

EDUCATIONAL RESEARCH

If an educator reaches out, requesting to conduct a research project within a West Fargo Public Schools building, they must collaborate with the district's research designee. They must abide by all district policies along with standards set by their organization.

When an educator reaches out to this designee, if they have not already completed the West Fargo Public Schools Approval for Action Research form, they must do so and submit all requested documents to the district's research designee.

The district research designee will review all information and share it with any administrators or coordinators who are impacted by this research before giving final approval.

When the study is completed, researches must provide the district with a copy of their findings. These findings are stored in the district's research team page.

Policy (updated winter 2025) and Approval for Action Research Documents can be found here:
