

# STEM Innovation Challenge

**Space Center Houston in partnership with Chevron brings innovation to your classroom!**

The challenge this year is to design a novel system that removes and/or stores carbon from the air. **Open for all Houston-area students in grades K-12**

**Submission Deadline: May 2, 2025**

**Awards Ceremony: May 23, 2025**  
(invitation only)

**Every student participating receives a Space Center Houston ticket!**
