

## Culinary Arts & Hospitality Advisory Board Meeting 4/8/25

### Advisory Board Members:

Shelby Taylor, Culinary Instructor

Jordan Taylor, Bent Hill Brewery & Restaurant

### Content:

Met at Bent Hill Brewery and covered topics of hiring students in industry, employability, interviewing skills.

High school students in the current hiring environment are unable to work at the brewery taps but are able to run food, prep, etc. within the brewery itself. Restaurant work is something most students should be able to do while being in this course as they learn about industry and professional expectations.

Lots of restaurants/ food service establishments are looking to hire for the incoming summer season. This falls under the category of dishwashers, food prep, servers, bussers, host/ hostesses.

I have received emails from White River Valley HS, Circus Smirkus, and Maple Soul who are all hiring for the summer. These have been shared with students for job opportunities.
