GOLDEN  
RETRIEVER

Names: Jacky & Bless: Greyhound

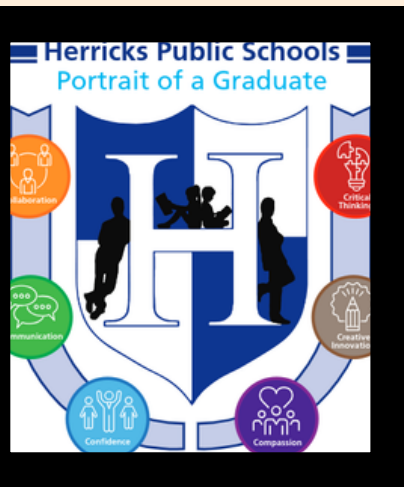

APPEARANCE  
Greyhounds are tan or gray with a smooth coat. They have a thin body and long legs and weigh from 60-70 pounds. Their long, thin head gives them a good field of vision.

PERSONALITY  
Greyhounds are gentle, independent dogs. Most greyhounds do not realize how big they are! These loving dogs often curl up in their owners' laps.

CARE  
Our dog needs dog food to eat and fresh water to drink. It needs lots of exercise to stay happy and healthy. Their short coats are easy to care for.
