3.a. Presentation: WIN Middle

Minutes

Mr. Valentin presented "WIN (What I Need) Middle", overviewing the Middle School's intervention/enrichment program for all students which will begin in the 2024-2025 school year.

Research for this program began in Winter of 2024. The model was based on the IXL program for intervention and a desire to develop a program which would work for each student in the Middle School. The presentation overviewed how data was researched and subsequently proposed. The team worked to arrange the daily schedule to accommodate WIN, how it fit within the cycle days utilizing a 35 minute period at the end of the day. The team communicated the flexibility of the program to make sure that every student could be successful. Students will be assessed every 2 cycles to make sure learning is optimized. The concept was then presented to teachers to develop lesson plans and enrichment opportunities. The teachers are very excited about the program!

Parents will be notified at the start of school by letter, newsletters and district communication.

A question-and-answer time was extended to the council, and questions were addressed by Mr. Valentin and Dr. Pedersen.
