WEEKLY CAMP

At VSA Summer Fest, we're all about inspiring kids to dream big, explore new possibilities, and grow into confident, globally-minded learners. Designed for children aged 3.5–11, our program combines the expertise of an amazing team of in-house and guest educators to deliver a summer like no other. From arts and sports to STEAM, music, and dance, there's something for everyone to enjoy an unforgettable summer.

- Weekly camps that will keep students active and busy with end of week performance sharing and dinner to celebrate new skills and new friends!
- Classes tailored to different age groups (3.5 to 11 years old) to meet individual needs.
- New courses such as Cooking, Readventure, SEL, Kart-Engineer and Brain Science added for a diverse learning experience!
- Taught by a team of experienced and qualified educators that ensures lots of learning and lots of fun!

Location: Victoria Shanghai Academy

Dates: Jul 7 – Aug 8, 2025 (Sign Up Weekly)

Week 1: Jul 7 – 11

Week 2: Jul 14 – 18

Week 3: Jul 21 – 25

Week 4: Jul 28 – Aug 1

Week 5: Aug 4 – 8

AGE GROUP & SCHEDULE

VSA established clear age distinctions based on the children's age characteristics and development stages. We have tailored courses with varying levels of difficulty for three age groups to better meet their individual needs

AGES 3.5-4

INDEPENDENCE & IMMERSIVE EXPERIENCE

Specially designed for young learners, our diverse courses spark curiosity through fun interactions, helping children take their first joyful steps in growth. Through gamified lessons, we nurture self-care skills and physical development—not just building knowledge, but also strengthening adaptability.

Featured Courses: Muti-sports, Ballroom Dance, Creative Arts, Folk Dance, Cooking, STEAM

AGES 5-7

SOCIAL SKILLS & CREATIVE THINKING

Our vibrant curriculum nurtures children's natural thirst for knowledge and exploration. For K2-K3 students, we offer preparatory elementary-style classes to develop logical thinking and creativity. For first graders, leadership roles in group activities foster responsibility and communication skills.

Featured Courses: Muti-sports, Ballroom Dance, Cooking, STEAM, Readventure, Creative Arts, SEL, Coding

AGES 8-11

TEAMWORK & CONFIDENT EXPRESSION

Develop essential teamwork and hands-on skills through guided collaborative projects. Explore personal passions while maximizing individual strengths to create meaningful work. Gain confidence through showcase opportunities where every child discovers their moment to shine.

Featured Courses: Muti-sports, Digital Arts, Cooking, STEAM, Readventure, Kart Engineers, Brain Science

PROFESSIONAL FACULTY

Each class at the VSA Summer Fest will be staffed with a homeroom teacher, a main instructor, and an assistant instructor.

The homeroom teachers are from Victoria Kindergarten and VSA, possessing rich experience in class management and professional educational backgrounds. The VSA school nurse will be on standby, promptly handling any unexpected situations and safeguarding the health of the children.

The course instructors come from VSA and professional institutions that have long-term collaborations with VSA and possess extensive teaching experience in their respective fields, allowing children to master new skills in an immersive bilingual classroom.

CELEBRATION OF LEARNING

At the end of the week, we will invite parents to the school on Friday evening to enjoy the celebration performance presented by children. They will watch the showcase of creative arts and STEAM projects, and relive the highlights of the week.

After the performance, we will have a dinner together, bid farewell to the newly-acquainted peers, and draw a perfect conclusion to the summer camp.

COURSE DETAILS

The VSA Summer Fest integrates VSA teachers and Hong Kong's leading course teams and renowned lecturers from various fields, bringing together top-notch educational resources within the 5-day course. Here are introductions to some of the courses and lecturers:

STEAM | for all age groups

Breaking disciplinary boundaries, STEAM courses integrate science, technology, engineering, arts, and mathematics into one cohesive program. Through engaging hands-on activities, they spark children's interest in science while cultivating their problem-solving abilities. The 3.5–4-year-old classes will engage in hands-on experiments exploring physics, biology, and earth sciences. The 5–7-year-old and 8–11-year-old classes will experience Project-Based Learning (PBL), completing 2-day thematic courses on campus complemented by Wednesday field trips or workshops.

