Subject: Retirement Announcement

Dear Barb Leonard and Ken Koenig,

I am officially sharing that I will be retiring from my role as a school counselor at Mill Creek Middle School, with my last day being, June 30, 2025.

This decision came with a lot of mixed emotions. I am thankful to have worked for the past 8 years at such a great school as Mill Creek. Even though I am excited for my next adventure, I will greatly miss my co-workers, the students, and other staff I have met throughout the District.

I am happy to help in any way to facilitate a smooth transition.

I wish everyone at Dexter Community Schools, especially my co-workers at Mill Creek Middle School, the best.

With gratitude and best wishes,

C. The District may only transfer its property in exchange for fair value, which value may be non-monetary. An appraisal may be obtained but is not required.

D. The District may not impose a deed or use restriction that is prohibited by law.

E. The transfer of District real property is exempt from transfer tax.

Note: SECTIONS 1 & 2 come from current NEOLA 7300 and 7310

1. Disposition of Real Property*

The Board of Education believes that the efficient administration of the District requires the disposition of property and goods no longer necessary for the maintenance of the educational program or the operation of the School District.

"Real Property" means land, including land improvements, structures and appurtenances thereto, but excludes moveable machinery and equipment.

The Board shall direct the periodic review of all District property and authorize the disposition by sale, donation, trade, or discard of any property not required for school purposes in accordance with the provisions of this policy ~~and Policy 7310-Disposition of Surplus Property.~~ (reference no longer needed as 7310 is now included in this one.)

A. All property considered for (sale) disposition may be subjected to a current, outside, professional appraisal prior to the solicitation of offers.

B. The authorized agents of the Board to review all purchase or lease offers pertaining to sale or lease of property shall be the Superintendent and the Board Finance Committee. The Board shall give final approval of all contracts.

1. concepts or content that do not support the current goals of the curriculum

2. information that may not be current

3. worn beyond salvage

B. Equipment

The District shall inspect the equipment used in the instructional program periodically, to determine the condition and usability of such equipment in the current educational program. Disposition of the equipment will be made in accordance with disposition instructions of the Federal awarding agency.

Items of equipment with a current per unit fair market value of $5,000 or less may be retained, sold or otherwise disposed of with no further obligation to the Federal awarding agency.

Except as provided in §200.312 Federally-owned and exempt property, paragraph (b), or if the Federal awarding agency fails to provide requested disposition instructions within 120 days, items of equipment with a current per-unit fair-market value in excess of $5,000 may be retained by the non- Federal entity or sold. The Federal awarding agency is entitled to an amount calculated by multiplying the current market value or proceeds from sale by the Federal awarding agency's percentage of participation in the cost of the original purchase. MEMORANDUM

DEXTER COMMUNITY SCHOOLS

Subject:
Allocate remaining 2017 bond funds for district property and building projects.

Background:
We successfully completed all major objectives outlined in the 2017 bond application. We also had several projects we intentionally chose not to pursue because the replacements were not necessary at the time or other projects made the changes no longer necessary. For example, we allocated funds for several items that, for various reasons, did not require bond funding:

- **Creekside Intermediate School**
  - We budgeted to reconfigure the driveways outside of Creekside and Bates but the roundabout project made this no longer necessary.
- **Bates School**
  - We budgeted for replacements of drinking fountains and other projects that were determined not necessary at this time due to the current use of the building and how quickly we were able to build/open Beacon Elementary.
- **Cornerstone Elementary**:
  - We budgeted for a Rain Shelter but were able to integrate the rain shelter into the Solar Project using funds from the Copeland sale.
- **Buses**:
  - We were able to cover the majority through a State of Michigan VW settlement grant. This allowed us to buy $304,000 in buses that were planned in the bond. In addition, we have been forced to reduce routes due to a lack of drivers. This has required the purchase of fewer buses than planned.
- **Site Acquisition:**
  - We budgeted $100,000 for purchase of property, location to be determined, when constructing the new elementary and alternative education buildings. It was not necessary to acquire any property to complete these projects.
- **Copeland**:
  - Limited improvements were made due to the sale of the building.

