# CTE Limited Seating Courses

Weslaco ISD Career Technical Education (CTE) courses have become very popular among students at Weslaco ISD. **For some courses, there is much more interest than there are seats available - these are called "Limited Seating Courses"**. For Limited Seating courses, a new process for randomly selecting students will be implemented due to:

- **Safety** - The safety of our students and staff is a priority at Weslaco ISD. The safety of our students requires limited seating in CTE Classrooms and CTE Labs due to limited space and equipment, and/or mandatory state licensure, & certification requirements.
- **Availability** - District-wide courses are shared within both of our comprehensive high school campuses (Weslaco High and Weslaco East High School); this creates limited availability per campus.

## Who qualifies for Limited Seating Courses?

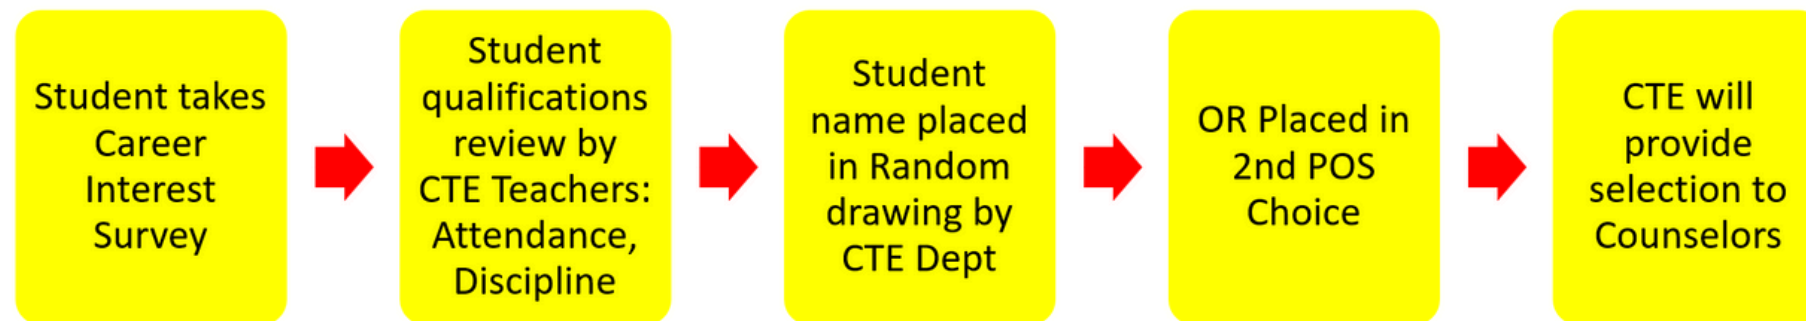

Students who:

- Are following a CTE Program of Study
- Have a declared CTE Endorsement aligned to the Program of Study
- Have fulfilled the CTE Course prerequisites aligned to the Program of Study

# CTE Limited Seat Courses, Random Selection Process

- Students pre-register for next year's courses at high schools and sign-up for course(s) of interest
- CTE Department tracks courses with limited seating
- **Selection process begins**

**Students will receive  
notifications and information  
via WISD email**
