Process for Joining:

3 part vote

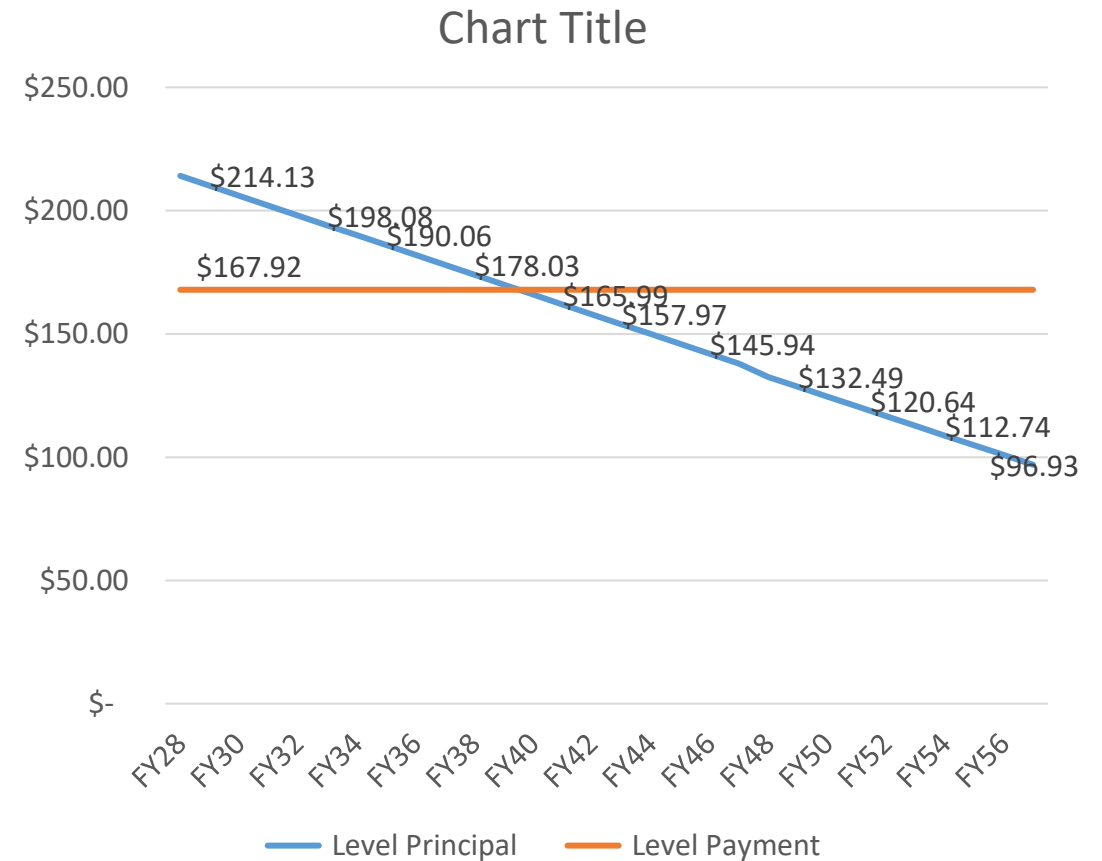

- Part 1 – Entering into a regional agreement to join SST as a member Town
- Part 2 – Debt exclusion override for Pembroke's portion of the building project at SST
- Part 3 – Operational Override to fund costs to send students to SST each year

Vote – Part 1

- Work with the SST School Committee to propose changes to current regional agreement to allow Pembroke to join
 - These changes would outline Pembroke's share of new debt, stabilization funds, as well as capital buy-in
 - We would bring the updated Regional Agreement Language to 2025 Fall Town Meeting for approval
 - If approved – Pembroke's acceptance into SST would be voted on by each of the member towns at each town's 2026 Spring Town Meeting we would need 6 out of 9 towns to vote in favor of Pembroke joining
 - Amended Regional Agreement would be submitted to DESE for approval – they have until the end of the calendar year to approve
 - Potential First Round of Students attending SST from Pembroke would be Fall of 2027
-

Vote Part 2 – Debt Exclusion Override

- Pembroke voters would need to approve a 30 year Debt Exclusion Override to fund our portion of the MSBA building project
- Current Estimates reflect that would mean an increase of \$156-\$168 per year based on the average home price of \$601,000
- We would suggest making Vote 1 contingent on the passing of Vote 2 & Vote 3

Vote Part 3 – Operational Override

- We would need additional funds in our operating budget year over year to fund the increase costs associated with sending students to SST
- Tuition and Transportation Costs
 - Current estimates would allot Pembroke on average 21 seats per year beginning with the 2027-2028 school year – Roughly 84 seats at full enrollment
 - Average member town tuition cost - \$16,001 (range is \$11,226 Whitman - \$18,913 Norwell)
 - SPED Increments – IEP services are billed on a per student basis in addition to base tuition – this could be an additional \$75,000 - \$200,000 per year
 - At full enrollment this would represent an increase to our operating budget of roughly \$1.75-\$2.0 million
- Capital Costs – Once a member town are built into the tuition rate
- Stabilization Costs – We would need to buy into the current stabilization fund – using the Marshfield model that would be \$40,000 payments each year for 10 years for a total of \$400,000

First Floor Plan

Total Costs to Join

- Debt Exclusion override for New Building - \$20 million (over 30 years)
 - \$156-\$168 increase in property tax per year
 - Operational Override - \$1.75-\$2 million increase to base budget
 - \$282 increase in property tax per year
 - Stabilization - \$400,000
 - Could be funded through gap in operational override the first years
 - Transportation - \$209,307
 - At full enrollment we would need to have 2 busses for students – a portion of transportation costs would be offset by regional transportation reimbursement
- Total Impact to Taxpayer approx. \$450/year (over 30 years) on the average home valued at \$601,000**
