Proposal Questions

Question #1 If responding to multiple project opportunities, can we submit just one proposal/qualification response and include multiple separate fees?

Response

Yes, this is acceptable, however you must clearly state which RFPs are being submitted on within your response and a separate Fee Proposal Form associated with each project must be completely filled out for each project being proposed on. As previously noted, any cost savings, if applicable, by the bundling of multiple projects should be noted as well within the proposal.

Question #2 Is the prime consultant responsible to carry a cost estimator as a part of the project fee or will cost estimation be carried by others?

Response

Yes, the primary consultant is to carry the cost estimator and provide the cost estimate based upon the proposed design scope of work for each project/RFP.

Question #3 How many square feet is the Staples High School?

Response

Staples High School is 461,382 SF

Question #4 In addition to the provided Mechanical Schedule, have additional design/as-built documents been found that can be provided? Such as mechanical equipment and/or piping plans of the entire school?

Westport Public Schools – Staples HS – Replacement of Existing HW Pumps, Water Balancing & Replacement of Control Valves 25-011-RFP-Addendum No. 3

Response

Yes, some drawings are available at the Facilities Department Office, located at 1 Canal Street, that can be reviewed in person. Please coordinate a time with Ted Hunyadi to review any available documents.

Question #5

Are there any electronic/CAD files available of the school footprint (architectural) or any Mechanical/Electrical drawings as well?

Response

Yes, some documents are available in CAD format for some of the schools. Review of the extent and format for the available documents is to be coordinated with the Facilities Department.

Question #6

Have any documented renovations or modifications been made since the 2003 document submission?

Response

No.

Question #7

Please confirm proposal shall not require fees for Construction Administration fees as part of the base fees. Per the walk through, CA fees would be provided once a project schedule is approved and included in the construction fees during the estimation phase. CA will be under a separate proposal.

Response

Correct, CA fees will be provided under a separate proposal.

Question #8

Has there been any facility needs assessments performed? Please provide any available reports.

Response

Refer to the condensed report by Antinozzi Associates (2019) that was distributed as part of Addendum 2.

Question #9

Will Colliers or a representative of Westport be handling the issuing of the bid documents, bid advertisement and front-end documentation, contractor communications, walkthrough coordination, etc.? We would attend any bid walk throughs, meetings and respond to any necessary bid RFIs as necessary.

Response

Yes, Colliers and the Westport district will be handling the bid documentation once this project is issued for contractor pricing. As noted on the Bid Request Form, you are to provide pricing for attending the bid walk through, meetings, and responding to bid RFIs as necessary.

Question #10

Please confirm that on Proposal due date of April 21, 2025 that only "physical" sealed proposals with flash drives delivered will be accepted. Or

Westport Public Schools – Staples HS – Replacement of Existing HW Pumps, Water Balancing & Replacement of Control Valves 25-011-RFP-Addendum No. 3

can the proposals be issued electronically via email in lieu of a physical submission.

Response

Sealed proposals are to be delivered to the location noted on the RFP, inclusive of a physical copy and a flash drive. An electronic copy can also be emailed, if desired, however that would be supplemental to the format requested within the RFP.
