Sippican School Council

The Sippican School Council was established pursuant to the Massachusetts Education Reform Act of 1993. In coordination with the principal of the school, the Council assists in the identification of educational needs of the students and in the review of the annual school budget. In addition, the Council has an ongoing responsibility to assess the needs of the school with respect to its educational goals and standards and to formulate and review annually a school improvement plan to advance these goals, to address identified needs, and to improve student performance.

The Sippican School Council meets the third Tuesday of each month, from 3:15- 4:15 p.m. Meetings will be held in person or remotely over Zoom. All are welcome to attend. Please check the posting at Town Hall or the school calendar on our website for meeting agendas each month.

School Resource Officer (SRO)

The goal of the partnership between Sippican School and the Marion Police Department is to support and foster the safe, healthy development of all students. Through the use of law enforcement resources and with the mutual understanding that school participation is indispensable, we can achieve positive outcomes for students and the larger school community.

The specific goals (related to students) of the partnership are to:

- Foster a safe and supportive school environment that allows all students to learn and flourish regardless of race, religion, national origin, immigration status, gender, disability, sexual orientation, gender identity, and socioeconomic status.
- Promote a strong partnership and lines of communication between school and police personnel.
- Encourage relationship-building by the SRO such that students and community members see the SRO as a facilitator of needed support as well as a source of protection.
- Offer presentations and programming to the school focusing on criminal justice issues, community and relationship building, and prevention, health, and safety topics.

Any question, concern, or complaint that a member of the school community may have with respect to the SRO or the SRO Program, should be handled in the following manner:

- Members of the school community may contact the building principal for support;
- Questions, concerns, or complaints should be provided, in writing (in their preferred language), to the building principal.
- The building principal may collaborate with the Superintendent of Schools and Police Chief as needed regarding any questions, concerns, or complaints.

Student Emergency Information or Status: Parent Notification to Sippican School

To ensure student safety, changes in family situations, addresses, or cell and telephone numbers **must be** reported to the school office **immediately**. It is important that all our records are up to date.

Please update your child's PowerSchool information as soon as possible. This information serves as an annual 'affidavit', attesting to a student's residency in our community.

Families moving from the community should notify the school office at least three days before their departure so transfer materials can be prepared. A *release of information* form must be received from the "new" school before any records will be forwarded.

Attendance

School attendance is compulsory. Attendance law states that:

- ***The Commonwealth of Massachusetts G.L. c. 76 sect. 1 requires that every child, with certain exceptions, between ages established by the state board of education, must attend a public day school or some other approved school, during the time when public schools are in session.***

- ***Under G.L. c. 76, sect. 1, necessary absences by a student may not exceed 7 full-day or 14 half-day sessions in any 6-month period.***

- ***Under G.L. c. 76, sect. 1, a pupil who is not present during at least half a session must be marked and counted as absent on the school register.***

All Massachusetts schools are accountable for student achievement. Every Student Succeeds Act (ESSA) mandates particular indicators of success for all schools with one being “chronic absenteeism. “All students are considered “chronically absent” if they miss 10% of the school year.

Full days of attendance are essential to the learning process. If a child is to be out of school, parents/guardians should call the nurse’s office at **508-748-0100** before 9:00 am on the morning of the absence. Please provide the following information in the message that you leave on the answering machine: **student’s name, teacher, and reason for absence**. If a call is not received and a student is absent, the School Nurse uses the *Blackboard Connect* messaging system to contact parents/guardians at home or work. **After any absence, students should present a parent’s note indicating the reason for the absence to the School Nurse.**

Absences are “excused” for only the following reasons:

- Bereavement
- Hospitalization
- School-sponsored trip
- Documented court or legal commitment
- Obligatory religious holidays
- Illness substantiated by a note (five or more continuous absences for medical reasons must be substantiated by a physician’s note).
- Weather so inclement as to endanger the health of a child

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician’s statement certifying such absences to be justified.

Some excess absenteeism occurs because families take vacations during school time. This is strongly discouraged. Teachers will not provide assignments prior to vacations taken during school time. After students return to school they will be made aware of missed assignments, making them up as soon as possible. Missed assignments are factored into students’ grades.

When Absences Exceed Three or More Days

On the THIRD day of consecutive absence or tardiness, the school nurse or a designee of the principal will call the student’s home. Each Principal or designee shall make a reasonable effort

to meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and no profit agencies.

On the eighth day of an unexcused absence, the school attendance officer will be notified and a complaint for Failure to Cause School Attendance pursuant to *G.L. c. 76, sect. 2* **may** be filed in Wareham District Court.

If the students' absences or tardiness occur on a regular basis and impede their academic progress, the school, as a mandated reporter, must consider filing a Child Requiring Assistance (CRA) report. Depending on circumstances, the school district may choose to file a 51A with the Massachusetts Department of Children and Families.

Tardiness

Tardiness negatively impacts the educational progress of all students. Therefore, the above policy will also be followed for excessive tardiness.

Dismissals

All dismissal policies are developed with students' learning and safety in mind. Policies are developed with input from the Sippican School Committee and town safety officials.

Dismissals During the School Day

No child will be dismissed from school during the day unless an authorized adult has come to the office to sign the child out. This applies to daily, or occasional, pickup arrangements. Students being dismissed before the end of the school day must bring a note to the homeroom teacher that morning. Students will be called from class *when the parent/guardian arrives*.

