12th Grade Meningococcal Vaccination

Ohio State Law requires that students receive 2 doses of the meningococcal vaccine before they enter the twelfth grade. At least one dose has to have been given after the age of 16 (only one dose is required if it is received after the age of 16). Your student will need to show proof of having received these vaccines by the first day of school.

Please return this form, completed, or a copy of your child's updated immunization record from your physician's office with the office stamp, letterhead or physician's signature to the Hamilton Township High School office.

Name of Student:_____ Date of Birth:_____

Immunization Name (Menactra, Menveo, MCV4, etc.):_____

Date Immunization Given:_____

Doctor's Office Stamp or Physician's Signature:
