

SCHOOL MEAL MODIFICATION POLICY

Jamestown Public Schools provides reasonable modified meal components on menus to accommodate students with a disability. A parent/guardian wishing to request dietary accommodations for their student with a disability/allergy must submit a medical statement completed by a State licensed healthcare professional, i.e., Physician, Nurse Practitioner, Registered Dietician, Physician's Assistant to their school's nurse's office. Documents can be emailed, faxed or mailed to the School Nurse at the applicable school. If you need assistance, please contact one of the following administrators:

Jill Muntz, the Coordinator of School Health Services at jill.a.muntz@jpsny.org

Scott Johnson, the Food Service Director at scott.t.johnson@jpsny.org.

The medical statement requirements:

1. Select dietary restrictions to avoid.
2. Recommended Alternatives.
3. Describe the impairment and how it restricts the child's diet. An explanation of what must be done to accommodate the disability, which may include:
 - a) Food(s) to avoid or restrict (allergen).
 - b) Food(s) to substitute.
 - c) Brief explanation of how exposure affects the student(s).

If the information provided in the medical statement is unclear, or lacks sufficient detail, the district's Food Service Director shall request additional information so that a proper and safe meal can be provided. Modifications to the meals will begin immediately upon receipt of the documentation and continue while waiting for additional information, if needed. This form will remain on file and into effect until we receive written notification from the parent to remove the restriction.

Modification procedure:

1. All servers and cashiers are made aware of the modification as soon as the food service department is notified.
2. Student's account is flagged with the modification, so it automatically comes up on the POS when the child enters his or her number.
3. Any food items needed to be purchased (gluten free items, dairy free items) may take time depending on the availability. Substitutions will be made until the product is received.

When choosing an appropriate approach to accommodate a student's disability, the district will consider the expense and efficiency of the requested accommodations. The district will offer a reasonable modification that effectively accommodates the child's disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product. The district will not prepare meals outside the normal menu to accommodate a family's preferences.

Parents may file a grievance regarding the request for accommodations with the district's Business Official, Brittany Spry, by calling 716-483-4422, who will schedule a hearing on the grievance, in writing, to be held within 10 business days. The Business official shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.
