As a parent how can I support the safety of my local school?

School Communication: It is important to make sure that your correct phone number and mailing address has been given to the local school. This information is pulled directly from PowerSchool.

- **BlackBoard:** Blackboard is the platform that is used to send out mass communication messages from the district level. In the event of an emergency this is the system that will be used to send out mass notifications.
- **School Status:** This is the communication system that the local school uses to send messages or call individual parents. When receiving these messages it is very important that you do not opt out of the service. If you opt out you will no longer receive messages directly from the school.
- **Facebook:** Hubbertville School Facebook page is a great way to keep up with school events or mass messages from the school.

School Closure: In the event that the school has to be closed information will be sent to parents via Blackboard (phone calls) and school status. When the school closes for emergency reasons the school will send out directions to parents on how to pick up students.

Drills: Hubbertville School conducts monthly drills to help students practice what to do in the event of an emergency on school campus.

Natural Disaster (Fire / Severe Weather): In the event of a school emergency information will be sent to parents using blackboard/school status.
