

Cypress-Fairbanks Independent School District

Hancock Elementary School

2024-2025

Mission Statement

Cypress-Fairbanks Independent School District's Mission Statement

We maximize every student's potential through rigorous and relevant learning experiences preparing students to be 21st Century global leaders.

Hancock Elementary's Mission Statement

Hancock Elementary highly regards quality teaching and meaningful learning. Our staff creates a learning experience for our students that embraces every student, meets every child where they are and encourages every student to grow and accomplish their educational goals.

Vision

Hancock Elementary will build and maintain a strong culture and community. Our campus utilizes strong instructional practices daily that is driven by data. Our students and staff will understand and implement the established systems consistently, that will allow for a safe and orderly environment for both our staff and our students. We, the staff of Hancock Elementary, are dedicated to our Campus 2024-25 Common Goals. Our staff will consistently model and teach the theme "Be Someone" who Lives Above the Line. Our staff believes in our students and teaches with confidence and care for all.

Goals

District Goal 1: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.

District Performance Objective 1.1: The percentage of eligible students scoring at the Approaches, Meets, and Masters Level on the District Progress Monitoring (DPMs) assessments will increase by 2% at the Approaches Level and 3% at the Meets and Masters Levels each year.

Evaluation Data Sources: STAAR RLA, Math, and Science

Strategy 1 Details	Formative Reviews		
<p>Strategy 1: RLA: Hancock teachers will provide engaging, rigorous, relevant and student centered/driven, interactive learning experiences for all students. Teachers will attend both District and Campus Professional Development and ELAR based Curriculum Academies. Tutoring will be offered by ELAR teachers to intervene for students who are at-risk of not meeting district standards, reaching Approaches or Meets on STAAR. Teachers will create intentional lessons that are focused to elevate critical oral language development in reading, writing, listening and speaking. Instructional specialist and Assistant Principals will provide training opportunities and resources, coaching and family engagement opportunities that all focuses on phonics, reading comprehension, inferencing and grade level missed TEKS. Instructional Specialist and ILT will coach teachers paraprofessionals on best practices to meet the needs of all learners in all sub-populations. Teachers will monitor student progress and adjust instruction through the monitoring notebooks and data growth charts for ELAR. Our teachers will use our Hawks Succeed Model to create lessons that are relevant, modified for our students understanding and engaging. Teachers will use slide decks and word walls along with creating and utilizing anchor charts with their students that establishes an anchor in their learning, provides relevance to the instruction and brings visual representation to their learning.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Teachers, Instructional Specialist, Assistant Principals, Principal.</p>	Formative		
	Nov	Feb	May
			
Strategy 2 Details	Formative Reviews		
<p>Strategy 2: Math: Our teachers will attend District and Campus Professional Development and planning sessions to increase content knowledge and build capacity. Hancock Math Teachers will utilize the collaborative planning session as a time to model and reflect on the what and the how of each lesson, using our Hawks Succeed Plan, to design lessons that are framed in such a way that students quickly understand the concept and the outcome to each objective. Teachers will provide an exit ticket for all direct-teach and first instruction lessons. Teachers will adhere promptly to coaching feedback. Teachers will incorporate the use of Interactive Notebooks, build and utilize anchor charts, create student centered instruction, build solidarity in fact fluency, number talks, LEP Strategies in math, and small group instruction in grades PK-5. Teachers will use concrete, pictorial and abstract models to teach and model math concepts. Teachers will ensure students are using the strategies and models (concrete, pictorial and abstract) as a part of the student outcome process whether in groups and independently. Teachers will be intentional about providing small group instruction to their students that is well planned and with the use of higher order thinking discussions. Teachers will explain how and why the TEKS are relevant to the students and the world around them, using a rigorous first instruction, with manipulatives and pictorial models to convey abstract concepts. Teachers will reteach missed TEKS, missed strategies and misconceptions by using spiraling back cycle to capture all learners, in all sub-populations. Instructional Specialists and teachers will develop student specific instruction using Hand 2 Mind, Origo Books of Facts, iXL, Lead4Ward for rotations, tutoring and independent self paced activities. Teachers and Instructional support will provide math tutoring after school and Closing The Gap Tutorials (Hawk Time) to increase student achievement. Teachers will incorporate Talk Moves into their daily conversation with students in math class. Teachers will use formative and summative assessments to build learning groups and target commonly missed TEKS to be retaught. Paraprofessionals will support students in smaller learning groups with fact fluency.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Teachers, Instructional Specialist, Assistant Principals, Principal.</p>	Formative		
	Nov	Feb	May
			

Strategy 3 Details	Formative Reviews		
<p>Strategy 3: Science: Hancock Science Teachers will consistently provide critical writing opportunities using the CER Model, interactive word walls, science investigations, use of interactive notebooks and spiral review. implement effective strategies and best practices consistently to improve science knowledge and scores for all students. Teachers attend campus and district professional development. Teachers will integrate VNG for structured conversations to build more connections in science. Teachers will commonly use the campus Hawk Succeed plan to provide a more student connected, relevant and rigorous science instruction. Teachers will provide hands-on demonstrations and experiments, investigations of the 5E Model and consistent spiral review for all students.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Teachers, Instructional Specialist, Interventionist, Assistant Principals, Principal</p> <p>TEA Priorities: Build a foundation of reading and math</p>	Formative		
	Nov	Feb	May
			
Strategy 4 Details	Formative Reviews		
<p>Strategy 4: Students will receive lessons covering nutrition and fitness and will participate in fitness related events at the campus and district levels.</p> <p>Strategy's Expected Result/Impact: Improved understanding of nutrition and fitness</p> <p>Staff Responsible for Monitoring: Principals PE Teacher Campus Nurse</p>	Formative		
	Nov	Feb	May
			
