

I am writing to let you know about a few exciting, upcoming initiatives at Southern Crescent Technical College:

1. Our summer internship partnership with the Henry County Water Authority is open again this year—students selected for the internship will work a paid job with the HCWA over the summer and will take an SCTC class through Dual Enrollment during that term. There is an information session on Thursday, April 17, at 5:30pm at SCTC’s Henry County Center (300 Lakemont Drive in McDonough). Interested students will need to attend that session where application and hiring information will be provided.
2. We are offering a one week Ag Camp in Butts County and Upson County this summer—interested students can email me for more details, but it’s a great opportunity for them to learn about this industry through hands-on demonstrations, tours with local business partners, and interactive sessions.
3. Our Ag Entrepreneur Certificate program is starting this fall—students who complete the two semester credential during the 2025-26 school year will be eligible to participate in a pitch contest with \$2500 going to the winner for startup costs. Again, interested students can email me with any questions.
4. Lastly, we have another more open-ended Entrepreneurship program that consists of primarily business classes (the Ag program will include both business and Ag coursework) that also culminates in a pitch contest with prize money. If you have any students who would like to participate in this, please have them reach out to me.

We are excited about these opportunities for your students, and are hopeful we’ll have quite a few that are interested. If you or any of your students have any questions at all, please let me know.

Sincerely,

Drew Todd

Associate Vice President of Enrollment
Management
