

2025-2026 District Strategic Pillars

Student-centered culture

Provide effective instructional strategies to enhance student learning and achievement

Provide transparency and fiscally responsible decision-making

Establish and implement long-range planning

--- Board Driven Initiatives ---

- Continue to advance technology as a tool while seeking feedback from student advisory groups related to their educational experiences
- Support the continued implementation of measures to address student needs that extend beyond academic needs
- Receive updates regarding student supports (TeenHope, Safe2Say, Mindfulness Training, Emotional Intelligence, Advisory Programs, Facility Dogs, Link Crew, etc.)

- Encourage and support the continued pedagogical growth of all staff as it pertains to both content and application in the classroom
- Continue to extend offer for staff to be recognized at Board meetings
- Continue to advance technology as a tool to continue improving the instructional practice of all educators
- Explore additional opportunities to engage with staff members in an informal manner
- Continue to provide opportunities for Board communication and recognition of staff members for their contributions to serving students
- Support the development of District leadership, in collaboration with District administration, to assist with future succession planning

- Document traditional procedures and practices in an effort to maintain consistency across the District
- Continue to review and update Board policies, procedures, and Administrative Regulations
- Continue to maintain legislative awareness and engage in communication with members of the legislature
- Review Board Excellence "scorecard" when reviewing student achievement
- Workshop discussion – focus/review a PSBA principle, a Board initiative, and a parliamentary procedure on a monthly basis
- Continue to encourage Board participation in activities that promote PSBA's Principles for Governance and Leadership
- Encourage and support community engagement through transparency
- Goal to commit to and/or accomplish one item in each category included on the Board Excellence "scorecard" to focus on accountability

- Continue to explore and implement the next generation of student instructional technologies that align with Building and District Comprehensive Plan Goals
- Design and implement 21st century and innovative learning environments
- Prioritize building renovation projects in need of completion, as identified in the long-range plan
- Continue to engage and update community stakeholders regarding the Long-Range Planning Process
- Support the implementation of the updated Comprehensive Plan, including building plans and associated professional development needs across the District
- Support the development of District leadership, in collaboration with District administration, to assist with future succession planning
