- **Maintenance and Facility Updates**
  - EMS Annex Building roofing project has been completed
  - Wright Brothers is still working on the design plan of the EMS HVAC system
  - Triennial School Safety Assessments
    - District schools have been completing the assessment, and the State Board of Education security team has been conducting site visits at each of our schools and providing valuable feedback regarding our school building safety and our procedures. Each building principal has received copies of their building assessments, and our district and building safety committees will continue to update procedures and building security needs using this assessment as a reference.
  - Spring and Summer Maintenance planning is underway
    - Large Projects being considered
      - EMS bleacher upgrade
      - Multiple building carpet removal and replacement
      - Safety fencing and sidewalks at EMS
- **Emmett School District and Payette River Technical Academy Service Agreement**
  - Emmett School District continues to meet with PRTA regarding the current service agreement and billing terms, as well as future service agreement billing
    - Currently working on a non-compete addendum for the PRTA Charter that provides stability in courses for both PRTA and EHS.