Any Change in Dismissal Routine

A note or alternative transportation forms from a child's parent/guardian must be provided before a child is allowed to leave school with any adult other than a parent or if he/she is normally transported by bus. There must be a note for each change to a child's routine. Bus changes are allowed for childcare purposes only, not for play or party dates. Parent(s)/Guardian(s) must arrange with the office beforehand for a bus switch. This restriction is in place for each child's safety.

Riding Bicycles to School

Students may ride their bicycles to school provided that they wear a helmet (as required under state law) and obey all traffic regulations. **A blanket permission note is required before students begin riding to and from school.** Bikes should not be ridden on sidewalks just outside school where children and adults are walking. Students not following safety rules may have their riding privileges revoked.

Food Service

School Breakfast & Lunch

The State of Massachusetts has signed into law on August 09, 2023; all children in public schools will receive 1 FREE Breakfast and 1 FREE Lunch per day, permanently.

Extra full student breakfast and lunches are available for \$2.75 for each breakfast meal and \$3.50 for each lunch per day. Milk costs \$.65. A la Carte menu choices are available at a variety of prices. *Free and Reduced Lunch Assistance* forms are sent home at the start of the school year, but applications are available at the school office and accepted throughout the year. Review them carefully and refer to these forms that are part of the opening packet to see if they pertain to you.

Lunch Procedure

Brief description:

- Lunch in the building cafeteria
- Students will come to the cafeteria, meal choices (hot or cold) are placed on the counter, the student takes their meal package and proceeds to the cashier.
- Students enter their lunch code.
- Children eat their meals at tables or a desk safely spaced.
- Lunch monitors clean and sanitize desks after children leave and prior to the next group entering.

Lunch Menus

Lunch menus will be posted on the District Food and Nutrition Website.

Free and Reduced Lunch Applications:

Families should still complete a Free and Reduced Lunch Application if you might be eligible for free/reduced meals. Each application can be downloaded and emailed to the Food and Nutrition Director or by applying online. The application for Free and Reduced Lunch can be found on the District website under Food and Nutrition Services.

Even though lunches are free, we still need to maintain our Titan accounts in good standing with a debit balance. If students want an extra milk or snack, there will be a charge for those items and the student's K12PaymentCenter account will be used.

Bringing Lunch from Home

If you choose to have your child bring lunch from home each day, to keep it cold, we recommend (1) bringing food in an insulated lunch bag with a frozen gel pack or frozen juice box; (2) freezing the sandwiches overnight (will thaw by lunchtime but keep cold until then); (3) packing the foods in a cooler with ice or another cold source.

School Visits

All visitors and volunteers are required to have a valid driver's license or Massachusetts issued identification card to be scanned-in upon entering the building *for any reason*; office staff will provide badges to wear once the ID is scanned into our system and each visitor is approved to enter. This includes stops at the Nurse's station. **All visitors who do not have a valid driver's license or Massachusetts issued ID card will not be allowed to enter the school during operating hours.**

Parents or guests wishing to visit a particular class are asked to plan with the teacher or the principal at least one day in advance. Teachers will always welcome an extra pair of hands; we encourage you to become an active part of our volunteer staff. Massachusetts State Law requires that all regular classroom volunteers, lunchroom visitors and field trip chaperones have a Criminal Record (CORI) check. These forms must be completed in the school office before your first volunteer visit.

Dress and Appearance

School is a place where student learning is a priority. A student's attire may influence his/her attitude as well as how much he or she learns. Student dress, therefore, is expected to be in good taste, appropriate for the weather and for academic work. It is not our purpose to dictate specific dress, but rather to ensure that our students are dressed in such a way as to contribute to their success and help generate a positive learning environment throughout our school. Students are not to be attired in clothing, which compromises safety or modesty or is disruptive to the educational process.

In order to assist parents in planning for their student's school apparel, the following guidelines are presented. Students are prohibited from wearing any clothing, including masks, that contain offensive or obscene symbols, slogans or words that degrade any gender, cultural, religious, or ethnic values, clothing that contains language or symbols oriented toward violence, drugs, or alcohol.

The administration reserves the right to determine appropriateness of clothing consistent with these guidelines. A student whose clothing is determined inappropriate for school will be required to arrange for other, more appropriate clothing to be provided.

Decorative footwear and flip-flops can create a safety issue when students play at recess and during Physical Education classes. Therefore, flip-flops or any other type of open-toed shoes are strongly discouraged for safety reasons.

All coats, boots, sweaters, sweatshirts, backpacks, lunchboxes and hats should be clearly marked with students' names. For those of you who have seen our Lost and Found area, you know that this can be a problem. Take the time to label! This will allow items to be returned easily if lost, or avoid confusion when two items are similar. Several cases of lost clothing were donated to charity during the last school year.

Recess

All students will have outdoor recess. Only in very inclement weather is recess held indoors. **Please be sure that your child is properly dressed.** Decorative footwear and flip-flops can create a safety issue when students play at recess. Therefore, flip-flops or any other type of opened-toe shoes are discouraged. We strongly recommend sneakers for all students.

Student Valuables

It is strongly recommended that students do not bring large sums of money, cell phones, hand-held video games, toys or stuffed animals to school.

Inclement Weather: Cancellations and Delays

Please be attentive to our telephone messaging system for news of school cancellations or delays. During stormy weather the District may call school for an entire day, or for a one to two hour delayed opening. If bad weather develops during the school day, afternoon classes or special programs and after-school activities may be canceled. It is important that families have plans in place for dealing with these possibilities.

