4. Approval of March 2025 Agenda

Approved

5. Updates

A. ORC 3313.474 988 requirements for students grades 9-12

Recent updates in Ohio Revised Code will require 988 information be shared with students in grades 9-12 on electronic portals, school planners, and student IDs.

B. OSU Coach Beyond moving towards train the trainer for sustainability

With the current level of interest in the program and desire to sustain and expand the program, a train-the-trainer model is being considered for the program moving forward.

C. ONE Community overview and feedback from feedback workshop session

Attendees to the recent feedback session offered positive feedback related to current student support and asked for more building level parent programming.

D. Initial JED meeting held for district onboarding

Members of DLT and the Student Well-Being Department met with JED to understand the JED DMHI program, timeline, goals, and outcomes.

E. CARF Accreditation

As part of the OMHAS accreditation, the district is required to gain national accreditation. Rather than obtaining CARF accreditation the district is obtaining COA accreditation.

6. Committee Membership Suggestions and Timeline

Members are asked to bring suggestions of 4 or 5 stakeholders and/or specific people for the May meeting.

7. Review of Updated Committee Goals and Recommendations

Discussion of possible additions to the current goals, no goals were added at this time.

8. Possip Presentation & Discussion

A recent "bonus" question was presented on the March Possip survey to district parents. The question asked parents if they (parents) were aware of the student support resources available to them? District data showed that more than half of district parents knew of building resource options available as related to social emotional support for students.

9. Adjournment

Next meeting is April 16, 2025
