

To help Pennsylvania Students remain healthy, there are certain high school medical requirements that should be sent to the School Nurse's Office at marie.kozak@cohs.com as soon as possible. Please read below for grade specific requirements. Wishing you good health and wellbeing!

Seniors:

Students in 12th grade need the following additional immunizations for attendance:
2nd dose of Meningococcal Conjugate Vaccine (MCV) after age 16.

Juniors:

The Physical Exam for the Juniors is due now with the confirmation that your student received the 2nd dose of a Meningococcal Conjugate Vaccination (MCV) after age of 16. Without written proof of this vaccine, besides concerns for wellness, the student risks exclusion from school senior year. Your Healthcare Provider's Report is acceptable or the school form accessible from the school's website:

<https://4.files.edl.io/d160/02/21/19/135146-111d963d-9754-4886-be70-c840528a4c4b.pdf>

Sophomores:

Since a Physical Exam form is due junior year, if you have an appointment now, please obtain a copy for the school. See the above requirements for junior year.