We utilize the “BlackBoard” communication program that is capable of contacting all RMS families within a five to ten-minute window. As soon as the Superintendent has determined a delay, closing, or early dismissal, we will send out a “BlackBoard” call.

Because all district schools utilize the BlackBoard system, storm delays and closings may not be broadcast on local television stations. We ask that you not call the school office or the police station. The dispatcher reports they receive many calls that interfere with their ability to handle true emergencies.

Should the decision be made to close school early or cancel after-school activities, due to inclement weather, an attempt will be made to contact parents, using all emergency contact numbers within the “BlackBoard” system. In the event of a non-weather emergency, we will contact all parents using the same system.

Telephone Calls

Responsibility is an important attribute for all students. If students have forgotten books, classwork, or musical instruments, classroom teacher discretion will determine whether a call can be made via the classroom telephone. Teachers’ classroom phones are capable of local calling only. In cases of illness or emergency, calls will be made by the school nurse, an administrator, guidance counselor or personnel in the main office. Students will not be called to the phone for any reason. Messages will be taken in cases of illness and emergency.

Cell phones and Smartwatches

A student may carry or keep a cell phone or Smartwatch in his/her backpack **if authorized by the school office**. The phone or Smartwatch must be shut off and kept in the child’s locker/backpack and may be used only for emergency or unusual circumstances as agreed by parents and administration. The phone or Smartwatch may not be used to receive or send messages anytime during school hours **or on school buses**. Student phones or Smartwatches used to make, or receive, unauthorized calls during school hours, or on a bus, will be confiscated by the school administration or the bus driver.

Homework and Independent Reading

The School Committee has established homework guidelines that all teachers follow. Your child’s teacher will establish homework routines appropriate to his/her grade level. The School Committee policy can be acquired through the main office at the school. We ask all family members to become “Reading Partners” with our students. Research shows the more children read, the better readers they become. We encourage all students to read independently each night for 20–30 minutes before bed. In some classrooms, Student Reading Logs are sent home for students and/or parents to initial.

Photographs of School Activities for Local Papers

Opt-Out Procedure for Parents Who Do NOT Want Their Child’s Picture to Appear

As part of our public relations efforts, local newspapers are invited to photograph many school programs and events. Students are often included in these photos. As a parent, you have the right to

request that no picture of your child is used in this way. **You must complete the online forms or make this request in writing by completing a FERPA Privacy Form, included in this packet, and returning it to the Principal before September 10th.** If no letter is on file, we assume parental permission is granted for photographs to appear in local newspapers or on our school website.

Opt Out for Library Books

If you prefer that your child does not check out a specific library book, you may opt out of having your child check out the book by emailing your school's librarian with the exact title of the book and the author's full name. If no email was sent to opt out, your student will have full access to the variety of books available in the library. Here is the link to the library book platform Alexandria: <https://sippican.goalexandria.com/>

Parent Involvement/Parent Concerns

1. Being actively involved in your child's school is one way to alleviate concerns about his or her education. The parent volunteer group at Sippican (VASE) meets for an hour once a month either on Zoom or in person at the school.
2. Parent volunteers are needed to be a part of our School Council. In June of 1993, the Massachusetts State Legislature passed and Governor Weld signed into law The Education Reform Act of 1993 . Section 53 of Chapter 71 of the Education Reform Act of 1993 calls for the establishment of a School Council at each elementary, secondary, and vocational school in the Commonwealth. The school council provision of the act is intended to enhance parent and community participation in the school. The PTA, by law, is responsible for conducting the election of all parent representatives to the School Council. The nomination and election process is conducted each September. The School Council meets monthly with the principal of the school and assists in the writing and implementation of the School Improvement Plan and the review of the annual school budget. Representation from primary and intermediate grade students' families, as well as special education parents (if available), staff members and the community sit on this advisory team. Meetings are typically one afternoon per month from 3:15-4:15 pm.
3. The Sippican School Committee sets its meeting schedule at the start of the school year, and these meetings are typically in the evening (6:30pm). Meetings are held in person and over Zoom at the Sippican School and are televised. School committee schedules, meeting resources and meeting minutes are available online here: <https://www.oldrochester.org/district/sc>

Constructive criticism of our school is welcomed on the assumption that it is motivated by a sincere desire to improve the quality of the educational program and to equip the school to perform its tasks more effectively. Complaints are resolved most expeditiously if they are first taken to the staff member or administrator immediately in charge of the area in which a problem arises, then through successive administrative levels to the Principal, Superintendent, and subsequently to the School Committee, if necessary. Anonymous letters serve no positive purpose when trying to resolve problems and will not be given the same weight as an identified correspondence. The School Committee has adopted a policy to be followed when a parent/guardian has a concern that has not been satisfactorily addressed. A copy of that policy is available at the school office.

Our principal and vice principal are available to all parents. Please call the school office or contact the principal directly via email: lynndessert@oldrochester.org. All teachers are accessible via the school's e-mail carrier as well. Go to our school website to access a list of those emails.

First Aid/Emergencies

If a sudden illness or an accident occurs at school, the school nurse will administer first aid and immediately notify parents. Parents are responsible for transporting the student home in the event of illness or injury. If a serious illness or accident (life-threatening accident) occurs at school, the Marion EMS will be called for transport to the hospital.

Health Information

Make sure your child is up to date on their physical and immunizations. Talk to your health care provider and school nurse about health concerns you have for your child.

