Dates: Week 6 (Aug 4 - 8)   **Ages:** 7-11   **Time**: 13:00 - 15:00   **Fee**: $2940

DJ Tech Camp

Founded in 2015, Off Limits has been at the forefront of urban cultural expression through a unique blend of art and performance.

Creative DJ Tech with AI

Explore Music & Technology with AI
At our DJ Tech Studio, students embark on a hands-on journey to compose and generate music using cutting-edge AI tools. They will turn creative ideas into original tracks, blending artistic expression with technical skills. This innovative experience is enhanced by professional DJ equipment—turntables, mixers, and MIDI controllers—offering a hybrid approach that merges digital technology with real-world interaction in a fun, creative environment.

Build Skills & Gain Insights
Students will DJ their AI-created songs using state-of-the-art equipment, developing foundational skills in mixing, beat matching, and MIDI control. Interactive sessions encourage curiosity and creativity while introducing both traditional DJ techniques and modern, AI-powered music production. This balanced approach helps students build confidence, rhythm, and a deeper understanding of sound.

Create, DJ & Personalize
After generating their tracks, students will remix and personalize their music using professional DJ gear. This process allows them to express their individuality and gain hands-on experience in music creation. By the end of the camp, each participant will leave with a recorded track—an exciting and meaningful keepsake that reflects their unique style and the creative journey they've taken through music and technology.

Fashion Design

ActiveKids provides high-quality, fun, and educational programs for children aged 3 to 18 in Hong Kong since 2004. With over 60 schools and clubs, our programs offer exceptional value to children's development.

Mission Runway

Mission Runway is a dynamic program that combines textiles, design, and presentation all in one. Not only will students gain knowledge of how to conceptualize their creativity, but they will also learn textile basics to construct a garment and accessories to be presented in a fashion show at the end of the week.

Students apply their creativity by transforming a simple t-shirt/hat into something fantastical. All materials are provided for children to draw, deconstruct, and reconstruct their wearables – from outfits to accessories. This program will help children apply their creativity and develop their presentation skills - while having tons of FUN!

Filmmaking: Make Special Effects Films
Most movies students watch today involve special effects, but students rarely know how they are created, which means they cannot apply them to their own films. In this camp, students will be introduced to the exciting world of special effects filmmaking by creating a special effects mini film.

Dates: Week 1 (June 30 - July 4)   **Ages:** 8 - 11   **Time:** 13:00 - 15:00   **Fee:** $3654

Short Film Production: Make an A.I.-Written Film
Many students have heard a lot about AI and ChatGPT lately, but do not know how artificial intelligence can enhance their own creativity, which means they miss out on the chance to use new technology creatively. In this camp, students will discover the creative possibilities of short film production by creating a film written by AI.

Dates: Week 2 (July 7 - 11)   **Ages:** 12 - 15   **Time:** 13:00 - 15:00   **Fee:** $4179

Creative AI: Make a Music Video
 AI is an increasingly important part of our lives, but students rarely get to explore its use in creative ways, which means they will not understand how technology can benefit, instead of replace, their human creativity. In this camp, students will discover the creative possibilities of creative AI by making a music video.

Dates: Week 5 (July 28 - Aug 1)   **Ages:** 12 - 15   **Time:** 13:00 - 15:00   **Fee:** $4179

Vlogging: Make a Summer Vlog
Vlogging is one of the most popular ways to share your experiences with others, but students rarely know how to vlog effectively, which means they miss out on the fun of video creation. In this camp, students will explore the creative possibilities of vlogging by making a video about their summer holiday.

Dates: Week 7 (Aug 11 - 15)   **Ages:** 12 - 15   **Time:** 13:00 - 15:00   **Fee:** $4179

Floral Jamming

Some kind space
耕 作 室

Some Kind Space is a collaborative environment for artists and craftsmen. We invite individuals of all skill levels and talents to come together and create. We partner with schools, companies, and organizations to conduct workshops. Floral art is one of our key areas of focus among various mediums. We are experienced in decoration for wedding, tailor-made floral bouquet for guest speaker at event, and we also host floral workshops and jamming sessions for the public.

