INTRODUCTION

The Business Advisory Services section of the San Diego County Office of Education conducts an annual staffing level survey of school districts in San Diego County. The survey concentrates on classified staff and does not include certificated staff or school office staff. The survey includes the following categories:

- Business Office
- Child Nutrition
- Human Resources
- Maintenance and Operations
- Print Shop
- Purchasing and Warehouse
- Transportation

To help make the data more easily comparable, the report is organized by district size.

Each chapter contains four pages for each staffing category:

- The first page provides summary statistics as well as comparison charts showing Full Time Equivalent (FTE) per site and FTE per pupil.
- The second page includes charts that show historical trends for FTE per site and FTE per pupil.
- The third page provides details on the FTE by position for each school district.
- The fourth page provides detail on the average work year in months by position for each school district.

For purposes of this report, FTE is defined as the total number of hours worked per day divided by 8 hours per day. Therefore, a position working 8 hours per day for 12 months and a position working 8 hours per day for 10 months would both be considered 1 FTE.

If you have any questions, please contact Alex Wilmot at (858) 295-6649 or by email at alexander.wilmot@sdcoe.net.
