a)

b)

Media center maximum use of space:

- a) Design elements that work as structural and student use areas as benches or steps with storage and walls with seating niches
- b) Stackable and convertible furniture pieces to help accommodate for more activities and easy to maintain by staff and children as ottomans/stackable pillow cushions, stackable lighter chairs that are easily put away when not in use

a)

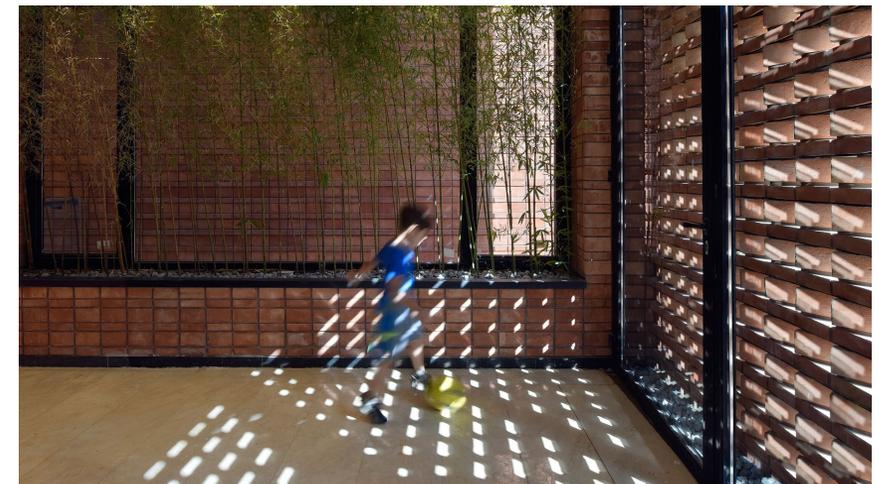

c)

b)

d)

Media center spills out into semi-covered outdoor recreational area. We would like to propose following design elements that will stay as permanent and interchangeable pieces:

