

# Genesis Parent Portal Updates & Google Classroom

Dear Springfield Families,

We are excited to share that Marking Period 1 Progress Reports are now available via the [Parent Portal](#). Information about accessing these reports can be found below. The same process will be used to access report cards and future progress reports. In addition, we have added an exciting new component to the Parent Portal—the Family Calendar. It is easy to access and gives parents of multiple students an excellent glance at upcoming due dates!

For our JDHS and FMG families, you will receive invitations for summaries and information from your students' Google Classrooms throughout this week. Please note that you are not joining the class but will receive notifications and updates. For more information, this [Google FAQ](#) is a great resource!

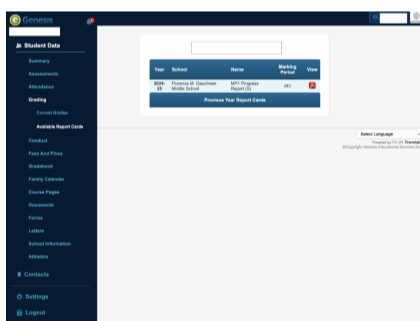

As we continue building and integrating our student information system, we will add historical student information, including prior grades and state assessment information. We expect parents to see those updates by the end of November, and we will keep you updated.

Thank you for your support as we work together to cultivate compassionate and extraordinary learners!

Sincerely,  
Dr. Rachel Goldberg  
Superintendent of Schools

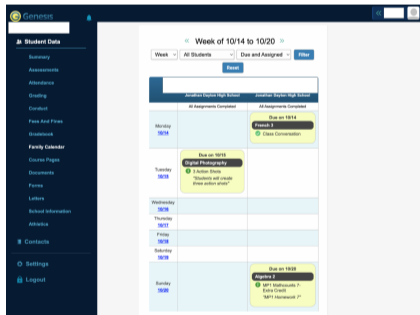

## View Progress Reports

- [Go to Parent Portal and login.](#)
  - If you haven't logged into Parent Portal before, you will be asked for a password. Use your email address on record, and if necessary, reset your password.
  - If neither guardian has completed the annual Re-Registration Form, you must complete that form before you will be able to access the progress reports.
  - [Additional information about logging into Genesis is available.](#)
- On the left side menu, go to the area marked "Grading", and click on "Available Report Cards".
- You must change students (at the top right corner) to see a different student's progress report.
- Click on the red adobe acrobat icon to open the progress report.

## Introducing the Family Calendar!

- [Go to Parent Portal and login.](#) (see information above if you haven't logged in before!)
- Click on Family Calendar in the left menu. Your students should appear side-by-side.
