AP Courses

As a reminder, students interested in AP course enrollment for the 2025-2026 school year must meet with current AP teachers to review course expectations. These after school meetings are mandatory in order to be eligible for AP course enrollment. Once students have met with current AP teachers, student information will be added to AP rosters. The deadline for after school AP meetings is March 28th. Students interested in scheduling time with AP teachers must contact current AP teachers directly.

- If you are living in the community, at a vendor home, in shared living, or with family, please contact your Service Coordinator to be referred.