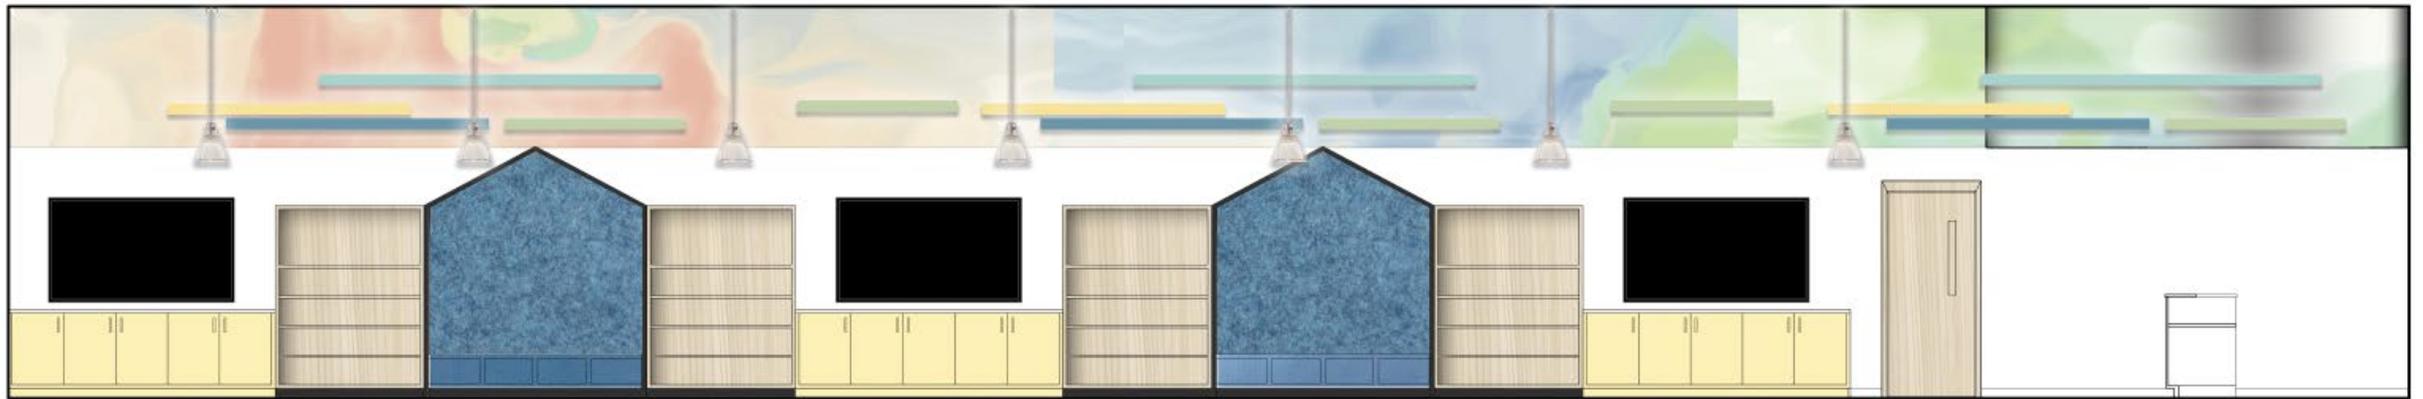

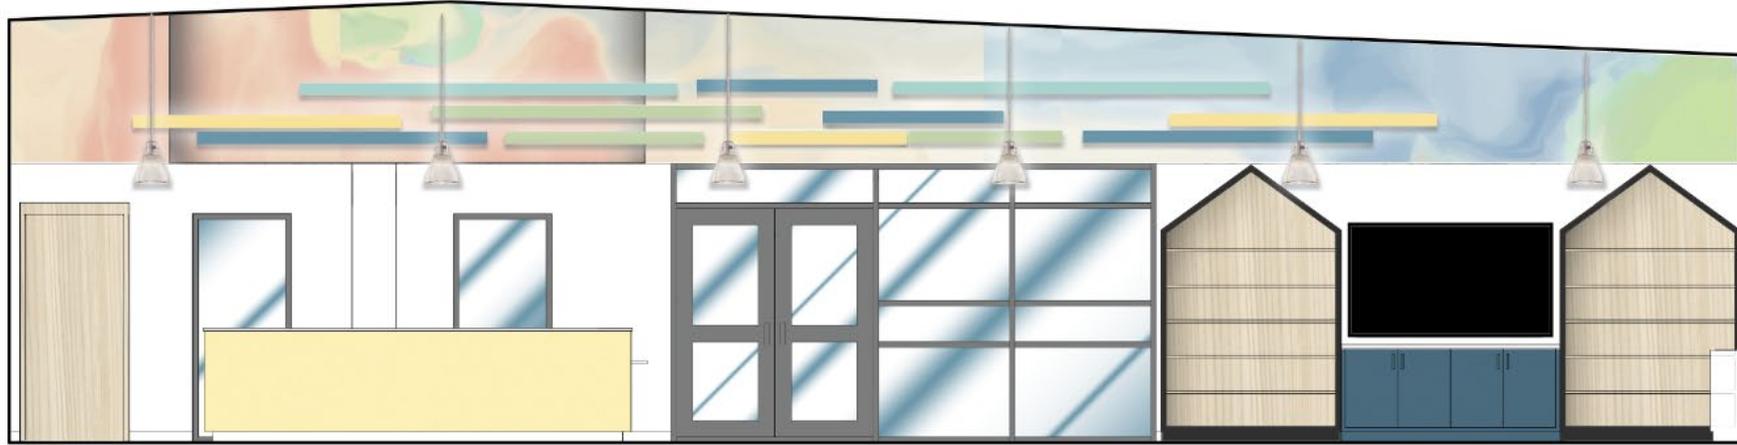

- a) Commercial Shade Structure (element attached to a building or attached to poles)
- b) Or a canopy attached permanently to a building structure
- c) Low raised beds for potting and greenery with trellis attached that may become interchangeable over time
- d) Or a semi-open wall structure to block noise and view