Recommendation:
After consulting with our attorneys, the remaining bond funds can be spent on any school district-owned building and within the ballot language.

It is the recommendation of district administration that the Board of Education approve the use of some remaining bond funds from these projects to support allowable bond-funded projects for any currently owned school district-owned property or building.

RE: Filter First Grant Upgrades

Dexter Community Schools applied for the Filter First / Healthy Hydration grant through the Michigan Department of Education. DCS was awarded $396,745.00 towards upgrading to filtered water bottle-filling stations at every school building, which also includes Jenkins Early Childhood Center, Bates School, the Louie Ceriani Building, and the transportation building. The RFP went out on March 17th and we had the bid opening on April 7th, 2025. This was a competitive Federal Grant.

As part of the bid process we held a pre-bid meeting to ensure bidders knew the scope of the project. Representatives from Goyette Mechanical, John Darr Mechanical, Adrian Mechanical, and Monroe Plumbing and Heating Co. came to the meeting. Bids were received and opened on April 7th with DCS receiving bids from Goyette Mechanical, John Darr Mechanical, Adrian Mechanical, Monroe Plumbing and Heating Co., and Boone and Darr Inc.. The lowest bidder for the project was John Darr Mechanical at a price of $163,651.82. We reviewed their bid with their representative, to ensure it meets all aspects of our RFP document. We will add a 15% contingency just in case they find something behind the walls that could not be accounted for upon visual inspection.

I recommend we give the contract to John Darr Mechanical for $163,651.82 and include a 15% contingency price of $24,547.78 for a total price of $188,199.59. The cost will come from the Filter First / Healthy Hydration grant through the Michigan Department of Education.

Attached is the bid tabulation form.

DEXTER BOARD OF EDUCATION

Evaluation of Superintendent Dr. Christopher Timmis

December 16, 2024

The Dexter Board of Education has completed its annual evaluation of Superintendent Dr. Christopher Timmis in compliance with The Revised School Code using the Superintendent Evaluation Instrument (SEI) developed by Michigan Association of School Boards. The SEI was revised for the 2024-2025 evaluation period to include three categories: Needing Support, Developing and Effective.

Superintendent Timmis's overall rating of EFFECTIVE, the highest rating possible, is based upon the Board's assessment of his performance in the following areas: governance and board relations, community relations, staff relations, business and finance, instructional leadership, student growth, and progress towards district-wide goals. Dr. Timmis has met the Board's expectations in all areas that were reviewed.

The following recaps the 2024-2026 Board Goals and progress toward goals:

- Graduation Rate: The 4-year graduation rate will meet or exceed 95%.
    - Actual: 99%
- Math and Reading Achievement: DCS students will achieve growth in reading and math as compared to peer schools.
    - Actual: State data shows DCS students are growing in ELA and Math at rates equivalent or higher than county schools. 76.4% and 73.8% of students achieved average or above average growth in ELA and Math, respectively.
- Post-Graduation Planning: The district will implement a robust Post-Graduation planning process engaging all high school students and parents by the end of 2024-2025 and expanded to engage middle and elementary school students and parents in 2025-2026.
    - A post-graduation planning process is underway. This includes changing to a comprehensive career/college planning software (Schoolinks), and a career day scheduled for March 2025. The process will continue to be refined.
- Facilities Planning: The district will conduct a comprehensive analysis of our current/future facility needs, which shall include a 10-year facilities study and analysis of environmental and sustainability impacts.
    - Progress: A comprehensive facility plan was complete and presented to the Board on November 4, 2024. Sustainability continues to be a focus.

The Board recognizes the work that all employees put forth to support our learners. We appreciate and value the leadership that Dr.Timmis provides. The talent of our team combined with a solid financial status helps ensure success for our children; the District is well-positioned to continue with a strong, adaptive and caring education and environment for our students and community.

