Transactions

A transaction will be processed when the student's food service account balance falls below? A transaction will process through the payer's account (customer) once per student per day if a payment was made the previous day after 700 pm CT, auto-replenish will not execute a transaction multiple students are linked to the same customer account and the food service balance falls below the respective thresholds, auto-replenish will process the payments in a single transaction. If two or more customers are linked to a single students food service account and both have auto-replenish enabled for that student, both customers will be charged for auto-replenish on that student's food service account. based on the customers' respective thresholds.

Failed Transactions

If an auto-replenish transaction fails to process, the account is disabled for future transactions. The customer is notified of the failed transaction by email and informed that the account settings must be updated. The email will include a link to the **RevTrah®** Web Store account with instructions on updating the payment method. The payment method must be updated before re-establishing auto-replenish.

A new window will pop up. Slide the ENABLED button to the left to disable auto-replenish.

This will only turn off auto-replenish for the individual student you have selected.
