

The CCHS Advisory Council was formed during the 2022-23 school year. It is comprised of leaders in the local school community, who bring together their wisdom, experience, and passion to support local school leadership. This volunteer group assists the CCHS administration with the identification, planning, and execution of site-specific, short, and long-term goals in a number of key areas aligned with the school's strategic plan.

The current board was appointed by Mr. Telford, with approval from the CSO, after careful review of a number of nominated candidates.