Re: Check & Payment Registers

Background Information

Starting in 2009-2010, the Michigan Legislature began requiring school districts to follow "best practice" requirements for full funding. In 2011, the legislature updated MCL 388.1618 to include a series of "transparency reporting" requirements to be included on public school district webpages. At that time, school districts were required to meet the transparency requirements in order to receive funding. The federal stimulus funding was provided to the state through a combination of ARRA funds and Race to the Top legislation pushed by the Obama administration. At that time, school funding had been cut by $470 per student. The legislature decided to use the federal stimulus funds as a "replacement" $50 - $470 per student if districts agreed to a series of "best practices" that included posting a list of items on a transparency page on the district website, contracting services through a 3rd party, participating in schools-of-choice, and other politically-motivated items that were themed under "best practice" legislation regardless of whether or not they were actually "best practices."

The list of information that was required to be posted on a website included a few items where local school boards were asked to decide which item they felt important to share with the community. For example, one item at the time required districts to share their reimbursement policies, procurement policies, and other policies related to school finances. Another item required the board to either post the "Accounts Payable Check Register or Statement of Reimbursed Expenses." MDE guidance states,

> *"**Accounts Payable Check Register** or **Statement of Reimbursed Expenses**: Please post **either** the district's accounts payable check register for the most recently completed fiscal year **or** a statement of the total amount of expenses reimbursed by the district during the most recently completed fiscal year for board members and employees. One of these items must be posted and should be updated within 30 days of your FID submission, no later than December 1."*

MDE is responsible for auditing compliance of the transparency posting law and the bolded statements are the words MDE bolded in the guidance document.

DCS History

In the fall of 2011, the DCS Board of Education passed a resolution to meet the "best practice" requirements that year in exchange for $100 per pupil funding. At the time, the Board decided to list the policies for reimbursement and the district was already producing quarterly financial

narratives in the board packets and the website. As a result, the Board chose to publish the Statement of Reimbursed Expenses in the transparency reporting.

Included in your packet is the full check registry for Fiscal Year 2024. The district produces very few checks, in general. Most payments are made through electronic funds transfer. By sharing this entire year example for FY24, the board can see a full example of the documentation that could be produced on the transparency reporting page on an annual basis. Please note that names of parents or students who were paid or reimbursed in FY24 were removed from this document. Our parents and students who were paid or reimbursed for lunch account balances, community ed class refunds, athletic activity account reimbursements, PTO reimbursements, and other similar expenses were unaware at the time that their name would be listed on our website in such a file.

Unlike most school districts in the State of Michigan, Dexter Community Schools operates Food and Nutrition, Community Education, Athletics activity accounts, PTO accounts, and other functions internally. Many school districts privatized food and nutrition and do not need to list or reimburse lunch deposit refunds to parents because that function is completed by an outside company. Many surrounding districts have local recreation departments that are not part of the school district and are instead operated by a municipality, so payments for these types of activities are not processed by the school district. In addition, DCS has a series of "internal accounts" for our student groups to manage fundraiser dollars for activities (i.e., robotics, debate, athletic teams, clubs, etc) which requires reimbursement checks/payments to parents. Due to the structure of our organization handling operational functions in-house, DCS has check registry items that include many personal names of parents and students.

Recommendation

It is the recommendation that the DCS Board of Education discuss changing to posting the annual "Accounts Payable Check Register" instead of the "Statement of Reimbursed Expenses" and to request at least one of the Board committees (Finance or Policy) to discuss any changes and bring a recommendation to the full Board. Changing from posting the "Accounts Payable Check Register" is only manageable and reasonable on an annual basis and should not be done monthly for a variety of reasons including protection from check fraud, etc. The law requires school districts to produce either the "Accounts Payable Check Register" or "Statement of Reimbursed Expenses" and a previous Board made a choice that this current Board can change after discussion and deliberation. DCS has long-established providing the quarterly financial narratives as a financial transparency document to the community. Any document created or provided for the public is extremely time-intensive to ensure the information is clear and accurate. Changes are always possible and I encourage the Board to be deliberate in process and decision-making to ensure that our staff's time is well-spent.

