Sue Brown - reviewed some health training. Suggested doing a school health index - This will show how we are doing and where we need improvement. This could be done by the next meeting. Waiting for changes from the state to address our program. Wanting AIM for Success for 5th graders.

Cassie Street - discussed drug intervention. Talked about Red Ribbon Week and what the campuses received. All the campuses utilized the Vape videos. Everything was offered virtually to all students. Counselors had Youtube playlists to choose from.

Deb Harner - a lot of this area is at a standstill due to waiting on state discussions.

No Health Fair this year due to COVID. We had a group last year working on school safety for SB11. We are also looking at bringing the health program back to the high school.

Eve asked if anyone had any more topics to discuss or new business?

Adjourned by Eve Spearman @ 6:24.
