Earth Day is an annual event, celebrated on April 22nd on which day events worldwide are held to demonstrate support for environmental protection.

It was first celebrated in 1970 and is now coordinated globally.

It has been over 135 years since J. Sterling Morton founded Arbor Day, and his simple idea of setting aside a special day for tree planting is now more important than ever.

If you're looking for inspiration for your own celebration—whether for a classroom or an entire community—here are a few suggestions. Organize a Big Tree or Oldest Tree search. Plant a tree. Write a story, produce a play, or present a skit about trees. Read a book about trees.
