Learning Focus This Quarter

Reading: This quarter in reading we will continue to work on reading strategies to become more efficient readers such as identifying characters and their motives, inferencing and comparing our point of view with the writer. We will also begin our novel study this quarter. We will be reading the novel Charlotte's Web. More information to follow. Please continue to read with your student at home and doing MyPath for at least 20 mins each night.

Writing: Students will be working on responding to text in writing and adding detail from their reading.

Math: This final quarter will focus on Geometry. We will reason about shapes and their attributes, with a focus on quadrilaterals. We will solve problems involving the perimeter and area of shapes. We will generate and represent length measurement data in halves and fourths of an inch on line plots. We will also learn about and estimate relative units of measure including weight, liquid volume, and time, and use the four operations to solve problems involving measurement.

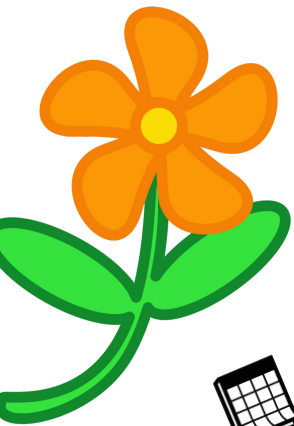

STUDENTS WILL BEGIN TO PREPARE FOR MCAP TESTING STARTING AT THE BEGINNING OF MAY.

Please continue to encourage your child to be a S.T.A.R...
