**RE: MNE Expansion Project Update**  
Date: April 7, 2025

#### Current Progress:

- Internal construction management and documentation process in place
- Building pad is being constructed
- All unsuitable materials have been removed from the building footprint
- Twelve (12) geothermal wells have been drilled thus far
- Stormwater basin development is ongoing

#### Next Steps:

- Finish building pad and footers
- Setting storm water piping and finish basins
- Continue with geothermal well drilling
- Begin retaining wall work

Regular updates will be provided to the Board as well as information will be placed on the [MNE Project website](#).