Working together with Little Scientists

Creative Arts | for all age groups

This innovative arts curriculum is designed to cultivate children's flexibility and adaptive skills while fostering their creative development. Instructors will introduce students to iconic works by master artists, guiding them to explore these creators' unique perspectives and techniques. Inspired by paintings, sculptures, designs, and illustrations across art history, young artists will ignite their own creativity through a process that values playful expression and honors each child's spontaneous originality. 8–11-year-old will expand their digital creativity using Procreate on iPads.

Working together with CreativeKids

Muti-Sports | for all age groups

Sport is fundamental to children's holistic development. Our professional coaches will teach essential ball skills—including handball, football, and basketball—while incorporating classic games like beanbag throws and hula hooping for pure fun. Through playful, gamified instruction, children will discover the joy of movement, build teamwork through group challenges, and cultivate the courage to surpass their limits. Note: All sports sessions are conducted indoors during summer camp for weather-safe activities.

Working together with STARZ

Ballroom Dance | 3.5–4, 5–7 year old

Breaking away from single-skill teaching methods, Ballroom Dance adopts a dynamic approach to create an exhilarating learning environment through music and dance. Here, children will not only acquire essential movement techniques and improve physical coordination, but also develop musical sensitivity and rhythm awareness. Multiple foreign teachers will use familiar English nursery rhymes and movie themes to string together the dance throughout the entire class, leading children to fully enjoy the joy of moving their bodies and guiding them to express themselves on stage.

Working together with Ballroom Bees

Folk Dance | for 3.5-4 years old

Designed to foster appreciation for China's rich dance heritage, our curriculum immerses students in ethnic traditions including Dai, Mongolian, Tibetan, and Uyghurs, transmitting cultural values while building artistic pride. The teacher will lead the children to appreciate the ethnic customs. In the classroom, the children will wear exquisite ethnic costumes and learn Chinese ethnic dance moves with joy and fun. They will apply them in dance performances, immersing themselves in the charm of ethnic song and dance performances!

Musical | for 5-7 years old

Through three meticulously designed modules—vocal training, dance performance, and drama rehearsal—this program brings beloved musical theater classics to life. Children will master proper vocal techniques and emotional expression in systematic singing lessons, while dance sessions focus on posture, movement precision, and stage positioning to develop grace and rhythm. Culminating in a grand theatrical showcase, the course allows students to present their artistic achievements on a professional stage, experiencing firsthand the magic of spotlight performance. This transformative journey not only elevates artistic literacy but also nurtures teamwork skills and unshakable confidence!"

Working together with The Vocalist Studio HK

NEW COURSES

Cooking | for all ages

Where Little Chefs cook for a greener tomorrow! Our kitchen classroom turns sustainable food principles into actionable skills—from farm-to-table ingredient choices to waste-free cooking techniques. Every dish made becomes a tangible lesson in environmental stewardship, packed in reusable containers as edible proof of learning.

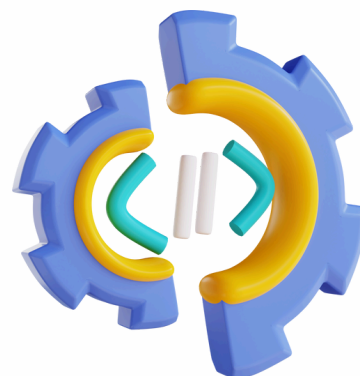

Working together with ActiveKids Stormy Chefs

Coding | for 5-7 years old

Fun Coding Meets Eco-Education: Empowering Kids to Become Young Tech Creators! Children will use Octostudio to master foundational coding skills—including command sequencing, scoring systems, interactive mechanics, and app development, and create an original "Recycling Game" from scratch. By the end of the program, children will not only create an interactive digital project, but also develop logical thinking, enhance teamwork skills, strengthen environmental awareness, and build presentation confidence.

Working together with ActiveKids RoboCode

NEW COURSES

Readventure | for 5-7, 8-11 years old

Readventure is an English Inquiry Reading Program blends reading with creative hands-on activities to deepen comprehension through active expression. The 5-7-year-old classes explore picture books by creating character masks or story dioramas, boosting both language skills and creativity. The 8-11-year-old classes analyze book themes to design original projects, refining their work through peer feedback. This approach fosters independent learning, critical thinking, and problem-solving abilities while nurturing a lifelong love of reading.

*Week 1, 2 & 5 for 5-7 years old,

Social Emotional Learning | for 5-7 years old

The SEL curriculum is designed to nurture essential life skills in children aged 5-7 through engaging, age-appropriate activities. The program develops five core competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Through interactive games, storytelling, and collaborative exercises, students build emotional intelligence, strengthen interpersonal abilities, and develop problem-solving confidence. This foundation supports academic success while fostering resilience, kindness, and self-confidence that extends beyond the classroom.

*Week 3 & 4 only,

Kart Engineers | for 8-11 years old

From understanding wheels to making vehicles run – experience the creative joy of engineering! Children will use professional DOCYKE L+E kits to explore scientific principles like gear transmission and friction. Through teamwork, they'll optimize designs, assemble vehicles, conduct dynamic tests, and apply mathematical thinking to plan racetracks and measure speed in fun competitions. This hands-on program cultivates engineering mindsets, sparks innovation through interdisciplinary learning (science, math, engineering), and integrates safety and responsibility education throughout to reinforce awareness.

*Week 1, 2 & 5 only

Brain Science | for 8-11 years old

Through a week of interactive experiments, creative crafts, and collaborative group activities, children will explore the wonders of the brain—from its structure and memory mechanisms to emotional regulation and healthy habits. Each day features a new theme, such as: building brain models, designing emotion wheels, solving memory puzzles. We go beyond knowledge transfer to cultivate scientific thinking and teamwork skills, helping children understand "how our brains shape everyday life." This course is the perfect first key for young scientists to begin their neuroscience journey!

*Week 3 & 4 only

VSA MUSICAL CAMP

GROUP 1

MADAGASCAR

MADAGASCAR

A heartwarming celebration of friendship, adventure, and the journey to self discovery

Date: Jul 7-11 (5 full days)

Age: 6-9 years old

Time: 8:45-15:00, show on Jul 11 evening

Fees: HK\$ 8,500 / HK\$ 9,600

GROUP 2

HAIRSPRAY

hairspray

A touching theme about equality, acceptance, and being yourself

Date: Jul 28- Aug 8 (10 full days)

Age: 9-15 years old

Time: 8:45-15:00, show on Aug 08 evening

Fees: HK\$ 16,500 / HK\$ 18,000

ILLUMINATE, RELEASE AND ELEVATE

- ✦ Professional Performance Training
- ✦ Versatile Singing and Dancing Development
- 💡 Creative Inspiration Classes
- 📖 Practical Script Study
- 🌐 Build Confidence Performing in English
- 💖 Final Showcase Performance

MUSICAL CAMP

Musical is a fantastic way for kids to build confidence, develop new skills, and grow as individuals. Whether they're seasoned stars or trying something new, this camp is the perfect place to build confidence, make friends, and shine on stage!

At VSA Musical Camp, young performers will receive hands-on training in vocal performance, dance, and acting, while also getting the chance to showcase their talents in professional theater settings. It's the perfect place for kids of all ages and personalities to connect, learn, and shine together as they experience the magic of the stage!

Group 1: 《Madagascar》

Get ready to "Move It, Move It!" with your favorite zoo animals; join Alex the Lion, Marty the Zebra, Gloria the Hippo, and Melman the Giraffe as they escape from Central Park and embark on a hilarious, song-filled journey to the jungles of Madagascar, where they meet the unforgettable King Julien and his mischievous lemurs!

Packed with energetic dance numbers, catchy tunes, and laugh-out-loud moments, this spectacular stage workshop brings the beloved movie to life. Madagascar – The Musical is a heartwarming celebration of friendship, adventure, and finding your place in the world.

Escape to the Wild Side – Where the Adventure Roars to Life!

Date: Jul 7–11 (5 full days)

Time: 8:45–15:00 (show on Jul 11 evening)

Suitable for: 6–9 years old

Group 2: 《Hairspray》

Step back in time to 1962 in Baltimore, USA with Tracy Turnblad, a bubbly girl with big dreams and even bigger hair! This musical bursts with high-energy dance numbers, infectious songs, and a heartwarming message about equality, acceptance, and the power of just being yourself.

Over this action-packed 2 weeks, students will discover the magic of musical theatre by diving into the world of Tracy Turnblad and her friends. Campers can learn the show's bouncy dance moves, belt out catchy songs like "Good Morning Baltimore," and act out hilarious scenes – all while building confidence and making new friends who love performing just as much as you do!

