

Sibshop Rules of the Group

Have fun and welcome new friends!

Keep what is said confidential; what is said in the group, stays in the group. You may tell your parents how you feel, what you said or did, but you cannot share names or information about anyone else. We as leaders keep what's said in the group confidential unless we are concerned that a participant is in danger or is a danger to self or others.

Be safe / online safety / privacy; in-person Sibshop groups include respect for personal space, listening to safety instructions, no running around, unless as part of a game. Online (Zoom) safety includes:

- Only invited participants will be on the call. Parent consent is required. The meetings are password protected.
- No video, audio or chat recording of any part of the session.
- No screenshots or pictures allowed.
- Be in a private space. Use headphones when sharing space with others in the room.
- Cameras should remain on for most of the session to ensure a secure and supportive environment for all participants and an engaging group experience.
- No one else is allowed on the call. Only registered Sibshop participants.
- No private messaging/chatting with peers during the session. Function turned off.
- Be aware of what is behind you, others will see!

Be respectful; listen to who is speaking, take turns, put cell phones away. During the online (Zoom) Sibshop:

- You may be called on or you can virtually raise your hand.

Ask for help; if there is something you need, or something is bothering you. During the online (Zoom) Sibshop:

- Speak up or send a chat to the group hosts!

You may pass during discussion; we encourage discussion, because others may benefit from what you say or may have the same feelings as you. It's okay if you just want to listen!

By registering for Sibshops/Sibsensatons, the caregiver acknowledges the rules of the group.
