Summary

Motivated and detail-oriented high school student with hands-on experience in robotics and proficiency in SolidWorks. Strong problem-solving skills and a passion for engineering design, eager to apply technical skills, creativity, and teamwork in a real-world engineering environment. Committed to learning and contributing to innovative engineering solutions while gaining valuable experience to advance my future academic and career goals.

Work Experience

MAY 2025 - PRESENT

Kwik Trip - *Cashier*

- Time Management & Multitasking - Managed multiple tasks (register operations, stocking, cleaning) while maintaining efficiency and meeting deadlines.
