## GROUP SWIM LESSONS

*Please read descriptions. Program has been updated and improved, so levels may have changed.*

### Aqua tot I, II

Parent must accompany child in the water. Infants must wear swim diaper. This class is designed for child and parent to be comfortable in the water together and introduce water safety for child and parent. This class is not a "learn to swim" but rather a "learn to be comfortable" in bodies of water.

**Aqua tots I** (6 months – 2 ½ years)

**Aqua tots II** (2 ½ – 4 years)

### Pre-beginners

In this class they will explore the water and learn basic skills with an instructor, including blowing bubbles, assisted floating, arm movements for the front crawl and back crawl.

### Level I

Building on the pre-beginner skills, these students should be able to put their face in the water, blow bubbles and be starting to work on swimming without assistance.

### Level II

### Level III

### Level IV

Builds on level 3 skills. These swimmers should be able to swim 25 yards on the front with their face in the water and 25 yards on their back. Be able to do a kneeling dive, tread water for 30 seconds, and understand the arm movements for butterfly.
