

**Emmett High School
Board Report
February 2025**

Accreditation Review Complete

On February 24th, our accreditation review took place. A tremendous amount of work led up to this review, and it could not have been completed without the help of the staff, the leadership team, Mr. S. Peterson, and Mrs. Hargitt. The review itself consisted of four separate interviews. The reviewer had a one on one interview with me, an interview with a team of teachers, an interview with a group of parents, and an interview with a group of students. Overall, our review went well; however, we will not receive the final review packet for approximately six weeks. I will share the results with the district administration and the school board when they come in.

Winter Sports are Complete

Our winter sports seasons are complete. We had several wrestlers qualify for state, and I believe we had five of them place. Our cheer team also qualified for state and competed over the weekend. Our girls' basketball team made it to a play in game, but ended up losing the play in game. Our boys basketball team played their hearts out all season, but wasn't able to finish with many wins. I'm proud of all of our coaches and our athletes!!

The first day for Spring Sports was Friday, Feb. 28th. This included baseball, softball, track, and tennis. We also have a club Lacrosse team and a girls' rugby team.

Principal for a Day

On February 17th, each school hosted two or three patrons who wanted to learn more about our schools. They spent approximately two hours taking a tour of the building, watching teachers teach, and having a Q and A session with the administration. Following the two hours, we were treated to a tasty lunch at PR2TA, compliments of Mr. Butcher and his culinary students.

Attendance Update

In February of 2024, our students accumulated 968 total tardies. In February of 2025, our students accumulated a total of 115 tardies.

Our attendance rate in February of 2024 was 93.36%. Even with the amount of sickness that we have seen, our attendance rate in February of 2025 is slightly up—93.59%.
