

## TESTING PROGRAMS

The Board believes that a program of group testing can provide a meaningful source of information about the adopted curriculum and overall student achievement. Therefore, the Board authorizes a program of group testing in order to:

1. evaluate strengths and weaknesses of current curriculum and instruction and to identify areas needing change;
2. compare achievement of District students with achievement of a sample population as one means of evaluating student growth;
3. provide a degree of diagnostic instructional information to teachers about the group(s) of students with whom they work;
4. provide general information about a student's probable aptitude for school-related tasks; and
5. provide one basis for a longitudinal study of student achievement and proficiency.

Information gained through the use of group tests is used to design educational opportunities for students to meet their individual and collective needs. The Board views such information gathering as a primary function of the public schools. Individual permission of parents is not required for the administration of these group tests.

The Board recognizes that all tests provide only a limited source of information about an individual student. Information drawn from group tests is therefore used only in conjunction with all other information available about a student in advising the student or assisting the student in improving his/her work.

Each student with a disability is considered individually as to his/her participation in the testing programs.

Records of the results of group tests are maintained in accordance with the Board's policy on student records.

Notification of a student's score on a state assessment is provided to the parent by June 30 each school year. Such notice may be provided by mail, email or through posting of the score in a secure portal on the District or school's website.

The administration has developed guidelines for the secure storing of testing instruments.