Strategy 5 Details	Formative Reviews		
<p>Strategy 5: Well-Rounded Education: Students will be provided the opportunity to participate in the following enrichment programs, courses, and/or activities in order to provide all students with a well-rounded education: New Student Orientation has been implemented to orient and assimilate students to our campus. During Class Meetings, teachers establish community and enrichment to meet the needs of all children in their journey. Restorative practices and PBIS strategies have been built into Hawk Time on Mondays to help teach children with social skills and problem-solving. PBIS Rewards are implemented into our campus as an incentive to motivate and encourage KINDness and PBIS-SOAR behaviors.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Counselors, Campus Culture Coach, Behavior Interventionist, Teachers and Assistant Principals along with Instructional Specialists</p>	Formative		
	Nov	Feb	May
			

Strategy 6 Details	Formative Reviews		
<p>Strategy 6: At-Risk: Students with an identified area of need based on STAAR or district progress monitoring will be provided with additional academic support based on their specific academic needs.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Principal</p>	Formative		
	Nov	Feb	May
			
Strategy 7 Details	Formative Reviews		
<p>Strategy 7: State Compensatory Education (SCE): Throughout the current school year, use the supplementary SCE funds to reduce the disparity in performance on STAAR between students at-risk of dropping out of school and other school district students as measured by educationally disadvantaged and at-risk students meeting or exceeding the STAAR performance targets.</p> <p>Strategy's Expected Result/Impact: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.</p> <p>Staff Responsible for Monitoring: Principal</p>	Formative

CYPRESS-FAIRBANKS ISD

Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional “standard operating procedures.”

Curriculum and Instruction

- The District provides a common curriculum for all subjects at every grade level with appropriate learning experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions. Teacher teams, campus administrators and district staff use Performance Matters to disaggregate assessment data using various reports that allow them to view data at a district, campus, teacher, classroom and individual level.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students’ needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
 - use technology (including but not limited to Chromebooks, online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
 - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
 - develop academic language proficiency through speaking, reading, writing, and listening;
 - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
 - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master’s Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
 - review of lesson plans;
 - participation in team planning by administrators;
 - participation in data review/data dig sessions; and
 - monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

2024-2025 Elementary Content Area Standard Expectations

Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a literacy schedule.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Foundational TEKS should be taught daily through explicit and systematic instruction.
- Utilize reading and writing strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and the reading and writing block.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Communicate and share conclusions using digital tools such as Google Suite, Flipgrid, WeVideo etc.
 - Incorporate the use of digital tools such as:

▪ Google Suite	▪ Amira Suite
▪ Scholastic Literacy Pro	▪ HMH Suite
▪ Scholastic Storyworks (2 nd -5 th)	▪ Achieve 3000
▪ Boost Reading	▪ Schoology
 - Incorporate the use of technology inside the Language Arts classroom when it is the most effective and developmentally appropriate tool for the task being asked of the student
 - Utilize only after explicit and systematic instruction of literacy processes has occurred and not in place of first instruction

Mathematics

- Model and expect students to use a problem-solving process.
- Post and use classroom-created anchor charts in math classrooms.
- Facilitate fact fluency/numeracy for 10-15 minutes daily during math instruction to develop automaticity. This can be accomplished using ST Math Puzzle Talks, Number Talks, Math Talks and other content conversation and fluency routines.
 - “Procedural fluency refers to knowledge of procedures, knowledge of when and how to use them appropriately, and skill in performing them flexibly, accurately, and efficiently.” NRC (2001)
 - Automaticity is fast recall of facts which seemingly appear instant.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Use Interactive Math Notebooks in 2nd-5th grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including “what do you notice/wonder” and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in digital creation and collaboration
 - Incorporate the use of digital tools such as ST Math, Gizmos, Performance Matters, Interactive Textbook, Schoology, Google Suite, etc.
 - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
 - Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.
 - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2nd-3rd = 60% of the time, 4th-5th = 50% of the time).
- Use a science notebook (grades 2-5) to collect and organize data in simple graphs, tables, maps, and charts.
- Analyze data using math to derive meaning, identify patterns, and discover relationships.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and vocabulary.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and scientific writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital collaboration;
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Explore simulations (e.g. Explore Learning Gizmos, Interactive textbook, etc.);
 - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc;
 - Communicate and share conclusions using digital tools such as; Google Suite, Flipgrid, WeVideo etc.

Elementary Physical Education/Health (K-5)

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

Elementary Music (K- 5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom pitched and unpitched instruments
- Create lessons and utilize activities that develop understanding of the elements of music such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Use 1:1 technology as a resource for self-exploration of topics and careers in music
- Encourage students to connect learning in music with other areas of knowledge such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

Visual Arts (K–5)

- Model and teach artistic thinking – which means prompting curiosity and asking questions to develop ideas.
- Create open-ended lessons encouraging the voice and experiences of students through creative approaches and unique solutions.
- Introduce a variety of processes/media to demonstrate skills and techniques (not solutions).
- Explore careers associated with visual culture.
- Encourage students to connect learning in art with other areas of knowledge such as math, reading, and social studies.
- Reflect on teaching practices to enhance professional development.
- Utilize the resources available to teachers including the CFISD adopted instructional materials, 1:1 technology, CFISD Benchmarks and CFISD Curriculum Standards.
- Encourage excellence by providing multiple opportunities for the students to compete in various settings including the Houston Rodeo School Art Contest, and the Texas Elementary Art Meet (TEAM contest).
- Participate in activities and events that promote school and community involvement, such as campus and districtwide art exhibits.