The discussion at the committee level should weigh out the decision of which item to post on an annual basis and considering parent and student names listed on the check register, whether or

not to include check numbers on the published list, and whether or not to include EFTs or just check register items. In addition, the committee discussion should include processes for questions regarding the items on the registry and clarifications. For example, like a personal check, the check register only includes who the check was written to and does not include details. Once reviewed, there will be questions for details and how we want to handle the questions. Also, the committee will want to discuss if we move to publishing the check register, do we continue with the quarterly narratives? Finally, the committee will want to discuss the messaging of the change, if needed. For example, MDE is clear that we should publish "**either** the district's accounts payable check register for the most recently completed fiscal year **or** a statement of the total amount of expenses reimbursed by the district during the most recently completed fiscal year for board members and employees." Once employee and board reimbursements are no longer published, what will be the implied message? While publishing both may be the easy suggested solution, we publish the transparency page according to MDE guidelines based on the law and work from their requirements.

As a reminder, on the most-recent Bulletin 1014, Dexter Community Schools ranks as 747th out of 819 Michigan Public School Districts in Business and Administration costs. This puts us in the lowest 9% of spending on Business and Administration in the state. Appropriately, DCS ranks as 150th in the State of Michigan for Instructional Salaries and 65th for Instructional Support. Ranking in the top 20% in Michigan for Instructional Salaries and in the top 8% in Michigan for Instructional Support best supports our students on a daily basis. We staff thin in our Business and Administration staff in order to spend our dollars on classrooms and students.

Washtenaw I S D
A REGIONAL EDUCATIONAL SERVICE AGENCY

To: Secretary, Board of Education

From: Naomi Norman, Superintendent, Washtenaw ISD

Date: April 1, 2025

Re: **Biennial Election - Monday, June 2, 2025**

The biennial election for the Washtenaw Intermediate School District (WISD), to elect three board members for two six-year terms and one two-year term, will be held on **June 2, 2025, at 6:00 p.m.** By law, the body electing intermediate school district board members will be composed of one representative of the board from each constituent district who shall be designated by the constituent board. The board shall **consider** the resolution at not less than one public meeting before adopting the resolution. This can be done prior to May 12, 2025. To be in compliance with the law, between **Monday, May 12, 2025, and Monday, June 2, 2025**, a local constituent Board of Education must **adopt** a resolution to select its voting representative and identify the candidates it supports.

There are two resolutions enclosed for your use – one to consider the resolution to designate the school district's election representative to be used at the first meeting and one to adopt the appointment of the representative and designating the candidates for which the representative's vote is to be initially cast to be used at the second meeting.

The members elected to the Washtenaw Intermediate School District Board of Education will begin their six-year term on July 1, 2025. Not more than two members of the Intermediate School District board shall be from the same local school district. The terms that are expiring this year are that of Diane Hockett (Ann Arbor) and Mary Jane Tramontin (Ann Arbor). A third seat with a term ending in 2027 is open due to resignation last year. It is currently occupied by Dorcas Musili (Ypsilanti). Members continuing on the Washtenaw Intermediate School District board include one member from Chelsea and one member from Lincoln. You will receive an official list of candidates that have filed with the Washtenaw County Clerk's office for the open positions, after the May 5, 2025 filling deadline.

Please remember that you, as Board Secretary, will need to remind your local board representative to come to the Board Room of WISD's Teaching and Learning Center, 1819 S. Wagner Road, Ann Arbor, MI on **Monday, June 2, 2025, at 6:00 p.m.** to physically cast his/her ballot for your district's vote in the intermediate school district biennial election.

If you have any questions, please contact my office at (734) 994-8100, ext. 1305.