Submit emergency health information forms with correct contact information as soon as the school year begins. If your child exhibits any of the symptoms listed above during the school day they will need to be picked up from school promptly.

The Sippican School reserves the right to establish such health requirements, in a manner consistent with state and federal law, and which remain in place until rescinded by the School Committee and/or the Superintendent.

Health Records

Student health records are kept in a locked file in the nurse's office. It is the parents' responsibility to keep the nurse informed of new medical information. Students are required to have physical examinations in grades 3 and 6.

Vision/hearing screenings and height/weight measurements are done yearly. Parents are notified only if the results are not within normal limits. Postural screening is done only for students in grade 5. Screening for head lice is done as needed.

Dispensing Medications

Children are not permitted to carry medications on the bus or in the school building. A signed order from a physician, dentist, nurse practitioner, or physician's assistant is required to administer any prescription medications in school, as required by Massachusetts General Law. Parental permission is also required. A Medication Protocol form that covers non-prescription medications is included in this packet. Special arrangements for medication administration during field trips must be made with the school nurse. Medications will be given by a parent or by a school representative who has permission from the parent. Children will be allowed to self-administer inhalers on field trips only, with permission of the school nurse and when parental permission is on file at the nurse's office.

Growth & Development

Students will learn the basic characteristics of physical growth and development, including body functions and systems throughout the life cycle, and will acquire skills to promote and maintain positive growth and development (At the fifth-grade level, students will have an introduction to the human reproductive system. A parent letter will be sent out prior to the presentation).

Students will gain the knowledge and skills to select a diet that supports health and reduces the risk of illness and future chronic diseases.

- **Social & Emotional Health**

Students will acquire knowledge about emotions and physical health, the management of emotions, personality and character development, and social awareness; and will learn skills to promote self-acceptance, make decisions, and cope with stress, including suicide prevention.

and identify constructive alternatives to violence, including how to discourage others from engaging in violence.

If parents/guardians wish their children to be exempt from any portion of the Health Curriculum, a written request should be addressed to the school principal.

Massachusetts Comprehensive Assessment System (MCAS) Testing

Once during the school year, students in grade 5 participate in the Science Massachusetts Comprehensive Assessment System (MCAS) Test. Also, once a year all students in grades 3-6 will participate in the English Language Arts & Mathematics Massachusetts Comprehensive Assessment System (MCAS) tests. Testing during this school year will take place at the following times:

Grades 3–8 ELA and Mathematics, and grades 5 and 8 STE (computer-based tests)	
ELA Testing Window:	March 24–April 18
Math Testing Window:	April 28–May 23
Science Testing Window:	April 28–May 23

It is critical that all students be present during MCAS testing.

Student Records

The privacy of student records is guaranteed. Only parents/guardians and appropriate school personnel are allowed access to the information in a student's record. Specific written consent provided by the parent or legal guardian is necessary for any other examination. A student transcript, which includes name, address, and grades, is kept for at least sixty years. However, the student's temporary record, containing standardized test scores, evaluations by teachers, Special Education records, and the like, is given to the student upon graduation or destroyed within five years after the student leaves the school system.

In accordance with the student record regulations of the Massachusetts Department of Education, parents have the right to inspect a student's record. Records are made available within two (2) working days of a request being made. Copies of any part of the record may be requested and a reasonable fee may be charged for the cost of duplicating these materials. It has been our practice to make any student records easily accessible to parents and you will find the office staff most cooperative in this matter.

The Commonwealth of Massachusetts has adopted procedures for non-custodial parents who wish to receive separate copies of student records or school notices. Information is available in the school office.

Report Cards and Parent Conferences

It shall be the duty of each teacher at the end of each term or at the end of any period of time designated by the Superintendent, to estimate and to record the progress of students. The report card is an effective means of communicating an individual student's progress in relation to the curriculum and his/her own mastery of skills and social development. In the elementary grades, the written record is a standards-based report that indicates a student's progress.

Sippican School operates on a three-term grading cycle.

Marking Periods	Report Cards go home
Term 1: Marks Close 11/27/24	12/6/24
Term 2: Marks Close 3/5/25	3/14/24
Term 3: Marks Close 6/5/25	6/10/24 (Day 180)

Regular communication between school and home is important if we are to be successful. Conferences between parents and teachers are scheduled once during the school year, but if questions about your child's progress should arise in any curricular area, do not hesitate to initiate a conversation with teachers at any time.

Promotion/Retention of Students

It is expected that students progress annually from grade to grade. Exceptions are made only when it is in the best educational interest of the student.

Student Enrichment

Sippican offers various ways for students to enrich their academic learning. Here are some examples:

- Science Fair
- Band opportunities for grades 4-6 including the *FORM* concert which showcases all bands in the district.
- Choral opportunities for grades 4-6 including the *FORM* concert which showcases all choruses in the district.
- After School Activities: These are a collaboration between VASE and teachers. Brochures are sent home with students before the sessions begin

Field Trips

During the year, field trips may be scheduled at each grade level. A student's behavior while on these trips will reflect upon his/her school. Misconduct will not be tolerated. A permission slip must be signed by one of his/her parents or guardians before a student can participate in the field trip. The form must be returned to the teacher in charge prior to the trip. All school rules apply to field trips. Any child may be denied the privilege of going on a field trip based on poor academic performance or inappropriate behavior.

Internet Use Policy

An Internet user agreement is given to students at the beginning of their elementary experience. Students and parents sign and return the agreement and it is kept on file.

