Principal Message

As we end state testing week two, I want to provide some ways to support your child at home.

- **Attendance:** It is crucial that your child arrives on time and attends school on testing days.
- **Rest and Nutrition:** Encourage your child to get a good night's sleep and eat a healthy breakfast before testing.
- **Preparation:** There is no need to study for these tests, but reviewing class materials and practicing relaxation techniques can help ease test anxiety.

Please support and encourage your child by reminding them to do their best and reassuring them that these tests are just one way to show what they have learned.
