

Cupcake Addition Game

Materials needed:

- Package of cupcake liners
- Random everyday objects (dried beans, coins, paper clips, etc.)

Preparation:

- Write 20 different addition problems on the bottom of cupcake liners. The answers should be 10 or less.

Example:

How to play:

- Turn the pile of cupcake liners upside down.
- Player 1 pulls a liner and puts objects in the liner that matches the addition sentence.

Example:

$$2 + 5$$

- Player 2 pulls a liner and puts objects in the liner that matches the addition sentence.
- The player with the larger answer gets one point.
- The player to get to five points first is the winner.