Floral Jamming
Join us for an exciting 5-day Floral Jamming Class, designed for aged 8+ students eager to explore the vibrant world of floral design! Each day, students will immerse themselves in the art of creating stunning arrangements using dried, artificial, and fresh flowers. Over 2 hours each day, participants will learn essential techniques, colour theory, and creative design principles, guided by experienced instructor(s).

This course covers:
•   Hand Tied Bouquet - Dried Flowers
•   Floral Art in a Frame - Artificial Flowers
•   Floral Headband/Bracelet - Artificial Flowers
•   Floral Basket - Fresh Flowers
•   Floral Jamming - Fresh Flowers

Dates: Week 6 (Aug 4 - 8)	**Ages:** 12+	**Time:** 13:00 - 15:00	**Fee:** $3360
Dates: Week 7 (Aug 11 - 15)	**Ages:** 8 - 11	**Time:** 13:00 - 15:00	**Fee:** $3360

Hairstyling

Smart Cookies Workshops

Smart Cookie enrichment, hosted by Complete Deelite is a program developed to expand on all of the workshops already curated by Complete Deelite. We will use artistic approaches to food preparation and pair them up with arts and crafts activities. Our goal is to engage students in creative and versatile projects that fit their age group and their parents' preferences. Through a series of workshops, children will become familiar with different materials and disciplines which will develop and enhance their artistic skills.

The Art of Hairstyling - Beginners

Hairstyling is an art form that many of us wish to explore. A Canadian-trained hair stylist, accredited by VTC, will offer you in-depth, step-by-step hands-on training in this beginner's class. ****Price includes Starter Kit (real hair mannequin and hair tools)**

You will learn how to:

- Understand basic haircutting techniques
- Learn about different hair types and face shapes
- Master basic cutting techniques
- Explore layering and blending methods
- Practice finishing techniques and client consultation

Summer Theatre

Faust International Youth Theatre's sought-after Summer Theatre Programs are back at DSC International School! Workshops are designed for ages 4 through to 12 (with groups divided according to age) to bring confidence, focus and fun to all who join!

Summer Theatre
Under the careful guidance of our experienced and enthusiastic leaders, children will explore different aspects of the performing world by learning and practicing drama skills using different themed stories as inspiration. Workshops are tailored to the needs and age of the children. All activities are engaging and challenging, and focus on providing children with a sense of achievement and a boost of creativity and confidence. Most importantly, these workshops are designed to be fun and enjoyable for all! Photographs and a mid-week report will be emailed to parents. The week ends with an Open Session where the children share their work with an audience!

Wearable Art
Get ready to unleash your creativity this summer with our course on Fashion Upcycling Techniques! This hands-on program invites you to transform old clothing into stylish, one-of-a-kind pieces using stenciling and stamp carving.

You'll learn how to:

• Stencil: Discover the art of stenciling as you create unique designs to breathe new life into your garments. Use a variety of colors and patterns to express your personal style!
• Stamp Carving: Design and carve your own stamps to make custom prints on fabric, adding a playful touch to your upcycled creations.

Throughout the course, you will bring your own garment pieces to work on, allowing you to personalize your projects and express your creativity in sustainable fashion. Let us change the way we see and wear clothes together!