General Statement and School Rules

Sippican School emphasizes a positive, community-based sense of responsibility and respect throughout the school day. Students learn what is expected of them through the consistent modeling from the adults around them. Students, teachers, administrators and parents all work together to maintain a safe, orderly school environment where everyone can learn and grow.

Classroom teachers implement the Responsive Classroom curriculum to proactively teach and reinforce courtesy, assertion, responsibility, empathy, and self-control (CARES).

Students are expected to follow the school-wide rules that follow. These rules apply at all times, in all areas of the school.

- **Be Respectful**
- **Be Responsible**
- **Be Kind**

The following matrix outlines Sippican School rules.

Most of the expectations stated in this handbook are district-wide policies. Within Sippican School, an office referral form is available for teachers to fill out when a student needs to go to the office for disciplinary reasons. This form allows teachers to communicate the particular offense. Students who are referred to the office for serious offenses will meet with the principal, assistant principal. Consequences vary depending on the offense.

School Staff Role in Establishing High Behavioral Expectations

Teachers and support staff model and reinforce positive behavior and compliance with school-wide rules and values. In addition, teachers implement classroom rules and policies. Generally, these rules are developed with student involvement appropriate to age and social development.

Teachers follow all disciplinary steps outlined in their program on a consistent basis. This may include notes or phone calls home, after school time, individual contracts as deemed appropriate, or other strategies. Teachers and parents who have ongoing concerns about a student's behavior have several sources of support including the School Adjustment counselor and Administration.

Responsive Classroom

Sippican School utilizes the Responsive Classroom approach in supporting our students in the learning process. All Sippican teachers participate in Responsive Classroom training.

Responsive Classroom is a way of teaching that creates a safe, challenging, and joyful classroom and schoolwide climate for all students. Teachers who use the Responsive Classroom approach understand that all of students' needs—academic, social, emotional, and physical—are important. Elementary and middle school teachers create an environment that responds to all of those needs so that your child can do his or her best learning. The Responsive Classroom approach develops teachers' competencies in four key areas:

1. Engaging Academics—Teachers create learning tasks that are active, interactive, appropriately challenging, purposeful, and connected to students' interests.
2. Positive Community—Teachers nurture a sense of belonging, significance, and emotional safety so that students feel comfortable taking risks and working with a variety of peers.
3. Effective Management—Teachers create a calm, orderly environment that promotes autonomy and allows students to focus on learning.
4. Developmentally Responsive Teaching—Teachers use knowledge of child development, along with observations of students, to create a developmentally appropriate learning environment.

Student Behavior Expectations

Old Rochester Regional School District's school discipline philosophy recognizes and respects the rights and dignity of others. As a community of educators, we believe that building relationships with students is

paramount. This includes collaboration with students and their families, so together we can partner to ensure student success. We need the support of all stakeholders, especially our families, to make this goal a reality.

The ultimate goal of our school discipline philosophy, including restorative practices, is to build inclusive school communities that allow students to remain actively engaged in learning and minimize time taken from instruction and learning.

Rules for behavior in school are necessary to protect the educational rights and privileges of all students. It is essential that all students accept personal responsibility for maintaining high standards of conduct, including the observance of all school rules. The purpose of the Sippican Elementary School discipline policy is corrective; it is to encourage students to improve their conduct.

The school's discipline code is designed to assist students to show respect for others and their property, as well as for themselves. We ask our students to take a look at themselves and their actions. Being respectful is defined as having common courtesy, treating others kindly, saying please and thank you, etc. Students are reminded of these goals throughout their school day. Students are expected to comply with school rules and accept the leadership of teachers and school staff. Students should fully understand that any staff member in the building has the authority to address behavior at any time. Students must adhere to school rules not only on school grounds, but also on the way to and from school, on school buses, during after school activities, field trips and any other time when they are under school supervision. All students must also comply with state and federal laws as they apply to the conduct of minors and juveniles

Our intentions for school discipline are aligned with the following objectives:

- Students, parents/guardians/caregivers, and school personnel, are provided with a clear understanding of the various administrative responses to discipline as described in the student handbook.
- Utilization of discipline practices that are progressive and tiered by design.
- The exercise of any of a student's rights ceases when it impacts the rights of another individual or group.
- No student has the right to disrupt the educational process within a school or designated learning environment.
- Provide students with ample restorative opportunities to change behavior and nurture relationships when possible.
- Provide professional learning and support to employ strategies and actions that align with the principles of restorative practices.
- Every reasonable effort will be made to keep students actively engaged in their learning environment as much as possible.

- An office visit, detention, suspensions, and/or expulsions are used judiciously in alignment with the expectations of student behavior.

Each day in our schools, we support our students' social emotional learning and development, while employing practices to help strengthen our learning community. We are focused on building healthy, positive relationships, preventing harmful behavior, productively resolving conflict with individuals and groups, and fostering a positive and inclusive learning environment.

We value open dialogue to repair relationships, and we remain committed to the idea that harmful and disruptive behavior shall not be permitted to interfere with other students' access to learning. Families are encouraged to reach out to classroom teachers, school social workers or school administration with any questions or concerns.

