-year project).

Athletics Equipment		74001807-570000
HS	Bleacher repairs	55,000
MS	Storage container	12,000
		67,000

Replace remaining deteriorating plastic bleacher seats in Alumni Gym.
Storage container to replace sheds removed due to generator project.

TOTAL FACILITIES FY26 3,972,000

TRANSPORTATION DEPARTMENT FY26 74001712-573600

Location	Project Category/Description	Estimated cost	Project Details
TR	School bus replacement purchase: 3 gasoline/conventional buses at \$141,000 each	423,000	Maintain recommended vehicle replacement cycle for safety and efficiency. 30 buses in fleet with 10-year useful life = replace 3 per year.
TR	Van replacement (per Public Works recommended schedule) Replace 2016 passenger van #131998	30,000	Maintain recommended vehicle replacement cycle for safety and efficiency.

SCHOOL FUND BALANCE – YEAR END SURPLUS

Why is unassigned fund balance desirable?

Most school districts, like most businesses, strive to end each fiscal year with a budget-to-actual surplus. School districts cannot legally spend more than the amount approved by voters in the yearly budget referendum, so school leaders always work to come in under budget as we manage expenses throughout the fiscal year. In the past we would typically generate a few hundred thousand dollars in General Fund surplus each year. More recently, as our overall budget has grown and we have benefited from federal revenues available during the pandemic, the surplus generated has exceeded \$2M per year. This surplus can be used to help finance the next year's budget, or can be tapped in the event of catastrophic revenue shortfalls, such as State subsidy curtailments. A healthy unassigned fund balance is also critical in establishing a favorable bond rating for the Town, and was a major factor in our ability to improve our bond rating this year.

How is fund balance generated?

Some reductions from projected spending are achieved through fortunate cost shifts and program changes. In most years, savings are realized in salaries/wages and benefits through staff turnover, because new hires are usually placed on a lower salary step than veteran exiting employees. In recent years, the difficulty we've experienced in hiring for open positions and substitutes has increased budget surpluses in this area. In FY20, closure of school facilities and cancellation of programs and events led to unexpected cost savings, and in FY21 the infusion of COVID-related federal grant funds combined with these other factors to generate an even higher year-end balance

Some reductions from projected spending are achieved through strategic efforts. In FY20, for example, spending was curtailed by both Town and School leaders amid concern about potential economic impacts as the pandemic began. Deliberate spending actions can increase our year-end budget surplus over and above the usual incremental savings achieved through careful spending in every fiscal year.

Are there guidelines for accumulation of fund balance?

The Town of Scarborough has adopted a policy of holding no less than 10% of the year's operating budget as unassigned fund balance, and a goal of holding 16.67%. Town fund balance in excess of 16.67% must be assigned to one of a number of uses per the policy. The school department, however, falls under a state statute that requires districts to use year-end surplus in excess of 5% to support the following years' operating budgets, and thus to reduce the financial impact of school spending on local and state taxpayers.

Here is the relevant clause of the State statute:

Notwithstanding any other law, general operating fund balances at the end of a school administrative unit's fiscal year must be carried forward to meet the unit's needs in the next year or over a period not to exceed 3 years. Unallocated balances in excess of 5% of the previous fiscal year's school budget must be used to reduce the state and local share of the total allocation for the purpose of computing state subsidy. School boards may carry forward unallocated balances in excess of 5% of the previous year's school budget and disburse these funds in the next year or over a period not to exceed 3 years. (20-A, M.R.S. §15689-B)

Note: Due to the pandemic, for fiscal years 2021-22, 2022-23, 2023-24 and 2024-25 only, the allowable carry over percentage was increased from 5% to 9%.

How is fund balance used?

This chart shows how we have made use of year-end surplus as non-tax revenue in recent budget cycles. Because of an unexpected increase in state funding that was received after the FY22 budget had already been approved, the Board established a School Capital Reserve Fund to provide revenue for future capital projects as determined by the Board through the annual budget process. Since then, some surplus has been allocated each year to replenish and build that fund.

General Fund budget surplus history

FY ending fund balance	193,322	648,587	2,049,619	2,314,022	2,186,133	2,155,998
\$ change from prior year	(136,604)	455,265	1,401,032	264,403	(127,889)	(30,135)
Year-end balance as % of FY budget	0.40%	1.26%	3.84%	4.16%	3.72%	3.47%

Conclusion

While yearly school budgeting and expenditures are often driven by economic conditions outside the control of school leaders, striving to end the year with a budget-to-actual surplus is an essential element of fiscal management. A healthy school fund balance is a responsible financial goal and an asset to the community.