Future Ready Education

Founded in 2019, **Big Bang Academy** is an award-winning STEAM education company with a focus in hands-on science education. Through series of professionally guided science-related workshops and classes, we aim to provide a collaborative environment for children to experiment the unknown and empower them to be confident to learn through failure. **FULL DAY CAMP!**

[Please click here to enrol](#)

Future Urban Planner
Campers will become urban planners as they explore the principles of architecture and sustainability. They will design their own cities using eco-friendly materials, learn about city features such as parks and transportation systems, and understand the importance of sustainable practices in urban development. ***Students must bring a packed lunch with non-perishable food, a snack, and a labelled water bottle each day**

Learning Outcomes:
• Understand basic architectural concepts and the importance of sustainability in urban planning
• Develop teamwork skills by collaborating on city design projects
• Enhance problem-solving abilities by addressing real-world challenges related to urban environments

Dates: Week 3 (July 14 - 18)   **Ages:** 6 - 8   **Time:** 9:00 – 16:00   **Fee:** $6141

Game Designer
Campers will dive into the world of game design by learning coding skills while incorporating scientific principles. They will conceptualize, design, and develop their own video games using platforms like Scratch or Unity. This hands-on approach encourages creativity, logical thinking, and collaboration. ***Students must bring a packed lunch with non-perishable food, a snack, and a labelled water bottle**

Learning Outcomes:
• Acquire foundational coding skills necessary for game development
• Understand the principles of game design, including mechanics, storytelling, and user experience
• Enhance problem-solving abilities by troubleshooting coding challenges during game development

Dates: Week 4 (July 21- 25)   **Ages:** 9 - 11   **Time:** 9:00 – 16:00   **Fee:** $6519

Ivy Camp USA is in a league of its own! Classes are taught by instructors from Top 10 US Universities such as Harvard, Princeton and Yale. Ivy Kids offers a pioneering curriculum and engaging activities designed by specialists with over 40 years of experience in education.

[Please click here to enrol](#)

Ivy Camp USA: Make & Market Your Own Chocolate Brand
Get ready to dive into the sweet world of chocolate! In this program, you will explore chocolate from every angle -science, math, history, geography, design, business, and art. You will learn how chocolate is made while you practice cooking and measuring with your favorite flavors. By the end, you will develop your very own unique chocolate treat, complete with a custom recipe, wrapper, and branding for everyone to enjoy!

We just love basketball

Gymnastics

Asia Adventure Sport's Gymnastics program is an exciting program that introduces children to basic gymnastic exercises, routines and apparatus. The program aims at developing the children's gymnastic skills, making them competent, confident gymnasts. The program emphasizes exercises that require strength, flexibility, agility, coordination, and balance. Our gymnastics classes are executed with the usual Asia Adventure Sport Environment of fun, passion and encouragement, coupled with great attention to technique and performance quality.

Coding

SUP Education is a STEAM education centre that offers fun and educational coding courses to children. Programs are designed to integrate STEAM education with user-friendly programming tools that are optimized for future-focused learning. SUP Education provides a safe and supportive learning environment where children can experiment with various coding concepts and technologies.
*A laptop is required for this class; ipad or a laptop for students aged 8

[Please click here to enrol](#)

Creative AI Camp
Create your own AI-generated book, learn prompt engineering, and dive into ethical topics like deepfakes. Unleash your creativity and develop future-ready skills.
*Printed book available for HK$600; Production time takes around 3 weeks

Dates: Week 2 (July 7 - 11)   **Ages:** 9 - 12   **Time**: 13:00 - 15:00   **Fee**: $3087

AI Entrepreneurs Camp
Tackle global challenges with AI! Learn market research, data analysis, and no-code AI tools to bring ideas to life. Collaborate in teams and build a promotional webpage for your innovative product. Shape the future with entrepreneurship and technology!

Dates: Week 5 (July 28 - Aug 1)   **Ages:** 12+   **Time**: 10:00 - 12:00   **Fee**: $3087

VR Escape Room Design - CoSpaces Edu
Unleash your child's coding potential through an immersive CoSpaces Edu VR Escape Room adventure! In this action-packed course, kids will dive into the world of coding as they design their own escape rooms using CoSpaces Edu's intuitive platform.

