

SUCCESS FOR ALL STUDENTS SFAS

Building success at school for students with a diagnosed difference

ELIGIBILITY

- A student may be considered for the "Success for all Students" program if they have a diagnosed learning/medical/attention/social difference that inhibits or interferes with the skill of learning, which includes problems in speaking, listening, reading, writing, mathematical ability or impairment in social interaction.
- A child continues to be eligible for accommodations if the date on his/her educational testing is within three years of the current school year and/or the medical diagnosis is presently being monitored by your child's pediatrician. Parents must reenroll their child each year to remain in the program.

ENROLLMENT

- Submit paperwork showing a professional diagnosis of a learning/medical/attention/social difference to the Elementary Academic Support Team (AS).
- Approval for this program would be determined by the Academic Support Department based on the need seen by teachers and administrators.
- The cost for SFAS enrollment is an additional fee per academic school year in addition to regular tuition payments. If enrollment occurs during the school year, the cost will be pro-rated according to the same schedule on the tuition contract.

ACADEMIC SUPPORT

1 ACCOMMODATIONS

The AS Team will meet with the teachers to educate them about the diagnosis, provide a list of appropriate accommodations to implement in class and develop strategies to meet the accommodations.

2 PARTNERSHIP

The AS Team will partner with parents and teachers to update the plan as deemed necessary through discussions and observations.

3 SUPPORT

The AS Team will provide individualized support in the general or AS classroom for various academic skills as needed.