Student Code of Conduct: (Standards for due process, as set forth in M.G.L. c. 71, §§ 37H, 37H¹/₂ and 37H³/₄,)

In addition to providing students with academic rigor and educational opportunities, the staff and community of the Old Rochester Regional School District & MA Superintendency Union #55 strive to support students' conduct and discipline toward becoming contributing members of society and achievement of their individual and collective goals. Students are expected (a) to arrive at school and at classes promptly, (b) to be in attendance every day except for illness or family emergencies, (c) to be prepared for classroom work, (d) to contribute in positive ways to the activities of each class, and (e) to accept responsibility for any inappropriate actions while working to be sure they are not repeated.

Our Code of Student Conduct provides guidelines for students to maintain a positive and supportive environment where students and staff are able to work collaboratively. It establishes every individual's responsibility to respect the rights of others. Finally, it identifies possible consequences for misconduct, ensuring that students know in advance of their actions what obligations may be due.

Conduct expectations are based on a system of progressive discipline, where an administrator has the discretion to significantly increase penalties in cases of second or subsequent offenses, or in cases where the severity of the infraction requires it. In addition, student discipline might be provided not only to hold students accountable for inappropriate behaviors but also to teach students about their responsibilities for good citizenship. Students may participate in a community service project or other alternative remedy as a means of accountability. Alternative remedies may include (but are not limited to): lunch detention, structured school day, collaborative problem solving, removal of privileges, referral to outside support (e.g. counseling).

The principal or designee will consider ways to re-engage the student in the learning process and shall not suspend the student until alternative remedies have been employed and their use and results documented. Alternative remedies may include, but shall not be limited to: (i) mediation; (ii) conflict resolution; (iii) restorative justice; and (iv) collaborative problem solving. Principals or designees will document the use and results of alternative remedies. Principals or designees do not have to utilize alternative remedies in the following situations: 1) if the alternatives are unsuitable or counter-productive, and 2) in cases where the student's continued presence in school would pose a specific, documentable concern about the infliction of serious bodily injury or other serious harm upon another person while in school.

See School Committee Policies JK and JIC.

File: JIC - STUDENT DISCIPLINE

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal shall include prohibited actions in the student handbook or other publication to be made available to students and parents/guardians.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent shall provide each Principal with a copy of the regulations promulgated by DESE and shall have each Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

Disciplinary Investigations

Nothing shall prevent a school administrator from conducting an investigation, including student interviews, of a school-related disciplinary incident. After a behavior complaint is made, an investigation will take place. This investigation, in accordance with M.G.L Ch 76, Section 5, will be nondiscriminatory, and will take into account explanations from involved parties and witnesses. Student discipline shall be addressed on an individual basis with each student, and may range from a conversation with the student to an expulsion, depending on the infraction. Individual student discipline will only be discussed with the family/guardians of the child directly involved. No information regarding students or their discipline will be given to anyone who is not a parent or guardian of that child. If the disciplinary procedures herein have been implemented and have been unsuccessful in changing the unacceptable behavior of a student, the parents/guardians will be contacted by the administration and may be asked to come into school to meet with their child's team of teachers and/or the administration.

Suspension

In every case of student misconduct for which suspension may be imposed, a Principal shall consider ways to re-engage the student in learning. Unless specific reasons are documented as to why such alternative remedies are unsuitable or counter-productive, and/or in cases where the student's continued presence in school would pose a specific, documentable concern about the infliction of serious bodily injury or other serious harm upon another person while in school, the principal shall not suspend or exclude a student until alternatives have been employed and their use and results documented. Alternatives may include but shall not be limited to the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and collaborative problem-solving.

The superintendent and/or principal shall also implement district/school-wide models to re-engage students in the learning process which shall include but not be limited to positive behavioral interventions and support models, and trauma sensitive learning models.

Notice of Suspension:

Except for emergency removal or an in-school suspension of less than 10 days, a Principal must provide the student and the parent/guardian oral and written notice, and provide the student an opportunity for a hearing and the parent/guardian an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal shall provide both oral and written notice to student and parent/guardian in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent/guardian present, the Principal must be able to document reasonable efforts to include the parent/guardian.

The principal or a designee shall notify the superintendent in writing, including by electronic means, of any out-of-school suspension imposed on a student enrolled in kindergarten through grade 3 prior to such suspension taking effect. That notification shall describe the student's alleged misconduct and the reasons for suspending the student out-of-school. For the purposes of this section, the term "out-of-school suspension" shall mean a disciplinary action imposed by school officials to remove a student from participation in school activities for 1 day or more.

For any suspension or exclusion under this section, the principal or designee of a school in which the student is enrolled, shall provide to the student and parent/guardian, notice of the charges and the reason for the suspension or exclusion in English and in the primary language spoken in the home of the student. The student shall receive the written notification and shall have the opportunity to meet with the principal, or a designee, to discuss the charges and reasons for the suspension or exclusion prior to the suspension or exclusion taking effect. The principal, or a designee, shall ensure that the parent or guardian of the student is included in the meeting, provided that such meeting may take place without the parent or guardian only if the principal, or a designee, can document reasonable efforts to include the parent or guardian in that meeting.

Emergency Removal

A Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption. The Principal shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal shall:

1. Make immediate and reasonable efforts to orally notify the student and the student's parent/guardian of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice as referenced in the applicable regulation;

2. Provide written notice to the student and parent/guardian as required above. The notice shall include the rights enumerated in law and regulation;
3. Provide the student an opportunity for a hearing with the Principal that complies with applicable regulations, and the parent/guardian an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal, student, and parent/guardian;
4. Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension - not more than 10 days consecutively or cumulatively

The Principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses provided that the Principal follows the process set forth in State regulation and the student has the opportunity to make academic progress.