Big Hair, Big Heart, Big Fun!

Date: Jul 28 – Aug 8 (10 full days)

Time: 8:45–15:00 (show on Aug 8 evening)

Suitable for: 9–15 years old

SCHEDULE

Sample based on 10-day camp. 5-day camp will condense content. Specific arrangements are subject to change.

DAY 1 – Icebreaker and Warm-up

The camp kicks off with team-building activities, games, roleplay, and improvisation to help students bond and explore texts and scenes. They'll be introduced to the music and movements of the chosen musical, starting costume measurements as well.

DAY 2 – Initial Exploration

Students will dive into games, improvisation, and the themes of the musical. They'll continue learning songs, choreography, and exploring their unique talents to match roles, wrapping up with journal updates.

DAY 3~8 – Practice and Refinement

Mornings focus on vocal and dance training to build strong performers, while afternoons emphasize actor training and character development. Students will master songs, choreography, and transitions between singing, acting, and dancing to ensure a seamless performance.

DAY 9~10 – Final Rehearsals

Students will rehearse without scripts, try on costumes, use props, and incorporate technical elements like lighting and sound. These days focus on teamwork and perfecting the show!

Director: EMMA TIELUS-WARD

Emma TW is a professional actress & dancer from London, having earned her Master's Degree from The Royal Central School of Speech & Drama. She has been leading workshops in Performing Arts for 25 years and is a highly experienced director and choreographer.

She is the founder of The Performers Studio & has been lucky to product many exciting theatre productions here in Hong Kong over the past 12 years.

VSA AVIATION CAMP

WHERE FUTURE CAPTAINS TAKE OFF!

- Learn all about the theory of flight
- Hands-on Flight Simulator Training
- Progressive Skill Development
- Emergency Preparedness & PFLs
- Aviation English Immersion
- Final check & Earn your wings certification

JUL 7 – 11, AUG 4 – 8

Age group & Time:

8-10 years old | 9:00-11:00

11-14 years old | 13:00-15:00

Fees (Victoria Students/Friends):

HK\$ 4,000 / \$4,800

AVIATION CAMP

Calling all future pilots! Greater Bay Aviation is excited to offer two engaging summer camp programs tailored for students with a passion for aviation. With hands-on experience in Aerosim flight simulators and expert instruction, students will embark on an unforgettable journey into the skies and gain valuable aviation knowledge while sharpening their skills in real-world scenarios.

Captain Mark Davidson: Aviation Enthusiast, Pilot, Instructor

With over 20 years of dedicated experience in aviation, Captain Mark Davidson has established himself as a seasoned pilot and passionate advocate for the field. Beyond his expertise in the field, he serves as the Head of Grade 5 at VSA and has delivered engaging simulation-based flight training there for the past two years, inspiring students with his dynamic teaching style and profound knowledge.

This summer, Captain Mark is excited to lead the VSA Aviation Camp, where he will share his expertise and passion for aviation with young aspiring pilots. Through this initiative, he aims to ignite a lasting passion for aviation in the next generation.

Date:

Session 1: Jul 7 – 11

Session 2: Aug 4 – 8

Age group & Time:

Age 8–10 | 9:00–11:00

Age 11–14 | 13:00–15:00

PLANNING

8-10 years old | Cadet Pilot

- ✈ Master basic flight control stability
- ✈ Learn simplified instrument reading
- ✈ Build spatial thinking & troubleshooting skills

11-14 years old | VFR Pilot

- ✈ In-depth Aerodynamics Principles
- ✈ Comprehensive VFR Navigation Training
- ✈ Develop Multitasking & Systems Thinking

DAY 1

Flight Theory & Basic Operations

Ground School: Four Forces of Flight | Aircraft Basics

Flight School: Cockpit Familiarization | Basic Controls | First Takeoff Simulation

DAY 2-3

Flight Control & Stability

Ground School: Aircraft Balance Principles | Control Surfaces

Flight School: Level Flight Practice | Standard Turns | Cruise Control

DAY 4-5

Navigation & Landing Techniques

Ground School: Airport Traffic Patterns | Takeoff | Landing Essentials

Flight School: Repeated Takeoff | Landing Drills | Full Procedure Practice

ENROLLMENT