Dates: Week 7 (Aug 11 - 15)   **Ages:** 8 - 12   **Time**: 10:00 - 12:00   **Fee**: $3087

Creative Computing

TLC Kids offers fun and educational extracurricular classes, including Math & Science, Creative Computing, and Inline-Skating & Skateboarding. We promote effort, determination, and positive self-belief. Together, we create a world of self-motivated learners who are brave, resilient, and ready to tackle challenges!
*Students will use their own laptops in class. Equipment can be provided if requested in advance.

[Please click here to enrol](#)

Creative Computing
Get ready for exciting, creative theme-based computer and tech projects this Summer!
This computer skills program provides our pupils with a solid foundation alongside the skills and confidence to fully utilise ICT at school and at home. Our classes will have topical activities designed to engage their creativity and keep them up-to-date with current trends in our rapidly changing digital world. Some examples of our learning topics include: Image Editing, 3D Modelling, Animation, Music Creation, Programming, Simulations, A.I and Neural Networks, Digital Game Based Learning and much more!

Safely guided and motivated, our pupils will happily explore, create and collaborate to enhance real-world problem solving, social and academic skills.

Engineering
Designed for aspiring engineers and problem solvers, this course explores the interconnections between math, science, and engineering principles. Students will delve into a wide range of topics in physics, architecture, electrical engineering, and materials science, to solve real-world engineering challenges and work on engaging projects that simulate the engineering design process. Each day students will enjoy a new activity as well as gain a deep understanding of how math and science principles are foundational to engineering innovations.

Dates: Week 1 (June 30 - July 4)	**Ages:** 8 - 12	**Time**: 13:00 - 15:00	**Fee**: $2117
Dates: Week 2 (July 7 - 11)	**Ages:** 5 - 7	**Time**: 10:00 - 12:00	**Fee**: $2646
Dates: Week 3 (July 14 - 18)	**Ages:** 8 - 12	**Time**: 13:00 - 15:00	**Fee**: $2646

Dates: Week 7 (Aug 11 - 15)	**Ages:** 8 - 12	**Time**: 13:00 - 15:00	**Fee**: $2646

Babel Film Workshop is the leading film and media education company in Hong Kong. We provide fun and professional programs for students aged 5 -15 to learn the visual literacy skills necessary to communicate effectively in today's visually-driven world. ***A laptop or an Ipad is required**

[Please click here to enrol](#)

Creative Writing: Superhero Video
People today watch more videos than they read books, but students rarely learn how to write effectively for the visual medium, which means they miss out on an important form of creative writing. In this camp, students will experience the exciting world of creative writing by turning their superhero stories into videos.

Dates: Week 3 (July 14 - 18)   **Ages:** 8 - 11   **Time:** 13:00 - 15:00   **Fee:** $3654

Video Maker: Make a Gaming Video
Video making is one of the most creative ways to use technology, but children rarely know how to make them, which means they miss out on a fun way to explore their interests. In this camp, students will be introduced to the exciting world of video creation by creating a gaming video.

Dates: Week 4 (July 21 - 25)   **Ages:** 8 - 11   **Time:** 13:00 - 15:00   **Fee:** $3654

Photography: Creative Effects
Many people take photos daily, but few children know how to do it well, which means they miss out on the chance to capture the world around them creatively. In this camp, students will be introduced to the exciting world of photography by creating an original photo series.

Dates: Week 6 (Aug 4 - 8)   **Ages:** 8 - 11   **Time:** 13:00 - 15:00   **Fee:** $3654

AI Creator: Design a Superhero Character
AI is an increasingly important part of our lives, but children rarely get to explore its creative use, which means they will not understand how technology can benefit, instead of replace, their human creativity. In this activity, students will experience the exciting world of creative AI by designing an original character.

Dates: Week 7 (Aug 11 - 15)   **Ages:** 8 - 11   **Time:** 10:00 - 12:00   **Fee:** $3654

Babel Film Workshop

Babel Film Workshop is the leading film and media education company in Hong Kong. We provide fun and professional programs for students aged 5 -15 to learn the visual literacy skills necessary to communicate effectively in today's visually-driven world. Our courses are regularly offered at top international schools in Hong Kong.