Principal's Hearing - Short Term Suspension of up to 10 days

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal shall notify the student and parent/guardian of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's Hearing - Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's/guardian's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal, and to receive a copy of the audio recording upon request. If the student or parent/guardian requests an audio recording, the Principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent/guardian upon request.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal shall send the written determination to the student and parent/guardian by hand-delivery, certified mail, first-class mail, email to an address provided by the parent/guardian for school communications, or any other method of delivery agreed to by the Principal and the parent/guardian.

If the Principal decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's decision to the Superintendent or designee, but only if the Principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information: The process for appealing the decision, including that the student or parent/guardian must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5)

calendar days, the student or parent/guardian may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal shall have the right to appeal the Principal's decision to the Superintendent.

The student or parent/guardian shall file a notice of appeal with the Superintendent within the time period noted above (see Principal's hearing - Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent/guardian in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent/guardian and Superintendent to participate. The Superintendent shall send written notice to the parent/guardian of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent/guardian upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent/guardian upon request. The student shall have all the rights afforded the student at the Principal's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal, but shall not impose a suspension greater than that imposed by the Principal's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a

Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other schoolwork as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent/guardian of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents/guardians of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal shall notify the parent/guardian and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

Sexual Harassment

We are committed to providing an educational environment that is free of sexual harassment. Sexual harassment is unacceptable and will not be tolerated in any form at any level of the school system. Any student or employee found to have condoned or engaged in sexual harassment may, depending upon the extent of his/her participation, be subject to disciplinary sanctions, up to and including suspension, in or out of school, or permanent exclusion from school in the case of a student, and up to and including termination of employment, in the case of an employee.

If a student or employee believes that they have been subjected to sexual harassment, whether by a student, a school employee, or any other person who comes on school property with permission, or that s/he has witnessed the sexual harassment of another, the student or employee should report the incident promptly to the Principal, the Associate Principal, the Superintendent, the Assistant Superintendent, or any other administrator with whom the student or employee feels comfortable. A complaint of sexual harassment by a student, or by a parent on the student's behalf, may also be made to any counselor or teacher. A counselor or teacher who receives such a complaint will notify the appropriate administrator to initiate an investigation.

It is the policy of the school committee to have all complaints of sexual harassment promptly and fully investigated and to take any steps necessary to remedy the situation. Normally, the Principal/Associate

Principal will conduct the investigation of a complaint of sexual harassment or a designee selected by the Principal and will include separate private interviews with the complainant, each person accused of harassment and each of the witnesses, if any. The administrator conducting the investigation will ordinarily document the interview, but those interviewed may also be asked to provide a written statement. All students and employees are expected to cooperate fully with any investigation of sexual harassment. Information provided during an investigation of sexual harassment will be accused may be informed of the identity of the complainant or witnesses, but, in those circumstances, the accused will be cautioned against reprisals or recriminations or any attempted intimidation or coercion of the complainant or witnesses. At the conclusion of the investigation, the administrator will prepare a report, which will be shared with both the complainant and the person or persons accused of harassment. If the complainant or the accused is dissatisfied with the results of the investigation, either may discuss the issue directly with the superintendent.

Disciplining of Students with IEPs

State and federal regulations provide eligible students with certain procedural rights and protections in the context of student discipline. The Individual Education Program (IEP) for a student must indicate whether the student can be expected to meet the regular discipline code of the school or whether the code should be modified due to the student's disability. Such modifications will be described in the student's IEP.

As provided for in state and federal regulations:

- Any eligible child may be suspended up to 10 school days in any school year.
- After a student with special needs has been suspended for 10 school days in any school year, during subsequent removal, the school district must provide sufficient services for the student to continue to receive a free and appropriate public education.
- A suspension of longer than 10 consecutive school days or a series of suspensions that constitute a pattern are considered to represent a change of placement.
- Prior to a suspension that constitutes a change of placement, district personnel, the parent/guardian and other relevant members of the team will convene a "Manifestation Determination" meeting to review all relevant information to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the district's failure to implement the IEP.
- If the Manifestation Team determines that the behavior was not a manifestation of the disability, then the district may suspend or expel the student consistent with the policies applied to any student without disabilities. The district will, however, provide services to enable the student, although in another setting, to continue to participate in the general education curriculum and to progress towards IEP goals. A functional behavioral assessment and appropriate behavioral intervention services will be provided to lessen the likelihood of the behavior reoccurring.
- If the Manifestation Determination determines that the behavior is a manifestation of the disability, then the team will complete a functional behavioral assessment and behavioral intervention plan. Except when the student is placed in an interim alternative education setting, the student will return to their original placement unless the parents and district agree otherwise
- Regardless of the manifestation determination, the student may be placed in an interim alternative education setting (as determined by the team) for up to 45 school days if the behavior involves weapons or illegal drugs, another controlled substance, or the infliction of serious bodily injury on another person at school or school function; or, considered case by case, unique circumstance; or on the authority of a hearing officer if the district provides evidence the student is "substantially likely" to injure himself or others.
- These procedural requirements apply to students not yet determined to be eligible for special education if the Parent/Guardian has expressed concern in writing or requested an evaluation, or if

staff had expressed concerns about the student's behavior directly to the director of student service or other supervisory personnel.

