

April Update

Hello families!

Your students have been working hard in our class to solve riddles, design gardens and write opinion pieces.

Here's an update on what your child will be working on this month:

3rd grade: We are learning outdoors when the weather is nice enough. We will be planting some flowers in the courtyard to create our own class garden. Today we recorded information from non-fiction books.

4th graders: We are creating timelines and writing responses about one major event in our lives. We started writing a pandemic timeline today. Students have a lot to say about their experiences in 2020/2021.

5th grade: We are reading The Birchbark House by Louise Erdrich. On May 8th, we will go to the MN History Center to explore the exhibits with a special focus on [Girlhood \(It's Complicated\)](#). I'll be sending home field trip slips as soon as the trip is confirmed.

Thank you for your ongoing support,

Nellie
