

Rebel Reflections

I hope that you had a fantastic Spring Break. It was nice to see the weather completely change and now we welcome the warmer temperatures.

During break, I took time to review our students success this semester thus far. It is imperative that we all work to support our students in finishing off the most important quarter of the school year showcases all of their ability. Currently I am most concerned with the number of D's and F's our students earned on their 3rd quarter report cards. Although these are progress reports towards a students permanent semester report card, these grades are used for sports and performance eligibility. Below is a snapshot of the number of courses that our students earned poor grades, many of which are stand alone graduation requirements.

Grade	D	F
9th	399	814
10th	303	449
11th	290	356
12th	212	220

Please check your students quarter report card, which you should receive this week in the mail, but is currently available on Parent Q. This is very important, as many of the failed courses are stand alone graduation requirements, and we will have limited course options during summer school, so I highly encourage students to pass ALL classes the first time with a C or better.

CONGRATULATIONS to Eduardo Cortes, as he was just awarded the Dell Scholarship. This scholarship is awarded nationally to 500 students in the amount of \$20,000 each. Eduardo will also be afforded career counseling and other services as a recipient of this award. We are very proud of his accomplishments and look forward to seeing how amazing Eduardo's future will be.

For all senior families, I highly encourage you to look into www.calkids.org to see if your student is eligible for up to \$1,500 towards their post-secondary education. Many students are eligible, and the money can be used for a variety of things, such as tuition, books, supplies, and computers.

Please let me know if there is anything you or your student needs. I can be reached at (909) 357-5800 ext. 10117 or barbara.kelley@fusd.net.

The Transformative Power of AI in Business and Preparing High School Students for the Future

Artificial Intelligence (AI) is revolutionizing the business world, reshaping industries, and creating new opportunities for innovation and efficiency. As AI continues to evolve, it is crucial to prepare the next generation – high school students – to thrive in this dynamic landscape. This article explores the impact of AI on business and offers strategies to equip students with the skills needed to be competitive in the future workforce.

The Role of AI in Business

AI is being integrated into various business functions, enhancing productivity, optimizing operations, and driving value. Businesses use AI tools such as machine learning, natural language processing, and computer vision to automate repetitive tasks, analyze vast amounts of data, and make informed decisions. Key applications of AI in business include:

1. **Customer Service:** AI-powered chatbots and virtual assistants provide 24/7 support, improving customer satisfaction and reducing operational costs.
2. **Cybersecurity:** AI algorithms detect and respond to threats in real-time, safeguarding sensitive information and maintaining business integrity.
3. **Content Production:** AI generates high-quality content for marketing and communication, streamlining processes and enhancing creativity.
4. **Supply Chain Management:** AI optimizes logistics, predicts demand, and manages inventory, ensuring efficient and cost-effective operations.
5. **Recruitment and Talent Sourcing:** AI helps identify the best candidates by analyzing resumes and predicting job performance, making the hiring process more efficient.

Preparing High School Students for an AI-Driven Future

To ensure high school students are ready for the AI-dominated workforce, educators and industry leaders must collaborate to provide relevant skills and experiences. Here are some strategies to prepare students:

1. **Competency-Based Learning:** Schools should adopt models that allow students to progress at their own pace, mastering skills before moving on.
2. **Project-Based Learning:** Integrating hands-on projects that combine multiple subjects can help students apply their knowledge in real-world scenarios.
3. **Personalized Learning Plans:** Using data-driven approaches to tailor education to each student's strengths and weaknesses can enhance learning outcomes.
4. **Career and Technical Education (CTE):** Partnering with businesses to provide students with real-world skills and pathways to high-demand careers can bridge the gap between education and industry needs.

Upcoming Events

- March 25 – Baseball vs. Valley Christian (Cerritos) starting at 3:15 PM
- March 25 – Boys Tennis vs. San Bernardino High School starting at 3:15 PM
- March 25 – Varsity Softball vs. Entrepreneur High School starting at 3:45 PM
- March 25 – Boys Volleyball vs. Fontana High School starting at 3:45 PM
- March 27 – Varsity Boys Volleyball @ Palm Valley starting at 3:30 PM
- March 27 – Baseball @ Troy High School starting at 3:15 PM
- March 27 – Softball vs. Rialto High School starting at 3:15 PM

Athletic Director's Message

Fontana A.B. Miller High School is one of six member schools that comprise the Mountain Valley League.

Miller fields teams in 20 boys', girls' and co-educational sports at two to three different levels (Varsity, Junior Varsity, and Freshman).

To participate in a team, each student athlete is required to maintain at least a 2.0 grade point average. To help our student athletes make the academic grades necessary, A.B. Miller runs an academic accountability program for its student athletes. The staff member who developed and oversees the program is responsible for tracking grades, making parent contact, tutoring, and serving as a liaison between student athletes, teachers, and parents.

Jeff Omar
Athletic Director

AB Miller Athletics will be using **GoFan** for ALL home games for ALL levels (Freshman, JV, and Varsity). Many of our opponents will also be using **GoFan** for away competitions. Please use the QR code below **GoFan** and purchase your tickets.

Drop Off and Pick Up

Students may enter or exit one of two ways in the morning and at the end of the school day.

From the Cypress Avenue Side of Campus, please enter the parking lot from the northern gate near the tennis courts. Proceed to drop your student off and exit the southern gate. This parking lot is for student parking as well and is locked 15 minutes after school begins in the morning and is unlocked 15 minutes before the end of the school day.

From the Oleander Avenue Side of Campus, please use the northbound drop-off. Please do not sit and park in the morning, rather drop off and proceed north towards Highland Avenue to ensure that traffic keeps flowing. Students then need to walk in or out of the campus through the gates between the library and the Q-building (two-story building). This entrance will be open until 8:40 AM.

Students arriving after the gates are closed, need to proceed to the Attendance Office in the Oleander Avenue Parking Lot. Students check themselves in using our electronic pass system in the Attendance Office and quickly proceed to class, to minimize classroom interruptions and your students learning loss.
