AGENDA

TOPIC	NOTES
Welcome, Introductions	All parties were returning members. Intros skipped.

Student Services Updates & MTSS	██████████ did an accident review. There have been a number of incidents related to students. Nothing out of the ordinary. We did discuss the importance of professional development. At this time, we did not deem it necessary to review policies. We will continue to monitor the accidents. CHDI/Behavioral Health Grant: ██████████ continues to coordinate our work with them. We will look to schedule more professional development on behavioral health with CHDI in the future. Jeff Parkinson provided an update on the work of MTSS at the middle school—and by extension, the district.
Nurses' Update	██████████ talked about the importance of maintaining student records in the nurses' office. Many of the doctors' offices have the physical form in their database; the doctors' offices prefer the blue forms. They will be changing the forms. The nurses talked about the measles cases in New York City. Most districts have 97% herd immunity. UCFS provides immunizations.