SPS Enrollment Summary

2015-2033

PAST

Historical Enrollment Trends
2015-January 2024

Historical Enrollment by Phase Level: 2015 - January 2024										
	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024

*COVID Year		Mean:	198.92	56.17	1.39

Kindergarten Enrollment vs. Number of Births in Scarborough

- Chart on the previous page compares 12 years of kindergarten enrollment to number of births in Scarborough.
- Annual number of births in Scarborough, from 2006 to 2018, is from Maine Division of Data, Research, and Vital Statistics (DRVS).
- When comparing the number of births in a given year to the number of Kindergartners enrolled, the number of K students exceeds the number of children born.
- The number of K students that are enrolled in Scarborough Schools are represented in the column labeled “K Enrollment”
- The column “In-migration” represents the number of K students who were NOT born in Scarborough but who moved to the community sometime before Kindergarten
- On average, the ratio of Kindergarteners enrolled to the number of children born in Scarborough is 1.39, and the average number of in-migrated students each year is 56.

Spring Curriculum Update and ESEA Planning

June 6, 2024

Katie Vetro, Director of Curriculum and Assessment

Objectives

- A few highlights!
- Spring assessment results & expectations for reporting to families about individual student scores
- Current focus areas and the related curriculum work
- ESEA Planning

Highlights

- K-2 (MindUP) and 3-8 (RULER) curriculum implementations
- Continued implementation and use of Performance Matters, allowing for data-informed decision making
- Maine Outdoor Learning Initiative pilot in Team Rain (7th grade)
 - *This year, I have learned with the help of my teachers and peers that learning outdoors helps me and other students to bring out our full academic abilities. A message that I think all teachers should hear is the outdoors doesn't always have to be used for recess or a break. Learning outside is important because students are able to get their hands dirty and do work that will be affecting them in the future.*
-Caelen Garriepy, Team Rain 7th Grader

Highlights

- Background planning and curriculum work to adopt CTE/core credit crossover at the high school level
 - Now in the Program of Studies, implementation of this begins in the fall

Celebrations!

Elementary and Secondary Education Act (ESEA) Planning

Funding Delivered Through Title Programs:

- Title I: Improving the Academic Achievement of the Disadvantaged
- Title II: Preparing, Training, and Recruiting High Quality Teachers, Principals, and Other School Leaders
- Title IV: Student Support and Academic Enrichment

Projects within each must align with district and building goals which are based on a review of the data to identify areas of focus.

Total Grant Allocations:

FY25: \$186,383.12 (preliminary)

FY24: \$216,298

FY23: \$215,292

FY22: \$223,941

Proposed ESEA Projects: Title IA

Must allocate funding for:

- Services for neglected or homeless students
- Parent and family engagement
- Equitable services for eligible private schools

FY25 preliminary allocation: \$104,346.01

Project: Continue to fund Blue Point teacher- currently a literacy interventionist, but will be expanded to a general Kindergarten interventionist in order to address all subject matter

- support the quality and effectiveness of teachers, principals and other school staff
- address the learning needs of all students

Project: Continue to fund the K-12 SEL Specialist position (portion transferred to local FY25) focusing on staff development and expanding this year to curriculum development

Proposed ESEA Projects: Title IV

Must allocate funding for one or more with restrictions:

- Well-Rounded Education (at least 20%)
- Safe and Healthy Students (at least 20%)
- Effective Use of Technology (not to exceed 15%)
- Transfer the funding into Title IIA

FY25 preliminary allocation: \$12,245.66

Project: Support student social and emotional growth:

Transfer funding into Title IIA to support continued professional development services and opportunities for students

© CASEL 2017

Next Steps

- Curriculum development work this summer
- Shifting professional development opportunities to in-school year staff learning instead of summer learning
- Continue curriculum review of Social Studies, Health, and Physical Education
- Begin curriculum review of English Language Arts and World Languages
- Complete the ESEA Consolidated Grant application; Due August 1, 2024
- Draft and refine curriculum department goals for the FY25 school year
- Develop and action plan, continue to analyze the data, and return next year for an update on our progress
