

Board Policy IFBC: Media Programs

Status: ADOPTED

Original Adopted Date: 12/12/2022 | Last Reviewed Date:

The school library media programs of Henry County Schools support all areas of instruction, with the purpose of providing media resources, related equipment, facilities, and services for students and school staff. Each media center shall contain a variety of quality print and electronic resources needed to support curriculum and instruction and challenge students at their readiness levels to encourage the growth of intellectual freedom and become lifelong learners.

Each school shall provide a library media center staffed by personnel in accordance with Georgia State Board of Education Rule Number 160-5-1-22 (CGB). The facility, staff, and resources shall be flexibly scheduled and accessible to both student and staff throughout each instructional day. The superintendent or designee shall appoint a district media contact person to serve as a liaison with the Georgia Department of Education, the local library system, and community agencies.