English Film Club: Listening
Many children today rarely get to discuss what they watch with others, which means they miss out on one of the best ways to improve their English. In this activity, students will explore their curiosity about media by engaging in fun activities based on English-language films.

Dates: Week 1 (June 30 - July 4)   **Ages:** 5 - 7   **Time:** 10:00 - 12:00   **Fee:** $3654

Art with AI: 3D Drawings
Video making is one of the most creative ways to use technology, but children rarely know how to make them. In this camp, students will be introduced to the exciting world of video creation by creating a gaming video.

Dates: Week 2 (July 7 - 11)   **Ages:** 5 - 7   **Time:** 10:00 - 12:00   **Fee:** $3654

Watching for Meaning: Animated Movies
AI is an increasingly important part of our lives, but children rarely get to explore its creative use. In this activity, students will experience the exciting world of creative AI by designing an original character.

Dates: Week 3 (July 14 - 18)   **Ages:** 5 - 7   **Time:** 10:00 - 12:00   **Fee:** $3654
Dates: Week 5 (July 28 - Aug 1)   **Ages:** 5 - 7   **Time:** 10:00 - 12:00   **Fee:** $3654

English Film Club: Reading
Many people take photos daily, but few children know how to do it well, which means they miss out on the chance to capture the world around them creatively. Students will be introduced to the exciting world of photography by creating an original photo series.

Dates: Week 4 (July 21 - 25)   **Ages:** 5 - 7   **Time:** 10:00 - 12:00   **Fee:** $3654

ActiveKids provides high-quality, fun, and educational programs for children aged 3 to 18 in Hong Kong since 2004. With over 60 schools and clubs, our programs offer exceptional value to children's development.

Science Adventures is an internationally accredited science education program with over 35 years of experience. Children will be introduced to the wonders of science in a fun and highly imaginative environment. Our philosophy of "learn-by-doing" and fun innovation approach has inspired children of all ages to learn with an open mind. We also develop and research the best-in-class science projects from different parts of the world in order to stay abreast with the latest programs, focusing on both conventional science concepts as well as ideas on environmental sustainability and renewable energy! ***all materials included!**

Weekly Themes:
Week 1: Forensic Science Sleuths Camp (Science Detective)
Week 2: Motion Mania Camp
Week 3: Gizmo's Robot Factory - Robotics Innovators Camp
Week 4: Matter Explorers Camp
Week 5: Dino Discovery Expedition
Week 6: Energetic Explorations Camp
Week 7: Forensic Science Sleuths Camp (Science Detective)

Founded in 2019, **Big Bang Academy** is an award-winning STEAM education company with a focus in hands-on science education. Through series of professionally guided science-related workshops and classes, we aim to provide a collaborative environment for children to experiment the unknown and empower them to be confident to learn through failure.

[Please click here to enrol](#)

Little Circus Performer
In this theme, young campers will explore the exciting world of the circus while learning basic physics concepts through fun and creative activities. This hands-on experience will help them understand concepts like motion, balance, and gravity in a playful environment.

Dates: Week 3 (July 14 - 18)   **Ages:** 4 - 5   **Time:** 10:00 – 12:00   **Fee:** $4158

Little Vet
Campers will step into the role of a veterinarian as they learn about animal biology and nature. Through interactive activities, role plays, and creative projects, children will explore different animal species, their habitats, and how to care for them. This theme encourages curiosity about the natural world and promotes empathy towards animals.

Dates: Week 4 (July 21 - 25)   **Ages:** 4 - 5   **Time:** 10:00 – 12:00   **Fee:** $4158

Technology

It has never been more crucial to advance your technological knowledge while having fun getting ready for tomorrow's world! A multinational team of educators, businesspeople, and technologists has developed BSD courses. BSD empowers the ability to use technology to address the most difficult issues of the future, from game development to AI and VR. **A PC/Mac laptop with the most recent Google Chrome version installed is needed, as well as a charger**