Disciplining of Students with 504s

The code of conduct applies to students with and without disabilities; however, students on 504 plans must have an equal opportunity to be successful with classroom rules and behavioral regulations. Section 504 prohibits districts from disciplining students more severely than non-disabled students on the basis of disability. The free and appropriate education (FAPE) requirement of Section 504 provides that appropriate procedures for discipline are designed to meet individual educational needs of students with disabilities as adequately as the needs of non-disabled students are met.

Students with 504 plans may be excluded from their programs, as can students without disabilities. If students are suspended or expelled, they are entitled to oral or written notice of charges and an appeal for the opportunity to tell their side. Expulsion or suspensions of 10 or more days are considered a change of placement and must follow the procedures designated by the Americans with Disabilities Act (ADA).

When students with 504 plans are excluded from their program for more than 10 school days in the school year, it must be determined if the behavior was a result of the students' disability (manifestation determination). If it is determined that the behavior was related to the disability, students may not be excluded from the current educational placement until a new plan is written. The behavioral intervention services and modifications in the plan should address the behavior violation so that it does not recur.

If the student's misconduct is determined not related to their disability then the district may discipline in the same way as other students would be disciplined. 504 students do not have to be provided with a free and appropriate public education (FAPE) during expulsion or suspension for behavior not related to the disability. Students currently engaged in drug or alcohol abuse are not protected under Section 504.

When the placement of students with disabilities is changed for disciplinary reasons, the students and parents are entitled to the procedural protections required by Section 504 and the ADA. A school district may employ due process procedures that meet the requirements of IDEA to comply with the Section 504 and ADA requirements for procedural safeguards. These protections include appropriate notice to parents or guardians, an opportunity for their examination of records, an impartial hearing with the participation of parents or guardians and an opportunity for their representation by counsel and a review procedure. Thus, if, after a reevaluation of an initial placement decision, the parents disagree with the determination regarding the relationship of the behavior to the disability or with the subsequent placement proposal in those cases where the behavior is determined to be caused by the disability, they may request an impartial hearing.

A school district is not prohibited from employing its normal, reasonable procedures short of a significant change in placement for dealing with 504 students who are endangering themselves or others. When students present an immediate threat to the safety of others, school officials may promptly adjust the placement or suspend the students for up to 10 school days, in accordance with rules that are applied evenhandedly to all children.

NON-DISCRIMINATION POLICY

The Old Rochester Regional School District and the Massachusetts Superintendency Union No. 55, Marion, Mattapoisett, and Rochester, Massachusetts are committed to equal employment and educational opportunity for all members of the school community. Students and employees are protected from discrimination on the basis of race, color, gender identity, religion, national origin, gender, sexual orientation, age, pregnancy, homelessness, or disability in admission to, access to, treatment in or employment in its programs and activities.

The schools are also committed to maintaining a school and work environment that is free of harassment based on race, color, religion, national origin, gender, sexual orientation, age, gender identity, pregnancy, homelessness, and disability. Harassment includes physical or verbal conduct that is derogatory; this may include jokes, gestures, unsolicited remarks, or other behavior that creates an intimidating or offensive working or learning environment.

A student or employee who has a concern about discrimination or harassment should inform the Principal or the Superintendent of Schools, who will take appropriate steps to attempt to resolve the situation, such as discussion with involved persons, identifying and questioning of witnesses, and other appropriate steps. In most cases, a resolution will be achieved. However, if it is determined that a hearing is warranted, a hearing will be held before the Superintendent of Schools or a person that he or she may designate.

The goals of the above grievance procedures are to resolve complaints in a fair and timely manner and to ensure compliance with nondiscriminatory practices. Additionally, reprisals or retaliation against any individual who reports on, or files a discrimination or harassment complaint is strictly prohibited.

If you wish to discuss your rights, would like further information, or want to obtain help in filing a complaint, you may contact the Superintendent of Schools. The telephone number is (508) 758-2772 x1956. Any person having inquiries concerning the School District's compliance with the regulations implementing Title VI, Title IX, Section 504, ADA, or Chapter 622 is directed to contact the superintendent of schools, who has been designated by the School District to coordinate the District's efforts to comply with the regulations implementing Title VI, Title IX, Section 504, ADA, and Chapter 622, or write to:

Conflict of Interest Law and Gifts for Teachers

The Commonwealth's conflict of interest law, G.L. c. 268A, and the financial disclosure law, G.L.c.268B, restrict gifts and gratuities that school staff may receive. All teachers and school volunteers must be made aware of the content of these laws, specifically sections 3 and 23 of 268A, and section 6 of 268B. Section 3(b) prohibits a public employee from requesting or receiving anything of 'substantial value'* which is given for or because of an official act or act within the public employee's official responsibility. Similarly, under section 3(a), no one may give or offer such gifts to public employees.

In addition, G.L.c. 268B, section 6, specifically prohibits public employees or members of their immediate families from soliciting or accepting gifts with an aggregate value of \$100.00 or more in a calendar year. Next, under G.L.c. 268A, section 23(b)(2), public (school) employees are prohibited from using or attempting to use their position to obtain for themselves or others unwarranted privileges of substantial value that are not properly available to similarly situated individuals. Finally, even if a gift or gratuity is not of substantial value or does not fall within the prohibitions discussed above, G.L.c. 268A, section 23(b)(3) will, in many situations, require public (school) employees to disclose to their appointing authority, the gift and their relationship with the giver.

All school volunteers are required to be aware of the state's general laws and language surrounding gifts.

****Anything worth \$50.00 or more is considered to be “of substantial value” for the purposes of the conflict of interest law.***
