SECTION 1—GENERAL INFORMATION

1.1 – Background

Jefferson City is located approximately twenty miles from Athens, GA and the University of Georgia. This nationally renowned community is considered both a rural and suburban community. Parental support for the school system is strong, and the Board of Education is positive and constructive in support of the academic and extra-curricular programs in all Jefferson City schools. Our schools continue to lead Georgia in academics, the arts, and athletics.

We have two elementary schools, one middle school, and one high school in our school system. We have two administrative locations - Central Office and Transportation/Maintenance. We enroll approximately 4200 students and employ approximately 450 professional employees.

We are looking to increase technology access for our students to provide a more personalized learning environment and the tools they need to be college and career ready. Because of the student growth population and age of inventory of student devices, JCS is looking to increase the number and availability of student devices to support our one to one initiative in grades 3 through 12.

1.2 – Intent of the RFP

It is the intent of this Request for Proposal (RFP) to provide bidders with sufficient information to prepare a proposal for the purchase of student devices.
