Dear MTSD School Community,

I hope this message finds you well. As part of our ongoing commitment to ensuring that all students receive the appropriate educational services and resources, we are initiating an enrollment verification process for all students attending MTSD. This process is designed to verify that each student currently attending our district resides within the boundaries of the district or is exempt from this requirement under provisions of the McKinney-Vento Homeless Assistance Act or board policy.

The primary goal of this process is to ensure the integrity of our enrollment records. As you may know, state funding for our schools is tied directly to enrollment numbers, and verifying that students are attending the school district in accordance with residency requirements is an essential component of maintaining the accuracy of our records. This process is an important step to guarantee that resources are allocated appropriately and fairly to all of our students.

We understand that this may raise questions, and I want to reassure you that the re-enrollment verification is a common practice utilized by school districts both locally and across the state. Many districts conduct similar processes to maintain accurate records, ensure fair allocation of resources, and comply with state regulations.

It is important to note that this process is not related to any student's immigration status, nor are we requesting any information regarding that. The re-enrollment verification is solely to confirm residency and eligibility, and your family's immigration status is neither a part of nor relevant to this process.

We are committed to making this process as simple and transparent as possible, and we will provide the support needed to ensure that every family can complete it smoothly. Thank you for your cooperation and continued support of our students and schools.

Warm regards,

Ms. Diana Mai

Superintendent, Mansfield Township School District
